# College Catalog 2011-2012

WAUBONSEE COMMUNITY COLLEGE

is a two-year public community college providing  
education and training services for individuals in District 516.

*This catalog is in effect for the academic year 2011-2012.*

### VISION

Waubonsee Community College opens the door of knowledge, sparks imaginations, and enlightens lives through learning. We welcome the diverse abilities, goals, and experiences of individuals standing on the threshold of discovery. Our success is defined by the dreams we help shape, the opportunities we help design, and the futures we help create.

### MISSION STATEMENT

Waubonsee Community College is a public, comprehensive community college which was organized in 1966, as mandated by the Illinois Community College Act, to provide education and training services for individuals in portions of Kane, Kendall, DeKalb, LaSalle and Will counties of District 516. The philosophy of Waubonsee Community College is based on the premise that education is the cornerstone of a literate, democratic society; that learning is a lifelong process; and that the pursuit of knowledge must be supported by institutional policies that demonstrate the values of accessibility, service, value, quality and innovation.

### Commitments

- Provide quality educational programs and services which are academically, geographically, financially, technologically and physically accessible to meet the educational and training needs of a diverse, multicultural population and the organizations within our community.
- Maintain institutional policies, programs, practices and efforts which provide an emphasis on a learning-centered college for students and the community.
- Develop the intellectual, physical, social, cultural and career potential of the individual.
- Promote diversity in faculty, staff and student recruitment; staff development; and cultural enrichment activities.
- Contribute to the economic, workforce, social, recreational and cultural quality of life of the community.
- Cooperate with other local, state and national organizations and provide leadership that will enhance educational services and avoid duplication of services.

### Programs and Services

**Transfer Programs:** Associate degree education consisting of communications, social and behavioral sciences, physical and life sciences, mathematics, humanities and fine arts, education, engineering, and other pre-professional fields designed to prepare students for transfer to baccalaureate degree granting institutions.

**Occupational Programs:** Business, health care, technical and professional education consisting of associate degrees, certificates, courses, workshops and seminars designed for career, entry-level employment, transitioning, retraining and/or upgrading of skills to meet current and emerging employment needs and trends.

**Developmental Education:** Courses, programs, and services designed to assist academically under prepared students to be successful in the next level of education, including: reading, mathematics, writing, personal development, literacy, high school equivalency exam preparation (GED), Adult Basic Education (ABE) and English as a Second Language (ESL).

**Workforce Development:** Courses, programs, and services designed to meet the workplace training needs of both individuals and organizations with an emphasis on skill building and improved productivity.

**Community Education:** Courses, trips, tours, special events, and experiences designed for the personal enrichment of the lives of learners of all ages and to promote lifelong learning.

**Student Services:** Services designed to meet the needs of a diverse student population which include: counseling and advising, recruitment and retention, admissions, registration, assessment, financial aid, career services, co-curricular activities, intercollegiate athletics, and assistance for those students with physical and learning disabilities.

### Program Support

**Instructional Support:** Services designed to facilitate and provide support to the instructional process, including alternative delivery systems (such as telecourses, online courses, two-way interactive telecommunications, cable television, wireless communications); the use of computer technology; the library; the Center for Teaching, Learning and Technology; media and learning laboratories.

**Administrative Support:** Organizational support that provides services for staff selection and development, financial services, facilities, operational management, technology advancements and training, research, planning, marketing and communications.

**Community Support:** Service to communities, organizations, and businesses may be provided by the college to meet local needs. These combined efforts may include programming in the community, workforce development, and partnership activities which will improve the quality of life.

### VALUES

**Accessibility** — We remove barriers to learning formed by time, geography, education, culture, experience or beliefs to provide a full range of quality educational opportunities for all who can benefit.

**Service** — We view the world from the perspective of those we serve — anticipating needs and striving to exceed expectations while demonstrating a caring, knowledgeable, consistent connection with each individual every time they meet us.

**Value** — We focus every resource directly on the search for learning, creating tangible benefits in everything we do.

**Quality** — We constantly redefine what it means to be “the best,” seeking to improve in every area and exceed the expectations of those we serve.

**Innovation** — We are actively engaged on the frontiers of education, continuously improving the learning environment for our students and communities.

### Campus Safety

Waubonsee Community College is committed to providing a safe and secure campus environment for all students, faculty, staff and community members. ***Emergency Preparedness and Safety: A Guide for Students and Community Members*** provides basic information on what to do in a variety of possible emergency situations on campus. This guide is available for download at [www.waubonsee.edu/safety](http://www.waubonsee.edu/safety). Printed copies of the guide are also available from the Counseling, Admissions, and Registration and Records departments.

In case of emergency, please call 911. For non-emergency situations, Waubonsee Campus Police may be reached by calling (630) 466-2552 at the Sugar Grove Campus and (630) 906-4142 at the Aurora Campus. The Waubonsee Campus Police Office is located in Dickson Center on the Sugar Grove Campus and at the front desk at the Aurora Campus.

### ACCREDITATION:

*Waubonsee Community College is accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools (NCA), 30 North LaSalle Street, Suite 2400, Chicago, IL 60602, (800) 621-7440 and is recognized by federal and state agencies administering financial aid.*

### APPROVAL:

*Waubonsee Community College is approved by the Illinois Community College Board, Illinois Board of Higher Education, and the U.S. Department of Education.*

2010-2011

**W**elcome to Waubonsee Community College. We are delighted you are a part of our vibrant learning community. Whether you are a new student joining us for your first semester of college or a returning student with previous college experience, Waubonsee's faculty and staff are ready to assist you in making this year a success.

While each academic year marks an exciting new beginning, 2011-2012 takes on special significance as we celebrate the first full year of operations for Waubonsee's recently expanded network of four campuses. This network brings dynamic educational opportunities and degree programs to every corner of our district.

With a warm welcome from the surrounding community, Waubonsee held classes in our new Plano Campus for the first time in January 2011. Conveniently located just off of Route 34, this 33,000-square-foot campus features 15 classrooms, including two science labs (biology and earth science), two computer labs, an Interactive Television Classroom and a Certified Nurse Assistant (CNA) lab. The Plano Campus offerings are already proving very popular with area residents, and I encourage you to consider taking a course there, or simply stop by for a quick tour and a lovely view of Lake Plano.

After serving Aurora residents from a location at Galena Boulevard and Stolp Avenue for almost 25 years, we have moved our operations and expanded your educational opportunities with a 133,000-square-foot new Aurora Campus at 18 S. River Street in downtown Aurora. This fabulous new facility will allow students to access a full range of programs and services – all in Aurora. Visit [www.waubonsee.edu/aurora](http://www.waubonsee.edu/aurora) for more information.

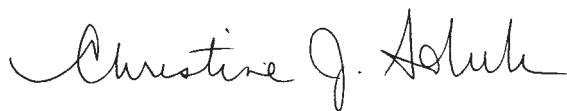

Both the Plano and Aurora Campuses are comprehensive, meaning that students can earn an entire associate degree by taking classes at just that one facility. Each new campus also features a full complement of student services, including admissions, assessment, counseling, financial aid and registration.

These student services are just a sampling of the resources Waubonsee has in place to help you achieve academic success. You can discover more details in this college catalog or through our recently redesigned website at [www.waubonsee.edu](http://www.waubonsee.edu). Enrolled students can access all their important Waubonsee information by logging into the mywcc Web portal at [mywcc.waubonsee.edu](http://mywcc.waubonsee.edu). This portal allows you to view e-mail, register for courses, check account/financial aid information, and receive final course grades. The portal also gives you an opportunity to connect with classmates and instructors, as well as learn the latest Waubonsee news.

Waubonsee Community College is committed to student success and to helping our students complete their academic goals. We will be offering several new programs during the 2011-2012 year to engage all of our students, faculty and staff around the theme of college completion. In our ever-changing world, a college credential is more critical than ever.

Thank you for allowing Waubonsee Community College to be a part of your bright future. I look forward to meeting you at a college event or activity this year and wish you all the best for a successful academic year.

Sincerely,

Christine J. Sobek, Ed.D., President

Christine J. Sobek, Ed.D.  
President

Waubonsee Community College offers students the opportunity to take classes in a wide variety of areas. Course work in credit classes can be designed for very general or very specific educational goals. Requirements and suggested course work for each degree are explained in the appropriate catalog section. Degrees and certificates offered include:

## TRANSFER EDUCATION

Associate in Arts Degree (AA)  
 Associate in Science Degree (AS)  
 Associate in Engineering Science Degree (AES)  
 Associate in Fine Arts Degree (AFA)  
 Associate of Arts in Teaching Degree (AAT)  
*See degree requirements page 21.*  
*See the list of example areas of concentration page 34.*

## CAREER EDUCATION

Associate in Applied Science Degree (AAS)  
 Certificate of Achievement  
*See degrees and certificates listed page 76.*

## GENERAL EDUCATION

Associate in General Studies Degree (AGS)  
 General Studies Certificate  
*See degree requirements page 67.*

The **Disciplines** listed below indicate the varied areas of study offered at Waubonsee, although students are not limited to these options. Refer to each listing of degrees, certificates and areas of concentration later in this catalog.

## DISCIPLINES

*Course descriptions begin on page 175.*

Late registration begins .....	January 9
<i>(Last day to enroll in a course is prior to the first class meeting)</i>	
Orientation week for faculty and staff.....	January 11-13
<b>First day of classes – Tuesday .....</b>	<b>January 17</b>
Students withdrawn for nonpayment after this date	
must petition to re-enroll .....	January 17
Weekend classes begin – Friday, 5 p.m. through Sunday .....	Jan. 20-22
End of ALL refunds for 16-week courses .....	January 27
Withdrawals after this date from 16-week courses will appear on	
student transcripts.....	January 27
Last day to claim honor student status designation in a 16-week course .....	February 13
Summer semester registration begins at 8 a.m. ....	March 5
Mid-semester – last day to change audit enrollment status .....	March 7
Last day to enroll in a spring semester telecourse .....	March 7
<i>(Summer telecourse registration begins March 5)</i>	
Spring break - Monday through Saturday.....	March 12-17
<i>(Classes will not meet)</i>	
Last day to enroll in a spring semester independent study or internship .....	April 2
Easter Sunday .....	April 8
<i>(Classes will not meet)</i>	
Last day to withdraw from spring semester courses .....	April 23
Fall semester registration begins at 8 a.m. ....	May 7
Semester ends .....	May 11
Grades due - noon, Monday .....	May 14
Graduation .....	May 17
<i>The above dates apply, in general, to traditional 16-week credit courses. Contact Registration and Records for details concerning weekend courses, TBA courses or courses shorter than 14 weeks in duration.</i>	

**SUMMER SEMESTER 2012**

<b>First day of classes – Monday (check individual course) .....</b>	<b>May 14</b>
<i>(Last day to enroll in a course is prior to the first class meeting)</i>	
Weekend classes begin – Friday, 5 p.m. through Sunday .....	May 18-20
Memorial Day break - Saturday through Monday .....	May 26-28
<i>(Classes will not meet; also, Weekend classes, 5 p.m. and later, will not meet Friday, May 25)</i>	
First day of regular summer session .....	June 4
First day of summer high school program – Tuesday .....	June 19
Last day to enroll in a summer semester telecourse.....	June 20
<i>(Fall telecourse registration begins May 7)</i>	
Last day to enroll in a summer independent study or internship .....	July 2
Independence Day – Wednesday .....	July 4
<i>(Classes will not meet)</i>	
Last day to withdraw from summer semester courses.....	July 16
Semester ends .....	July 29
Grades due - noon, Monday .....	July 30
Midterm .....	determined by length (weeks) of course
Refunds .....	determined by course beginning date and duration
<i>(See the Bursar Office for details.)</i>	
Grades due .....	immediately upon completion of each course
<i>The above dates apply, in general, to traditional credit courses. Summer courses are offered with a variety of beginning and ending dates. Please refer to each individual course within the schedule for the correct beginning and ending dates. Contact Registration and Records for details.</i>	

New students who have never attended Waubonsee before are required to complete the New Student Information Form found at the back of this catalog.

Please refer to the following steps to complete enrollment.

### New Noncredit Students

Students interested in Community Education or Workforce Development courses should complete the Noncredit Registration Form, which can be found in each semester’s noncredit schedule and online at [www.waubonsee.edu/register](http://www.waubonsee.edu/register).

### New Credit Students *(full-time and/or degree-seeking)*

Complete these steps if you want to do any of the following:

Enroll as a full-time student (12 credit hours or more)

Earn a degree or certificate

Receive financial aid

Transfer credit earned at another college to WCC\*

STEP 1 Complete and submit the New Student Information Form, which can be found at the end of this catalog or online at [www.waubonsee.edu](http://www.waubonsee.edu). Once this form is processed by Admissions, you will be issued a student ID/X-Number that you will use throughout your Waubonsee career.

STEP 2 If you are interested, apply for financial aid. Visit [www.waubonsee.edu/financialaid](http://www.waubonsee.edu/financialaid) for step-by-step instructions.

STEP 3 Obtain proper course placement in English and math based on your ACT scores, placement testing results or previous coursework\*. For details and test preparation tools, visit [www.waubonsee.edu/placement](http://www.waubonsee.edu/placement) or contact Assessment. **You must have an X-Number to take Waubonsee’s placement tests.**

STEP 4 Complete your Electronic Registration and Planning (E-RAP) tutorial online, where you’ll learn how to use the college catalog, credit schedule and your test scores to select courses. You’ll then register and pay for your first semester of courses online. Access E-RAP through the mywcc portal at [mywcc.waubonsee.edu](http://mywcc.waubonsee.edu).

STEP 5 If entering in the fall or spring, register for a free New Student Orientation session as you would for any other class.

### New Credit Students *(part-time and not seeking a degree)*

Complete these steps if you want to do any of the following:

Enroll as a part-time student (less than 12 semester hours)

Don’t meet any criteria for “new full-time and/or degree-seeking” category

STEP 1 Complete and submit the New Student Information Form, which can be found at the end of this catalog, or online at [www.waubonsee.edu](http://www.waubonsee.edu). Once this form is processed by Admissions, you will be issued a student ID/X-Number that you will use throughout your Waubonsee career.

STEP 2 If you plan to enroll in an English or math course, obtain appropriate placement based on your ACT scores, placement testing results or previous coursework\*. For details and test preparation tools, visit [www.waubonsee.edu/placement](http://www.waubonsee.edu/placement) or contact Assessment. **You must have an X-Number to take Waubonsee’s placement tests.**

STEP 3 Meet with an admissions representative prior to registering (*highly recommended*).

STEP 4 Register for classes in person, by mail or fax. You can register at the same time you submit the New Student Information Form.

STEP 5 Pay for your classes at the time of registration (*full or partial payment*).

### Returning/Continuing Students

Complete the following steps if you have been enrolled at Waubonsee during a previous semester.

STEP 1 Meet with a counselor prior to registering (*highly recommended*).

STEP 2 Register for courses in person, by mail, by fax, or online at [mywcc.waubonsee.edu](http://mywcc.waubonsee.edu). Full or partial payment is due at the time of registration.

#### Questions? Call (630) 466-7900.

- Admissions..... ext. 5756
- Assessment..... ext. 5700
- Counseling ..... ext. 2361
- Financial Aid ..... ext. 5774

\*Students wishing to transfer credits to Waubonsee need to submit official transcripts and fill out a Transcript Evaluation Request Form at the Counseling Center before receiving course placement or completing Electronic Registration and Planning (E-RAP). The Transcript Evaluation Request Form can be found online.

WAUBONSEE

*what you can learn*

# Educational Options

## Educational Options

Waubonsee Community College offers its students a variety of educational programs and services. Many students come to Waubonsee looking for education leading to a satisfying career. Others come for college credit they can transfer to a four-year college or university. Still others come to develop a specific job skill, to improve their ability to speak and write the English language, to continue the process of lifelong learning, or to obtain help in deciding their future.

This section summarizes the many opportunities available to the Waubonsee community, as well as the college's programs and services offered in accordance with its mission.

## Transfer Education

Students can come to Waubonsee Community College to earn credits that transfer to a four-year college or university. Many different programs are available to prepare them for work at the junior level after they transfer. Individually tailored programs lead to the Associate in Arts degree (AA), the Associate in Science degree (AS), the Associate in Engineering Science degree (AES), the Associate in Fine Arts degree (AFA) or the Associate of Arts in Teaching (AAT) degree at Waubonsee.

The courses taken at Waubonsee Community College are those normally taken during the first two years of the baccalaureate degree. Since requirements can vary from one university to another, each program must be planned with a counselor or advisor. Students can complete Waubonsee's degree requirements and be in a favorable position to transfer to the senior college or university of their choice. Most universities and senior colleges award junior standing to students who have earned a transfer degree. For specific degree and program information, see the "Transfer Degrees Program" section in this catalog.

## Career Education

Many students at Waubonsee are working to gain the necessary skills and knowledge to prepare for a job in a career area. Some students take only a few career courses to reinforce and improve skills they already possess. Others enroll in a two-year program leading to an Associate in Applied Science degree (AAS) or enter a shorter sequence leading to a Certificate of Achievement.

Many career students at Waubonsee are high school graduates. Some have recently completed a high school equivalency program (GED). Others are re-educating themselves to keep up with changes in the workplace. Trained and skilled individuals are needed to meet increasingly exacting job qualifications. Career education programs prepare students to step directly into this fast-moving age of technological change. For specific degree, program and certificate information, see the "Career Education Program" section in this catalog.

## Basic Skills Education

### *Adult Basic Education*

Adult Basic Education (ABE) gives adults who did not graduate from high school an opportunity to enhance their basic skills in the areas of vocabulary, reading, writing and mathematics. An individualized, self-paced format is used in this free program. Morning and evening classes are offered at all four Waubonsee campuses and other locations throughout the district. An assessment to determine skill levels is required before class placement. This course may eventually lead to enrollment in General Educational Development (GED) preparation. Call the Adult Education office for information (see directory).

### *Adult Education Computer Center (AECC)*

The AECC offers adult education students an opportunity to enhance their studies using computer-aided instruction in the areas of basic academic skills, GED preparation, workforce preparation, English as a Second Language and literacy. The center is located at the Aurora Campus. Adult Education instructors are available in the center during all open hours to assist students with an individual plan of instruction. The AECC allows students to start anytime during the semester, with registration after their first visit. Family Tech, a special family literacy program for students and their families, is held one Saturday per month. There is no charge for this program. Call the Adult Education office for more information (see directory).

### *Adult Education Special Programs*

This comprehensive program offers opportunities for low-income adult education students to obtain self-sufficiency through education and training. These programs are designed to offer personalized assistance to the potential college student who plans to pursue a certificate or associate degree in a vocational area. Among the Special Programs are the Youth Services Program and the Vocational Skills Program.

The **Youth Services Program** offers career exploration and job search/placement in the areas of health care, electrical maintenance and more to students between the ages of 16 and 21. Among the many benefits available to eligible students are free tuition and fees, books, limited assistance with child care payments and transportation, individual case management, and other support services. Students lacking a high school diploma are strongly encouraged to attend GED classes to work toward GED attainment prior to enrolling in a career certificate program. One year follow-up is given to students once they've completed their course of study and obtained employment.

GED and ESL students are offered free noncredit computer and career exploration classes through the **Vocational Skills Program**. GED students must have at least a fifth grade reading level, and ESL students must be enrolled in ESL 007 or higher. There is no tuition charge for these classes, but students are required to purchase their textbook. Public Aid recipients have the option of using the book loan program instead of purchasing the book. Classes include Basic Computer Literacy, Introduction to the Internet, Word Processing, Keyboarding, Excel and Job Search Skills.

### ***Adult Literacy Project***

The Adult Literacy Project trains and places volunteers to provide English language tutoring to adults who want to improve their reading and writing skills or learn English. Volunteer tutors instruct on an individual basis or assist classroom instructors in adult basic education (ABE), General Educational Development (GED), and English as a Second Language (ESL) classes.

Training sessions are scheduled throughout the year to teach new volunteers the necessary skills to facilitate positive learning experiences. The mission of the Adult Literacy Project is to empower adults to be responsible citizens and parents through the process of improved literacy skills. Family literacy, conversation groups and writing groups are offered. The program is an accredited ProLiteracy WorldWide affiliate. For more information, call Adult Literacy (see directory).

### ***English as a Second Language***

The English as a Second Language (ESL) program offers non-native adults, 16 years of age and older, the opportunity to learn the English language while also learning about American culture. Students develop reading, writing, listening and speaking skills necessary for success in the workplace, community and further course work. Grammar, writing and conversation classes are also available throughout the year. Morning and evening classes are offered at the Aurora Campus and other selected sites in the community. There is no charge for this program. For more information about testing and placement into classes, call the ESL office (see directory).

### ***General Educational Development***

The General Educational Development (GED) course, offered in both English and Spanish, prepares adults who do not have a high school diploma for the GED exam in the areas of writing skills, social studies, science, reading, mathematics, and the U.S. and state constitutions. An individualized, self-paced format is used in this free program. An assessment determining appropriate content areas of study precedes class placement. Morning and evening classes are offered at all four Waubonsee campuses and other locations throughout the district. GED instruction is also offered online and through Waubonsee's cable television channel.

The GED Testing Program at Waubonsee offers both English and Spanish exams monthly. Registration for this testing is at the Regional Office of Education, and a \$50 registration fee is required prior to testing. Testing appointments are made at the Regional Office of Education (ROE). Current testing dates and registration procedures can be found on the ROE website at [www.kane.k12.il.us/GED.asp](http://www.kane.k12.il.us/GED.asp). Waubonsee's Center for Learning Assessment (see directory) also administers the constitution test, one of the required parts of the GED test.

### ***Intensive English Institute***

The Intensive English Institute offers concentrated language instruction to non-native adults. Basic, beginning, intermediate and advanced levels in reading/vocabulary, writing/grammar, listening/speaking and pronunciation develop communication skills and cultural knowledge needed for academic and professional purposes. IEI classes meet 16 or 18 hours a week, Monday through Thursday, at the Aurora Campus. Assessment, placement and registration services are provided by appointment, and general college tuition rates apply. Call the ESL office (see directory).

### ***Outreach and Retention***

Free outreach and retention services are offered to help GED and ESL graduates transition into college-level courses in pursuit of a degree or certificate. Assistance includes referrals to appropriate services (i.e. academic counseling and financial aid), coordination of appointments with different departments and assistance in exploring specific vocational careers. For more information or to register, contact Adult Education (see directory).

## **Community Education**

Community Education presents a wide variety of programs designed to enrich the lives of all members of the Waubonsee Community College district – young and old alike.

### ***Personal Enrichment Courses***

Community Education offers noncredit courses in astronomy, art, cooking, languages, music, writing, gardening, personal finance, fitness and more. Many enrichment courses are also available online through ed2go at [www.ed2go.com/waubonsee](http://www.ed2go.com/waubonsee).

### ***Special Events***

Each year, Community Education presents a diverse season of lectures, events and family programs. Many events – often featuring local experts – are offered free of charge. Past speakers have included Clay Jenkinson, Reed Timmer, Ryan Buell and the Hillstrand Brothers. More information on special events can be found at [www.waubonseetickets.com](http://www.waubonseetickets.com) or by calling Community Education.

### ***Xcelerate***

Xcelerate is a science and technology enrichment camp for elementary and middle school students offered by Community Education each summer. Special youth programs and classes on a variety of topics, such as creating digital comic books and ceramics, are also offered throughout the year.

### ***Program for High School Students***

Community Education offers high school students a variety of learning opportunities, including ACT test preparation, summer high school and dual credit classes. More information on options for high school students can be found on page 15.

### ***Trips and Tours***

Trips and tours are offered to a variety of local and regional destinations including museums, theatres, city sites and more. Each trip is designed to be both fun and educational. Extended tours are also offered to a variety of destinations around the world.

### ***Lifelong Learning Institute***

Community Education advises and hosts the Lifelong Learning Institute (LLI) – an independent organization devoted to learning for persons age 50+. Members of the LLI share their cumulative life experiences in an informal classroom setting while expanding their knowledge of a variety of topics. Each course is designed for maximum participation under the leadership of a member who acts as a facilitator. For more information call the Lifelong Learning Institute at (630) 466-2593.

### ***Total Fitness Center***

Membership in the Total Fitness Center in Erickson Hall is offered to both students and members of the community. Members have access to the latest cardio equipment, free weights and Cybex strength training systems. Knowledgeable staff are always available to help members achieve their fitness goals, as well as advise on health and exercise related matters.

The Total Fitness Center also offers a variety of group exercise classes and programs including Winning by Losing, Group Fitness, Golf Conditioning, and Zumba. Call the Total Fitness Center (see directory) for more information on membership and programs.

## **Developmental Education**

### ***Learning Enhancement***

Learning Enhancement offers assistance with college studies. Through small group tutoring, workshops or credit courses, assistance is provided in study skills, reading, writing, mathematics and personal development. Improving skills in these areas can contribute to a successful, less stressful college career. Instruction is tailored to the individual so that the student can feel comfortable, yet challenged. Learning Enhancement services are available at the Aurora, Plano and Sugar Grove Campuses.

Personalized writing assistance is available to any Waubonsee student working on a writing project. Professional staff is available on a walk-in basis to assist in the writing of essays, research papers, reports, résumés, and personal and business letters. Other academic assistance is also available. Contact Tutoring for schedules (see directory).

## **Distance Learning**

Distance Learning at Waubonsee Community College provides a variety of courses to students seeking a degree, workers in the business place and community members with special interests. Waubonsee offers students four learning formats that save them travel time and allow for flexible scheduling. Students can take online courses, classes taught via two-way interactive television, telecourses and cable to the home classes.

### ***Distance Learning Degrees and Certificates***

By combining online courses and telecourses, students can pursue an Associate in Arts, an Associate in Science or an Associate in General Studies. Areas of concentration include business, computer science, criminal justice, economics, English, liberal arts, philosophy, psychology and sociology. Several Certificates of Achievement are also offered. For more information about distance learning degrees and certificates, call Counseling (see directory).

Waubonsee also has an agreement with several colleges and universities that allows students to combine classes taken at Waubonsee campuses, at other sites close to home or even online to complete a bachelor's degree. For more information, see [waubonsee.edu/transferring](http://waubonsee.edu/transferring).

### ***Online Courses***

Currently, Waubonsee offers more than 180 online courses. New courses are added each semester. Off-campus learners can access their online courses anywhere they have Internet access. On-campus learners can access their online courses in one of Waubonsee's computer labs. Online courses require students to follow a calendar of activities. Each course has a start date and an end date. Online courses are interactive. Students can e-mail their teachers and fellow students, access a discussion board for class information and enter into a chat room for real-time discussion. Streaming video and DVDs are also used in selected classes. Testing in online courses may require coming to an assessment center at Waubonsee or a nearby community college. Online courses are available in 16-week, 12-week and 8-week formats. They are listed in the semester credit course schedule, which is available in print and online.

Waubonsee is a founding member of the Illinois Virtual Campus. The Illinois Virtual Campus was founded in 1998 to provide Illinois citizens with access to diverse higher education resources for associate degree programs, baccalaureate programs, graduate study and professional development. The IVC is a clearinghouse of distance education courses offered by 72 colleges and universities in Illinois. For more information about the Illinois Virtual Campus, visit [www.ivc.illinois.edu](http://www.ivc.illinois.edu). Students taking courses listed with the Illinois Virtual Campus can receive transfer assistance from Waubonsee's Counseling Center.

Waubonsee is also a participant in Illinois Community Colleges Online (ILCCO), a consortia of Illinois community colleges sharing online courses and programs. Waubonsee is accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools (NCA) 230 North LaSalle Street, Suite 7-500, Chicago, IL 60604, (800) 621-7440, to offer distance learning degrees.

### ***Two-Way Interactive Television***

Two-way interactive television courses use microwave and telephone technology to create synchronous video conference environments. Waubonsee has eight interactive video classrooms. Students may participate at the home site where the teacher is or at any receive site that is closer to home or work. Waubonsee offers more than 40 interactive television classes each semester. Area sites include Waubonsee's Sugar Grove, Aurora, Plano and Copley Campuses.

### ***Telecourses***

Telecourses are professionally-produced classes that include videos/DVDs workbooks and textbooks. Students work independently and can finish early. An instructor is assigned to each course to guide students through the material and testing. Students take tests at Waubonsee's Center for Learning Assessment. Waubonsee offers approximately 20 telecourses each semester. Depending on the course, telecourse videos are available through online viewing or as DVDs. Students check these sets out at the Distance Learning office in Collins Hall. Telecourses are listed in each semester credit course schedule. For more information, call the Distance Learning office (see directory).

### ***Cable to the Home***

Each semester, selected two-way interactive television classes are also sent out over Comcast Cable Channel 99, which services area residents in Aurora, Batavia, Bristol, Montgomery, North Aurora, Oswego, Plano, Sandwich and Yorkville; Comcast Cable Channel 17 for residents in Geneva; and MediaCom Channel 15, which services residents in Sugar Grove, Elburn, Prestbury, Big Rock, Hinckley, Leland, Somonauk and parts of Kaneville. Students registered for these classes can watch the class at home. Interaction is achieved by phoning in and participating in a class audio conference. Students take tests at Waubonsee's Center for Learning Assessment. Homework assignments are sent by mail or e-mail. For a list of Cable to the Home classes, check each semester credit course schedule.

## **Internship Program**

An internship allows students to acquire professional experience through working at a business or organization closely related to their academic field of interest. Currently, both credit and non credit opportunities are available and ideal for career exploration. For more information, please contact the Career Services Center at [careerservices@waubonsee.edu](mailto:careerservices@waubonsee.edu) or the dean for the appropriate instructional division.

## **Programs for High School Students**

Waubonsee offers a variety of credit and noncredit courses for area high school students, as well as special programs, competitions and ACT testing services.

### ***ACT Preparation Classes and Testing***

ACT preparation classes are offered at various times of the year. Dates and locations can be obtained by searching the noncredit course schedules at [www.waubonsee.edu/schedules](http://www.waubonsee.edu/schedules). More information is available through the Community Education department (see directory). ACT testing is offered several times a year through Waubonsee's Center for Learning Assessment.

### ***Articulated Credit***

For articulated credit information, see page 174.

### ***Dual Credit***

With permission from their high school, students 16 years of age and older can enroll in a Waubonsee credit course for which they have met the prerequisites. At the discretion of the high school, students may receive both college and high school credit, known as dual credit. College credit earned may be applied toward a degree or certificate at Waubonsee or may be transferred to another college. For more information see page 174 or contact Registration and Records (see directory).

### ***High School Summer Program***

For students who need remedial high school course credits or for those who want to work ahead, the Waubonsee High School Summer Program provides quality instruction taught by area high school teachers. High school students throughout Waubonsee's district may attend classes each summer (June and July) at the Sugar Grove, Aurora, Copley and Plano Campuses. Individual high schools determine the amount of credit students receive for courses. The High School Summer Program is a great way for youth to expand their minds while learning in a community college setting. Registration begins annually in March. For more information, call Community Education (see directory).

### ***Worldwide Youth in Science and Engineering (WYSE) Competition***

Each February, area high school students compete at Waubonsee in the Worldwide Youth in Science and Engineering (WYSE) Academic Challenge Competition in biology, chemistry, computer science, engineering graphics, English, math and physics. More information is available by calling the Technology, Mathematics and Physical Sciences division (see directory).

## ROTC Transfer Option

Students who intend to transfer to a four-year school that offers a Reserve Officers' Training Corps (ROTC) program may accomplish the basic course work in their first two years at Waubonsee. The ROTC Transfer Option is described in more detail in the "Career Connections" section, and the Military Science (MSC) curriculum is detailed in the "Course Descriptions" section. For more information, contact the Dean for Social Science and Education (see directory).

## Study Abroad

Waubonsee is a member of the Illinois Consortium for International Studies and Programs (ICISP). Study abroad programs can take Waubonsee students to England, Austria, Costa Rica, Japan, Germany, Australia and more for programs offering a comprehensive mix of study and cultural/social activities. For example, students might spend a summer session in the Spanish immersion program in Costa Rica or a full fall or spring semester on campus in Canterbury, England, or Salzburg, Austria. For more information about the program requirements, contact the Dean for Counseling and Student Support (see directory). Interested students should inquire and apply early (at least six months in advance of program offerings).

## Weekend College

Weekend College offers students an opportunity to complete general education requirements and additional college requirements for the Associate in Arts (AA) and Associate in Science (AS) degrees on the weekend. For students with commitments during the week, Waubonsee schedules selected classes on Friday evening, Saturday and Sunday. Please check the semester credit course schedule for more information.

## Workforce Development

The Workforce Development department provides services and training solutions for area businesses, organizations and individuals.

### *Professional Development*

The department develops and delivers a regular schedule of courses, seminars and workshops to meet the training, certification and recertification needs of individuals in many professions. Courses are offered in a variety of areas, including computers, health care, supervisory skills, manufacturing, warehousing, safety, transportation, sustainability and new energy technologies.

Courses are focused to address specific needs, giving participants skills they can put to immediate use in the workplace. Classes are conveniently scheduled to begin throughout the year and to meet at various dates, times, and locations, and many courses are offered online.

The Workforce Development department's course offerings are published each semester in the college's noncredit schedule. Call the department to request a copy (see directory). The schedule can also be found online at [www.waubonsee.edu/schedules](http://www.waubonsee.edu/schedules).

Waubonsee's Workforce Development department is approved by the Illinois State Board of Education (ISBE) as a provider of Continuing Education Units (CEUs) and Continuing Professional Development Units (CPDUs) for teacher recertification requirements.

### *Customized Training*

Business, industry and local organizations can have customized training delivered to employees at their business or at one of our campus locations. Topics include computer skills, management/supervisory, health care, quality, technical and safety. Services include seminars, certification, consulting, and assessments.

### *Illinois Small Business Development Center*

Waubonsee Community College offers business assistance to entrepreneurs and small and minority businesses in the college district. The Illinois Small Business Development Center (SBDC) services are available at no charge to people who wish to start, develop or expand their business. SBDC staff can help clients to develop a business or marketing plan, procure financing, increase cash flow, manage growth and strengthen their business. SBDC staff also offers a variety of classes and events designed to meet the needs of current and future business owners. SBDC counseling is available in both English and Spanish by appointment.

### *Driver Safety Program*

Driver Safety offers defensive driving classroom instruction in partnership with the National Safety Council with the goal of helping participants understand the consequences of the choices they make on the road. These courses provide practical strategies for businesses and private citizens of all ages to reduce collision-related injuries, fatalities and cost. The courses address the importance of attitude in preventing accidents and reinforce the good driving skills of participants. These are the same courses approved by the Kane County 16th Judicial Circuit Court for use in their court supervision program.

**See directory inside back cover.**

*what you can learn*

# Transfer Degrees Program

## Purpose of the Transfer Degree Curriculum

The Associate in Arts (AA), Associate in Science (AS), Associate in Engineering Science (AES), Associate in Fine Arts (AFA) and Associate of Arts in Teaching (AAT) degrees are intended for students planning to transfer to a senior college or university for a baccalaureate degree.

These associate degrees are designed to transfer to a four-year institution; however, since requirements can vary from one university to another, it is recommended that all students create an educational plan with a Waubonsee counselor or advisor. Courses taken at other colleges and/or universities are evaluated upon request.

The courses students take at Waubonsee Community College are those normally taken during the first two years of the baccalaureate degree. Students can complete Waubonsee's degree requirements and be in a favorable position to transfer to the senior college or university of their choice. Most universities and senior colleges award junior standing to students with an Associate in Arts, Science, Engineering Science, Fine Arts or Teaching degree. See [waubonsee.edu/transferring](http://waubonsee.edu/transferring) for more information.

## Transfer Degrees Program Guidelines

The transfer degrees program guidelines listed in the next section of this catalog illustrate what a student might take if interested in a particular area of study. The guidelines are based on the format used to show degree requirements, and they assist the student in completing the general education requirements of a four-year degree, as well as taking introductory courses in a major field of study. While the guidelines are helpful, students should work with a counselor to develop individual plans.

## Articulation Compact

Waubonsee Community College participates in agreements with most state universities in Illinois that state: "A transfer student in good standing who has completed an associate degree based on baccalaureate-oriented sequences from an Illinois community college shall be considered: A) to have attained 'junior' standing; and B) to have met lower division general education requirements of senior institutions." The Compact Agreement applies to general education requirements, and if, while at Waubonsee, students have not taken lower division courses included in their major field requirements, they will be required to do so by the senior institution. Also see the section on joint admission on page 252.

## Illinois Articulation Initiative

Waubonsee Community College participates in the Illinois Articulation Initiative (IAI), a major, statewide, cooperative agreement among participating Illinois colleges and universities to facilitate successful transfer of course credits from one participating institution to another, effective beginning summer 1998. The IAI defines a general education core curriculum, and Waubonsee's transfer curriculum for the Associate in Arts (AA) and Associate in Science (AS) degrees conforms to it. Students who follow the prescribed curriculum can be assured that the credits satisfy general education requirements at participating Illinois colleges and universities. See the "Course Descriptions" section of this catalog for a list of Waubonsee's IAI general education and major courses approved to date.

## Transfer Guarantee

The Transfer Guarantee formally assures students that certain courses transfer to in-state colleges and universities; the college backs up the guarantee with a tuition refund if the course does not transfer. Students should be aware that because baccalaureate degree completion requirements change over time, transfer agreements may expire and/or students may be expected to complete additional course work by the transfer institution. Students should contact an advisor/counselor for determining the transferability of courses to their chosen four-year institution. To make a claim, students must notify Waubonsee's Executive Vice President of Educational Affairs/Chief Learning Officer, in writing, within 60 days of learning that course credit has been declined or refused by the receiving university. The letter should state the reasons, if any, given for the action and the name, position, address and telephone number of the person who processed the application for credit transfer or acceptance. Copies of any correspondence, transfer evaluation or other documentation provided to or received from the transfer institution regarding the student's transfer application must accompany the notice.

Waubonsee Community College agrees to reimburse students the tuition for any course listed on the application if the receiving public Illinois university declines to transfer or accept the course credit for some purpose under these terms:

1. Students take and successfully complete the course(s) during the term stated;
2. Students earn at least a grade of C for the course(s);
3. Students are accepted by and actually transfer to the receiving university within three years from the date this guarantee is issued;
4. Students promptly apply to have the course credit transferred to and accepted by the receiving university upon transfer;
5. Students make a claim under this guarantee as provided above within four years from the date this guarantee is issued;
6. Students cooperate fully with Waubonsee Community College in its efforts to have the credit transferred or accepted by the receiving university, including giving any necessary consents or releases regarding student records; and,
7. After the claim is received, Waubonsee Community College has 120 days to attempt to have the receiving university reverse its earlier decision to deny course credit.

The Illinois Articulation Initiative (IAI) became effective during summer 1998. Since individual colleges and universities determine which course credits earned prior to summer 1998 will transfer, students should contact the Counseling Center at Waubonsee to discuss their particular circumstances (see directory).

Waubonsee does not guarantee that the letter grade earned in the WCC course will be considered by the receiving university in determining the student's grade point average, honors, or for other purposes, but only that the receiving university gives course credit for some purpose. The guarantee does not provide for the refund of tuition for any other course(s), any fees or any incidental or consequential expenses or claims whatsoever, but only for refund of tuition for the guaranteed course(s) for which course credit is not given by the receiving university.

Students' rights under the guarantee are personal and may not be assigned or transferred, voluntarily or involuntarily. Further, no refund is required or is made if the scholarship, financial aid program, loan or other source used to pay the tuition prohibits payment or reimbursement of tuition directly to the students.

For further information concerning this program, contact the Executive Vice President of Educational Affairs/Chief Learning Officer (see directory).

## On-Campus/Online Bachelor's Degree Completion

Waubonsee Community College is working to make it even easier for our associate degree graduates to earn their bachelor's degree. Through unique partnerships with several colleges and universities, WCC graduates can complete their four-year degrees by taking classes at WCC campuses, at other sites close to home, or even online. See [waubonsee.edu/transferring](http://waubonsee.edu/transferring) for more information.

## High School Requirements

As of the 1993 fall semester, students applying for admission to a baccalaureate transfer program (Associate in Arts, Associate in Science, Associate in Engineering Science, Associate in Fine Arts or Associate of Arts in Teaching) must meet the minimum high school course pattern requirements as outlined in Illinois Public Act 86-0954 (see table). A student who does not meet these requirements at the time of application is provisionally admitted to Waubonsee as a pre-baccalaureate transfer student. When course deficiencies have been completed, the student is reclassified as a baccalaureate transfer student.

### HIGH SCHOOL REQUIREMENTS

Subject	Years	Courses
English	4	Written and Oral Communication, Literature
Mathematics	3	Algebra, Geometry, Algebra Trigonometry
Social Studies	3	History, Government
Science	3	Laboratory Science
Electives	2	Foreign Language, Art, Music or Vocational

Students with academic deficiencies are considered by Waubonsee Community College to have satisfied these deficiencies upon successful completion of a minimum of 24 college-level credits. Included in these 24 units must be ENG 101 - First-Year Composition I, COM 100 - Fundamentals of Speech Communication, a social science course, a lab-science course, and a mathematics course chosen from courses meeting general education requirements in their respective categories.

## Assessment of Student Learning Outcomes: The Outcomes Program (TOP)

The Outcomes Program (TOP) is responsible for providing resources, support and information about assessing student learning at the college. Waubonsee's TOP MEASURE is a faculty-driven, holistic outcomes model, used to align transfer, occupational and developmental course outcomes for improved student success. This model, which is unique to Waubonsee, reflects the skills, abilities and knowledge that the college strives to develop in all of its students.

The outcomes in the TOP MEASURE prepare students for the challenges of the 21st century. Each course and program has a unique focus and specific goals and objectives, but they all share the general student outcomes as defined in the TOP MEASURE. College courses provide evidence to support the measurement of the general student outcomes listed in the TOP MEASURE.

### *Waubonsee's TOP MEASURE*

Waubonsee Community College is committed to placing learning first in every facet of the college experience. To accomplish that goal, every student who attends Waubonsee Community College will learn skills and abilities that will allow them to:

- M**anage human interactions
- E**xpand their knowledge
- A**dapt concepts
- S**hape the future
- U**timize facts
- R**eflect on themselves and others and
- E**xplore their surroundings.

Courses and programs at the college support this foundation by assessing student learning based on the following outcomes:

- **Critical Thinking:** Students will analyze, synthesize and evaluate information to develop conclusions or solutions while actively engaging in learning beyond the scope of the course.
- **Diversity:** Students will identify, appreciate and respect differences among people.
- **Ethics:** Students will evaluate moral beliefs and identify socially responsible behaviors using a variety of ethical frameworks.
- **Information and Communication Technologies (ICT) Literacy:** Students will utilize existing and emerging technologies to find, manage, evaluate and convey information efficiently and effectively.
- **Leadership:** Students will recognize and evaluate the skills and principles of effective leadership.
- **Oral Communication:** Students will deliver a clear, well-organized speech, presentation or idea.
- **Quantitative and Qualitative Problem-Solving:** Students will acquire, analyze and use data to develop solutions to a problem.

- **Teamwork:** Students will utilize collaborative techniques to work with others in order to achieve a common goal.
- **Visual Literacy:** Students will construct and interpret print, static and animated media to communicate and draw appropriate conclusions.
- **Wellness:** Students will identify lifestyle and behavior choices that promote physical, mental and social health.
- **Written Communication:** Students will write a clear, well-organized paper using appropriate documentation and quantitative tools.

General education requirements for the AA and AS transfer degrees listed in the following section are outlined in conformance with the Illinois Articulation Initiative (see earlier explanation of IAI).

## Purpose of Area of Concentration and Elective Requirements

The purpose of the area of concentration and elective requirements in Waubonsee transfer degrees is to prepare the student for a major course of study at a transfer institution. Students who have decided upon a major course of study to pursue at a transfer institution should see a Waubonsee counselor to choose elective courses that provide the foundation for that major. **The Transfer Degree Guidelines show recommended programs of study for certain areas of concentration; however, other individual programs can be devised to meet both Waubonsee's graduation requirements and those of the chosen transfer institution.**

Students who have not decided on a major course of study to pursue at a transfer institution or who do not intend to transfer may explore a combinations of any of the electives listed under the degrees.

Students intending to transfer should narrow their choice of a major at a transfer institution as soon as possible. Counseling offers students additional guidance for this process. Courses taken at other colleges and/or universities are evaluated upon request.

See the list under "Degree Requirements" for area of concentration and elective choices.

## Degree Requirements

### Associate in Arts (AA)

### Associate in Science (AS)

The following sections list program requirements to achieve either an AA or an AS transfer degree at Waubonsee for specific guidelines on choosing courses. Consult with a counselor.

#### I. College Requirements

##### A. Semester Hours

A total of 60 semester hours or more completed as specified in the following sections.

##### B. Grade-Points

A minimum cumulative grade point average of 2.0 (C average) in all course work taken, regular student status and in good standing.

##### C. Academic Residency

Meet the college's academic residency requirement: a minimum of 15 semester hours in courses must have been achieved at Waubonsee, excluding CLEP and proficiency credits.

#### II. General Education Requirements

Waubonsee's requirements conform to IAI General Education Core Curriculum guidelines. Courses listed in section II match Waubonsee's IAI website as of March 2011.

(Courses are 3 sem hrs unless indicated.)

**Associate in Arts (AA)**..... **37 sem hrs**

**Associate in Science (AS)** ..... **37 sem hrs**

##### A. Communications

**AA/AS** ..... **9 sem hrs**

Communications: COM 100

English: ENG 101\* and 102\*

##### B. Social and Behavioral Sciences

**AA/AS** ..... **9 sem hrs**

Select courses from at least two of the following disciplines. Courses in **bold** identify Non-Western and Diversity options: **N** indicates non-Western; **D** indicates diversity.

Anthropology: ANT **100 (N)**, **101 (N)**, 102, 110

Economics: ECN 100, 110, 121, 122

Geography: GEO **220 (N)**, **230 (N)**, **235 (N)**

History\*\*: HIS **101 (N)**, **102 (N)**, 121, 122, **205 (N)**, **215 (N)**, **225 (N)**, **235 (N)**

Political Science: PSC 100, **220**, 240, 260

Psychology: PSY 100, 205, 215, 220, 226, 235

Sociology: SOC 100, **120 (D)**, 130, 210, **230 (D)**

#### C. Physical and Life Sciences

**AA/AS** ..... **7 sem hrs**

Select at least one course from Physical Sciences and one course from Life Sciences. Select at least one lab course. (**L** indicates lab course.)

##### Physical Sciences

Astronomy: AST 100, 105 (4-**L**), 110 (4-**L**)

Chemistry: CHM 100, 101 (1-**L**), 102, 103 (1-**L**), 106 (4-**L**), 121 (4-**L**)

Earth Science: ESC 100, 101 (1-**L**), 120 (4-**L**), 130, 220

Geography: GEO 121 (4-**L**)

Geology: GLG 100, 101 (1-**L**), 103

Physics: PHY 103, 104 (1-**L**), 111 (4-**L**), 221 (5-**L**)

##### Life Sciences

Biology: BIO 100, 101 (1-**L**), 102, 103 (1-**L**), 110,

111 (1-**L**), 120 (4-**L**), 126 (4-**L**), 128 (4-**L**), 200, 244 (4-**L**), 250 (4-**L**), 254, 270 (4-**L**)

#### D. Mathematics

**AA/AS** ..... **3 sem hrs**

Mathematics: MTH 101, 102, 107, 131 (4), 132 (4), 202, 210, 211, 233 (4)

#### E. Humanities and Fine Arts

**AA/AS** ..... **9 sem hrs**

Select at least one course from Humanities and one course from Fine Arts. Courses in **bold** identify Non-Western and Diversity options: **N** indicates non-Western; **D** indicates diversity.

##### Humanities

English: ENG 211, 212, 215, **220 (D)**, 221, 222, 225, 226, 229, 230, 235, 240, 245, **255 (D)**

Film Studies: FLM 270\*\*\*

French: FRE 202

German: GER 202

History\*\*: HIS 111, 112, 125

Humanities\*\*\*: HUM 101, **102 (N)**, 201

Philosophy: PHL 100, 101, 105, 110, **120 (N)**, 201, 202

Spanish: SPN 202, 205

##### Fine Arts

Art: ART 100, 101, 102, **103 (N)**, 104, **105 (D)**

Film Studies: FLM 250, 260, 270\*\*\*

Humanities\*\*\*: HUM 101, **102 (N)**, 201

Music: MUS 100, **101 (N)**, 102

Theatre: THE 100, **130 (D)**

### Degree Requirements Footnotes

\* IAI General Education requires a C or better in these courses.

\*\* No more than two history courses can be used to fulfill general education requirements.

\*\*\* Interdisciplinary humanities courses that encompass both humanities and fine arts may be used for either humanities or fine arts credit.

**III. Additional College Requirements**

When selecting courses for the Additional College Requirements, consult with a counselor, as four-year schools have specific requirements.

**Associate in Arts (AA)**..... **2-3 sem hrs**

*Note: Consult with a counselor to determine foreign language requirements at the four-year school to which you intend to transfer. Bachelor of Arts degrees typically require a foreign language for graduation.*

**Associate in Science (AS)** ..... **5-9 sem hrs**

**A. Social Awareness/Personal Growth**

**AA/AS** ..... **2-3 sem hrs**

Foreign Language/Sign Language:  
 CHN 101, 102; FRE 101, 102, 201, 202;  
 GER 101, 102, 201, 202; JPN 101, 102;  
 SGN 101, 102; SPN 101, 102, 103, 110, 111, 201, 202, 205,  
 211  
 Health Education: HED 100  
 Peace Studies: IDS 210  
 Personal Development: PDV 100, 101 (1), 102 (1), 131 (1)  
 Physical Education activity courses: PED 100 –149 (0.5-1)  
 Sustainability: SUS 101  
 (Students who served in the Armed Services may be granted Physical Education credit for the Social Awareness/Personal Growth requirement. See page 266 for details.)

**B. Physical and Life Sciences/Mathematics**

**AA** ..... **additional hours not required**

**AS** ..... **3-6 sem hrs**

Select courses from the disciplines listed below. Consult with a counselor to determine appropriate course choices based on your major and the four-year school to which you intend to transfer.

Astronomy: AST 100, 105 (4-L), 110 (4-L), 115  
 Biology: BIO 100, 101 (1-L), 102, 103 (1-L), 104(4-L), 110,  
 111 (1-L), 120 (4-L), 122 (4-L), 126 (4-L), 128 (4-L), 200,  
 244 (4-L), 250 (4-L), 254, 270 (4-L), 272 (4-L)  
 Chemistry: CHM 100, 101 (1-L), 102, 103 (1-L),  
 106 (4-L), 121 (4-L), 122 (4-L), 231 (5-L),  
 232 (5-L)  
 Earth Science: ESC 100, 101 (1-L), 120 (4-L), 130,  
 220  
 Geography: GEO 121 (4-L)  
 Geology: GLG 100, 101 (1-L), 103  
 Mathematics: MTH 101, 102, 107, 111 (4), 112,131 (4),  
 132 (4), 141, 201, 202, 210, 211, 233 (4), 236 (4),  
 240  
 Physics: PHY 103, 104 (1-L), 111 (4-L), 112 (4-L), 221 (5-L),  
 222 (5-L)

**C. Non-Western and Diversity**

One course satisfying degree requirements must have a non-Western or diversity emphasis. These courses are highlighted in **bold** in the General Education Requirements Social and Behavioral Sciences (item II.B.) and Humanities and Fine Arts (item II.E.). This is not an additional credit hour requirement.

**IV. Area of Concentration/Elective Requirements**

**Associate in Arts** ..... **20-21 sem hrs**

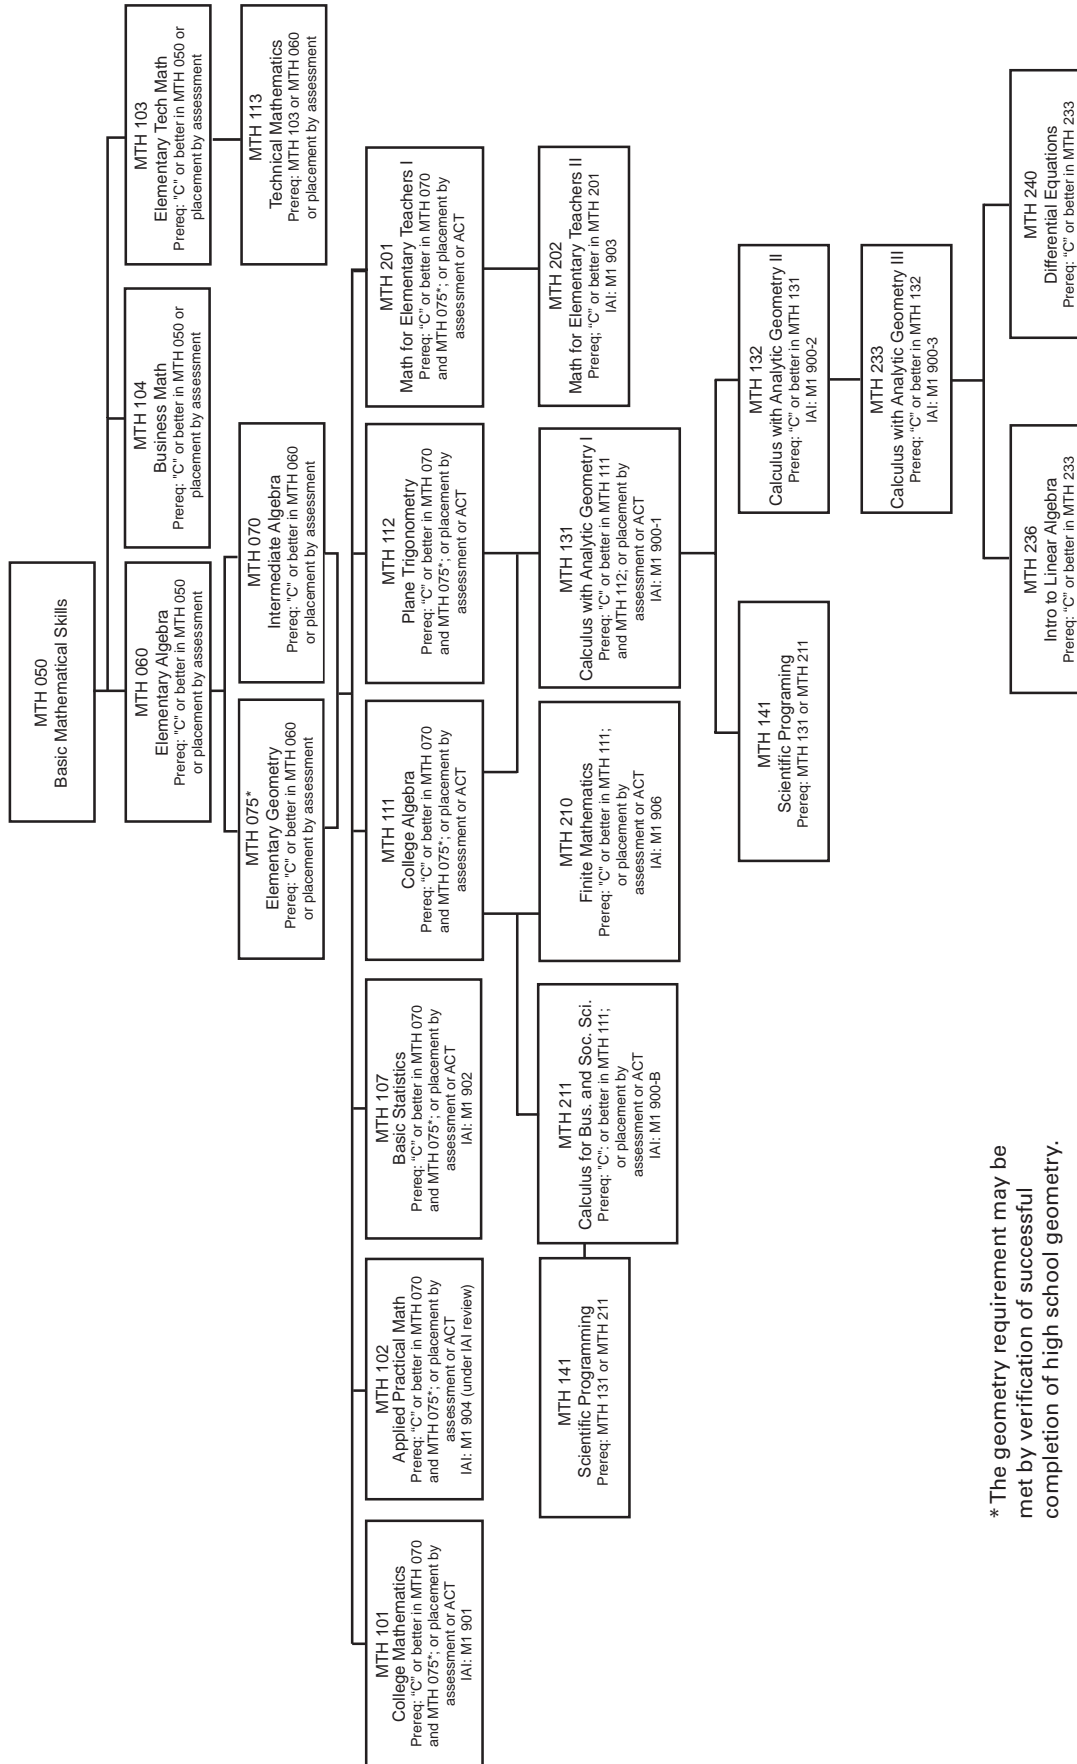

**Associate in Science**..... **14-18 sem hrs**

**Consult with a counselor early in your program of studies to determine appropriate course choices, including any foreign language requirement, and transferability of courses based on your major and the four-year school to which you intend to transfer.**

*Note: A maximum of 4 semester hours each of Independent Study (IND), Personal Development (PDV), or Physical Education (PED), may be applied toward a degree. The maximum semester hours for Physical Education (PED) credit may be waived for physical education, fitness leadership or education majors.*

# Course Sequence for Math

\* The geometry requirement may be met by verification of successful completion of high school geometry.

IAI codes represent the approved transfer course recognized by Illinois colleges and universities. Visit [www.iTransfer.org](http://www.iTransfer.org) for more information.

## Degree Requirements

### Associate in Engineering Science (AES)

**(AES1) major code**

The following sections list program requirements to achieve an Associate in Engineering Science degree at Waubonsee. This degree is designed to provide students a smooth transition to a four-year baccalaureate engineering degree program. Students who complete the AES degree can transfer to an engineering program and complete a Bachelor of Science degree in an additional two years, depending upon the requirements of the four-year institution. Students who are unsure of a major in engineering may wish to choose an Associate in Science (AS) degree. Although students completing an Associate in Science degree can complete all general education requirements at Waubonsee, they may be required by the program prerequisites at the transfer school to take three years to complete the baccalaureate engineering program.

**I. College Requirements**

**A. Semester Hours**

A total of 64 semester hours or more completed as specified in the following sections.

**B. Grade-Points**

A minimum cumulative grade point average of 2.0 (C average) in all course work taken, regular student status and in good standing.

**C. Academic Residency**

Meet the college's academic residency requirement: a minimum of 15 semester hours in courses must have been achieved at Waubonsee, excluding CLEP and proficiency credits.

**Degree Requirements Footnotes**

\* IAI General Education requires a C or better in these courses.

\*\* No more than two history courses can be used to fulfill general education requirements.

**II. General Education Requirements**

Since completion of the Associate in Engineering Science (AES) degree does not fulfill the requirements of the IAI General Education Core Curriculum, students must complete the general education requirements of the institution to which they transfer. Courses listed in section II are included on Waubonsee's IAI website as of March 2011. (Courses are 3 sem hrs unless indicated.)

**Associate in Engineering Science**

**(AES)..... 36 sem hrs**

**A. Communications**

**AES.....6 sem hrs**

English: ENG 101\* and 102 \*

**B. Social and Behavioral Sciences and Humanities and Fine Arts**

**AES..... 9 sem hrs**

Students are encouraged to complete a two-semester sequence in either the Social and Behavioral Sciences or the Humanities and Fine Arts categories. Courses in **bold** identify Non-Western and Diversity options: **N** indicates non-Western; **D** indicates diversity.

**Social and Behavioral Sciences**

Anthropology: ANT **100 (N), 101 (N)**, 102, 110

Economics: ECN 100, 110, 121, 122

Geography: GEO **220 (N), 230 (N), 235 (N)**

History\*\*: HIS **101 (N), 102 (N)**, 121, 122, **205 (N), 215 (N), 225 (N), 235 (N)**

Political Science: PSC 100, 220, 240, 260

Psychology: PSY 100, 205, 215, 220, 226, 235

Sociology: SOC 100, **120 (D)**, 130, 210, **230 (D)**

**Humanities and Fine Arts**

Art: ART 100, 101, 102, **103 (N)**, 104, **105 (D)**

English: ENG 211, 212, 215, **220 (D)**, 221, 222, 225, 226, 229, 230, 235, 240, 245, **255 (D)**

Film Studies: FLM 250, 260, 270

French: FRE 202

German: GER 202

History\*\*: HIS 111, 112, 125

Humanities: HUM 101, **102 (N)**, 201

Music: MUS 100, **101 (N)**, 102

Philosophy: PHL 100, 101, 105, 110, **120 (N)**, 201, 202

Spanish: SPN 202, 205,

Theatre: THE 100, **130 (D)**

**C. Physical and Life Sciences**

**AES..... 9 sem hrs**

Chemistry: CHM 121 (4)

Physics: PHY 221 (5)

**D. Mathematics**

**AES..... 12 sem hrs**

Math: MTH 131 (4), 132 (4), 233 (4)

III. Additional College Requirements

**AES**..... 2-3 sem hrs

**A. Social Awareness/Personal Growth**

**AES**..... 2-3 sem hrs

- Health Education: HED 100
- Physical Education activity courses:  
PED 100-149 (0.5-1)
- Sustainability: SUS 101
- (Students who served in the Armed Services may be granted credit for the Social Awareness/Personal Growth requirement. See page 266 for details.)

**B. Non-Western and Diversity**

One course satisfying degree requirements must have a non-Western or diversity emphasis. These courses are highlighted in **bold** in General Education Requirements Social and Behavioral Sciences and Humanities and Fine Arts (item II. B.). This is not an additional credit hour requirement.

IV. Area of Concentration/Elective Requirements

**AES** ..... 25-26 sem hrs

**A. Essential Prerequisite Courses**

**AES**..... 11 sem hrs

- Mathematics: MTH 141, 240
- Physics: PHY 222 (5)

B. Engineering Specialty Courses

**AES** ..... 6-15 sem hrs

Students must select specialty courses based on their engineering major. Students should consult with a counselor to determine the appropriate choice based on their major and the four-year institution to which they intend to transfer. Students may wish to complete courses above the requirements of the AES degree upon advice of a counselor. See also "Course Descriptions" in this catalog.

**Biology**

- BIO 120 Principles of Biology I
- BIO 122 Principles of Biology II

**Chemistry**

- CHM 122 Chemistry and Qualitative Analysis
- CHM 231 Organic Chemistry I
- CHM 232 Organic Chemistry II

**Economics**

- ECN 122 Principles of Economics-  
Microeconomics

[If ECN 122 is used to satisfy a general education requirement (item II.B.), it cannot be used as an engineering specialty course.]

**Engineering**

- EGR 101 Engineering Graphics
- EGR 220 Analytical Mechanics-Statics
- EGR 230 Analytical Mechanics-Dynamics
- EGR 240 Introduction to Circuit Analysis

C. Elective Courses

**AES** ..... 0-9 sem hrs

Students should select transfer courses based on their specific engineering major. Students should consult with a counselor early in their program of studies to determine the appropriate choices based on their major and the four-year institution to which they intend to transfer.

## Degree Requirements

### Associate in Fine Arts (AFA)

#### Art

(AFA1) major code

#### Art Education

(AFA2) major code

The following sections list program requirements to achieve an Associate in Fine Arts (AFA) transfer degree with an emphasis in art or art education at Waubonsee. This degree is designed to provide students a smooth transition to a four-year baccalaureate art program. Transfer institutions may require art majors to submit a portfolio for review. Because of teacher certification requirements, transfer school requirements and WCC graduation requirements, art education students must meet with a counselor as soon as they declare this program as their intended major.

#### I. College Requirements

##### A. Semester Hours

A total of 63 semester hours (Art) or 64 semester hours (Art Education) as specified in the following sections.

##### B. Grade-Points

A minimum cumulative grade point average of 2.0 (C average) in all course work taken, regular student status and in good standing.

##### C. Academic Residency

Meet the college's academic residency requirement: a minimum of 15 semester hours in courses must have been achieved at Waubonsee, excluding CLEP and proficiency credits.

#### II. General Education Requirements

Since completion of the Associate in Fine Arts (AFA) degree does not fulfill the requirements of the Illinois General Education Core Curriculum, students must complete the general education requirements of the institution to which they transfer. Courses listed in section II are included on Waubonsee's IAI website as of March 2011. (Courses are 3 sem hrs unless indicated.)

##### Associate in Fine Arts (AFA)

**Emphasis in Art..... 31 sem hrs**  
**Emphasis in Art Education ..... 40 sem hrs**

##### A. Communications

**AFA/all emphases..... 9 sem hrs**  
 Communications: COM 100  
 English: ENG 101\* and 102\*

##### B. Social and Behavioral Sciences

**Emphasis in Art..... 6 sem hrs**

Select courses from two different disciplines from the following list. Courses in **bold** identify Non-Western and Diversity options: **N** indicates non-Western; **D** indicates diversity.

Anthropology: ANT **100 (N), 101 (N)**, 102, 110

Economics: ECN 100, 110, 121, 122

Geography: GEO **220 (N), 230 (N), 235 (N)**

History\*\* : HIS **101 (N), 102 (N)**, 121, 122, **205 (N), 215 (N), 225 (N), 235 (N)**

Political Science: PSC 100, 220, 240, 260

Psychology: PSY 100, 205, 215, 220, 226, 235

Sociology: SOC 100, **120 (D)**, 130, 210, **230 (D)**

**Emphasis in Art Education..... 9 sem hrs**  
 Required: HIS 121 or 122, PSC 100 and PSY 100

##### C. Physical and Life Sciences

**AFA/all emphases..... 7 sem hrs**

Select at least one course from Physical Sciences and one course from Life Sciences. Select at least one lab course.

**NOTE:** Teacher certification may require additional hours; some hours may need to be completed at the transfer institution. See your counselor. (**L** indicates a lab course.)

##### Physical Sciences

Astronomy: AST 100, 105 (4-L), 110 (4-L)

Chemistry: CHM 100, 101 (1-L), 102, 103 (1-L), 106 (4-L), 121 (4-L)

Earth Science: ESC 100, 101 (1-L), 120 (4-L), 130, 220

Geography: GEO 121 (4-L)

Geology: GLG 100, 101 (1-L), 103

Physics: PHY 103, 104 (1-L), 111 (4-L), 221 (5-L)

##### Life Sciences

Biology: BIO 100, 101 (1-L), 102, 103 (1-L), 110,

111 (1-L), 120 (4-L), 126 (4-L), 128 (4-L), 200, 244 (4-L), 250 (4-L), 254, 270 (4-L)

**D. Mathematics**

**AFA/all emphases**..... **3 sem hrs**  
 Mathematics: MTH 101, 102, 107, 131 (4), 132 (4), 202, 210, 211, 233 (4)

**E. Humanities**

**Emphasis in Art**..... **6 sem hrs**

Select two courses from the following list. Courses in **bold** identify Non-Western and Diversity options: **N** indicates non-Western; **D** indicates diversity.

English: ENG 211, 212, 215, **220 (D)**, 221, 222, 225, 226, 229, 230, 235, 240, 245, **255 (D)**

Film Studies: FLM 270

French: FRE 202

German: GER 202

History\*\*: HIS 111, 112, 125

Humanities: HUM 101, **102 (N)**, 201

Philosophy: PHL 100, 101, 105, 110, **120 (N)**, 201, 202

Spanish: SPN 202, 205

**Emphasis in Art Education**..... **12 sem hrs**

Required: ART 101, ART 102; select one literature course from the following: ENG 211, 212, 215, **220 (D)**, 221, 222, 225, 226, 230, 235, 240, 245, **255 (D)**; see item III.B. Non-Western and Diversity.

**NOTE:** Teacher certification may require additional hours; some hours may need to be completed at the transfer institution. See your counselor.

**Degree Requirements Footnotes**

\* *IAI General Education requires a C or better in these courses.*

\*\* *No more than two history courses can be used to fulfill general education requirements.*

**III. Additional College Requirements**

**AFA /all emphases**..... **2-3 sem hrs**

**A. Social Awareness/Personal Growth**

**Emphasis in Art**..... **2-3 sem hrs**

Health Education: HED 100

Physical Education activity courses:

PED 100-149 (0.5-1)

Sustainability: SUS 101

(Students who served in the Armed Services may be granted credit for the Social Awareness/Personal Growth requirement. See page 266 for details.)

**Emphasis in Art Education**..... **3 sem hrs**

Required: HED 100

**B. Non-Western and Diversity**

One course satisfying degree requirements must have a Non-Western or Diversity emphasis. These courses are highlighted in **bold** in General Education Requirements Social and Behavioral Sciences (item II.B.) and Humanities (item II.E.). This is not an additional credit hour requirement.

**IV. Area of Concentration/Elective Requirements****Associate in Fine Arts (AFA)**

**Emphasis in Art** ..... **30 sem hrs**

**Emphasis in Art Education** ..... **21 sem hrs**

**Emphasis in Art**

**Required core art courses** ..... **21 sem hrs**

ART 101, 102, 110, 111, 120, 121, 222

**Elective studio art courses**..... **9 sem hrs**

Select 9 semester hours from the following elective list; select courses from at least two media.

Ceramics: ART 130, 131

Graphic Design: GRD 173,273

Painting: ART 260, 261

Photography: ART 140, 240

**Emphasis in Art Education**

**Required core art courses** ..... **12 sem hrs**

ART 110, 111, 120, 121

**Elective studio art courses**..... **9 sem hrs**

Select 9 semester hours from the following elective list; select courses from at least two media.

Ceramics: ART 130, 131

Graphic Design: GRD 173, 273

Life/Figure Drawing: ART 222

Painting: ART 260, 261

Photography: ART 140, 240

## Degree Requirements

### Associate in Fine Arts (AFA)

#### Music Performance

(AFA3) major code

#### Music Education

(AFA4) major code

The following sections list program requirements to achieve an Associate in Fine Arts (AFA) transfer degree with an emphasis in music performance or music education at Waubensee. This degree is designed to provide students a smooth transition to a four-year baccalaureate music degree program. Music majors may be required to demonstrate skill level through audition and placement testing at the transfer institution. Because of teacher certification requirements, transfer school requirements and WCC graduation requirements, music education students must meet with a counselor as soon as they declare this program as their intended major.

#### I. College Requirements

##### A. Semester Hours

A total of 65 semester hours (Music Performance) or 66 semester hours (Music Education) as specified in the following sections.

##### B. Grade-Points

A minimum cumulative grade point average of 2.0 (C average) in all course work taken, regular student status and in good standing.

##### C. Academic Residency

Meet the college's academic residency requirement: a minimum of 15 semester hours in courses must have been achieved at Waubensee, excluding CLEP and proficiency credits.

#### II. General Education Requirements

Since completion of the Associate in Fine Arts (AFA) degree does not fulfill the requirements of the Illinois General Education Core Curriculum, students must complete the general education requirements of the institution to which they transfer. Courses listed in section II are included on Waubensee's IAI website as of March 2011. (Courses are 3 sem hrs unless indicated.)

##### Associate in Fine Arts (AFA)

**Emphasis in Music Performance** ..... 28 sem hrs

**Emphasis in Music Education** ..... 28 sem hrs

#### A. Communications

**AFA/all emphases** ..... 9 sem hrs

Communications: COM 100

English: ENG 101\* and 102\*

#### B. Social and Behavioral Sciences

**Emphasis in Music Performance** ..... 3 sem hrs

Select course from the following list. Courses in **bold** identify Non-Western and Diversity options:

**N** indicates non-Western; **D** indicates diversity.

Anthropology: ANT **100 (N)**, **101 (N)**, 102, 110

Economics: ECN 100, 110, 121, 122

Geography: GEO **220 (N)**, **230 (N)**, **235 (N)**

History\*\*: HIS **101 (N)**, **102 (N)**, 121, 122, **205 (N)**, **215 (N)**, **225 (N)**, **235 (N)**

Political Science: PSC 100, 220, 240, 260

Psychology: PSY 100, 205, 215, 220, 226, 235

Sociology: SOC 100, **120 (D)**, 130, 210, **230 (D)**

**Emphasis in Music Education** ..... 6 sem hrs

Required: PSC 100 and HIS 121 or HIS 122

**NOTE:** Teacher certification may require additional hours; some hours may need to be completed at the transfer institution. See your counselor.

#### C. Physical and Life Sciences

**AFA/all emphases** ..... 7 sem hrs

Select at least one course from Physical Sciences and one course from Life Sciences. Select at least one lab course.

**NOTE:** Teacher certification may require additional hours; some hours may need to be completed at the transfer institution. See your counselor. (**L** indicates a lab course.)

##### Physical Sciences

Astronomy: AST 100, 105 (4-L), 110 (4-L)

Chemistry: CHM 100, 101 (1-L), 102, 103 (1-L), 106 (4-L), 121 (4-L)

Earth Science: ESC 100, 101 (1-L), 120 (4-L), 130, 220

Geography: GEO 121 (4-L)

Geology: GLG 100, 101 (1-L), 103

Physics: PHY 103, 104 (1-L), 111 (4-L), 221 (5-L)

##### Life Sciences

Biology: BIO 100, 101 (1-L), 102, 103 (1-L), 110,

111 (1-L), 120 (4-L), 126 (4-L), 128 (4-L), 200, 244 (4-L), 250 (4-L), 254, 270 (4-L)

#### D. Mathematics

**AFA/all emphases** ..... 3 sem hrs

Mathematics: MTH 101, 102, 107, 131 (4), 132 (4), 202, 210, 211, 233 (4)

### Degree Requirements Footnotes

\* IAI General Education requires a C or better in these courses.

\*\* No more than two history courses can be used to fulfill general education requirements.

**E. Humanities****Emphasis in Music Performance ..... 6 sem hrs**

Select two courses from the following list. Courses in **bold** identify Non-Western and Diversity options: **N** indicates non-Western; **D** indicates diversity.

English: ENG 211, 212, 215, **220 (D)**, 221, 222, 225, 226, 229, 230, 235, 240, 245, **255 (D)**

Film Studies: FLM 270

French: FRE 202

German: GER 202

History\*\*\*: HIS 111, 112, 125

Humanities: HUM 101, **102 (N)**, 201

Philosophy: PHL 100, 101, 105, 110, **120 (N)**, 201, 202

Spanish: SPN 202, 205

**Emphasis in Music Education..... 3 sem hrs**

See item III. B. Non-Western and Diversity

**NOTE:** Teacher certification may require additional hours; some hours may need to be completed at the transfer institution. See your counselor.

**III. Additional College Requirements****AFA /all emphases..... 2-3 sem hrs****A. Social Awareness/Personal Growth****Emphasis in Music Performance ..... 2-3 sem hrs**

Health Education: HED 100

Physical Education activity courses:

PED 100-149 (0.5-1)

Sustainability: SUS 101

(Students who served in the Armed Services may be granted credit for the Social Awareness/Personal Growth requirement. See page 266 for details.)

**Emphasis in Music Education..... 3 sem hrs**

Required: HED 100

**B. Non-Western and Diversity**

One course satisfying degree requirements must have a Non-Western or Diversity emphasis. These courses are highlighted in **bold** in General Education Requirements Social and Behavioral Sciences (item II.B.) and Humanities (item II.E.). This is not an additional credit hour requirement.

**IV. Area of Concentration/Elective Requirements****AFA/all music emphases..... 35 sem hrs****Required core music courses ..... 23 sem hrs**

MUS 121 (4), 123, 124 (1), 200, 221, 222 (1), 223, 224 (1); 4 semester hours from the following based on proficiency: MUS 151 (2), 251 (2), 252 (2)

**Elective music courses ..... 12 sem hrs**

Select 8 semester hours from the applied music courses and 4 semester hours from the performing ensemble courses.

Applied Music Electives: MUS 281 (2), 282 (2), 283 (2), 284 (2), 285 (2), 286 (2), 287 (2)

Performing Ensemble Electives: MUS 160 (1), 161 (1), 162 (1), 164 (1), 166 (1), 167 (1), 168 (1), 169 (1), 170 (1), 171 (1), 175 (1.5), 176 (1.5)

## Degree Requirements

### Associate of Arts in Teaching (AAT) Secondary Mathematics

**(AAT1) major code**

The Associate of Arts in Teaching - Secondary Mathematics degree allows students who are interested in teaching mathematics at the secondary level the opportunity to complete the first two years of their college course work at the community college in preparation for transferring to a college or university. Students who earn the AAT-Secondary Mathematics degree will have completed their general education core courses, developed a basic understanding of the essential qualifications required of educators, mastered the fundamental mathematics concepts that serve as a basis for advanced study in the discipline, and achieved a satisfactory score on the Illinois Basic Skills Test required for entry into teacher certification programs at colleges and universities. Because of teacher certification requirements, transfer school requirements and WCC graduation requirements, students must meet with a counselor as soon as they declare this program as their intended major. Completion of these courses does not guarantee admission to a baccalaureate program.

**I. College Requirements**

**A. Semester Hours**

A total of 64 semester hours as specified in the following sections.

**B. Grade-Points**

A minimum cumulative grade point average of 2.0 (C average) in all course work taken, regular student status and in good standing.

**C. Academic Residency**

Meet the college's academic residency requirement: a minimum of 15 semester hours in courses must have been achieved at Waubonsee, excluding CLEP and proficiency credits.

**Degree Requirements Footnotes**

- \* IAI General Education requires a C or better in these courses.
- \*\* Interdisciplinary humanities courses that encompass both humanities and fine arts may be used for either humanities or fine arts credit.

NOTE: See a Counselor if seeking AAT degree.

**II. General Education Requirements**

Waubonsee's requirements conform to IAI General Education Core Curriculum guidelines. Courses listed in section II match Waubonsee's IAI website as of March 2011. (Courses are 3 sem hrs unless indicated.)

**Associate in Teaching (AAT)**

**Secondary Mathematics..... 39 sem hrs**

**A. Communications**

**AAT..... 9 sem hrs**  
 Communications: COM 100  
 English: ENG 101\* and 102\*

**B. Social and Behavioral Sciences**

**AAT..... 9 sem hrs**  
 Select three courses from at least two disciplines. Courses in **bold** identify Non-Western and Diversity options: **N** indicates non-Western; **D** indicates diversity  
 History: HIS 121, 122  
 Political Science: PSC 100  
 Psychology: PSY 100  
 Sociology: SOC **120 (D)**

**C. Physical and Life Sciences**

**AAT..... 8 sem hrs**  
 Select one course and a lab course from Physical Sciences and one course and a lab course from Life Sciences.  
**Physical Sciences**  
 Earth Science: ESC 100 and 101 (1)  
 Geography: GEO 121 (4)  
 Physics: PHY 111 (4), 112 (4)

**Life Sciences**

Biology: BIO 100 and 101 (1); 110 and 111 (1); 120 (4)

**D. Mathematics**

**AAT..... 4 sem hrs**  
 Mathematics: MTH 131 (4)

**E. Humanities and Fine Arts**

**AAT..... 9 sem hrs**  
 Select at least one course from Humanities and one course from Fine Arts. Courses in **bold** identify Non-Western and Diversity options: **N** indicates non-Western; **D** indicates diversity.

**Humanities**

Humanities\*\* : HUM **102 (N)**  
 Philosophy: PHL 100, 105

**Fine Arts**

Art: ART 100  
 Humanities\*\* : HUM 101  
 Music: MUS **101 (N)**

III. Additional College Requirements  
**AAT** ..... 4 sem hrs

**A. Social Awareness/Personal Growth**

**AAT** ..... 1 sem hrs  
 Health Education: HED 100  
 Physical Education activity courses:  
 PED 100-149 (0.5-1)  
 Sustainability: SUS 101  
 Students who served in the armed forces may be granted credit for the Social Awareness/Personal Growth requirement. See page 266 for details.

**B. Non-Western and Diversity**

One course satisfying degree requirements must have a Non-Western or Diversity emphasis. These courses are highlighted in **bold** in General Education Requirements Social and Behavioral Sciences (item II.B.) and Humanities and Fine Arts (item II.E.). This is not an additional credit hour requirement.

**C. Additional Course Work**

**AAT** ..... 3 sem hrs  
 Consult with a counselor to select one course based on specific transfer institution requirements.  
  
 English: Literature course  
 Additional Physical or Life Sciences course

IV. Area of Concentration/Elective Requirements  
**AAT** ..... 21 sem hrs

**A. Professional Education Requirements**

**AAT** ..... 9 sem hrs  
 Education: EDU 200, 202, 205

**B. Major Area Requirements**

**AAT** ..... 12 sem hrs  
 Mathematics: MTH 132 (4), 233 (4), 236 (4)

**Degree Requirements**

**Associate of Arts in Teaching (AAT)  
 Special Education**

**(AAT2) major code**

The Associate of Arts in Teaching - Special Education degree allows students who are interested in teaching special education the opportunity to complete the first two years of their college course work at the community college in preparation for transferring to a college or university. Students who earn the AAT - Special Education degree will have completed their general education core courses, professional education courses and courses in the special education major area. These courses include the 11 Illinois Professional Teaching Standards, the Technology Standards for All Teachers, and the Core Language Arts Standards for All Teachers. Students must also achieve a satisfactory score on the Illinois Basic Skills Test required for entry into teacher certification programs at colleges and universities. Because of teacher certification requirements, transfer school requirements and WCC graduation requirements, students must meet with a counselor as soon as they declare this program as their intended major. AAT students will be advised to complete the program before they transfer as the degree allows transfer students to be on an equal footing with native students when seeking entrance to an upper division special education program. Completion of these courses does not guarantee admission to a baccalaureate program.

**I. College Requirements**

**A. Semester Hours**

A total of 64 semester hours as specified in the following sections.

**B. Grade-Points**

A minimum cumulative grade-point average of 2.0 (C average) in all course work taken, regular student status and in good standing.

**C. Academic Residency**

Meet the college's academic residency requirement: a minimum of 15 semester hours in courses must have been achieved at Waubonsee, excluding CLEP and proficiency credits.

**II. General Education Requirements**

Waubonsee's requirements conform to IAI General Education Core Curriculum guidelines. Courses listed in section II match Waubonsee's IAI website as of March 2011. (Courses are 3 sem hrs unless indicated.)

**Associate in Teaching (AAT)**

**Special Education** ..... 40 sem hrs

**A. Communications**

**AAT** ..... 9 sem hrs

Communications: COM 100  
English: ENG 101\* and 102\*

**B. Social and Behavioral Sciences**

**AAT** ..... 9 sem hrs

Select three courses from at least two disciplines. Courses in **bold** identify Non-Western and Diversity options: **N** indicates non-Western; **D** indicates diversity.

History: HIS 121, 122  
Political Science: PSC 100 (recommended)  
Psychology: PSY 100 (recommended)

**C. Physical and Life Sciences**

**AAT** ..... 7 sem hrs

Select one course from Physical Sciences and one course from Life Sciences. Select at least one lab course. (**L** indicates a lab course.)

**Physical Sciences**

Astronomy: AST100, 105 (4-L), 110 (4-L)  
Earth Science: ESC 100 and 101 (1-L)  
Geography: GEO 121 (4-L)

**Life Sciences**

Biology: BIO 100 and 101 (1-L); 110 and 111 (1-L); 120 (4-L)

**D. Mathematics**

**AAT** ..... 6 sem hrs

Mathematics: MTH 101, 202

**E. Humanities and Fine Arts**

**AAT** ..... 9 sem hrs

Select at least one course from Humanities and one course from Fine Arts. Courses in **bold** identify Non-Western and Diversity options: **N** indicates non-Western; **D** indicates diversity.

**Humanities**

Humanities: HUM 101, **102 (N)**  
Philosophy: PHL 100, 105

**Fine Arts**

Art: ART 100  
Music: MUS **101 (N)**

**III. Additional College Requirements**

**AAT** ..... 3 sem hrs

**A. Mathematics**

**AAT** ..... 3 sem hrs

Mathematics: MTH 201

**B. Non-Western and Diversity**

One course satisfying degree requirements must have a Non-Western or Diversity emphasis. These courses are highlighted in **bold** in General Education Requirements Social and Behavioral Sciences (item II.B.) and Humanities and Fine Arts (item II.E.). This is not an additional credit hour requirement.

**IV. Area of Concentration/Elective Requirements**

**AAT** ..... 21 sem hrs

Early Childhood Education: ECE115  
Education: EDU200, 202, 205, 210, 220; 215 or 225

**Degree Requirements Footnotes**

\* IAI General Education requires a C or better in these courses.

*Note: Students planning to major in special education at Northern Illinois University need to contact the university's special education undergraduate advisor no later than one year prior to their admission to ensure clinical placement. Failure to do so may result in a delay of registration for the initial block sequence of courses needed for the degree.*

# **Transfer Degrees Program Guidelines**

## Transfer Degrees Program Guidelines

The following guidelines help students plan their individual transfer program. Course lists are patterned after the “Degree Requirements” in the previous section. **Many different programs can be devised to meet the requirements of either an Associate in Arts or Associate in Science degree and to earn credit to transfer to a four-year school. Use the guidelines as a starting point. Counselors and students, working together with the transfer institution, can build a transfer degree program appropriate for each individual.**

***These course lists are ONLY guidelines. Transfer students should check early with their transfer school and Waubonsee’s Counseling Center to ensure they are making ALL requirements.***

### Areas of Concentration

Program guidelines are included for the following areas of concentration.

- |  |                          |
|--|--------------------------|
| Art (AA)   | Political Science (AA)   |
| Aviation Pilot (AS)                                  | Psychology (AA)          |
| Biology (AS)   | Secondary Education (AS) |
| Business (AS)  | Social Work (AS)         |
| Chemistry (AS)                                       | Sociology (AA)           |
| Clinical Laboratory Science (AS)                     | Special Education (AS)   |
| Computer Science (AS)                                | Theatre (AA)             |
| Criminal Justice (AS)                                |                          |
| Early Childhood Education (AS)                       |                          |
| Economics (AA)                                       |                          |
| Elementary Education (AS)                            |                          |
| Engineering Science (see “Degree Requirements: AES”) |                          |
| English (AA)   |                          |
| Fine Arts (see “Degree Requirements: AFA”)           |                          |
| Fitness Leadership (AS)                              |                          |
| General Science (AS)                                 |                          |
| Graphic Art (AA)                                     |                          |
| History (AA)   |                          |
| Mass Communication (AA)                              |                          |
| Mathematics (AS)                                     |                          |
| Music (AA)   |                          |
| Nursing Transfer for BSN (AS)                        |                          |
| Organizational Communication (AA)                    |                          |
| Philosophy (AA)                                      |                          |
| Physical Education (AS)                              |                          |
| Physics (AS)   |                          |

**In order to help students prepare for a variety of popular college majors, certain areas of concentration have been developed, complete with a recommended curriculum. However, Waubonsee students should feel free to develop their own personalized course of study with the help of a counselor.**

## How to Schedule Your Classes

To successfully complete an associate degree as a full-time or part-time student, students should work with a counselor to plan their courses each semester. Counseling has Student Academic Plan sheets that can be used as shown in the following example. Keep in mind these considerations:

- A minimum of 12 semester hours is considered full time. To complete an associate degree in two years, students must take 15-18 hours per semester.
- Check course prerequisites. Some courses must be taken in a sequence or concurrently.
- Courses may only be offered certain semesters. Work with Counseling to plan your course work each semester.
- Register early. Classes close when they fill up or can be canceled for insufficient enrollment.

- Summer session (even with limited class selection) allows students to take classes they can't fit in otherwise.
- When choosing courses, students should consult degree requirements, read program guidelines and course descriptions, fill out a Student Academic Plan worksheet, get information from their intended transfer school, and work with a counselor or advisor. Many different programs are possible, not just the ones proposed in the guidelines.
- Students should make early contact with Counseling to get help determining their intended transfer school and coordinating their courses with the school's requirements.
- Be sure to meet Waubonsee graduation requirements, including completing a petition to graduate. (Students need to do this early in the semester before they intend to complete requirements.)

## Student Academic Plan Illustration

Here's an illustration: a full-time student planning to complete an Associate in Science degree in the area of business administration in two years. The Student Academic Plan sheet has been completed; a checkmark indicates courses to be taken first semester. Call the Counseling Center (see directory).

    AVP 120 Professional Commercial Pilot .....5

    AVP 130 Professional Multiengine Rating .....3

✓ *Assessment required.*

*Note: For specific course requirements or recommendations,  
 consult with Counseling.*

**NOTE:** Students who complete the Associate in Science degree and follow the aviation pilot suggested program can transfer to a university offering aviation management as a junior-level student. See a counselor for specific information about the transfer status of this program.

The student completes all aviation pilot training at any FAA-approved flight school or equivalent military flight-training program and receives 18 semester hours of credit for AVP 100, AVP 110, AVP 120 and AVP 130 at Waubensee. This credit is officially awarded when the student completes 15 hours of credit at Waubensee. Credit may be awarded as each level of pilot training is completed or all at once. See the Dean for Technology, Mathematics and Physical Sciences. The required academic work to complete the Associate in Science degree is completed at Waubensee.

*This is ONLY an EXAMPLE. If you intend to transfer, check early with your transfer school and Counseling to ensure you're meeting ALL requirements. Transfer schools may vary in their requirements.*

\* *Students planning to attend Northern Illinois University should take HIS 121, HIS 122, PSC 100 and PSY 100.*

*Note: For specific course requirements or recommendations, consult with Counseling.*

**NOTE: Because of teacher certification requirements, transfer school requirements and WCC graduation requirements, meet with a counselor as soon as you declare education as your intended major. Note the following:**

- Many transfer institutions require attendance at an informational meeting prior to enrollment in a school of education.
- Students must successfully complete the ICTS Basic Skills Test before being admitted into most schools of education in Illinois.
- Some transfer institutions require documentation of previous work with special populations.
- Students planning to major in special education at Northern Illinois University need to contact the university's special education undergraduate advisor no later than one year prior to their admission to ensure clinical placement. Failure to do so may result in a delay of registration for the initial block sequence of courses needed for the degree.

*This is ONLY an EXAMPLE. If you intend to transfer, check early with your transfer school and Counseling to ensure you're meeting ALL requirements. Transfer schools may vary in their requirements.*

# General Studies Program

## General Studies Program

Waubonsee offers an Associate in General Studies degree and a General Studies Certificate of Achievement.

### Degree Requirements

#### **Associate in General Studies (AGS)**

*(GS10) major code*

The Associate in General Studies degree is designed primarily for students who have chosen to pursue a broad general program rather than a specific occupational-oriented or baccalaureate-oriented program. This degree is not designed to transfer to a four-year institution, and general education requirements do not meet IAI General Education Core Curriculum guidelines. Courses numbered 100-299 may be counted toward this degree.

#### I. College Requirements

##### A. Semester Hours

A total of 60 semester hours or more completed as specified in the following sections.

##### B. Grade-Points

A minimum cumulative grade point average of 2.0 (C average) in all course work taken, regular student status, and in good standing.

##### C. Academic Residency

Meet the college's academic residency requirement: a minimum of 15 semester hours in courses must have been achieved at Waubonsee, excluding CLEP and proficiency credits.

#### II. General Education Requirements

##### **Associate in General Studies**

**(AGS) ..... 29-30 sem hrs**

(Courses are 3 sem hrs unless indicated.)

##### **A. Communications..... 9 sem hrs**

**III. Elective Requirements..... 30-31 sem hrs**

Choose electives numbered 100-299 from any discipline.

**General Studies****Certificate Requirements****(GS20) major code**

This certificate signifies the completion of one year of college and is awarded to students who apply for the certificate and meet the following requirements:

- complete at least 30 semester hours of credit courses numbered 100-299.
- complete at least 15 semester hours of credit at Waubensee. Students can combine credits from traditional and distance learning courses to complete a Certificate of Achievement. Certificates are awarded at the end of the semester the course work is completed or the semester the application is submitted of the course work was previously submitted if the course work was previously completed. Original certificates are issued free of charge. Contact Graduate/Credentials Analyst to apply for the certificate (see directory).

Duplicate certificates are issued at a cost of \$5.00. Contact the Graduate/Credentials Analyst for duplicate ordering information.

# Career Education Program

## Purpose of the Career Education Curriculum

Career education programs are designed for students seeking specialized training in preparation for employment after leaving Waubonsee Community College. Both the Associate in Applied Science degree (AAS — two-year program) and certificates (usually one year or less) are offered in many technical areas. Although these programs are not primarily designed to transfer to four-year colleges and universities, Waubonsee has established articulation agreements with a number of colleges and universities, and many of the Associate in Applied Science degrees may transfer. See Counseling for more details.

## Occupational Program Guarantee

Waubonsee Community College, as an expression of confidence in its faculty, staff and educational programs, guarantees the skills of all occupational AAS degree and certificate graduates subject to the following conditions:

1. All course work for the degree or certificate must have been completed at Waubonsee Community College.
2. The student must have graduated within four years of initial enrollment.
3. The student must be employed in a job directly related to his/her program of study within two years after graduation from a Waubonsee Community College Associate in Applied Science degree or certificate program.

4. The employer must verify in writing, within 90 days of the graduate's initial employment, that the graduate lacks competency in specific technical skills as represented by the degree information printed in the college catalog.
5. The retraining is limited to courses regularly offered by the college.
6. A written retraining plan must be developed by the employer, the graduate and the appropriate instructional administrator specifying the courses needed for retraining and the competencies to be mastered.
7. Prerequisites and other admission requirements for retraining courses must be met and are not included in the courses covered by this guarantee.
8. A maximum of 15 credit hours of occupational course work is provided free of tuition under the terms of this guarantee. Lab fees and other course costs are not included.
9. All retraining must be completed within two calendar years after the claim is filed.

For further information concerning this program, contact the Executive Vice President of Educational Affairs/Chief Learning Officer (see directory).

*Some of Waubonsee's occupational programs support student participation in SkillsUSA activities. See an advisor or instructor for details.*

## Degree Requirements

### *Associate in Applied Science (AAS)*

The college recommends that all students create an educational plan with a counselor. Courses numbered 100-299 may be counted toward this degree. This degree is not intended for transfer, and general education requirements do not meet IAI General Education Core Curriculum guidelines. For information about courses in the curriculum that transfer, or about a transfer-oriented program, see a counselor.

#### I. College Requirements

##### A. Semester Hours

A total of 60 semester hours or more completed as specified in the following sections.

##### B. Grade-Points

A minimum cumulative grade point average of 2.0 (C average) in all course work taken, regular student status and in good standing. An "m" denotes major courses in which a minimum grade of C must be achieved.

##### C. Academic Residency

Meet the college's academic residency requirement: a minimum of 15 semester hours in courses must have been achieved at Waubensee, excluding CLEP and proficiency credits.

#### II. General Education Requirements

##### *Associate in Applied Science*

Theatre: THE 100, 110, 130, 201, 202, 205, 210, 220

**III. Major Field and Elective Requirements**

Students must satisfactorily complete all courses specified in the curriculum of their choice. See the individual occupational degree and certificate sections and the course descriptions for details.

**Certificate of Achievement Requirements**

Occupational certificate programs are developed and offered in areas where job-entry training and educational requirements usually can be met in less than two years. Some certificate programs are offered during evening or weekend classes. Some require that courses be taken concurrently. Some require concurrent employment in the field. Other programs are designed for students who can only take one course a semester and complete the certificate over a longer period of time. Students should check the curriculum carefully and consult with a counselor for help meeting requirements for each individual program.

To be awarded a Certificate of Achievement, students must complete the following general requirements:

- complete one of the prescribed certificate curricula;
- achieve a minimum grade of C in each major course completed at Waubonsee;
- complete at least one-half of all credit hours at Waubonsee.

Although academic requirements may change with each edition of the college catalog, students are responsible for the certificate or degree requirements that are specified in the official college catalog at the time the student completes his/her first credit course. A student may elect to follow the certificate or degree requirements set forth in any subsequent catalog if the student completes a credit course during that catalog's effective dates. Requirements may not be combined from different catalogs. No student may graduate using the requirements of a Waubonsee Community College catalog that is more than five years old prior to the date of graduation.

In the case of curriculum changes and the cancellation or withdrawal of courses, every effort will be made to substitute current course work to fulfill certificate or degree requirements. Course substitutions must be approved in writing by the appropriate Dean or the Assistant Vice President of Instruction. The student has the ultimate responsibility to fulfill the requirements for the certificate or degree, to check the eligibility to take courses and to observe the academic rules governing the program. A degree or certificate cannot be awarded if the program has been withdrawn.

Certificates are awarded at the end of the semester the course work is completed or the semester the application is submitted if the course work was previously completed. Application for Certificate forms can be found at MYWCC; or you may contact the Graduate/Credentials Analyst.

Original certificates are issued free of charge. Duplicate certificates are issued at the cost of \$5.00. Contact the Graduate/Credentials Analyst for duplicate ordering information.

**NOTE:** The letter "m" in a curriculum listing indicates a major course in which a minimum grade of C must be achieved.

## Occupational Program Descriptions

Each occupational program offered at the college is described in the following sections. These programs are designed as career education and are not intended to transfer.

Although most Associate in Applied Science (AAS) degrees can be accomplished in two years of full-time study, some may require additional time because of class scheduling criteria or because of required practicums or additional course work. For example, the Interpreter Training program specifically requires an additional session following the standard program. Students should work closely with their counselors to anticipate required course work in each individual program they start.

The list below shows all Associate in Applied Science (AAS) degrees and Certificates of Achievement offered at Waubensee Community College. For additional AAS degree and certificate curricula offered in cooperation with other community colleges, see "Cooperative Agreements" in the Career Connections section of this catalog.

# Career Education Degrees and Certificates

# Accounting

## Accounting

### Associate in Applied Science Degree

(010A) major code

This program prepares the student for entry-level positions or to be a junior member of the accounting staff of a private business, industrial enterprise, public accounting firm or governmental agency. Emphasis is on the financial record keeping aspects of accounting and the preparation and analysis of reports as a basis for managerial decisions.

#### General Education Requirements ..... 15

COM 100	or 121	or 201	Communications	3
ENG 101	or 151		English	3
ENG 102	or 152	or 153	English	3
MTH 104			Business Mathematics	3
			Economics elective	3

#### Accounting Major Program Requirements ..... 20

m	ACC 120*		Financial Accounting	3
m	ACC 121		Managerial Accounting	3
m	ACC 130		Payroll Accounting	2
m	ACC 201		Individual Tax Accounting	3
m	ACC 220		Intermediate Accounting I	3
m	ACC 230		Microcomputer Accounting Applications	3
m	ACC 240		Cost Accounting	3

#### Additional Program Requirements ..... 15

BUS 100			Introduction to Business	3
BUS 210	or 211		Business Law	3
CIS 110			Business Information Systems	3
CIS 112			Comprehensive Excel Spreadsheet	3
MGT 200			Principles of Management	3

#### Electives ..... 10

Select electives from: Accounting (ACC), Business (BUS), Computer Information Systems (CIS), Construction Management (CMT), Economics (ECN), Entrepreneurship (ETR), Finance (FIN), Management (MGT), Marketing (MKT), Real Estate (REL), Tourism (TOU), World Wide Web/Internet (WEB)

#### PROGRAM TOTAL ..... 60

\* Students with a grade point average below a 3.0 should consider taking ACC 115 Fundamentals of Accounting or MTH 104 Business Math before taking ACC 120. Students who choose ACC 115 may apply it as an elective in this program.

- See course choices listed on pages 72-73.
- m Major course requires minimum grade of C.

#### Job Titles

- Accountant
- Accounting Associate
- Auditor
- Billing Associate
- Bookkeeper
- Payroll Associate
- Tax Preparer

#### About the Occupation

Accountants generally work in one of four major areas. Public accountants are employed primarily in auditing, taxation or consulting businesses. Management accountants provide financial guidance and planning for a company. Government accountants maintain and examine the records of government agencies and audit private businesses that are subject to government regulations. Internal auditors review their company's operations.

#### Highlights of Waubonsee's Program

- Earn college credit and gain hands-on experience preparing taxes for low to moderate-income families in the Volunteer Income Tax Assistance (VITA) program. Waubonsee has participated since 2005.
- Waubonsee Community College is accredited by Alpha Beta Gamma International Business Honor Society to initiate members into the honor society for business and related professional disciplines. For additional information visit [www.abg.org](http://www.abg.org).

#### Professional

#### Certification Opportunities:

- Certified Public Accountant (CPA)—To sit for the CPA examination in Illinois, the candidate must have 150 hours of acceptable college level education, including at least a bachelor's degree. Twenty-four semester hours must be in accounting (see page 78); an additional 24 hours in business courses are required.
- Certified Management Accountant (CMA)—The CMA is a national program with no state affiliates. The candidate must have senior standing at an accredited college or university, hold a baccalaureate degree in any field, or have passed a state CPA examination. Anyone who has passed a state CPA exam is given credit for part two of the CMA exam.
- Fundamental Payroll Certification (FPC) - The FPC is open to all those who wish to demonstrate a baseline of payroll competency. The FPC is designed for entry-level payroll professionals and professionals serving the payroll industry.

## Accounting

### Certificate of Achievement

(013A) major code

The certificate in accounting is given for completion of the accounting sequence of courses. The certificate acknowledges proficiency in accounting and prepares the student for entry-level or junior accountant positions.

#### Course Requirements

m	ACC	120	Financial Accounting.....	3
m	ACC	121	Managerial Accounting.....	3
m	ACC	201	Individual Tax Accounting	
<b>or</b>				
m	ACC	205	Business Tax Accounting.....	3

# Administrative Office Systems

## Job Titles

- Office Manager
- Administrative Assistant
- Legal or Medical Secretary
- Secretary or Receptionist
- Records Manager

## About the Occupation

Secretarial and administrative office personnel are at the center of the communications hub in any organization. Efficiency in business operations depends on processing and transmitting information to staff and others. These support positions can be found in virtually all industries.

## Highlights of Waubensee's Program

- Waubensee offers hands-on training using all the latest software for word processing, spreadsheets, databases and presentations.
- Waubensee Community College is accredited by Alpha Beta Gamma International Business Honor Society to initiate members into the honor society for business and related professional disciplines. For additional information visit [www.abg.org](http://www.abg.org).

## Professional

### Certification Opportunities:

- *Internet and Computing Core Certification (IC3)*
- *Certified Professional Secretary (CPS) or Certified Administrative Professional (CAP)* — Students who earn the Administrative Assistant AAS degree, or the Office Skills or Office Essentials Certificate of Achievement, may be eligible to earn these designations from the International Association of Administrative Professionals (IAAP). Students who successfully complete the national exam and have the appropriate work experience and college education receive the credential.

## Administrative Assistant

### Associate in Applied Science Degree

(031A) major code

The administrative assistant degree combines a well-balanced academic grounding with administrative assistant instruction, giving graduates the expert office skills and in-depth software knowledge needed to hold positions of responsibility and importance in many areas of the business world. This program helps raise the office skills of the student to a professional level through courses emphasizing teamwork and project management, and also gives the student a technical background through completion of technical skills courses. Overall, it provides the student a mature understanding of professional responsibilities and minimizes the need for additional on-the-job training.

# Art

## Job Titles

- Craft Artists
- Painters
- Sculptors
- Illustrators
- Merchandise Displayers

## About the Occupation

The talent and skills of a studio artist can be appreciated in so many places outside of an art gallery. Captivating billboards, appealing window displays and custom-painted automobiles are just a few examples of studio artists at work. Successful artists learn a broad range of artistic skills that lead to an array of artistic vocations. These skills, however, are first attained in the studio classroom.

## Highlights of Waubonsee's Program

Students develop a professional portfolio that can help them land a job after graduation.

## Studio Art

### Certificate of Achievement

(912A) major code

(ICCB Approval Pending)

This certificate is an occupational certificate to develop basic art studio skills. Typical job opportunities include art administrator, artist, auto detailer/pin-striper, billboard artist, cartoonist, courtroom sketcher, display/set designer, fashion artist/designer, illustrator, muralist, studio potter and tattoo artist.

# Auto Body Repair

## Auto Body Repair Business Operations

### Associate in Applied Science Degree

(700A) major code

This degree gives the student the technical knowledge and experience to gain employment or advance in the auto body repair industry. It is intended for those students interested in owning, operating or managing an auto body repair business. The basic and advanced Certificates of Achievement in auto body repair are built into this degree, allowing the student to complete the degree after having completed the certificates. Auto body courses are accredited by the National Institute for Automotive Service Excellence. Students who successfully complete all auto body courses are prepared to take the ASE's Auto Body Certification Exam.

<b>First Semester</b> .....	<b>14</b>
m ABR 100 Auto Body Welding.....	2

<b>PROGRAM TOTAL</b> .....	<b>61</b>

• See course choices listed on pages 72-73.

m Major course requires minimum grade of C.

\* ABR298 or ABR299 may be substituted.

#### Job Titles

- Automotive Body Painter
- Automotive Body Repairer

#### About the Occupation

While automotive technology continues to advance, the need will always exist for highly skilled automobile body repair personnel. These individuals repair or replace damaged parts and paint vehicles of all types. The equipment they use ranges from simple hand tools to computerized alignment equipment.

#### Highlights of Waubonsee's Program

- The program is structured around Automotive Service Excellence (ASE) Standards.
- Students get real-world experience working on a wide variety of vehicles.
- Students learn body repair techniques using basic manual and sophisticated computer-controlled equipment.
- Students learn conventional solvent-based painting techniques and environmentally friendly water-borne techniques.

**NOTE:** All students enrolled in the automotive technology or auto body programs are required to provide their own hand tools, safety glasses, protective clothing and safety shoes. A list of specific requirements for the program is available from the automotive parts store in Akerlow Hall and is distributed to students the first week of classes.

## Enrolling in the Auto Body Repair Program

For either the basic or advanced certificate, students are required to enroll in the entire program. Both programs begin in the fall semester only.

Prior to enrolling, students are required to fill out the New Student Information Form (see back of this catalog) and pass the college's reading assessment test.

## Basic Auto Body Repair Certificate of Achievement

(703A) major code

This certificate provides students with the knowledge and skills for paint preparation and basic body repair, which prepares an individual for entry level positions within the collision repair industry.

### Course Requirements

m	ABR	100	Auto Body Welding.....	2
m	ABR	105	Sheet Metal Repair .....	2

# Automotive Technology

## Automotive Technology Associate in Applied Science Degree

(710A) major code

The Associate in Applied Science degree (AAS) provides students a background in the various phases of automotive technology. It gives students the necessary background to seek employment in areas indicated in the automotive Certificates of Achievement. In addition, it provides the back ground necessary to work as a lab technician. The degree is generally accepted at four-year schools that also offer an automotive degree leading to jobs in sales, service, research and development and education. This degree and the automotive technology certificates prepare the student to take certain ASE certification tests sponsored by the National Institute for Automotive Service Excellence. Our program is a master ASE certified training program and a master NATEF certified program.

<b>PROGRAM TOTAL</b> .....		<b>62</b>

m *Major course requires minimum grade of C.*

NOTE: All students enrolled in the automotive technology or auto body programs are required to provide their own hand tools, safety glasses, protective clothing and safety shoes. A list of specific requirements for the program is available from the automotive parts store in Akerlow Hall and is distributed to students the first week of classes.

### Job Titles

- Automotive Technician
- Automotive Lab Technician
- Automotive Service Manager
- Automotive Parts/Equipment Salesperson
- Automotive Technical Instructor
- Automotive Technical Writer

### About the Occupations

As automotive technology becomes increasingly sophisticated, the knowledge and skills required by automotive technicians is constantly changing. Today's automotive technicians must possess a strong mechanical aptitude and a sound understanding of automotive electronics and computer controls. They must be skilled problem solvers who are often called upon to quickly and accurately diagnose and repair the most hard-to-find problems.

### Highlights of Waubonsee's Program

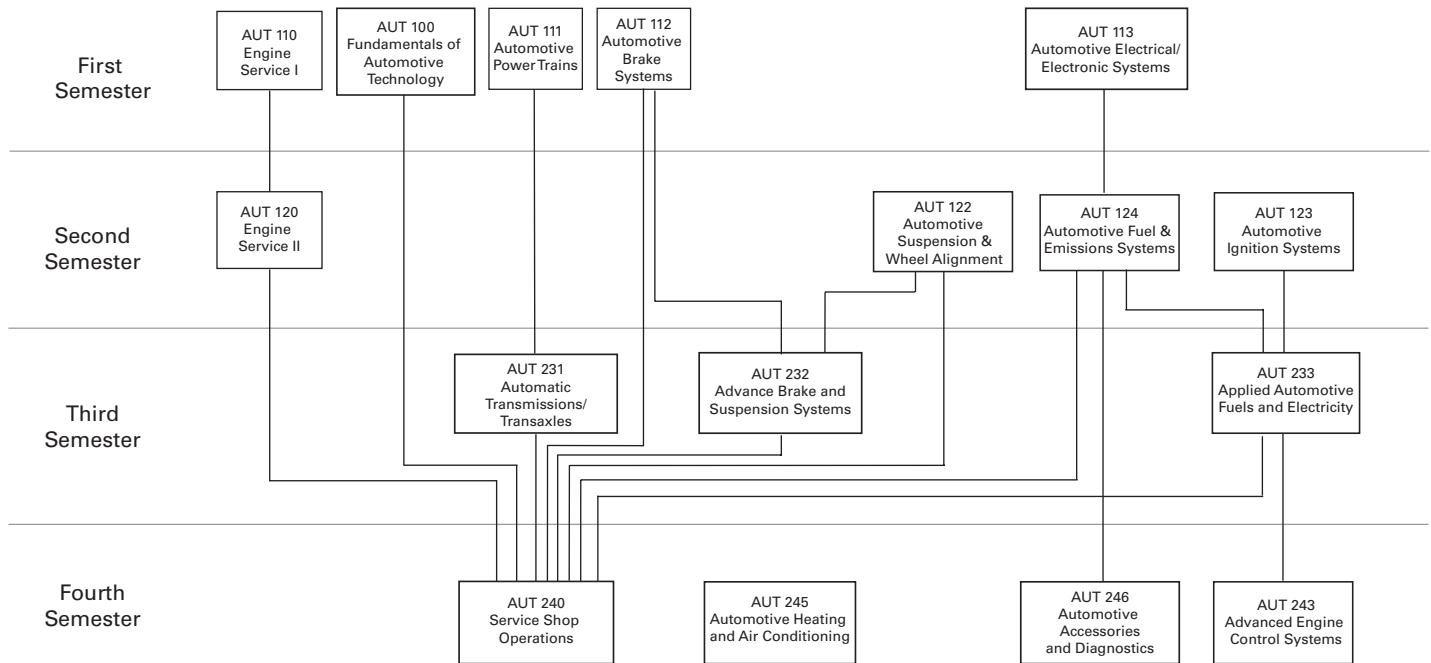

- Waubonsee's automotive technology program has been ranked first in the nation, having won the national Award of Excellence from the Automotive Industry Planning Council (AIPC) in 2007. In 2006, the auto program had been ranked fourth in the nation by the AIPC.
- Waubonsee students have received more than 70 awards at SkillsUSA competitions over the years.
- The program is structured around standards established by the Automotive Service Excellence (ASE) Foundation.
- Waubonsee Community College's automotive program has received Master Automotive Service certification by the National Automotive Technicians Education Foundation.

### Professional Certification Opportunities

Waubonsee's program prepares students to pass a variety of Automotive Service Excellence (ASE) Foundation certifications

## Automotive Technology Courses Sequence

## Automotive Brake and Suspension

### Certificate of Achievement

(716A) major code

This certificate is a comprehensive program covering the fundamentals of both front- and rear-wheel drive suspension and alignment. Additionally, the student learns to repair and overhaul brake systems for both domestic and foreign cars. Hydraulic systems are diagnosed and repaired, including master cylinders. Drum/disc brake diagnosis and repair include measuring and machining of brake drums/rotors. Anti-lock brake systems are covered. After successful completion of the certificate, the student should be eligible to take ASE's Brakes Exam and the Suspension and Steering Exam.

#### Course Requirements

m	AUT 100	Fundamentals of Automotive Technology	2
m	AUT 112	Automotive Brake Systems	3
m	AUT 122	Automotive Suspension and Wheel Alignment	3
m	AUT 232	Advanced Brakes and Suspension Systems	3

**PROGRAM TOTAL** ..... 11

m Major course requires minimum grade of C.

## Automotive Electrical/Electronics

### Certificate of Achievement

(715A) major code

Electrical/electronics troubleshooting and maintenance is the fastest growing area of the automotive repair business. It is also the most complex. The program progresses from understanding the basic electrical system (12-volt) to the intricacies of accessories diagnostics and repair. Competency and accuracy in the use and calibration of basic electrical/electronics measuring tools (DC voltmeter, oscilloscope, etc.) are emphasized. After successful completion of the certificate, the student should be eligible to take ASE's Electrical Systems Exam.

#### Course Requirements

m	AUT 113	Automotive Electricity/Electronics Systems	3
m	AUT 123	Automotive Ignition Systems	3
m	AUT 233	Applied Automotive Fuels and Electricity	3
m	AUT 243	Advanced Engine Control Systems	3
m	AUT 246	Automotive Accessories and Diagnostics	3

**PROGRAM TOTAL** ..... 15

m Major course requires minimum grade of C.

**Automotive Technology**

**Automotive Maintenance  
Certificate of Achievement**

(713A) major code

This certificate program provides students with basic knowledge to diagnose and repair all automotive systems, both foreign and domestic. With an emphasis on diagnosing problems quickly and accurately, students learn to develop a comprehensive work plan or checklist based on customer complaints and preliminary diagnostics. State-of-the-art tools and diagnostic equipment are available to aid students in their skill development. Students pursuing this certificate should seriously consider completing the Associate in Applied Science degree. After successful completion of the certificate, the student should be eligible to take one or all eight of ASE's automotive certification exams.

m *Major course requires minimum grade of C.*

**Automotive Transmission and Driveline  
Certificate of Achievement**

(717A) major code

This certificate covers manual drive train/final drive and automatic transmissions/transaxles. To be proficient in this area, one has to have a broad knowledge of all the areas directly related to power trains, i.e., engine operation, brakes and suspensions. These related topics are adequately covered in the certificate course of study. The ability to accurately diagnose and trouble-shoot in-vehicle transmission/ transaxle is an important learning outcome. The presentation is hands-on and students get to repair and test a wide variety of transmissions. After successful completion of the certificate, students should be eligible to take ASE's Automatic Transmission/Transaxle Exam and Manual Drive Train and Axle Exam.

**Course Requirements**

m	AUT	100	Fundamentals of Automotive Technology .....	2
m	AUT	110	Engine Service I .....	3
m	AUT	111	Automotive Power Trains .....	3
m	AUT	231	Automotive Transmissions/Transaxles .....	3
m	AUT	232	Advanced Brakes and Suspension Systems .....	3
m	AUT	240	Service Shop Operations .....	3

**PROGRAM TOTAL** ..... **17**

m *Major course requires minimum grade of C.*

**Engine Performance  
Certificate of Achievement**

(714A) major code

This certificate focuses on all aspects of driveability issues, from fuel injection to computer controls. Hands-on topics move from the routine (engine design and operation) to the complex (fuel and emission systems). This certificate enables the student to gain entry-level employment in automotive dealerships, independents, and fleet service facilities. After successful completion of the certificate, the student should be eligible to take ASE's Engine Performance Exam.

**Course Requirements**

m	AUT	110	Engine Service I .....	3
m	AUT	113	Automotive Electricity/Electronics Systems .....	3
m	AUT	123	Automotive Ignition Systems .....	3
m	AUT	124	Automotive Fuel and Emission Systems .....	3
m	AUT	233	Applied Automotive Fuels and Electricity .....	3
m	AUT	240	Service Shop Operations .....	3
m	AUT	243	Adv. Engine Control Systems .....	3
m	AUT	246	Automotive Accessories and Diagnostics .....	3

m *Major course requires minimum grade of C.*

## Automotive Recycling Certificate of Achievement

*(718A) major code*

The Automotive Recycling Certificate of Achievement prepares graduates for positions in the automotive recycling industry. The program develops dismantling, parts grading, and quality control skills. Coursework also focuses on following environmental best practices during automotive recycling.

### Course Requirements

m	AUT211	Automotive Recycling Basics .....	1.5
m	AUT212	Environmental Standards for Automotive Recycling .....	1.5
<b>PROGRAM TOTAL .....</b>			<b>3</b>

m *Major course requires minimum grade of C.*

# Computer-Aided Design and Drafting

## CAD – Computer-Aided Design and Drafting

### Associate in Applied Science Degree

(200A) major code

This curriculum is for students who wish to enter CAD technologies as a mechanical drafter, mechanical design technician, CAD technician, CAD operator, engineering assistant or architectural assistant. The curriculum includes courses in mechanical and architectural design; related technologies; and a foundation in mathematics, science and communication.

#### General Education Requirements ..... 19-20

COM 100	<b>or</b> 121	Communications	3
ENG 101	<b>or</b> 151	English	3
ENG 102	<b>or</b> 153	English	3
MTH 112	Plane Trigonometry <b>or</b> 131	Calculus I	3-4
PHY 111	Introduction to Physics I		4
	Social Science elective •		3

#### CAD Major Program Requirements ..... 25

m	CAD 100	Basic Technical Drawing	3
m	CAD 102	Introduction to 2-D CAD	3
m	CAD 120	2-D CAD Detailing and Layout	3
m	CAD 200	Introduction to 3-D CAD Modeling	3
m	CAD 220	Design Visualization	2
m	CAD 240	Parametric Part Modeling	3
m	CAD 270	Product Design and Development	3
m	IDT 134	Metrology	2
m	IDT 270	Materials of Industry	3

(continued on next page)

#### Job Titles

- Mechanical Drafter
- Tool Design Drafter
- Structural Drafter
- Architectural Drafter
- Computer-Assisted Design Technician
- Product Drafter

#### About the Occupation

Nearly everything manufactured and built in today's society starts with computer-generated drawings. Drafters and designers work in a variety of industries, including manufacturing, construction and architecture. Using the latest computer-aided design (CAD) systems, they create both 2-D and 3-D drawings for everything — from the simplest products like a plastic cup to the largest and most complex structures such as bridges and skyscrapers.

#### Highlights of Waubonsee's Program

- The CAD lab's 3-D printer allows students to print out small plaster-like prototypes of their designs in about an hour, so they can better visualize and verify their ideas.
- Students get to practice reverse engineering using the 3-D laser scanner.
- Students can develop 2-D, 3-D and parametric modeling skills.
- Students may specialize in areas like mechanical design, 3-D modeling and architectural drafting.
- Courses like Manufacturing Processes, Machine Tool Basics and Metrology give students the comprehensive knowledge they need to become effective product designers.

**Electives and Emphasis Areas ..... 15-16**

Students wanting to specialize in a particular computer-aided design and drafting area should select electives from one emphasis area; students wanting a more general approach can select any electives from the categories listed.

**Mechanical Design Emphasis**

Students who are preparing to work in careers involving machine design, product design or packaging design are encouraged to select from the following electives.

CAD 210	Geometric Dimensioning and Tolerancing .....	3
CAD 242	Applied 3-D Parametric Part and Assembly Modeling .....	3
IDT 130	Manufacturing Processes .....	3
IDT 132	Machine Tool Basics .....	3
IDT 218	Strength of Materials .....	3
IDT 280	Quality Management for Industry .....	3
CAD 297	CAD Internship .....	1
CAD 298	CAD Internship .....	2
CAD 299	CAD Internship .....	3

**Architectural Design Emphasis**

Students who are preparing to work in careers involving architectural, structural or civil drafting and design are encouraged to select from the following electives.

CAD 110	Interior Design .....	3
CAD 140	Residential Architectural Drafting .....	3
CAD 170	Commercial Architectural Drafting .....	3
CAD 176	Structural Drafting .....	3
CAD 180	Civil Engineering Drafting .....	3
CAD 230	3-D Architectural Modeling Applications .....	3
CAD 297	CAD Internship .....	1
CAD 298	CAD Internship .....	2
CAD 299	CAD Internship .....	3

**PROGRAM TOTAL ..... 60**

- See course choices listed on pages 72-73.

m Major course requires minimum grade of C.

## Computer-Aided Mechanical Drafting

### Certificate of Achievement

(206A) major code

This program prepares students for immediate employment in drafting careers by providing basic and advanced experiences in computer-aided drafting. Students also gain experience in manufacturing processes and materials as they relate to the mechanical design field. This program may also be used by those already in the industry to upgrade their skills.

**Course Requirements**

m	CAD 100	Basic Technical Drawing .....	3
m	CAD 102	Introduction to 2-D CAD .....	3
m	CAD 120	2-D CAD Detailing and Layout .....	3
m	CAD 200	Introduction to 3-D CAD Modeling .....	3
m	CAD 210	Geometric Dimensioning and Tolerancing .....	3
m	CAD 220	Design Visualization .....	2
m	CAD 240	Parametric Part Modeling .....	3
m	CAD 242	Applied 3-D Parametric Part and Assembly Modeling .....	3
m	IDT 130	Manufacturing Processes .....	3
m	IDT 132	Machine Tool Basics .....	3
m	IDT 134	Metrology .....	2

**PROGRAM TOTAL ..... 31**

m Major course requires minimum grade of C.

### 3-D Modeling

#### Certificate of Achievement

(207A) major code

This certificate is designed to provide students the opportunity to learn the three dimensional modeling skills that are needed for the drafting, design, and engineering fields of employment. Classes utilize current hardware and the latest industrial quality CAD software. Students begin learning 2-D drafting, and proceed to learn how to create complex models of parts and assemblies. Whether a beginning student, or a working professional looking to take their skills to the next level, the course work in this program of study will prepare students to be productive workers in today's highly technical fields of drafting and design.

##### Course Requirements

m	CAD	100	Basic Technical Drawing .....	3
m	CAD	102	Introduction to 2-D CAD.....	3
m	CAD	120	2-D CAD Detailing and Layout.....	3
m	CAD	200	Introduction to 3-D CAD Modeling.....	3
m	CAD	220	Design Visualization.....	2
m	CAD	240	Parametric Part Modeling.....	3
m	CAD	242	Applied 3-D Parametric Part and Assembly Modeling .....	3
m	CAD	270	Product Design and Development .....	3

**PROGRAM TOTAL .....**23

m *Major course requires minimum grade of C.*

### Architectural Drafting

#### Certificate of Achievement

(208A) major code

This program provides students with skills necessary to enter the construction industry as an architectural drafter. It is intended for those needing quick entry into the field or those already in the field wishing to expand their skills.

##### Course Requirements

m	CAD	100	Basic Technical Drawing .....	3
m	CAD	102	Introduction to 2-D CAD.....	3
m	CAD	120	2-D CAD Detailing and Layout.....	3
m	CAD	140	Residential Architectural Drafting .....	3
m	CAD	170	Commercial Architectural Drafting.....	3
m	CAD	176	Structural Drafting .....	3
m	CAD	180	Civil Engineering Drafting .....	3
m	CAD	200	Introduction to 3-D CAD Modeling.....	3
m	CAD	220	Design Visualization.....	2
m	CAD	230	3-D Architectural Modeling Applications.....	3

**PROGRAM TOTAL .....**29

m *Major course requires minimum grade of C.*

# Computer Information Systems

## Job Titles

- Computer Operator
- Computer Programmer
- Computer Programmer/Analyst
- Help Desk Specialist
- Network Administrator

## About the Occupation

Computer programmers write software, lists of logical steps the computer follows to organize data, solve a problem or do some other task. Applications programmers write programs to handle specific jobs. Systems programmers usually work for organizations with large computer centers and for firms that manufacture computers or develop software. They make changes in the sets of instructions that determine how the computer handles the various jobs it has been given. Networking and the proliferation of computers in business supports new career opportunities. Network administrators are software specialists who manage environments that share resources and data. Help desk specialists assist business personnel in using the computer as an effective tool.

## Highlights of Waubensee's Program

- Each degree includes a set of five core information systems courses, along with well-defined elective choices.
- Waubensee Community College is accredited by Alpha Beta Gamma International Business Honor Society to initiate members into the honor society for business and related professional disciplines. For additional information about the society, visit [www.abg.org](http://www.abg.org).

## Computer Software Development

### Associate in Applied Science Degree

(220D) major code

This degree prepares students for computer programming occupations. A graduate from this program understands the concepts and principles involved in computer programming and is prepared to function in the business world as a programmer or programmer/analyst.

BUS 100		Introduction to Business	3
BUS 210	<b>or</b> BUS 211	Business Law	3
CIS 110		Business Information Systems	3
MGT 210	<b>or</b> MGT 200	Management	3

#### Electives ..... 3

Select electives from: Computer - Aided Design and Drafting (CAD), Construction Management (CMT), Heating, Ventilation and Air Conditioning (HVA), Industrial Technology (IDT150, IDT195, IDT250), Real Estate (REL), Welding (WLD)

#### PROGRAM TOTAL ..... 63

- See course choices listed on pages 72-73.
- m Major course requires minimum grade of C.

#### Job Titles

- Project Manager
- Site Superintendent
- Construction Manager
- Estimator
- Project Coordinator
- Contract Administrator

#### About the Occupation

Construction projects are everywhere. They include the building and modernization of homes, schools, hospitals, skyscrapers, roads, bridges, industrial parks and much more. Project managers, site superintendents, construction managers and others apply their knowledge and skills of materials, products and processes to oversee the completion of construction projects. In this vast industry, well-trained construction professionals become involved during the design and bidding phases of projects, and, after the job is awarded, they help assure that those projects are completed on time and within budget.

#### Highlights of Waubonsee's Program

- The curriculum includes a project management course where students learn the same scheduling software used by many construction firms.
- Waubonsee's program is suited for recent high school graduates as well as those who have been employed in construction and want to expand their skills for professional advancement.
- Students learn from faculty with decades of industry knowledge and hands on experience.
- Waubonsee Community College is accredited by Alpha Beta Gamma International Business Honor Society to initiate members into the honor society for business and related professional disciplines. For additional information about the society, visit [www.abg.org](http://www.abg.org).

**Construction Management****Certificate of Achievement***(732A) major code*

This certificate program provides students with basic knowledge about construction industry standards and practices, methods and materials, and career possibilities in order to augment existing trade experience or give managerial minded people a working understanding of the general construction process.

# Criminal Justice

## Criminal Justice

### Associate in Applied Science Degree

(550B) major code

The criminal justice degree is designed to meet the needs of individuals seeking employment in the field of law enforcement, corrections and security. The courses are both practical and theoretical and are supported by courses in the social sciences, natural sciences and humanities. The design of this degree, while not a transfer degree, can allow for transfer to a four-year institution with the advice of criminal justice faculty and/or counselors.

#### General Education Requirements ..... 18

COM	100	Fundamentals of Speech Communication .....	3
ENG	101	First-Year Composition I .....	3

# Early Childhood Education

## Early Childhood Education

### Associate in Applied Science Degree

(570B) major code

The early childhood education degree offers two emphasis areas — preschool teacher preparation and preschool director training. Students who complete courses in or graduate from the teacher preparation early childhood education program may find employment as preschool teachers in preschools, child care centers, family child care facilities, recreation centers, children’s camps or park districts. Students may also find positions as paraprofessional educators in public school settings including preschool, kindergarten and early elementary grades.

Waubonsee Community College is entitled to confer the Illinois Director Credential, Level I (IDC) to students who complete the early childhood education degree with an emphasis in preschool director training and fulfill the additional requirements for the IDC. Students with the early childhood education degree and the Illinois Director Credential, Level I, are eligible to apply for positions as directors of early childhood education programs. For further information regarding the Illinois Director Credential, Level I program, contact Carla Ahmann, Assistant Professor of Early Childhood Education, ext. 2311.

Early childhood education courses may transfer into related academic programs at other colleges or universities. Students must consult with the Counseling Center and the college or university they plan to attend.

#### General Education Requirements ..... 18

COM	100	Fund. of Speech Communication .....	3

m	ECE	250	Early Childhood Education Practicum.....	4

(continued on next page)

#### Job Titles

- Preschool or Child Care Director
- Preschool or Child Care Teacher
- Preschool or Child Care Assistant
- Preschool or Child Care Classroom Aide
- School Teacher Aide
- Family Child Care Provider

#### About the Occupation

The profession of early childhood education offers a wide variety of career opportunities, ranging from caring for infants and toddlers to working with school-age children to supervising child care centers and programs. Early childhood educators may choose to provide family child care services, seek employment in the corporate setting, or work in public or private preschools and child care centers.

#### Highlights of Waubonsee’s Program

- Early childhood education students often get the chance to observe at the college’s on-site child care facilities.
- Waubonsee can confer the Illinois Director Credential, Level I (IDC) to students who complete the early childhood education degree with an emphasis in preschool director training and who fulfill additional IDC requirements.

Electives ..... 18

**Teacher Emphasis**

Students who plan to teach in Early Childhood Education settings should complete their degree by choosing electives from the courses listed below.

m	ECE	102	Career Explorations in Early Childhood.....	3
m	ECE	107	Development and Guidance of the School Age Child.....	3
m	ECE	110	Infant and Toddler Care.....	3

# Electronics Technology

## Job Titles

- Electronics Technician
- Electronic Equipment Repairer
- Computer Service Technician
- Electronics Inspector
- Technical Managers
- Technical Sales Representatives
- PC Support Technicians (A+)

## About the Occupation

Electronics technicians work in business, industry and the government sector assembling and servicing electronic equipment and systems. They apply scientific, engineering and mathematical principles, and may become involved with design work, experimentation, fabrication of production prototypes, quality assurance, equipment maintenance and much more. Manufacturers of all types employ electronics technicians, with electrical equipment and machinery manufacturers accounting for more than one-third of all jobs. Electronic technicians also find employment doing scientific research and as computer technicians.

## Highlights of Waubonsee's Program

- Waubonsee's electronics technology program covers a broad spectrum of the electronics technology field. There are courses in AC and DC circuits, linear devices, digital electronics, telecommunications, PC hardware, microprocessor theory, industrial control systems and more.

## Electronics Technology

### Associate in Applied Science Degree (750A) major code

The electronics technology program prepares the graduate for entry into the occupation of servicing digital and microprocessor controlled systems. Graduates also have knowledge of linear circuits and radio frequency circuits.

#### General Education Requirements ..... 21

# Emergency Medical Technician

## Job Title

- Emergency Medical Technician-Basic
- Paramedic

## About the Occupation

People's lives depend on the quick reaction and expertise of emergency medical technicians (EMTs). EMTs treat victims of automobile accidents, heart attacks, drownings, gunshots, and childbirth at the scene. Following strict guidelines, EMTs give appropriate emergency care and then transport the sick or injured to a medical facility. The specific responsibilities of the EMT depend on the level of qualification and training.

## Highlights of Waubonsee's Program

- In EMT 120, emergency situations are simulated, with students playing the roles not only of the EMTs, but also the victims, bystanders, police officers and hospital personnel. Students then get a dose of the real thing during their 12 hours of required emergency room observation.

## Professional

### Certification Opportunities

Students who earn Waubonsee's EMT-B certificate are prepared to take either the state licensure examination, Emergency Medical Technician-Basic, or the National Registry of Emergency Medical Technician examination through the Illinois Department of Public Health. Additional education and experience offer the EMT-B certificate-holder an opportunity for employment in a variety of occupations including EMT-Intermediate, EMT-Advanced and EMT-Paramedic.

## Emergency Medical Technician – Paramedic

### Associate in Applied Science Degree (400A major code)

The Emergency Medical Technician – Paramedic degree represents collaboration between Waubonsee Community College and the Southern Fox Valley Emergency Medical Services System (SFVEMSS) Paramedic Training Program based at Delnor-Community Hospital. This degree program prepares individuals for employment as paramedics in fire departments and fire protection districts. Those entering the degree program must have a current license as an EMT-B (Emergency Medical Technician-Basic) and acceptance into the EMT-Paramedic Program at Delnor-Community Hospital.

<b>General Education Requirements</b> .....		<b>18</b>

## Emergency Medical Technician-Basic

### Certificate of Achievement

(402A) major code

This certificate program prepares individuals for employment as primary medical responder or as ambulance personnel. Those receiving the certificate are prepared to take either the state licensure examination, Emergency Medical Technician-Basic, or the National Registry of Emergency Medical Technician examination through the Illinois Department of Public Health for employment as an Emergency Medical Technician-Basic (EMT-B). Additional education and experience offer the EMT-B certificate-holder an opportunity for employment in a variety of occupations, including EMT-Intermediate and Advanced.

Students are eligible to take the state exam after successful completion of this certificate program. The State of Illinois requires that individuals possess a high school diploma or GED and be at least 18 years of age prior to certification testing. This course is also required as part of the Fire Science Technology Associate in Applied Science degree program.

#### Prerequisites

Students interested in taking this certificate program must be 17.5 years of age or older, and have either American Heart Association Basic Life Support (BLS) for Health Care Providers or American Red Cross Professional Rescuer current CPR certification on the first day of class. Proof of up-to-date immunizations and 2-step tuberculosis testing is required prior to the first emergency room experience. Students are also required to lift a pre-determined weight capacity for this course.

Contact the Dean for Health and Life Sciences for additional information (see directory).

#### Course Requirements

m EMT 120 Emergency Medical Technician-Basic + ..... 6

**PROGRAM TOTAL .....** **6**

+ *Program admission required for enrollment.*

m *Major course requires minimum grade of C.*

#### Procedure for Entering the Emergency Medical Technician Program

Students seeking admission to the Emergency Medical Technician program are required to contact the Center for Learning Assessment (see directory) to make an appointment for required assessment testing. Acceptance into the program is based on assessment results, with documentation of reading skills at the 8th grade level.

#### Program Costs

In addition to tuition and regular fees, the Emergency Medical Technician student has the following minimum fees and expenses:

Textbook .....	\$60
CPR/BLS Certification .....	\$45
IDPH Examination Fee .....	\$20
Stethoscope .....	\$15
Immunizations/TB Testing .....	per health care provider

#### Total Estimated Costs

(excluding medical requirements)..... \$140

**NOTE:** These fees and expenses are *approximate* costs and are subject to change without prior notice to the student.

# Entrepreneurship

## Job Titles

- Entrepreneur
- Small Business Owner/Manager

## About the Occupation

Countless opportunities exist for the startup and management of business ventures. Nearly all companies are small or mid-sized. These enterprises contribute greatly to our way of life and put forward about half of all jobs. Recent success stories like Twitter, Skype, Jimmy John's and hundreds of lesser known undertakings showcase just a few of the exciting opportunities inherent in entrepreneurship. Launching a new venture is not without significant risk, however, and recent studies show that proper planning and academic preparation greatly enhance an entrepreneur's chances for success. A degree in entrepreneurship not only addresses core competencies for creating, financing, and managing your own business, but also how to make use of your natural creativity and passions in order to succeed in all of your endeavors.

## Highlights of Waubonsee's Program

- As in all of Waubonsee's business programs, entrepreneurship students are encouraged to complete an internship to gain both college credit and valuable on-the-job experience.
- Waubonsee's Aurora Campus houses an Illinois Small Business Development Center (SBDC), which provides free assistance and advice to budding business owners.
- Waubonsee Community College is accredited by Alpha Beta Gamma International Business Honor Society to initiate members into the honor society for business and related professional disciplines. For additional information about the society, visit [www.abg.org](http://www.abg.org).

## Entrepreneurship

### Associate in Applied Science Degree (095A) major code

This degree aids, students who wish to major in business with a special emphasis on small business operation; and students who have or wish to have a technology background and are interested in starting their own small business. Technology areas include: automotive; electronics; auto body; construction management; industrial maintenance; machine tool; heating, ventilation and air conditioning; and real estate.

# Exercise Science

## Job Titles

- Personal Trainer
- Health and Wellness Specialist
- Fitness Instructor
- Program Director

## About the Occupation

Fitness workers and instructors lead individuals or groups of people in exercise activities. Personal trainers work one-on-one with clients to develop an individualized exercise and health program. Health and wellness specialists design and implement exercise programs for healthy individuals, as well as individuals with controlled disease. They lead health and fitness programs in a variety of settings including universities, businesses and community centers.

Fitness trainers/aerobics instructors rank fourth on the Illinois Department of Employment Security's "Vocational Training After High School" list, with a projected 659 job openings in the state each year.

## Highlights of Waubonsee's Program

- Students can complete their internship requirement on-campus at the college's Total Fitness Center or off-campus at a variety of health and fitness facilities.

## Professional Certification Opportunities

- Certified Personal Trainer (CPT)—Degree and certificate students who complete PED 234, 236, 237 and 238 are encouraged to take the exam for this certification from the American College of Sports Medicine (ACSM).
- Health/Fitness Instructor—Health and Wellness Specialist degree students are encouraged to take the exam for this certification from the American College of Sports Medicine (ACSM).

## Health and Wellness Specialist

### Associate in Applied Science Degree

(440A major code)

This two-year degree prepares the wellness specialist to assess, design and implement individual and group exercise and fitness programs for apparently healthy individuals and individuals with controlled disease. The graduate will be skilled in evaluating health behaviors and risk factors, conducting fitness assessments, writing appropriate exercise prescriptions, and motivating individuals to modify negative health habits and maintain positive lifestyle behaviors for health promotion.

# Facility Service Technology

## Job Titles

- Maintenance Technician
- Building Engineer
- Chief Engineer
- Facilities Engineer
- Building Technician
- Boiler Operator

## About the Occupation

Commercial properties, such as shopping centers, strip malls, hospitals, high-rise buildings and educational institutions, all need to be taken care of, and that is the job of the facility service technology professional. He/she needs to be a “jack-of-all-trades,” as each building has plumbing, electrical, ventilation, heating, lighting, air conditioning, refrigeration and mechanical systems that need to be repaired and maintained.

## Highlights of Waubonsee’s Program

- In completing Waubonsee’s facility service technology certificate, students will gain a broad base of knowledge in heating, ventilation and air conditioning plus industrial electricity, wiring, power distribution and mechanical systems.

## Facility Service Technology

### Certificate of Achievement

(793A) major code

Students who complete this certificate are prepared to maintain and service heating, ventilating, and air conditioning systems as well as electrical and mechanical systems that are found in commercial and industrial buildings. Coursework covers theory and provides hands-on experience. Current electrical and mechanical codes are also covered.

# Fire Science

## Fire Science Technology

### Associate in Applied Science Degree

(610A) major code

This degree is designed for individuals seeking a career in fire science. The program includes course work toward the Office of the State Fire Marshal Certifications as a Basic Operations Firefighter, Advanced Technician Firefighter, Instructor I, Hazardous Materials First Responder - Operations, Hazardous Materials Awareness, Technical Rescue Awareness, Fire Service Vehicle Operator, Vehicle and Machinery Operations, Fire Apparatus Engineer and Officer I. Students may also acquire Department of Public Health certification as an Emergency Medical Technician Assistant. All fire science courses at Waubensee are approved by the Office of the Illinois State Fire Marshal.

#### PROGRAM TOTAL ..... 62

m Major course requires minimum grade of C.

#### Job Titles

- Firefighter
- Fire Inspector
- Fire Chief
- Fire Engineer
- Fire Officer
- Fire Instructor

#### About the Occupation

Firefighting is a dangerous and complex profession. From entry-level firefighter through fire chief, they work in teams to save lives, extinguish fires and respond to a variety of emergency situations. They also help prevent fires through public education and building inspections. Firefighters participate in training and practice drills throughout their careers.

#### Highlights of Waubensee's Program

- The Waubensee fire science program is certified by the Office of the Illinois State Fire Marshal.
- Completion of Waubensee's associate degree in fire science technology prepares a student to transfer to a university and pursue a bachelor's degree.

#### Professional Certification Opportunities

- Fire Fighter II and III
- Fire Apparatus Engineer
- Hazardous Materials First Responder
- Rescue Specialist - Roadway Extrication
- Fire Instructor I and II
- Fire Officer I and II

## Enrollment and Experience

It is strongly recommended that Fire Science majors either gain employment with a fire department or volunteer with a department as early as possible. Some Illinois State Fire Marshal certifications require experience with a department in addition to course work.

**Firefighter****Certificate of Achievement***(612A) major code*

This certificate is for those interested in employment as a firefighter or for those seeking advancement in the field. This program provides course work toward the Office of the State Fire Marshal certifications as a Basic Operations Firefighter, Advanced Technician Firefighter, Hazardous Materials First Responder-Operations, Hazardous Materials Awareness, Technical Rescue Awareness, Fire Service Vehicle Operator and Fire Apparatus Engineer.

## Course Requirements

m	FSC	105	Basic Operations Firefighter I.....	4
m	FSC	115	Basic Operations Firefighter II.....	4
m	FSC	120	Hazardous Materials Operations.....	3
m	FSC	125	Advanced Technician Firefighter.....	4
m	FSC	140	Fire Apparatus Engineer.....	4
m	FSC	215	Technical Rescue and Vehicle Operations.....	1
<b>PROGRAM TOTAL .....</b>				<b>20</b>

m *Major course requires minimum grade of C.*

**Fire Officer I****Certificate of Achievement***(613C) major code*

This certificate is designed for those wishing to pursue a career in fire science as an officer. This program provides course work toward the Office of the State Fire Marshal certifications as Instructor I, Basic Operations Firefighter, Advanced Technician Firefighter, Hazardous Materials Awareness, Technical Rescue Awareness, Fire Service Vehicle Operator, Fire Officer I and Hazardous Materials First Responder-Operations.

## Course Requirements

m	FSC	105	Basic Operations Firefighter I.....	4
m	FSC	115	Basic Operations Firefighter II.....	4
m	FSC	120	Hazardous Materials Operations.....	3
m	FSC	125	Advanced Technician Firefighter.....	4
m	FSC	160	Tactics and Strategy I.....	3
m	FSC	170	Fire Science Instructor I.....	3
m	FSC	215	Technical Rescue and Vehicle Operations.....	1
m	FSC	220	Fire Inspection and Prevention.....	3

# Geographic Information Systems

## Geographic Information Systems

### Associate in Applied Science Degree

(260A) major code

The Geographic Information Systems (GIS) curriculum is designed for students who want to gain employment or advance their knowledge and skills within an industry sector that utilizes GIS. The curriculum contains core GIS courses that provide an expansive skill set and a range of electives for program customization, which allows students to tailor this degree to their specific needs and interests.

#### General Education Requirements ..... 15

COM 100	or 121	or 201	Communications	..... 3

#### PROGRAM TOTAL ..... 60

m Major course requires minimum grade of C.

#### Job Titles

- Geographic Information Systems Technician
- Mapmaker
- Surveying Technician

#### About the Occupation

Geographic Information System (GIS) technicians apply their knowledge of computers, electronics and geography to create maps and graphs using special GIS software. They work in the government sector, as well as industries such as communications, agriculture, engineering, health and human services, and education. Natural resource management groups, marketing firms, insurance companies, real estate developers and utility companies also employ GIS technicians, making this a rapidly growing field. Furthermore, GIS training can be of use to other professions such as drafting, surveying, computer programming and cartographic design.

#### Highlights of Waubonsee's Program

- Students learn in a hands-on computer lab setting.
- Upon completion of the Waubonsee GIS certificate, students have the knowledge and skills to immediately seek employment in this field.

## Geographic Information Systems

### Certificate of Achievement

(263A) major code

The certificate program offers a sequence of courses to individuals who wish to learn GIS technology to begin or complement careers in government, planning, environment, public works and other urban agencies. The program provides a solid understanding of basic GIS concepts, technical and institutional factors in GIS design and implementation, and applications of the technology in various settings.

# Graphic Design

## Graphic Design

### Associate in Applied Science Degree

(930B) major code

This program combines design theory and principles of visual communication to create computerized graphic design solutions. Emphasis is placed on utilizing visual technology software/hardware to solve electronic output problems. This course of study prepares students to develop a professional portfolio for an immediate graphic design position.

Although the intent of the graphic design AAS degree program is occupational, many courses within the program are individually articulated with four-year colleges offering graphic design programs to facilitate continued study at a four-year institution. Courses are aligned with IAI courses when possible.

#### General Education Requirements ..... 18

ENG 101	<b>or</b> 151 English	..... 3

#### PROGRAM TOTAL ..... 64

- See course choices listed on pages 72-73.
- m Major course requires minimum grade of C.

#### Job Titles

- Graphic Designer
- Web Designer
- Animator/Illustrator
- Desktop Publishing Specialist
- Production Artist

#### About the Occupation

Creating a design that is appropriate for a given product and its audience is the main concern for a successful designer. The job need for fields specializing in desktop design is expected to increase tremendously in the next decade. Designers need to continually redefine their field, and knowledge of current events and attitudes will help the designer create designs that reflect and affect society. With an expected 100 million people online in the U.S. by the middle of the next decade, and the increased use of visual messages through television and film, the need for designers to shape the messages that society reads will increase dramatically.

#### Highlights of Waubonsee's Program

- At Waubonsee, students develop a professional portfolio that can help them land a job after graduation.

## Beginning Graphic Design Certificate of Achievement

(935A) major code

This certificate program enables students to design/layout basic work for desktop publishing applications.

### Course Requirements

m	GRD	135	Desktop Publishing .....	3

**PROGRAM TOTAL .....** 40

m *Major course requires a minimum grade of C.*

There are several Web development certificates and degrees offered by both the Graphic Design and World Wide Web/Internet curriculums. The certificate and degree titles in both areas may sound similar, but there are distinct differences between the two. Your own specific background and interest will determine which certificate or degree is best for you. If you are interested in the artistic design of Web pages through the use of design software, design layout techniques, advanced use of multimedia, animation, sound and video, the Graphic Design certificates and programs are appropriate for study. If you are interested in the construction, maintenance and support of Web pages through the use of computer programming and limited Web design software, the World Wide Web/Internet certificates and degrees are appropriate. In short, the Graphic Design certificates and degree focus on the design of Web pages, while the World Wide Web/Internet certificates and degrees primarily focus on the maintenance and support of websites. Please contact Counseling (see directory) for more specific descriptions of these certificates and degrees and to discuss which one may be most appropriate for you.

## Electronic Publishing Certificate of Achievement

(943A) major code

This program addresses the emerging areas of study and vocational training in electronic publishing. Word processing, electronic typesetting, and design/layout techniques are covered, and prepress problems in desktop publishing are solved. This certificate of study trains the student in basic graphic design/graphic arts skills used by desktop specialists.

### Course Requirements

m *Major course requires minimum grade of C.*

## Animation Certificate of Achievement

(945A) major code

This certificate program enables students to develop the visual art capabilities and skills needed for a career in animation. Courses in the program incorporate skills that include the drawing basics, such as figures and characters design, adding depth and personality to animations, establishing proper emotions in animation, and state-of-the-art computer assisted animation techniques in 2-D and 3-D animation courses. The animation certificate provides students the tools to tell a story and give life to characters through the use of the most modern electronic media. Courses are taught in a state-of-the-art computer lab.

### Course Requirements

m	ART 110	Design I.....	3
m	ART 120	Basic Drawing I .....	3

m *Major course requires minimum grade of C.*

## Web Design and Publishing Certificate of Achievement

(944A) major code

This certificate program addresses the emerging area of Web page design and publishing by preparing students to create professional-level Web pages and media. The courses are designed to give students the education and hands-on experience necessary to gain an edge in the rapidly growing field of Web page design and publishing. Students will begin with Web design fundamentals and work up to advanced use of multimedia, animation, and sound and video in developing attractive and effective Web pages and publications. Courses are taught in a state-of-the-art computer lab.

# Health Care Interpreting

## Job Title

- Health Care Interpreter

## About the Occupation

Health care interpreters are bilingual individuals trained in interpretation skills and medical terminology who facilitate communication between people speaking different languages in health care settings. The occupation involves listening and understanding meaning in one language and attempting to reproduce the most equivalent meaning possible in another language.

Health care interpreting is an emerging discipline as health care settings seek to more accurately comply with the Americans with Disabilities Act and Title VI of the 1964 Civil Rights Act. Health care interpreters are trained to understand their professional role and adhere to a code of ethics while transmitting messages accurately and completely.

## Highlights of Waubonsee's Program

- Waubonsee's associate degree in HCI is the first program of its kind in the state of Illinois.
- Full-time faculty member Cynthia Perez formerly worked as the lead interpreter at Provena Mercy Center in Aurora.

## Sound Interesting?

*Students interested in this program may also be interested in Translation; see page 166.*

## Health Care Interpreting

### Associate in Applied Science Degree

(630A) major code

Health care interpreting is an applied science degree that trains bilingual individuals to be interpreters in health care settings. Currently, the degree focuses on English/Spanish interpreting. Health care interpreters facilitate communication between people who speak different languages and have different cultural backgrounds.

Structured written and oral screening tests are conducted to determine proficiency in both English and Spanish. Students must be 18 years of age or older at the time of assignment to a practicum site. Six credit hours of College Level Examination Program (CLEP) credits in Spanish may be applied to the degree as electives, and students are encouraged to earn this credit. CLEP testing is administered through the Center for Learning Assessment.

# Health Information Technology

## Job Titles

- Health Information Coder
- Medical Record Coder
- Coder/Abstractors
- Coding Specialist
- Cancer Registrar
- Medical Transcriptionist

## About the Occupation

Health information technicians help patients, doctors and insurance companies by maintaining accurate and secure medical records. The field is expected to grow thanks to the increasing digitization of medical records. These health care professionals have very little direct contact with patients, working primarily with computers in office settings at hospitals, clinics, nursing homes and other health care facilities.

## Highlights of Waubonsee's Program

- Students in the degree program gain valuable hands-on experience in two required practicum courses.

## Professional Certification Opportunities

- Certified Medical Transcriptionist (CMT) — Graduates of the Medical Transcription program are eligible to sit for the national certification exam offered by the American Association for Medical Transcription (AAMT).
- Medical Coding certifications — Students in the medical-based Administrative Office Systems programs are encouraged to investigate these certifications offered by the American Health Information Management Association (AHIMA).

## Health Information Technology Associate in Applied Science Degree (110A) major code

The health information technology degree is designed to meet the needs of individuals seeking employment in the field of health data management. The degree provides a comprehensive set of courses to learn the technology needed to assemble, organize and manage a patient's medical record. The skills and competencies learned in this degree can apply to a variety of areas in health data management: clinical work flow, information policy, billing, coding and database management.

<b>General Education Requirements</b> .....				<b>16</b>

# Heating, Ventilation and Air Conditioning

## Job Titles

- Heating and Cooling Mechanic
- Furnace/Air Conditioning Installer
- Heating, Ventilation and Air Conditioning Contractor

## About the Occupation

Heating, ventilation and air conditioning (HVAC) mechanics install, maintain and repair the heating and cooling systems that control temperature, humidity and air cleanliness in homes, schools and other buildings. Some also work on refrigeration systems. They apply knowledge of gas, oil, water and electrical systems, along with sound problem solving skills. Many work with sheet metal, piping and a variety of mechanical components such as motors, compressors, condensing units and evaporators.

## Highlights of Waubonsee's Program

- Students learn through hands-on training on "live" equipment to develop their troubleshooting skills.

## Professional

### Certification Opportunities

- Section 608 E.P.A. Refrigerant Certification

## Sound Interesting?

*Students interested in this program may also be interested in the Geothermal Certificate; see page 158.*

## Heating, Ventilation and Air Conditioning

### Associate in Applied Science Degree

*(800A) major code*

The heating, ventilation and air conditioning program provides students the skills needed to install, service and maintain commercial and residential heating, ventilation and air conditioning equipment. Upon completion of this program, students should be capable of installing a commercial or residential heating, ventilation and air conditioning system; performing routine maintenance on the unit; conducting standard tests on the unit to insure operating efficiency; and following a logical procedure to troubleshoot a mechanical or electrical problem. The program is appropriate for pre-service entry-level students, as well as current employees who desire an upgrading of their current knowledge and skills.

# Human Services

## Job Titles

- Certified Addictions Counselor
- Community Outreach Worker
- Family Support Worker
- Group Home Worker
- Mental Health Worker
- Residential Counselor
- Social Services Aide
- Youth Worker

## About the Occupation

Projected to be among the future's fastest growing occupations, human services workers are employed in a wide variety of settings under many different job titles that are all characterized by a single unifying feature — their primary job function is helping people cope with their problems.

## Highlights of Waubonsee's Program

- Because of its advanced accreditation from the Illinois Alcohol and Other Drug Abuse Professional Certification Association (IAODAPCA), graduates of Waubonsee's human services AAS degree program can become Certified Alcohol and Other Drug Abuse Counselors (CADC) and enter the workforce more quickly.
- Visits to and field experiences at local human services agencies allow students to see what career areas are a good fit for them.

## Human Services

### Associate in Applied Science Degree

(650A) major code

This program prepares paraprofessionals for employment in a variety of social service organizations. The alcohol or other drug abuse (AODA) counseling program is accredited at the advanced level by the Illinois Alcohol and Other Drug Abuse Professional Certification Association (IAODAPCA).

# Industrial Technology

## Job Titles

- Electrical and Electronic engineering Technician
- Electro-Mechanical Technician
- Mechanical Engineering Technician
- Engineering Technician
- Industrial Maintenance Mechanic
- Industrial Machine Repairer
- Maintenance Mechanic Helper
- Fluid Power Technician

## About the Occupation

Engineering technicians use their broad base of knowledge to assist engineers and scientists in a variety of areas, such as research and development, product testing, and quality control. Industrial maintenance mechanics, machinery repairers, fluid power technicians and others install, maintain and repair machinery of all types. Some also care for buildings and work on electrical, heating/cooling, hydraulic and pneumatic systems.

## Highlights of Waubonsee's Program

- Students learn in a hands-on environment that includes actual equipment as well as sophisticated training simulators.
- Emphasis areas allow students to customize their Industrial Technology degree based on their career goals.

## Industrial Technology

### Associate in Applied Science Degree (809A) major code

This degree prepares students for technical positions in a variety of venues, some of which include manufacturing, material processing, quality assurance, custom machinery fabrication and research. Students develop the knowledge and skills for jobs that require a broad-based understanding of science, math and various technologies. Engineering technician, research and development technician, field service technician, and test lab technician are just a few such positions.

#### General Education Requirements ..... 19

COM 100	<b>or</b> 121	<b>or</b> 201	Communications	3
ENG 101	<b>or</b> 151		English	3
ENG 102	<b>or</b> 153		English	3
MTH 112			Plane Trigonometry	3
PHY 111			Introduction to Physics I	4
			Social and Behavioral Sciences elective	3

m	IDT 297	<b>or</b> 298 <b>or</b> 299	Industrial Technology Internship	1-3
m	MTH 107		Basic Statistics	3

#### Electives and Emphasis Areas ..... 11-13

Students wanting to specialize in a particular industrial technology area should select electives from one emphasis area; students wanting a more general approach can select any electives from the categories listed.

#### *Electronic Equipment Emphasis*

Students who plan to work on the design, development, testing and/or servicing of sophisticated, electronically controlled products and equipment are encouraged to select from the following electives.

ELT 101			Introductory Electronics	4
ELT 111			Circuit Analysis I (DC)	4
ELT 112			Circuit Analysis II (AC)	4
IDT 115			Motor Controls I	3
IDT 125			Machine Repair	3
IDT 215			Motor Controls II	3
IDT 240			Programmable Controllers	3

(continued on next page)

**Laboratory Testing Emphasis**

Students who plan to work in research and testing laboratories operating test equipment and machinery, running experiments, analyzing test data and writing reports are encouraged to select from the following electives.

CAD 270	Product Design and Development	3
CHM 101	Introduction to Chemistry Laboratory	1
CIS 112	Comprehensive Excel Spreadsheet	3
CMT 111	Construction Materials	3
ELT 101	Introductory Electronics	4
ELT 111	Circuit Analysis I (DC)	4
ELT 112	Circuit Analysis II (AC)	4
ENG 153	Business Communication- Technical Writing	3
IDT 195	Blueprint Reading	2
IDT 218	Strength of Materials	3
WLD 150	Metallurgy and Heat Treatment	3

**Machinery Design Emphasis**

Students who plan to work on the design, fabrication and/or servicing of automated machinery are encouraged to select from the following electives.

CAD 102	Introduction to 2D CAD	3
CAD 120	2D CAD Detailing and Layout	3
ELT 101	Introductory Electronics	4
IDT 115	Motor Controls I	3
IDT 120	Hydraulics	3
IDT 125	Machine Repair	3
IDT 195	Blueprint Reading	2
IDT 215	Motor Controls II	3
IDT 218	Strength of Materials	3
IDT 220	Pneumatics	3
IDT 240	Programmable Controllers	3
WLD 100	Survey of Welding	3

**Product Design Emphasis**

Students who plan to work with engineers on the design and development of manufactured products are encouraged to include the following courses in their selection of electives.

CAD 120	2D CAD Detailing and Layout	3
CAD 210	Geometric Dimensioning and Tolerancing	3
CAD 240	Parametric Part Modeling	3
CAD 270	Product Design and Development	3

**Electives**

Electives may be selected from the disciplines and courses listed.

Disciplines: Computer-Aided Design and Drafting (CAD), Electronics Technology (ELT), Industrial Technology (IDT), Renewable Energy Technologies (RET), Welding (WLD)

CHM 101	Introduction to Chemistry Laboratory	1
CIS 112	Comprehensive Excel Spreadsheet	3

**Basic Industrial Maintenance  
Certificate of Achievement**

*(812B) major code*

The Basic Industrial Maintenance Certificate of Achievement prepares an individual for a variety of entry level positions related to manufacturing, machinery repair, and industrial maintenance. It helps that individual identify areas for career advancement and specialization by presenting a broad overview of industrial tools, systems, equipment, and maintenance operations that includes basic hands-on lab work. It also covers employer expectations with emphasis on issues related to safety and quality.

**Course requirements**

m IDT 110 Introduction to Industrial Maintenance ...3

**PROGRAM TOTAL .....3**

## Industrial Maintenance Management

### Certificate of Achievement

(818A) major code

This Industrial Maintenance Management Certificate provides the graduate with a broad overview of industrial technology and a skill set in specific maintenance areas. Together with business and management coursework, it prepares the graduate to assume a supervisory position over maintenance workers and to advance towards management positions with industry.

#### Course Requirements (Technical) ..... 15

m	IDT	110	Introduction to Industrial Maintenance .....	3
m	IDT	115	Motor Controls I .....	3
m	IDT	125	Machine Repair .....	3
m	HVA	100	Basic Electricity for HVAC .....	3

m	MGT	215	Human Resource Management.....	3

#### PROGRAM TOTAL ..... 30

m Major course requires minimum grade of C.

These certificates prepare students to work in Computer-aided Machining (CAM) venues where Computer Numerical Control (CNC) technology is applied. Students can learn to operate CNC machining centers, or they can build their computer-aided design (CAD) knowledge to learn how to program and operate sophisticated CAD/CAM machinery.

## CNC Operator Certificate of Achievement

(822A) major code

The CNC Operator Certificate of Achievement is designed to impart entry-level skills to the student desiring employment in the high tech manufacturing arena. Basic knowledge in manual machining provides a foundation for producing machine code, uploading the code, setting up and operating numerically controlled machine tools.

#### Course Requirements

m	IDT	132	Machine Tool Basics .....	3
m	IDT	160	Introduction to Computer Numerical Control .....	3
m	IDT	195	Blueprint Reading (2)	
<b>or</b>				
	CAD	100	Basic Technical Drawing (3) .....	2-3

#### PROGRAM TOTAL ..... 8-9

m Major course requires minimum grade of C.

## Advanced CAD/CAM Certificate of Achievement

(820A) major code

This curriculum is intended for students wishing to study advanced computer-aided manufacturing techniques. Possible job positions in industry include two-axis and three-axis machine programmer/operators.

#### Course Requirements

m	CAD	100	Basic Technical Drawing .....	3
m	CAD	102	Introduction to 2-D CAD.....	3
m	CAD	200	Introduction to 3-D CAD Modeling.....	3
m	CAD	210	Geometric Dimensioning and Tolerancing.....	3

+ Program admission required for enrollment.

#### Job Titles

- Interpreter for the Deaf
- Sign Language Interpreter

#### About the Occupation

Sign language interpreters facilitate communication between individuals who are deaf or hard of hearing and those who can hear. The interpreter is considered to be a bilingual/ bicultural mediator in the communication exchange. Those engaged in conversation rely heavily on the skill, fluency, professionalism and ethical behavior of the interpreter. The interpreter is an integral part of the communication exchange.

#### Highlights of Waubonsee's Program

- In 1975, Waubonsee became the first college in the state to design an interpreter training program.
- The program utilizes technology to create a rich visual learning environment. Students' signing performances are captured by digital video cameras, uploaded to a computer and then reviewed by both the student and the instructor.

**Procedure for Entering the Interpreter Training Program**

Waubonsee offers a full-time Interpreter Training Program which must be completed in a block fashion. Students are eligible to register for Interpreter Training (ITP) courses after completing the following steps:

1. Meet with Counseling to establish a schedule for taking the Sign Language (SGN) classes.
2. Complete all SGN courses with a grade of C or better and a cumulative grade point average of 3.0 or higher in the SGN classes.
3. Submit an ITP application by April 1.
4. Earn acceptable scores on the ITP admissions test. Contact the Center for Learning Assessment for more information on the ITP admissions test and scores. Recommended testing time is between May and November the year before the fall start time for ITP. Testing must be completed by May 1 before starting ITP that fall.
5. Complete the last SGN course within 18 months of your planned start date for ITP. This requirement can only be waived by the Dean for Humanities, Fine Arts and Languages when the student has documented interpreting experience.

**Procedure for Completing the Interpreter Training Program**

To complete the Interpreter Training Program with a certificate or degree, students must complete the following steps:

1. Complete all ITP courses with a grade of C or better.
2. Complete all ITP courses within a three-year time period. Exceptions can only be granted by the Dean for Humanities, Fine Arts and Languages.
3. Complete all practicum hours.

Scheduling Note: SGN courses are offered during the day and evenings, but not all courses are offered every semester. Since all SGN courses must be completed before entering any ITP courses, please consider this when scheduling. ITP courses are only offered during the day. Students may repeat a course only once.

For additional information, contact the Dean for Humanities, Fine Arts and Languages (see directory).

**Interpreter Training  
Certificate of Achievement**

(662A) major code

Students must successfully complete the sign language certificate before enrolling in the following courses to achieve the interpreter training certificate. Because sign language courses are prerequisites, this certificate will require two years for completion.

**Course Requirements**

m	ITP	200	Introduction to Interpreting + .....	3
m	ITP	210	Etymology for Interpreters + .....	3
m	ITP	211	Transliterating I + .....	3

m	SGN	108	Conceptually Accurate Signed English.....	3
m	SGN	110	Introduction to American Deaf Culture .....	3

**PROGRAM TOTAL** ..... **24**

m Major course requires minimum grade of C.

# Legal Interpreting

## Legal Interpreting Certificate of Achievement (621A) major code

Legal interpreting is a certificate of achievement that provides English/Spanish bilingual individuals the knowledge and skills to interpret successfully in legal settings. Students learn the procedures and processes of the American justice system, specialized legal vocabulary, and the legal interpreter's code of ethics and standards. Students also receive targeted practice with the three modes of legal interpreting: consecutive, simultaneous and sight translation. The certificate curriculum helps prepare graduates for the Consortium for State Interpreter Certification examination.

Structured written and oral screening tests are conducted to determine proficiency in both English and Spanish. Students must be 18 years of age or older at the time of assignment to a practicum site.

### Course Requirements

m	CRJ	120	The American Court System .....	3
m	LGI	100	Introduction to Legal Interpreting.....	3
m	LGI	105	Legal System and Terminology + .....	3
m	LGI	110	Legal Interpreting: Simultaneous, Consecutive and Sight + .....	3
m	LGI	290	Legal Interpreting Seminar and Field Experience + .....	3
m	TRA	100	Introduction to Translation .....	2

**PROGRAM TOTAL .....** 17

- + Program admission required for enrollment.
- m Major course requires a minimum grade of C.

### Job Titles

Legal Interpreter

### About the Occupation

A legal interpreter is a bilingual individual who translates in a legal setting, including local and state courts. Many court interpreters work on a freelance basis. Legal interpreters are also hired by attorneys for depositions, civil cases and other pre-trial assignments. Upon further study of translation, which deals with the written rather than the spoken word, students could prepare for court and legal translation and transcription positions or freelance work. Waubonsee's program is for individuals who are bilingual in English and Spanish.

### Highlights of Waubonsee's Program

- The legal interpreting program is the only one of its kind in the region. This program targets bilingual (English/Spanish) individuals who seek entry-level training and skills, as well as working interpreters who need more formal training. Entry level wages are significantly above minimum wage, and with experience, provide middle-class income.
- The Bureau of Labor Statistics projects the interpreters and translators occupation to grow faster than the average through 2016. The BLS projects the occupation to grow by 24 percent with the fastest growth in the health care and legal fields.

# Library and Information Studies

## Job Titles

- Library Technical Assistant
- Library Aide
- Library Clerk
- Library Technician

## About the Occupation

Jobs in today's libraries are not focused entirely on books. A Library Technical Assistant today works a great deal with computers, data input, and audio-visual equipment. The job demands highly developed customer service skills, attention to details, and critical thinking skills.

The library job market continues to be ranked as a top 10 job market in most surveys. The LTA degree indicates to a prospective employer that this job candidate has up-to-date training and equipment expertise. An LTA can work in any type of library, from public school to specialized technical libraries. While the actual job tasks vary from library system to library system, an LTA might enter cataloging information about books into the library computer system, set up equipment for a meeting, run a children's story time, check out books to patrons, create promotional materials for library events, or do the acquisitions processing of materials. LTA students have a passion to help life-long learning.

## Highlights of Waubonsee's Program

- In 2007, the American Library Association developed national certifications for library support staff. The Waubonsee LTA program is approved by ALA as a course provider for this national certification. Currently all Library Support Staff Certification (LSSC) competencies are addressed in Waubonsee coursework. Students with national certifications are usually considered for better job prospects.

## Library Technical Assistant

### Associate in Applied Science Degree (667A) major code

The Library Technical Assistant degree provides students with a solid foundation in the theory of library work, practical knowledge of the roles and responsibilities of library technical assistants, and hands-on workplace experience that prepares them for employment in a variety of library departments. Students interested in developing expertise in a specific area can also choose to focus their studies on one of the emphasis areas – youth services, library leadership, or library technology.

# Management

## Job Titles

- Supervisor
- Manager
- Production Controller

## About the Occupation

Managers are needed in every business to plan, organize, lead, and direct its major functions toward organizational goals.

The many job titles used for managers reflect either the specific responsibility of a position or the industry in which the manager works.

## Highlights of Waubonsee's Program

- As in all of Waubonsee's business programs, management students are encouraged to complete an internship to gain both college credit and valuable on-the-job experience.
- Waubonsee Community College is accredited by Alpha Beta Gamma International Business Honor Society to initiate members into the honor society for business and related professional disciplines. For additional information about the society, visit [www.abg.org](http://www.abg.org).

## Professional Association Opportunities

- *Society for Human Resource Management (SHRM)* — This national organization is committed to advancing the HR profession. Student membership is available. Visit [www.shrm.org](http://www.shrm.org).
- *American Management Association (AMA)* — This international organization is dedicated to building management excellence. Student membership is available. Visit [www.amanet.org](http://www.amanet.org).

# Mass Communication

## Job Titles

- Camera Operator
- TV/Radio Production Staff
- TV/Radio Program Host
- Audio/Video Editor
- Producer/Director
- Internet/Multimedia Specialist

## About the Occupation

The mass communication field provides a vast opportunity for individuals to learn the skills and techniques necessary to produce, direct or support television, film, radio and Internet productions. Technical positions in this field can go from the broad-based to the more highly specialized, and include camera operators, a wide variety of production staff positions, "on-air personalities," audio and video editors, producers, directors and Internet producers. Knowledge and experience in a variety of aspects in audio, video and Internet media production offer students an opportunity for employment in many venues and allow the student to move as the needs of the field shift.

## Highlights of Waubonsee's Program

- Students gain hands-on experience creating shows in the college's own television studio, located in Collins Hall.
- A public service announcement created by Waubonsee students won the 2006 and 2008 Illinois Department of Transportation college video challenge and ran on local cable television.

## Mass Communication

### Associate in Applied Science Degree

(970B) major code

This degree is intended for individuals interested in working in the fields of television, film, Internet and/or radio broadcasting as announcers, radio/TV producers, camera operators and directors. The program utilizes Waubonsee's television studio in preparing students for this medium.

Although the intent of this degree program is occupational, many courses within the program are individually articulated with four-year colleges offering radio/TV programs to facilitate continued study at a four-year institution. Courses are aligned with IAI courses when possible.

# Medical Assistant

## Job Title

- Medical Assistant

## About the Occupation

According to the Bureau of Labor Statistics, there will be an almost 60 percent increase in medical assisting jobs in the next five years.

Medical assistants perform routine administrative, clinical and laboratory tasks to keep medical offices, clinics, laboratories and other health care agencies running smoothly.

In smaller practice settings, medical assistants are usually generalists, handling both administrative and clinical duties and reporting directly to an office manager or health care provider. Usually the medical assistant helps with routine examinations, obtains specimens, performs laboratory tests, schedules appointments, handles medical insurance claims and accomplishes other office duties.

## Highlights of Waubonsee's Program

- Students may choose to complete the program in four semesters (full-time) or six semesters (part-time).
- The required externship allows students to gain experience at a local physician's office, clinic or outpatient facility.

## Professional Certification Opportunities

- Certified Medical Assistant (CMA) — Graduates who meet certain requirements are eligible to take this national certification exam from the American Association of Medical Assistants (AAMA).
- Phlebotomy Technician (PBT) — Students who meet certain requirements will be eligible to take this national certification exam from the American Society of Clinical Pathologists (ASCP).

## Medical Assistant

### Certificate of Achievement

(422A) major code

This certificate program prepares individuals for employment in the administrative and clinical areas of medical offices, clinics, and other health care agencies. The Waubonsee Community College Medical Assistant Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), on recommendation of the Curriculum Review Board of the American Association of Medical Assistants' Endowment (AAMAE).

Commission on Accreditation of Allied Health Education Programs

35 East Wacker Drive, Suite 1970

Chicago, IL 60601-2208

(312) 553-9355

Graduates of the program who meet CAAHEP requirements are eligible to take the national certification exam for Certified Medical Assistants, CMA (AAMAE). Students who are able to meet American Society of Clinical Pathologists (ASCP) requirements will be eligible to take the national certification exam for Phlebotomy Technician, PBT (ASCP).

**NOTE:** This sequence is intended for full-time students in the medical assistant program. Students interested in a part-time program option should contact the Dean for Health and Life Sciences for scheduling options (see directory).

## Medical Assistant

### Procedure for Entering the Medical Assistant Program

The medical assistant program is offered in either an accelerated (four semester) or part-time (six semester) sequence. Students seeking admission to the medical assistant program are required to:

1. Meet with Counseling (see directory) to establish a schedule for taking program courses.
2. Obtain specific admission information by contacting the Dean for Health and Life Sciences (see directory).
3. Complete the special application required for entry into the program, which is available in the Health and Life Sciences office, the Counseling Center or on the Internet (<http://www.waubonsee.edu/healthcareers>). Enrollment in the medical assistant (MLA) courses is limited in order to provide the best possible educational experience for students. Students interested in the accelerated sequence and desiring to take courses with the MLA prefix in the summer must make application by April 1. Students interested in the part-time sequence and desiring to take courses with the MLA prefix in the fall must make application by July 1.
4. Complete required Pre-Admission Exam-RN (PAX-RN) and Nelson Denny (ND) assessment. Note: Acceptance into the program is based on assessment results, with documentation of verbal, math and science of 50 percent for the PAX-RN, as well as a composite of 60 percent for the PAX-RN, and comprehension and vocabulary skills at the 10th grade level for the ND.

A student has two opportunities to successfully meet assessment requirements. Eight weeks must elapse between testing sessions for the Nelson Denny assessment and six months for the PAX-RN assessment.

5. Understand that the medical assistant application, previous transcripts, and program assessment testing in math and reading are required for admission to the program. Students are notified via mail approximately three weeks after the application deadline date as to selection status.  
It is the responsibility of the applicant to make sure the following required documents are received by Registration and Records: WCC New Student Information Form; high school transcript or GED certificate; transcripts from other colleges or vocational schools attended.
6. Follow the program sequence once a student is accepted into the program. The student is expected to follow either the accelerated or part-time program sequence for all MLA courses. Students may opt to complete any or all of the AOS, BIO, COM, HIT or PSY courses prior to submitting an application to the medical assistant program.  
For continuation in the medical assistant program, a 2.0 or better GPA must be received in each of the major courses. Note: HIT and MLA courses are offered on a limited basis during the year. Please contact the offices of Business and Information Systems (HIT) and Health and Life Sciences (MLA) for specific course information.
7. Submit documentation of a physical examination, immunizations and 2-step tuberculosis (TB) test upon acceptance into the accelerated program, and prior to the start of MLA 171 Medical Assistant Clinical I for students accepted into the part-time program.

### Program Costs

In addition to tuition and regular fees, the medical assistant student has the following minimum fees and expenses:

Textbooks for MLA classes (excludes general education courses).....	\$120
Uniform/white shoes .....	\$70
Stethoscope .....	\$15
Physical exam, immunizations, TB testing .....	per health care provider

### Total Estimated Costs

(excluding medical requirements)..... \$205

**NOTE:** These fees and expenses are *approximate* costs and are subject to change without prior notice to the student.

### Advanced Placement

Applicants who wish to transfer medical assistant courses from another college or vocational school to Waubonsee may be considered for advanced placement. Advanced placement applications are considered on an individual basis and require that specific documentation (e.g. transcripts, course descriptions) be submitted along with the medical assistant application.

This program does not grant credit for life or work experience.

# Music

## Job Titles

- Radio Operator
- Broadcast Technician
- TV/Radio Announcer
- Audio/Video Equipment Technician
- Producer/Director
- Sound Engineering Technician
- Media and Communications Equipment Workers

## About the Occupation

Professionals in this field use a variety of equipment, processes and techniques to capture, create, edit and mix sound and/or music. They combine a general knowledge of acoustics with more specialized knowledge about electronics and recording software. Job opportunities exist in radio, TV and recording studios, as well as at live entertainment venues.

## Highlights of Waubonsee's Program

- With a deeper and more narrowed focus than a general mass communication program, this certificate is unique within the Illinois community college system.
- Students use Waubonsee's recording studio/lab to produce class projects.
- For those students wanting to start their own businesses, an entrepreneurship course is included as an option in the program.

## Audio Production Technology

### Certificate of Achievement

(986A) major code

This certificate is intended for individuals interested in working in the field of electronic music production in a variety of venues including radio, television, recording studios, internet broadcasting and live sound reinforcement. Using a variety of software audio applications, students gain knowledge and practice in digital audio recording and editing, digital sampling, audio mixing consoles, fundamentals in electronics, and experience in small entrepreneurial endeavors to larger aspects of business.

#### Course Requirements

	ELT 101	Introductory Electronics .....	4
	MCM 130	Introduction to Mass Communication....	3
m	MUS 211	Introduction to the Recording/MIDI Studio.....	3
m	MUS 213	Advanced Recording and MIDI Applications .....	3
	ETR 140	Introduction to Entrepreneurship (3)	
		<b>or</b>	
	MUS 110	Careers in Music (2) .....	2-3
	MUS 120	Basic Elements of Music (3)	
		<b>or</b>	
	MUS 121	Theory of Music I (4) .....	3-4

**PROGRAM TOTAL .....** 18

m *Major course requires minimum grade of C.*

# Nurse Assistant

## Basic Nurse Assistant Training

### Certificate of Achievement

(427A) major code

Graduates of this program have the competencies to work as nurse assistants in hospitals and long-term care facilities and for home health agencies. The program is approved by the Illinois Department of Public Health (IDPH) and meets the requirements of the Nursing Home Reform Act of 1979.

Students are eligible to take the IDPH exam for Certified Nurse Assistant (CNA) after successful completion of this course.

#### Course Requirements

m NAS 101 Nurse Assistant Skills + ..... 7

**PROGRAM TOTAL ..... 7**

+ *Program admission required for enrollment.*

m *Major course requires a minimum grade of C.*

#### Procedure for Entering Basic Nurse Assistant Training

Students seeking admission to the basic nurse assistant training program are required to:

1. Contact the Center for Learning Assessment (see directory) to make an appointment for required assessment testing. Acceptance into the program is based on assessment results, with documentation of reading skills at an 8th grade level.
2. Be at least 16 years of age or older.
3. Submit required documentation of a 2-step tuberculosis (TB) test prior to entering the clinical experience.
4. Submit \$10 application fee required by the Illinois Department of Public Health (IDPH) to initiate a background check during the first week of classes.
5. Submit \$50 application fee for the state certification examination prior to the conclusion of the course.
6. Maintain a 2.0 GPA (course grade of C or better) and pass the final examination with a grade of C to complete the course.
7. Pass the 21 manual skills mandated by IDPH.
8. Attend the required number of hours mandated by IDPH. This allows for only one absence from clinical and two from theory classes. Unexcused tardiness also counts as an absence. Any student who does not meet these IDPH attendance requirements will be withdrawn from NAS 101, without exception.

Certification testing will be arranged and documentation of course completion will be submitted to the IDPH by the college. The state examination will be administered one to two months following completion of the course.

Contact the Dean for Health and Life Sciences for additional information (see directory).

#### Job Title

- Certified Nurse Assistant (CNA)

#### About the Occupation

Certified nurse assistants are valued members of the health care team, working in acute and long-term care settings. The nurse assistant generally bathes, dresses or feeds patients and performs various other supervised tasks to assist nurses.

A student who wants to pursue a career in health care should have a sincere desire to work with people and be empathetic to the needs of others. Nurse assistants receive satisfaction from knowing their work contributes to the well-being of others.

#### Highlights of Waubonsee's Program

- Certified nurse assistant status may serve as a springboard for a variety of careers within the health care field, such as phlebotomy technician, medical assistant, massage therapist or registered nurse. Following completion of the program, a student can enroll in several noncredit classes offered through Workforce Development (see directory). These include Phlebotomy and Beyond the Basics (advanced course for the CNA).

**Program Costs**

In addition to tuition and regular fees, the nurse assistant student has the following minimum fees and expenses:

Textbooks .....	\$64
Uniform/shoes .....	\$43
Name Badge .....	\$4
Supplies (e.g. gait belt) .....	\$9
Immunizations, TB testing .....	per health care provider

**Total Estimated Costs**

(excluding medical requirements): ..... \$120

In addition, students are responsible for personal transportation to required clinical experiences.

**NOTE:** These fees and expenses are approximate costs and are subject to change without prior notice to the student.

# Paraprofessional Educator

## Paraprofessional Educator

### Associate in Applied Science Degree

(590A) major code

This degree offers students a wide range of educational experiences and prepares them to assist classroom teachers at all levels of the K-12 educational system. Students who complete this degree meet the requirements for paraprofessional educators established by the No Child Left Behind legislation.

#### General Education Requirements ..... 18

COM 100	Fundamentals of Speech Communication .....	3
ENG 101	First-Year Composition I .....	3
ENG 102	First-Year Composition II .....	3
PSY 100	Introduction to Psychology .....	3
MTH 201	Math for Elementary Teachers I .....	3
	Social and Behavioral Sciences, Math <b>or</b> Physical and Life Sciences elective•.....	3

#### Paraprofessional Educator Major Program Requirements..... 30

DIS 101	Disability in Society .....	3
ECE 115	Child Growth/Development <b>or</b>	
PSY 220	Child Psychology <b>or</b>	
PSY 226	Adolescent Psychology .....	3
ECE 120	Health, Safety, and Nutrition .....	3

m EDU 220	Introduction to Special Education.....	3
m EDU 225	Diversity of Schools and Society.....	3
MTH 202	Math for Elementary Teachers II .....	3

#### Electives and Emphasis Areas ..... 12

Students wanting to specialize in a particular paraprofessional educator area should select electives from one emphasis area; students wanting a more general approach can select any electives from the categories listed.

#### Content Specialist Emphasis

Students should select courses related to their content area from sections B, C, and D of the Associate in Applied Science degree (see pages 72-73).

(continued on next page)

#### Job Titles

- Classroom Teacher Assistants
- Special Education Teacher Assistants
- Clerical/Support Staff Assistants
- Computer Laboratory Assistants
- Library/Media Center Assistants
- Bilingual Teacher Assistants

#### About the Occupation

Employment options and job responsibilities for paraprofessional educators vary widely. Some paraprofessionals exclusively perform non-instructional or clerical duties, such as working in the main office, monitoring playgrounds or hallways, or supervising lunchrooms or field trips. Many paraprofessional educators in the general classroom, however, provide a combination of instructional and clerical tasks. They may reinforce instruction by working with students individually or in small groups. Paraeducators may be asked to help prepare the classroom by setting up/maintaining media equipment, ordering supplies, or creating bulletin boards and displays. Paraeducators may assist teachers with grading, typing, filing, duplicating, maintaining health and attendance records, and collecting money. A teacher may require a paraprofessional educator to research a topic and assemble materials to be used in a particular instructional unit.

#### Highlights of Waubonsee's Program

- Graduating from this program ensures that you have met the requirements for paraprofessional educators established by the No Child Left Behind legislation.
- Because of the important role it plays in today's educational environment, technology is emphasized throughout the paraprofessional curricula. Students create an electronic portfolio to aid them in their job search and must take a technology in education course where they learn to do Web research, develop a Web page, work with digital cameras and scanners, and more.

**Disability Studies Emphasis**

DIS	110	Perspectives on Disability .....	3
DIS	201	Catalyst for Change .....	3

**Early Childhood Education Specialist Emphasis**

ECE	101	Introduction to Early Childhood Education .....	3

# Patient Care Technician

## Patient Care Technician Certificate of Achievement (437A) major code

The Patient Care Technician Certificate of Achievement prepares individuals to provide direct patient care in an acute setting. The program provides graduates with advanced nursing assistant knowledge and skills. Work-based learning in the form of an externship gives graduates hands-on experience in the acute care setting.

### Course Requirements

m	COM	125	Communication Strategies for Health Care Careers.....	2
m	HIT	105	Medical Terms for Health Occupations....	1
m	PCT	200	Patient Care Technician + .....	3
m	PCT	297	Patient Care Technician Externship + ....	1.5
<b>PROGRAM TOTAL .....</b>				<b>7.5</b>

+ Program admission required for enrollment.

m Major course requires a minimum grade of C.

### Procedure for Entering the Patient Care Technician Program

The patient care technician program is offered during the fall and spring semesters and the summer session. Enrollment in the patient care technician (PCT) courses is limited to provide the best possible educational experience for students. Students must hold the Certified Nursing Assistant (CNA) credential through passage of the state of Illinois certification examination prior to enrollment in PCT200. Previous or concurrent enrollment in COM125 and HIT105 is required for enrollment in PCT297.

For continuation in the patient care technician program, a 2.0 or better GPA must be received in each of the major courses.

Current American Heart Association Basic Life Support (BLS) for Healthcare Providers, completed health form, documented immunizations, and 2-step tuberculosis (TB) test are required two weeks prior to the start of PCT297 Patient Care Technician Externship.

### Program Costs

In addition to tuition and regular fees, the patient care technician student has the following minimum fees and expenses.

Textbooks for PCT classes (excludes general education courses).....	\$50
BLS Certification .....	\$45
Uniform.....	\$50
Physical exam, immunizations, TB testing..... per health care provider	

### Total Estimated Costs

(excluding medical requirements): .....\$145

**NOTE:** These fees and expenses are *approximate* costs and are subject to change without prior notice to the student.

### Job Titles

- Patient Care Technician (PCT)

### About the Occupation

The patient care technician career field allows certified nurse assistants to expand their skill set and career opportunities. Patient care technicians often work in hospitals or other acute care settings monitoring patients' status under the supervision of a registered nurse. They are trained in such areas as dietary procedures, wound care, specimen collection and cardiac monitoring.

### Highlights of Waubonsee's Program

- This program is just 7.5 credit hours, allowing students who are Certified Nursing Assistants a quick way to advance in the health care field.
- The required externship allows students to gain 80 hours worth of real-world experience.

# Phlebotomy Technician

## Job Title

- Phlebotomy Technician

## About the Occupation

Phlebotomy technicians (phlebotomists) are responsible for the collection, transport, handling and processing of blood specimens for analysis. The phlebotomy technician certificate program provides a foundation for possible transition into other health care careers such as medical assistant, medical lab technician or medical technologist.

## Highlights of Waubonsee's Program

- This program is just 9 credit hours, allowing students a quick entry into or way to advance in the health care field.
- The required externship allows students to gain 120 hours worth of real-world experience.

## Professional Certification Opportunities

- Phlebotomy Technician (PBT) — Graduates who meet certain requirements will be eligible to take this national certification exam from the American Society of Clinical Pathologists (ASCP).

## Phlebotomy Technician

### Certificate of Achievement

(435A) major code

This certificate program prepares individuals for employment in a variety of health care settings that require the collection, handling and processing of blood specimens. Graduates may be eligible to take the national certification examination, Phlebotomy Technician, PBT (ASCP) to become Certified Phlebotomy Technicians.

#### Course Requirements

m	COM	125	Communication Strategies for Healthcare Careers .....	2
m	HIT	105	Medical Terms for Health Care Occupations .....	1
m	PBT	105	Theoretical and Clinical Aspects of Phlebotomy + .....	4.5
m	PBT	297	Phlebotomy Externship + .....	1.5

**PROGRAM TOTAL** ..... **9**

+ *Program admission required for enrollment.*

m *Major course requires minimum grade of C.*

#### Procedure for Entering the Phlebotomy Technician Program

The phlebotomy technician program is offered during the fall and spring semesters. Enrollment in the phlebotomy (PBT) courses is limited in order to provide the best possible educational experience for students. Previous or concurrent enrollment in AOS 222 and COM 125, and program assessment testing in reading are required for enrollment in PBT courses. Acceptance into the program is based on assessment results, with documentation of reading skills at an 8th grade level. Students should contact the Center for Learning Assessment (see directory) for testing dates and times. For continuation in the phlebotomy technician program, a 2.0 or better GPA must be received in each of the major courses.

Current American Heart Association Basic Life Support (BLS) for Healthcare Providers, completed health form, documented immunizations, and 2-step tuberculosis (TB) test are required two weeks prior to the start of PBT 297 Phlebotomy Externship.

#### Program Costs

In addition to tuition and regular fees, the phlebotomy technician student has the following minimum fees and expenses:

Textbooks for PBT classes (excludes general education courses).....	\$41
BLS Certification .....	\$45
Uniform.....	\$50
Physical exam, immunizations, TB testing.....	per health care provider

#### Total Estimated Costs

(excluding medical requirements)..... \$136

**NOTE:** These fees and expenses are *approximate costs* and are subject to change without prior notice to the student.

# Photography

## Traditional Photography

### Certificate of Achievement

(902A) major code

This certificate is designed for students wanting to acquire basic photographic skills through course work in traditional photography. Students will use a variety of cameras, lighting equipment and darkroom processes.

#### Course Requirements

m	ART	140	Photography I	3
m	ART	240	Photography II	3
m	ART	241	Photographic Lighting	3
m	ART	290	Studio Art	3

**PROGRAM TOTAL** ..... 12

m *Major course requires minimum grade of C.*

## Basic Digital Photography

### Certificate of Achievement

(905A) major code

This certificate is designed for students interested in advancing their traditional photographic skills into the digital arena. Whether for photo retouching or efficient file management for the Web, students will acquire skills in using image editing software, hardware and the peripherals relevant to the digital darkroom.

#### Course Requirements

m	ART	140	Photography I	3
m	ART	142	Beginning Digital Photography	3
m	ART	242	Intermediate Digital Photography	3
m	ART	243	Advanced Digital Photography	3

**PROGRAM TOTAL** ..... 12

m *Major course requires minimum grade of C.*

## Intermediate Digital Photography

### Certificate of Achievement

(906A) major code

This program is structured to provide students with skills in both traditional and digital photography. Students will acquire the skills needed to work in a professional studio using a variety of cameras and lighting equipment, as well as digital tools and software.

#### Course Requirements

m	ART	140	Photography I	3
m	ART	142	Beginning Digital Photography	3
m	ART	240	Photography II	3
m	ART	241	Photographic Lighting	3
m	ART	242	Intermediate Digital Photography	3
m	ART	243	Advanced Digital Photography	3

**PROGRAM TOTAL** ..... 18

m *Major course requires minimum grade of C.*

#### Job Titles

- Photographer's Assistant
- Photographer
- Photographic Lab Technician
- Digital Image Specialist

#### About the Occupation

Professional photographers are employed in a variety of settings. Studio photographers capture objects, individuals and set-ups in a controlled lighting environment. Documentary photographers record events as they occur. Commercial photographers capture images that may be used for personal broadcasting, as in weddings, or for public promotion of consumer items, as in advertisements.

#### Highlights of Waubensee's Program

- Waubensee offers courses in both traditional and digital photographic techniques.
- In addition to using a traditional 35mm camera, students also learn to use a 4" x 5" view camera, one of the most important tools in professional product and commercial photo studios.

## Comprehensive Photography Certificate of Achievement

*(907A) major code*

This certificate program offers a sequence of courses that will enable students to assemble a professional portfolio of both traditional and digital images. The portfolio may be used for professional job searches.

m *Major course requires minimum grade of C.*

# Real Estate

## Real Estate Broker Certificate of Achievement (165A) major code

The Real Estate Broker certificate prepares students for entry into the field. Upon successful completion of this certificate, students have met both the pre-license requirements to be eligible for the Illinois Real Estate Broker Examination and the state required post-license requirements. All real estate brokers and managing brokers must be licensed by the State of Illinois to conduct transactions in Illinois.

### Requirements for the Illinois Real Estate Broker Examination:

- 21 years of age or older
- High school graduate or equivalent
- Successful completion of the 90 hours of Broker pre-license coursework
- Hold an original Uniform Real Estate Transcript (provided by WCC)

### Requirements for the Illinois Real Estate Broker License:

- 21 years of age or older
- High school graduate or equivalent
- Successful completion of the 90 hours of Broker pre-license coursework
- Hold an original Uniform Real Estate Transcript (provided by WCC)
- Sponsorship by an Illinois licensed Managing Broker
- Successfully pass the Illinois Real Estate Broker Examination

### Requirements for the Waubonsee Community College Certificate of Achievement

- Complete REL 100 and 105
- Hold an Illinois Real Estate Broker license
- Complete REL 115 and 116 within first renewal cycle of license

#### Course Requirements

m	REL	100	Real Estate Broker Pre-License.....	5
m	REL	105	Real Estate Broker Pre-License: Applied Principles .....	1
m	REL	115	Real Estate Broker Post-License .....	1
m	REL	116	Real Estate Broker Post-License: Applied Principles.....	1
<b>PROGRAM TOTAL .....</b>				<b>8</b>

m *Major course requires minimum grade of C.*

### Job Titles

- Real Estate Broker
- Real Estate Managing Broker
- Property and Real Estate Managers

### About the Occupation

Real estate agents help people buy or sell their home and base their assistance on a thorough knowledge of the housing market. These agents know local zoning, tax laws and financing. Real estate agents generally are independent contractors who provide their services to a licensed broker on a contract basis. Property managers perform an important function in increasing and maintaining the value of real estate investments. They can administer income-producing commercial and residential properties and/or plan and direct the purchase, development and disposal of real estate for business. Brokers not only sell real estate owned by others, but also rent and manage properties, perform market analyses and assist with developing new building projects.

### Highlights of Waubonsee's Program

- Earn college credit and professional licensure at the same time.
- Learn from a team of experienced real estate professionals.
- Courses are available in both face-to-face and online formats.

### Professional Certification Opportunities

- Illinois Real Estate Broker
- Illinois Real Estate Managing Broker

## Real Estate Managing Broker Certificate of Achievement

(168A) major code

The Managing Broker license is required by anyone wishing to manage a real estate office. This certificate meets the Illinois Real Estate License Act of 2000 as amended in 2010 and meets the educational requirements to sit for the Managing Broker license. Candidates must complete 165 hours of required education and have two, out of the last three, years experience as a licensed salesperson or broker.

### Course Requirements

+ *Program admission required for enrollment.*

m *Major course requires a minimum grade of C.*

#### Job Title

- Registered Professional Nurse (RN)

#### About the Occupation

Nurses use acquired skills, scientific knowledge and nursing expertise to assess, prioritize actions and assist the client to meet physical and psychological needs. State licensure requirements determine the scope of the nurse's responsibilities. Nurses assess and record clients' symptoms and response to treatment, administer medications, assist in convalescence and rehabilitation, instruct clients and families in proper care, and help individuals and groups take steps to improve or maintain health. Career advancement for experienced nurses with further education may be directed toward nursing management, advanced practice nursing or nursing education.

#### Highlights of Waubonsee's Program

- For the 2009-2010 academic year, 95 percent of Waubonsee's nursing graduates passed the National Council of State Boards of Nursing Examination (NCLEX-RN); this rate is four percentage points higher than the national average, and seven percentage points higher than the state average.

#### Professional

#### Certification Opportunities

- *Registered Professional Nurse (RN)*  
— Graduates are eligible to take the National Council of State Boards of Nursing Examination (NCLEX-RN).

**Procedure for Entering the Nursing Program**

Students seeking admission to the nursing program are required to:

1. Submit a completed New Student Information Form to Admissions.
2. Meet with Counseling to establish a schedule for taking prerequisite courses.
3. Obtain specific admission information by contacting the Health Care Programs Office, ext. 2322.
4. Complete required Pre-Admission Exam-RN (PAX-RN) and Nelson Denny (ND) assessment. Note: Acceptance into the program is based on assessment results, with documentation of verbal, math and science of 55 percent for the PAX-RN, as well as a composite of 65 percent for the PAX-RN, and comprehension and vocabulary skills at the 12th grade level for the ND.

A student has two opportunities to successfully meet assessment requirements. Eight weeks must elapse between testing sessions for the Nelson Denny assessment and eight weeks for the PAX-RN assessment.

5. Complete and submit the nursing application required for entry into the program, along with a program application fee of \$10 (check or money order made out to Waubensee Community College). The nursing program application form is available from the offices of Registration and Records, Counseling, and Health Care Programs, ext. 2322, or on the Internet at [www.waubensee.edu/healthcareers](http://www.waubensee.edu/healthcareers). Application to the program must be made prior to the deadline for the semester the student desires to enter:

- March 15 for fall enrollment (August/October)
- September 15 for spring enrollment (January/March) .....

Enrollment is limited in the nursing (NUR) courses in order to provide the best possible educational experience for students. (Note: Selection for admission into the program for either August/October or January/March will be determined by the Admissions Committee. Applicants should anticipate acceptance for either start date for fall or spring semesters.)

6. Attain a cumulative GPA of 2.7 or higher for prerequisite courses.
7. Complete science courses within five years of application filing deadline. Science courses taken more than five years before the application deadline must be retaken. There are no exceptions.
8. Understand that all of the following documentation must be submitted in order to be considered for acceptance into the program:
  - New Student Information Form;
  - nursing program application (including \$10 application fee);
  - successful completion of prerequisite courses or test results from any proficiency examinations (CLEP);
  - nursing assessment entrance testing;
  - transcripts from other colleges/universities.
9. Once accepted into the program, the student must:
  - attend the mandatory new student orientation to the nursing program;
  - submit documentation of a physical and dental examination, current immunizations, and a 2-step tuberculosis (TB) test - none of which should be more than one year old at the time of entry;

- follow the program sequence for all NUR courses;
  - attain a 2.0 (C) or better GPA in each of the nursing courses.
10. Official written notification of acceptance into the program will be received via certified mail. Students not accepted must reapply.
  11. In compliance with the Illinois Community College Act, in-district applicants will be given preference over out-of-district applicants. Proof of residency may be required. Contact Registration and Records for information regarding residency. Having paid in-district tuition rates in the past does not necessarily qualify an individual as an in-district resident.

**Advanced Placement**

Licensed Practical Nurses (LPNs) may be eligible for advanced placement into the program, as well as students transferring from another nursing program. Applications will be reviewed on an individual basis. Contact the Health Care Programs Office, ext. 2322.

**Recommendation for Learning and Enhancement**

Applicants who lack basic, beginning keyboarding and Windows navigation skills are encouraged to take an introductory computer course before starting the nursing course sequence. To maximize success, students may take NUR 100 prior to entry into the program.

**Program Costs**

In addition to tuition and regular fees, the registered nursing student has the following minimum fees and expenses:

Textbooks for NUR classes (excludes general education courses) .....	\$850
BLS certification.....	\$45
Uniform/shoes .....	\$105
Nursing supplies (e.g. watch, stethoscope).....	\$175
NCLEX-RN licensure exam fee .....	\$264
State of Illinois criminal background check fee .....	\$50
Physical examination, immunizations, TB testing.....	per health care provider

**Total Estimated Costs**

(excluding medical requirements):..... \$1490

In addition, students are responsible for personal transportation to required clinical experiences.

**NOTE:** These fees and expenses are *approximate costs* and are subject to change without prior notice to the student.

# Renewable Energy Technologies

## Photovoltaic (PV) Basics

### Certificate of Achievement

(864A) major code

Photovoltaic systems generate electricity from sunlight. This certificate prepares students for an entry level position with a dealer, installer, or other photovoltaic industry company.

#### Course Requirements

m RET110 Introduction to Photovoltaic Systems .... 3

**PROGRAM TOTAL .....3**

m *Major course requires minimum grade of C.*

## Photovoltaic (PV)

### Certificate of Achievement

(865A) major code

Photovoltaic (PV) systems generate electricity from sunlight. This certificate prepares students to install and maintain photovoltaic systems. Course objectives align with the North American Board of Certified Energy Practitioners (NABCEP) task list. Upon successful completion of this certificate, students will be prepared to take the NABCEP Entry Level Certificate of Knowledge exam. After students gain the required installation experience, they will qualify to take the NABCEP Photovoltaic Systems Installer exam.

#### Course Requirements

m RET 110 Introduction to Photovoltaic Systems .... 3

m RET 115 Photovoltaic  
System Selection and Design ..... 3

m RET 120 Installing and  
Maintaining Photovoltaic Systems ..... 3

**PROGRAM TOTAL ..... 9**

m *Major course requires minimum grade of C.*

#### Job Titles

- Solar System Installer
- Photovoltaic System Installer
- Geothermal Technician
- Solar Energy Salesperson

#### About the Occupation

As concerns about the environment grow, so too does the popularity of systems that harness the power of renewable energy sources, such as sunlight, wind and the heat of the Earth's core, to produce electricity and/or regulate the temperature of homes and businesses. These systems are installed and maintained by professionals in the renewable energy technologies field.

#### Highlights of Waubensee's Program

- Students will gain hands-on experience in lab exercises and during supervised installations.
- These certificates can help current construction workers, and heating, ventilation and air conditioning professionals to expand their employment opportunities.

#### Professional

#### Certification Opportunities

- North American Board of Certified Energy Practitioners (NABCEP) — The curricula for the photovoltaic, small wind and solar thermal certificates have been aligned with the standards set by the NABCEP, and graduates will have finished the coursework necessary to take the corresponding NABCEP certification exams.

## Solar Thermal

### Certificate of Achievement

(869A) major code

Solar thermal systems use energy from the sun to heat water for domestic purposes, space heat, and heat pools. The Solar Thermal Certificate of Achievement prepares students to install solar water and pool heating systems. Courses within the certificate align with the North American Board of Certified Energy Practitioners (NABCEP) objectives and task analysis for solar water and pool heating system installers.

#### Course Requirements

m	RET130	Introduction to Solar Thermal .....	3
m	RET135	Advanced Solar Thermal .....	3
m	RET140	Installing Solar Thermal Systems.....	3

**PROGRAM TOTAL .....** 9

m *Major course requires minimum grade of C.*

## Small Wind

### Certificate of Achievement

(873A) major code

Small wind systems 100 kW or less generate electricity from the wind's energy. The Small Wind Certificate of Achievement prepares students to install both on-grid and off-grid small wind energy systems. The courses within the certificate align with the North American Board of Certified Energy Practitioners (NABCEP) task analysis for small wind energy system installers.

#### Course Requirements

	ELT 101	Introductory Electronics .....	4
m	RET 150	Introduction to Wind Energy Systems....	3
m	RET 155	Wind Energy Systems Selection and Design .....	3
m	RET 160	Installing and Maintaining Wind Energy Systems .....	3

**PROGRAM TOTAL .....** 13

m *Major course requires minimum grade of C.*

## Geothermal Basics

### Certificate of Achievement

(876A) major code

The Geothermal Basics Certificate of Achievement provides professionals in the areas of heating, ventilation, and air conditioning, mechanical engineering, and construction with a working knowledge of geothermal systems and their installation.

#### Course Requirements

m	RET 170	Geothermal Systems.....	3
---	---------	-------------------------	---

**PROGRAM TOTAL .....** 3

m *Major course requires minimum grade of C.*

## Geothermal

### Certificate of Achievement

(877A) major code

The Geothermal Certificate of Achievement prepares students to install geothermal heating and cooling systems. In addition, coursework provides the knowledge and skills necessary to service, troubleshoot, and maintain geothermal heating and cooling systems.

#### Course Requirements

	HVA 100	Basic Electricity for HVAC .....	3
	HVA 110	Refrigeration Principles .....	3
	HVA 120	HVACR Electrical Systems .....	3
	HVA 130	Residential Comfort Systems.....	3
	HVA 140	Basic Heating Systems .....	3
	HVA 150	Basic Sheet Metal Fabrication and Print Reading.....	3
	HVA 160	Refrigerant Transition and Certification.....	1
	HVA 170	Universal R-410A Safety and Training Certification.....	1
	HVA 200	Sheet Metal Estimating, Fabrication and Installation.....	3
m	RET 170	Geothermal Systems.....	3

**PROGRAM TOTAL .....** 26

m *Major course requires minimum grade of C.*

# Supply Chain Management/APICS

## Supply Chain Management Associate in Applied Science Degree (060B) major code

This degree prepares the student to work in the supply chain management field. Courses in the areas of production, inventory control and materials requirement planning are offered. The program is taught in cooperation with the American Production and Inventory Control Society (APICS).

### General Education Requirements ..... 15

COM 121	<b>or</b> 201 <b>or</b> 100	Communications .....	3
ENG 152		Business Communication .....	3
ENG 153	<b>or</b> 151 <b>or</b> 101	English .....	3
MTH 104		Business Mathematics.....	3

	MKT 200	Principles of Marketing.....	3

### Electives ..... 16.5

Select electives from: Accounting (ACC), Business (BUS), Computer Information Systems (CIS), Construction Management (CMT), Economics (ECN), Entrepreneurship (ETR), Finance (FIN), Management (MGT), Marketing (MKT), Real Estate (REL), Tourism (TOU), World Wide Web (WEB)

### PROGRAM TOTAL ..... 60

- See course choices listed on pages 72-73.
- m Major course requires minimum grade of C.

### Job Titles

- Supplier Relations
- Inventory Manager
- Purchasing Manager
- Operations Manager
- Transportation Manager
- Logistics Manager

### About the Occupations

A supply chain management system makes sure the supply of goods and services flowing through the system closely matches the demand, which is critical to the success of global corporations. Supply chain management focuses on integration and partnerships necessary to meet customer needs on a timely basis, with relevant and high-quality products produced and delivered in cost-effective manner.

Supply chain management's core processes are planning, sourcing, making, delivering, and returning which are critical across industry sectors, from manufacturing to retailing to business services. Supply chain professionals manage, coordinate, manufacture and transport products from raw materials to the finished goods sitting on your local store shelf ( or online retailer). It's a key reason that you can buy an ever-increasing variety of goods and services at low prices.

Taking APICS (American Production and Inventory Control Society) courses is a valuable tool to progress in this career. The first part is a series of four courses called "Principles." These courses are designed for people working in the field of operations management (or in a functional area that interfaces with it) who need to learn the basic concepts, techniques, and terminology of this field. The second part is a series of five courses that are designed as review courses for individuals who are familiar with the content and want to pursue the Certified in Production and Inventory Management (CPIM) credential.

Supply chain management is increasingly being thrust to the forefront of business prominence and practice and offers exciting new career opportunities.

### Highlights of Waubensee's Program

- All APC courses are taught by an APICS-certified instructor.
- As in all of Waubensee's business programs, materials management students are encouraged to complete an internship to gain both college credit and valuable on-the-job experience.

## Materials Management Certificate of Achievement

(062A) major code

This certificate program is specifically designed for individuals who are either already employed in a materials management position or are seeking employment in this field. The program is taught in cooperation with the American Production and Inventory Control Society (APICS).

### Course Requirements

m	APC	125	Basics of Supply Chain Management ...	1.5

### Job Title

- Certified Surgical Technologist (CST)

### About the Occupation

The surgical technologist assists in surgical procedures under the supervision of surgeons, anesthesiologists, registered nurses or other surgical personnel. Prior to each operation, the technologist positions surgical instruments and equipment, and ensures proper functioning. The technologist also aids patients by preparing incision sites, transporting patients to surgery, positioning and covering them with sterile drapes, and observing vital signs. During surgical procedures, technologists pass instruments and other sterile supplies to the surgeons and surgical team members, and may assist during procedures. They prepare specimens for laboratory analysis, apply dressings and transfer patients to post-anesthesia care.

The surgical technology certificate program provides a foundation for possible transition into other health care careers such as Certified First Assist (CFA) and Surgical Nurse.

### Highlights of Waubonsee's Program

- The surgical technology program combines classroom instruction and clinical experience at affiliated health care agencies in the community. Graduates are competent as entry-level technologists, qualified to provide services in surgical areas, sterile processing departments, ambulatory care and other facilities.

### Professional Certification Opportunities

- *Certified Surgical Technologist (CST)*
  - Graduates are eligible to take this national certification exam offered by the National Board of Surgical Technology and Surgical Assisting (NBSTSA).

**Procedure for Entering the Surgical Technology Program**

The surgical technology program is offered in a full-time (three semester) sequence. Students seeking admission to the surgical technology program are required to:

1. Meet with Counseling (see directory) to establish a schedule for taking program courses.
2. Obtain specific admission information by contacting the Dean for Health and Life Sciences (see directory).
3. Complete the special application required for entry into the program, which is available in the Health and Life Sciences office, the Counseling Center or on the Internet (<http://www.waubonsee.edu/healthcareers>). Enrollment is limited in the surgical technology (SUR) courses in order to provide the best possible educational experience for students. Students desiring to take courses with the SUR prefix in the fall must make application by April 1.
4. Complete required Pre-Admission Exam-RN (PAX-RN) and Nelson Denny (ND) assessment. Note: Acceptance into the program is based on assessment results, with documentation of verbal, math and science of 50 percent for the PAX-RN, as well as a composite of 60 percent for the PAX-RN, and comprehension and vocabulary skills at the 10th grade level for the ND.  
A student has two opportunities to successfully meet assessment requirements. Eight weeks must elapse between testing sessions for the Nelson Denny assessment and six months for the PAX-RN assessment.
5. Understand that the surgical technology application, previous transcripts, and program assessment testing in math and reading are required for admission to the program. Students are notified via mail approximately four weeks after the application deadline date as to selection status.
6. Provide documentation of current American Heart Association BLS for Healthcare Providers (CPR) certification. This certification must remain current for the entire length of the program.
7. Follow the program sequence once a student is accepted into the program. The student is expected to follow the program sequence for all SUR courses. Students may opt to complete any or all of the BIO, COM or HIT courses prior to submitting an application to the surgical technology program. For continuation in the surgical technology program, a 2.0 or better GPA must be received in each of the major courses. NOTE: SUR courses are offered on a limited basis during the year. Please contact the office of Health and Life Sciences for specific course information.
8. Submit documentation of a physical examination, immunization, Hepatitis-B series, and 2-step tuberculosis (TB) test upon acceptance into the program.

**Program Costs**

In addition to tuition and regular fees, the surgical technology student has the following minimum fees and expenses:

Textbooks for SUR classes (excludes general education courses) .....	\$245
White shoes, lab coat, patch .....	\$75
Stethoscope .....	\$15
Supplies .....	\$20
Physical exam, immunizations, Hepatitis-B series, TB testing .....	per health care provider

**Total Estimated Costs**

(excluding medical requirements).....\$355

**NOTE:** These fees and expenses are *approximate costs* and are subject to change without prior notice to the student.

# Therapeutic Massage

The therapeutic massage program prepares individuals for employment as professional massage therapists. Graduates are eligible to take the National Certification Exam in Therapeutic Massage. Waubonsee's therapeutic massage program is a member of the American Massage Therapy Association Council of Schools and is approved by the Illinois State Board of Higher Education.

## Therapeutic Massage Associate in Applied Science Degree (470A) major code

The Associate in Applied Science degree in therapeutic massage prepares the student to work with clients who are ill or injured and are referred from a medical or rehabilitative setting. Graduates may also find employment in the health maintenance/personal wellness areas of professional therapeutic massage.

<b>Program Prerequisite Courses</b> .....	<b>6</b>

### Job Title

- Massage Therapist

### About the Occupation

Massage therapists use many different approaches to produce physical, mental and emotional benefits through the manipulation of the body's soft tissue. Therapeutic techniques utilized include Swedish massage, joint movements, hydrotherapy, sports massage, stretching, muscle energy, myofascial techniques, trigger point therapy, foot reflexology, acupressure, Shiatsu, Jin Shin Do, Reiki, Cranio-sacral therapy and others.

Massage therapists need more than technical skills. To effectively use massage techniques, the therapist must be trained in anatomy, physiology, kinesiology and pathology. A sensitivity toward the needs of the client is essential.

### Highlights of Waubonsee's Program

- Waubonsee's program is a member of the American Massage Therapy Association Council of Schools, and is approved by the Illinois State Board of Higher Education.

### Professional Certification Opportunities

- Graduates are eligible to take the National Certification Exam in Therapeutic Massage.

**Procedure for Entering the Therapeutic Massage  
Degree and Certificate Programs**

Students seeking admission to the therapeutic massage program are required to:

1. Meet with Counseling (see directory) to establish a schedule for taking prerequisite and program courses.
2. Obtain specific admission information by contacting the Dean for Health and Life Sciences (see directory).
3. Complete the special application required for entry into the program, which is available from the office of Health and Life Sciences, the Counseling Center, or on the Internet (<http://www.waubonsee.edu/healthcareers>). Enrollment in the therapeutic massage (TMS) courses is limited in order to provide the best possible educational experience for students. Students desiring to enter the degree or certificate program for fall must make application by May 1.
4. Complete each prerequisite course with a minimum grade of C and cumulative GPA of 2.5 or better.
5. Understand that the therapeutic massage application, completion of prerequisite courses, and previous transcripts are required for admission to the program.
6. Follow the program sequence for all TMS courses once accepted into the program. A student may opt to complete any or all of the BIO and PSY, ENG, or COM (degree program) courses prior to submitting an application to the therapeutic massage program. Note: TMS courses are offered on a limited basis during the year. Please contact the office of Health and Life Sciences for specific course information. For continuation in the therapeutic massage program, a 2.0 or better GPA must be received in each of the major courses.
7. Submit completed health form and documentation of current immunizations and a 2-step tuberculosis (TB) test upon acceptance into the program.

 **See directory inside back cover.**

## Therapeutic Massage

In addition, students seeking admission to the therapeutic massage degree program are required to:

1. Submit a completed New Student Information Form to Registration and Records.
2. Contact the Center for Learning Assessment (see directory) to make an appointment for required assessment testing.

### Advanced Placement

Students who have completed a massage therapy certificate program at an accredited college may be granted advanced placement into some 100- and 200-level courses in the degree program. Degree applicants interested in advanced placement should contact the Dean for Health and Life Sciences for more information.

### Program Costs

In addition to tuition and regular fees, the therapeutic massage student has the following minimum fees and expenses:

Textbooks for TMS classes-certificate .....	\$400
Textbooks for TMS classes-degree (excludes general education courses).....	\$550
Uniform/shoes .....	\$80
Massage table .....	\$450
Massage supplies.....	\$100
Four professional massages .....	\$240
Physical exam, immunizations, TB testing.....	per health care provider

### Total Estimated Costs

(excluding medical requirements)..... \$1270-1420

**NOTE:** These fees and expenses are *approximate costs* and are subject to change without prior notice to the student.

# Translation

## Job Titles

- Translator: English to Spanish
- Translator: Spanish to English
- Interpreter/Translator

## About the Occupation

Translation is an intercultural communication specialty. Translators translate written text from a source language to a target language. Translators must be bilingual, and students in Waubensee Community College's translation program must be proficient in both English and Spanish. Focus areas for the translator include literary translation, legal and technical translation, medical translation, or finance and business translation. Translators typically focus on one specialty area. Translators usually have a college degree in a specialty area or experience in one particular field.

## Highlights of Waubensee's Program

- This 8-semester-hour program can be a quick entry into the career field of translation.

## Sound Interesting?

*Students interested in this program may also be interested in Health Care Interpreting; see page 118.*

## Translation

### Certificate of Achievement

*(672A) major code*

This certificate is intended to be an introduction to the translation profession for linguistically skilled individuals. This course of study will provide students with a comprehensive approach to the translating profession. Topics include industry standards, project management, translation tools and accreditation issues. Issues of medical translation are also included.

#### Course Requirements

WLD 299	Internship for Welding Technology	3

#### PROGRAM TOTAL ..... 60

m Major course requires minimum grade of C.

#### Job Titles

- Arc Welder
- Spot Welder
- Production Welder
- Construction Welder

#### About the Occupation

The job of a welder is to permanently join metal parts. Some welders work in the construction industry applying their trade to buildings, bridges, pipelines and more. The majority work in manufacturing, many of them on the assembly of things such as boilers, heavy equipment like bulldozers, large machinery, trucks and ships. There are four basic welding processes, and the equipment and skills for each differ. Welders apply the science of joining metal with the art and hand-eye coordination required to make a good weld.

#### Highlights of Waubonsee's Program

- Waubonsee's welding program includes courses in each of the four basic welding processes: oxyacetylene, electric arc, gas metal arc (MIG or CO<sub>2</sub>) and gas tungsten arc (TIG).
- The curriculum includes four courses devoted specifically to pipe welding.

## Beginning Welding Certificate of Achievement

(893B) major code

This welding program provides the student with entry-level skills needed to layout, fabricate and weld a variety of metals using the major welding processes in all positions. A graduate of the program may qualify as a production or construction welder, pipe welder, maintenance or repair welder, weld technician, welding operator, welding shop supervisor, or welding salesperson.

## Advanced Welding Certificate of Achievement

(895A) major code

The welding program provides the student with the skills needed to layout, fabricate and weld various metals using a variety of positions and processes. A graduate of the program may qualify as a production welder, lead welder, maintenance or repair welder, welding shop supervisor, or welding salesperson.

<b>Course Requirements</b>	
m IDT 134 Metrology.....	2
m WLD 101 Blueprint Reading for Welders.....	2
m WLD 115 Oxy-Fuel Welding and Cutting .....	3
m WLD 120 Shielded Metal Arc Welding I .....	3

# World Wide Web/Internet

## Website Design and Development

### Associate in Applied Science Degree

(331B) major code

This degree prepares students for designing, developing and maintaining professional Web content. A graduate from this program will have a background in using cutting-edge tools to create exciting web pages with graphic and animated content. Career opportunities include web author and web page designer.

#### General Education Requirements ..... 15

ART	110	Design I.....	3
ENG	151	<b>or</b> 101 English.....	3
ENG	153	<b>or</b> 102 English.....	3
MTH	101	College Mathematics.....	3
PSY	100	Introduction to Psychology.....	3

#### CIS Core Program Requirements..... 15

m	CIS	110	Business Information Systems.....	3
m	CIS	115	Introduction to Programming.....	3
m	CIS	170	Networking Essentials.....	3
m	CIS	205	Information Technology Project Management.....	3
m	WEB	105	Integrating Web Technologies in Business.....	3

#### Website Design and Development

#### Major Program Requirements..... 21

m	CIS	203	Systems Analysis and Design.....	3
m	WEB	110	Web Development With HTML/XHTML.....	3
m	WEB	111	Website Design.....	3
m	WEB	140	JavaScript Programming.....	3
m	WEB	150	Comprehensive XML.....	3
m	WEB	220	PHP Programming.....	3
m	WEB	230	Web Authoring With Dreamweaver.....	3

#### Electives..... 9

Select electives from: Computer Information Systems (CIS),  
Graphic Design (GRD), World Wide Web/Internet (WEB)

#### PROGRAM TOTAL ..... 60

m *Major course requires minimum grade of C.*

#### Job Titles

- Web Developer
- Webmaster
- Web Designer
- Web Editor

#### About the Occupation

Web developers and Webmasters design and maintain cyberspace information pages for business.

#### Highlights of Waubonsee's Program

- The degree includes a set of five core information systems courses, along with well-defined elective choices.
- Waubonsee Community College is accredited by Alpha Beta Gamma International Business Honor Society to initiate members into the honor society for business and related professional disciplines. For additional information about the society, visit [www.abg.org](http://www.abg.org).

## Web Page Design

### Certificate of Achievement

(338B) major code

This certificate is intended for individuals interested in learning the fundamentals of developing websites for the World Wide Web.

#### Course Requirements

m	CIS	110	Business Information Systems .....	3
m	WEB	110	Web Development with HTML/XHTML .....	3
m	WEB	111	Website Design.....	3
m	WEB	230	Web Authoring with Dreamweaver.....	3

**PROGRAM TOTAL .....** 12

m *Major course requires minimum grade of C.*

## Web Authoring and Design

### Certificate of Achievement

(337A) major code

This certificate is intended for individuals interested in developing, designing and maintaining Websites for the World Wide Web. Graduates are able to develop, design and maintain websites with graphic and animated content.

#### Course Requirements

	CIS	110	<b>or</b> AOS 110 Computers .....	3
m	CIS	115	Introduction to Programming .....	3
m	GRD	160	Computer Illustration.....	3
m	GRD	170	Digital Image .....	3
m	WEB	110	Web Development with HTML/XHTML .....	3
m	WEB	111	Website Design.....	3
m	WEB	140	JavaScript Programming .....	3
m	WEB	150	Comprehensive XML .....	3
m	WEB	230	Web Authoring with Dreamweaver .....	3
m	WEB	231	Web Authoring/Animation with Flash.....	3
m	WEB	220	PHP Programing <b>or</b> 235 Flash ActionScript.....	3

**PROGRAM TOTAL .....** 33

m *Major course requires minimum grade of C.*

## Web Server Programming

### Certificate of Achievement

(336B) major code

This certificate is intended for individuals interested in maintaining websites for the World Wide Web. Graduates are able to perform programming functions in languages applicable to the World Wide Web.

#### Course Requirements

	CIS	110	<b>or</b> AOS 110 Computers .....	3
m	CIS	115	Introduction to Programming .....	3
m	CIS	116	Structured Program Design.....	3
m	CIS	150	Introduction to Java.....	3
m	CIS	180	Linux/UNIX Operating System .....	3
m	CIS	250	Advanced Java.....	3
m	WEB	110	Web Development with HTML/XHTML ..	3
m	WEB	140	JavaScript Programming .....	3
m	WEB	150	Comprehensive XML .....	3
m	WEB	205	Emerging Internet and Web Technologies .....	3
m	WEB	220	PHP Programming.....	3

**PROGRAM TOTAL .....** 33

m *Major course requires minimum grade of C.*

There are several web development certificates and degrees offered by both the Graphic Design and World Wide web/Internet curriculums. The certificate and degree titles in both areas may sound similar, but there are distinct differences between the two. Your own specific background and interest will determine which certificate or degree is best for you. If you are interested in the artistic design of web pages through the use of design software, design layout techniques, advanced use of multimedia, animation, sound and video, the Graphic Design certificates and programs are appropriate for study. If you are interested in the construction, maintenance and support of web pages through the use of computer programming and limited web design software, the World Wide web/Internet certificates and degrees are appropriate. In short, the Graphic Design certificates and degree focus on the design of web pages, while the World Wide web/Internet certificates and degrees primarily focus on the maintenance and support of websites. Please contact Counseling (see directory) for more specific descriptions of these certificates and degrees and to discuss which one may be most appropriate for you.

WAUBONSEE

*the real world of work*

# Career Connections

## Cooperative Agreements

Waubonsee Community College has Career Education Cooperative Agreements with several Illinois community colleges so that students may enroll in occupational degree and/or certificate programs not available at Waubonsee. Students take all specialized courses at the cooperating college. Related technical and general education courses required in the cooperative programs may be taken at Waubonsee Community College or at the community college offering the program.

The cooperating college issues all degrees or certificates for successful completion of the individual program. The student pays the in-district tuition of the offering institution. See "Cooperative Agreements and Tuition Chargebacks" in the Tuition and Fees section of this catalog. For further information about the program, check with the admissions office at the respective school and contact the office of the Waubonsee Assistant Vice President of Student Development (see directory) for application materials.

Students from other community college districts who want to enroll in a Waubonsee program not offered in their district should first contact their own admissions office for the proper forms.

## Community Colleges Joint Educational Agreement

This agreement allows students to take any Illinois Community College Board approved occupational program (certificates and degrees) not offered by Waubonsee Community College at the in-district tuition and fees of the college that offers the program. Students covered under this agreement may avail themselves of all services provided other in-district students. An authorization form, signed by a designated representative from the office of the Waubonsee Assistant Vice President of Student Development, will be required for enrollment in all programs.

This agreement is among the following community colleges: Black Hawk College, Carl Sandburg College, Danville Community College, Elgin Community College, Heartland Community College, Highland Community College, Illinois Central College, Illinois Valley Community College, John Wood Community College, Joliet Junior College, Kankakee Community College, Kaskaskia College, Kishwaukee College, Lake Land College, Lewis and Clark Community College, Lincoln Land Community College, McHenry County College, Morton College, Prairie State College, Richland Community College, Rock Valley College, Sauk Valley Community College, South Suburban College, Southwestern Illinois College and Spoon River College.

Cooperative agreements with other Illinois community colleges include, and are limited to, the programs listed:

College of DuPage  
 Diagnostic Medical Imaging Nuclear Medicine (certificate)  
 Diagnostic Medical Imaging Radiography  
 (AAS and certificates)  
 Graphic Arts Technology  
 Print Production (AAS and certificate)  
 Digital Prepress Production (AAS and certificate)  
 Horticulture (AAS and certificates)  
 Motion Picture/Television  
 Television Production (AAS)  
 Film/Video Production (AAS)  
 Motion Picture/Television (certificate)  
 Physical Therapist Assistant (AAS)

*See directory inside back cover.*

## Internship/Externship Programs

In several areas of study, Waubonsee includes an internship/externship as an additional credit course. It is an academic opportunity to expand students' horizons into the career environment they are studying. An internship/externship is a cooperative effort between a business or health care institution and the college that combines education and experience for students and is closely monitored by the student, Waubonsee faculty, and the employer. An internship/externship allows students to gain up to 3 credit hours in a semester toward their Associate in Applied Science (AAS) degree or occupational certificate. The social science internship/externship can apply toward the AA/AS degree. The student commits to working 80 hours in the internship/externship position for every hour of credit earned. Internships/externships in the curriculum include:

- Accounting
- Administrative Office Systems
- Art
- Auto Body Repair
- Business Administration (Management, Marketing, Human Resources Management, Entrepreneurship)
- Computer-Aided Design and Drafting
- Computer Information Systems
- Construction Industry
- Early Childhood Education Administration
- Early Childhood Education Practicum
- Exercise Science
- Geographic Information Systems
- Graphic Design
- Health Care Interpreting
- Health Information Technology
- Heating, Ventilation and Air Conditioning
- Human Services
- Industrial Technology
- Legal Interpreting
- Library Technical Assistant Practicum
- Mass Communication
- Medical Assistant
- Patient Care Technician
- Phlebotomy
- Social Studies (Anthropology, Criminal Justice, History, Political Science, Psychology and Sociology)
- Surgical Technology
- Therapeutic Massage
- Welding

For information about internship/externship opportunities in a particular instructional division, contact the office of the appropriate Dean or the Career Services Center (see directory).

## ROTC Transfer Option

The U.S. Army Reserve Officers' Training Program provides college students who graduate with a bachelor's degree the opportunity to become commissioned officers in the U.S. Army, the Army National Guard, and the U.S. Army Reserve. Army ROTC is traditionally a four-year program consisting of a basic course (freshman and sophomore) and an advanced course (junior and senior).

Waubonsee students, cross-enrolled with the Northern Illinois University Army ROTC program, can complete the first two years of military science classes as electives in an Associate in Arts, Science or Engineering Science degree at Waubonsee. Upon their transfer to a four-year college, they are eligible to enter the advanced course in ROTC.

Students enrolled in the basic course classes (Military Science—MSC) at Waubonsee incur no military obligation. The classes provide elective credit upon transfer to a four-year college offering Army ROTC.

Community college students who have not previously taken ROTC but are within one semester of transferring to a four-year institution may be eligible to enter the advanced course through attending the ROTC Leadership Training Camp during the summer between community college graduation and fall semester entry at the four-year college. The ROTC basic camp is a paid, four-week camp requiring students to meet certain eligibility criteria. Successful completion of the camp and recommendation of camp staff can lead to a federal or state scholarship.

Students who are veterans or prior service reservists or guardsmen are encouraged to enter directly into the Army ROTC advanced course upon their transfer to a four-year college program. Four military science courses at Waubonsee comprise the basic course of study:

- MSC 101 Leadership and Personal Development
- MSC 102 Foundations in Leadership
- MSC 201 Innovative Tactical Leadership
- MSC 202 Leadership in Changing Environments

See "Course Descriptions" for more details.

For more information about the Army ROTC Transfer Option or the Army ROTC program in general, contact the Department of Military Science, Army ROTC at Northern Illinois University, (815) 752-ROTC (7682) or 815-753-6234.

## VALEES

### Credit for High School Course Work

Through an articulation agreement between the Valley Education for Employment System (VALEES) and Waubonsee Community College, credit and/or advanced placement may be awarded in college degree or certificate programs to students who have successfully completed articulated secondary courses.

Credit for secondary classes is considered on the basis of high school transcripts and/or competency demonstration.

Students should first discuss credit transfer with their high school teachers and counselor, then complete the VALEES College Credit Articulation Form. The form is available online at [www.valees.org](http://www.valees.org), from high school guidance counselors, from Waubonsee's counselors or at the VALEES office (Building A, Room 116 on the Sugar Grove Campus). Next, students should request that an official high school transcript be forwarded directly to the VALEES office at Waubonsee with the completed VALEES College Credit Articulation Form. The transcript should detail credit and grade for approved courses and date of graduation or leaving school.

Specific requirements under this agreement include:

- Applicants must be registered students.
- Application for articulated credit must be made within two years from the date of high school graduation or last term of high school attendance.
- Students must enroll in an approved college curriculum within two years from the date of high school graduation or last term of high school attendance.
- A grade of B (3.0 on a 4.0 scale) must be earned for each semester of high school course work to be considered for college credit.
- Credit awarded under this agreement, after approval and notification by the VALEES Director and the Waubonsee Community College Assistant Vice President of Instruction, is recorded on a student's college academic record (transcript) and becomes part of the total number of credits required for program completion.
- Additional requirements may be established that relate to a specific program for validation of knowledge and skills such as portfolios, skill demonstrations and tests. An instructor in the program will arrange for student interviews, information and skill validation if needed.
- Students who fail to make satisfactory progress in college course placement under this agreement may be required to take prerequisite college course work at the discretion of the college.
- A recording fee of \$10 per credit hour applies to credit articulated. (*Subject to change without prior notice.*)
- For a complete listing of articulated classes and an application, visit the VALEES Web site at [www.valees.org](http://www.valees.org).

## VALEES Member High Schools

Batavia High School - District #101

# Course Descriptions

## Course Numbering System

All credit courses are described on the following pages. Curriculum placement and other course attributes are signified by the three-digit course numbers explained below.

### 001-049

Adult and Workforce Development courses. Vocational update/skills courses. Do not apply to any college certificate or degree.

### 050-099

Semester hour (sem hr) credit courses for developmental education. Do not apply to any college certificate or degree.

### 100-199

Semester hour (sem hr) credit courses intended primarily for freshmen.

### 200-299

Semester hour (sem hr) credit courses intended primarily for sophomores.

## Definitions

Terminology used in course descriptions is defined below.

### prereq

prerequisite(s)—courses or requirements that must be completed before taking the described course.

### coreq

corequisite(s)—courses or requirements that must be taken concurrently with the described course.

### IAI

designation of Illinois Articulation Initiative course number for courses that are IAI general education or major courses. Refer to the chart in this section.

### lec/lab

denotes the number of hours students spend per week in either lecture and/or laboratory time (based on a 16-week course). Courses may be offered in less than 16 weeks, and lecture/laboratory time adjusted accordingly.

### sem hrs

semester hours—the credit hours that apply to the course.

### var

indicates that the credit hours applied to the course can vary depending upon projects undertaken.

*Technology skills are expected in a variety of Waubonsee Community*

*College courses; check prerequisites and other recommendations.*

## Course Discipline/ Prefix Cross Reference

Course descriptions are organized alphabetically by discipline. The following list shows the discipline and course prefix in the order in which they appear in this section.

<i>Accounting (ACC)</i>	<i>Engineering (EGR)</i>	<i>Nurse Assistant (NAS)</i>
<i>Administrative Office Systems (AOS)</i>	<i>English (ENG)</i>	<i>Nursing (NUR)</i>
<i>Allied Health (ALH)</i>	<i>Entrepreneurship (ETR)</i>	<i>Patient Care Technician (PCT)</i>

## Waubonsee's IAI General Education Courses

The chart below shows Waubonsee transfer courses (listed by IAI category) that meet IAI (Illinois Articulation Initiative) General Education Core Curriculum guidelines. IAI General Education Course Codes follow the Waubonsee title. Course descriptions in this section also include IAI codes as appropriate. Transfer degree guidelines list specific courses conforming to IAI core curriculum; see the appropriate section in this catalog. See page 18 for an explanation of the initiative.

## Accounting (ACC)

### AN ACCOUNTING OPPORTUNITY:

Considering a career change? A job promotion? Most people holding a baccalaureate degree in any field can easily take accounting and business courses to prepare for the CPA (Certified Public Accountant) Examination and/or the CMA (Certified Management Accountant) Examination. Recommended Waubonsee Community College courses include the following:

#### For the CPA and CMA Exams:

ACC 120	Financial Accounting
ACC 121	Managerial Accounting
ACC 201	Tax Accounting
ACC 220	Intermediate Accounting I
ACC 221	Intermediate Accounting II
ACC 230	Microcomputer Accounting Applications
ACC 240	Cost Accounting
BUS 211	Business Law

#### Additional courses for the CMA Exam:

ECN 121	Principles of Economics-Macroeconomics
ECN 122	Principles of Economics-Microeconomics
FIN 200	Principles of Finance
MGT 200	Principles of Management

For additional information, contact the division of Business and Information Systems.

### ACC 115 Fundamentals of Accounting

This introductory accounting course emphasizes the development of a firm foundation in fundamental accounting procedures using the accounting cycle of a small business organized as a sole proprietorship. Topics include: transaction analysis, financial statements, the accounting cycle of service and merchandising firms, accounting for bank accounts, cash funds, accounts receivable, notes receivable, notes payable, inventory, long-term assets, and introduction to accounting for corporations.

(3 lec/0 lab)

3 sem hrs

### ACC 120 Financial Accounting

This introduction to financial accounting focuses on procedures and concepts involved in providing relevant financial data to external and internal decision makers. It emphasizes the generation, interpretation and use of financial statements. Coverage includes the accounting cycle with detailed analysis of the transactions related to cash, investments, receivables, inventories, long-term assets, liabilities, stockholders' equity and time value of money. Note: Students with a grade-point average below a B should consider taking ACC115 or MTH104 before taking ACC120. ACC120 is a fast-paced course requiring good reading and computational skills. Therefore, we recommend students take the math and English assessment tests before registering for ACC120.

IAI: BUS 903.

(3 lec/0 lab)

3 sem hrs

### ACC 121 Managerial Accounting

This introduction to managerial accounting focuses on accumulation, analysis and use of cost information needed for internal decision making in businesses. It covers cost identification; job-order, process and activity-based costing; cost-volume-profit analysis; budgeting; standard costs; variance analysis; the statement of cash flows; capital budgeting; and short-term decision making.

Recommended Prereq: ACC120.

IAI: BUS 904.

(3 lec/0 lab)

3 sem hrs

### ACC 130 Payroll Accounting

This comprehensive study of payroll procedures includes current federal and Illinois laws affecting payroll. Payroll applications include manual processing, microcomputer payroll software processing, and an application using spreadsheet software.

Recommended Prereq: ACC115 or ACC120 or a general knowledge of bookkeeping.

(2 lec/0 lab)

2 sem hrs

### ACC 201 Individual Tax Accounting

This course is a study of the concepts of federal income taxation as they apply to individuals. Topics include gross income, exclusions, deductions, credits, the taxation of sole proprietors, tax planning strategies, and computation of gains and losses on the disposition of property.

(3 lec/0 lab)

3 sem hrs

### ACC 205 Business Tax Accounting

This course is a study of concepts of federal income taxation related to income, deductions, distributions, property transactions, acquisitions and reorganizations for a broad range of taxpayers including corporations, partnerships, S corporations, limited liability companies, estates and trusts.

Recommended Prereq: ACC120; ACC201.

(3 lec/0 lab)

3 sem hrs

### ACC 220 Intermediate Accounting I

This is the first of two courses in the advanced study of the assumptions, principles, procedures and practices involved in modern corporate financial accounting.

Recommended Prereq: ACC121.

(3 lec/0 lab)

3 sem hrs

### ACC 221 Intermediate Accounting II

This is the second of two courses in the advanced study of the assumptions, principles, procedures and practices involved in modern corporate financial accounting.

Recommended Prereq: ACC220.

(3 lec/0 lab)

3 sem hrs

### ACC 230 Microcomputer Accounting Applications

This introduction to computerized accounting systems employs a hands-on approach to processing business transactions on an integrated microcomputer accounting package. Accounting software applications include: general ledger systems for service and merchandising firms, voucher systems, fixed assets, payroll, partnerships, corporations, financial statement analysis, departmentalized accounting, accounting system set-up and spreadsheets.

Recommended Prereq: ACC115 or concurrent enrollment or ACC120.

(3 lec/0 lab)

3 sem hrs

### ACC 240 Cost Accounting

This advanced study of the accumulation, analysis and use of cost information needed for internal decision making in business covers: accounting for quality allocation of indirect costs, activity-based costing, job-order costing, process costing, accounting for spoilage, standard costing, cost-volume-profit analysis, inventory control, capital budgeting, decentralization and organizational performance.

Recommended Prereq: ACC121.

(3 lec/0 lab)

3 sem hrs

### ACC 245 VITA Program: Tax Procedure and Practice

The basic principles of federal income taxes as they relate to low-to-moderate income individuals are applied in this hands-on course consisting of the preparation of various low-to-moderate individual income tax returns using Forms 1040EZ, 1040A, 1040 and IL1040. Participation and certification in the volunteer income tax program is required.

(3 lec/0 lab)

3 sem hrs

### ACC 250 Auditing I

This course provides students with the design, installation and unification of accounting systems and the concepts and procedures involved in the examination of financial statements for the purpose of establishing and expressing an opinion as to their reliability. This course will discuss statistical sampling techniques and the auditor's legal liability.

Recommended Prereq: ACC221.

(3 lec/0 lab)

3 sem hrs

### ACC 251 Auditing II

This course focuses on the practical application of the conceptual structure of the audit process, risk assessment in the audit process, evidence gathering and evaluation, and special topics to auditing a comprehensive audit case.

Recommended Prereq: ACC250.

(3 lec/0 lab)

3 sem hrs

**ACC 255 Fund and Governmental Accounting**

This is a study of accounting and reporting concepts, standards and procedures applicable to city, county and state governments, the federal government and not-for-profit institutions.

*Recommended Prereq:* ACC221.

(3 lec/0 lab)

3 sem hrs

**ACC 260 Advanced Accounting**

This course is an examination of advanced financial accounting concepts including accounting for business combinations, with emphasis on the consolidation of parent/subsidiary balance sheet and income statement reporting. It also covers accounting for the formation, operation and liquidation of partnership, as well as special reporting requirements for multi-national entities.

*Recommended Prereq:* ACC221.

(3 lec/0 lab)

3 sem hrs

**ACC 297 Accounting Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the accounting field. Eighty hours are required for 1 credit. Repeatable to a maximum of 4 semester hours; 6 semester hours from the accounting internship courses (ACC297, ACC298, ACC299) may apply to the accounting degree or certificates.

*Prereq:* 15 semester hours of ACC courses; consent of instructor.

(0 lec/5 lab)

1 sem hrs

**ACC 298 Accounting Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the accounting field. One hundred sixty hours are required for 2 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the accounting internship courses (ACC297, ACC298, ACC299) may apply to the accounting degree or certificates.

*Prereq:* 15 semester hours of ACC courses; consent of instructor.

(0 lec/10 lab)

2 sem hrs

**ACC 299 Accounting Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the accounting field. Two hundred forty hours are required for 3 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the accounting internship courses (ACC297, ACC298, ACC299) may apply to the accounting degree or certificates.

*Prereq:* 15 semester hours of ACC courses; consent of instructor.

(0 lec/15 lab)

3 sem hrs

**Administrative Office Systems (AOS)****AOS 100 Keyboarding**

This course provides students with basic computer keyboarding skills for personal and professional use. It includes speed and accuracy building in addition to instruction on alphabetic and top line numeric/symbol keys. This course is a recommended prerequisite for AOS101, AOS105, AOS115, AOS205 and MCS130.

(.5 lec/1 lab)

1 sem hrs

**AOS 101 Keyboarding Speed Building**

This course emphasizes the development of speed and accuracy using a computer keyboard. Repeatable to a maximum of 2 semester hours; 0.5 semester hour may apply to a degree or certificate.

*Recommended Prereq:* AOS100 or equivalent.

*Recommended Coreq:* AOS115.

(0 lec/1 lab)

.5 sem hrs

**AOS 110 Computer Software for the Office**

An introduction to the computer, this course emphasizes application software for the office. The changing electronic office, computer hardware and software, computer operating system and a Web browser are introduced. This is a hands-on introduction to application software for word processing, spreadsheet, database programs and presentation graphics designed for students focused on business careers. Repeatable to a maximum of 9 semester hours; 3 semester hours may apply to a degree or certificate.

*Recommended Prereq:* Keyboarding preferred.

*IAI: BUS 902.*

(2 lec/2 lab)

3 sem hrs

**AOS 113 PowerPoint Presentations for Business**

This course is an introduction to designing, preparing and delivering electronic business presentations using presentation graphics software. Speaker support materials such as overheads, transparencies, slides, audience handouts, and slide shows are prepared. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.

*Recommended Prereq:* CIS105.

(3 lec/0 lab)

3 sem hrs

**AOS 114 Comprehensive Word Processing**

Fundamental through expert applications of features, commands, and functions of Microsoft Word are included to help users enhance productivity and develop more vibrant documents. The course prepares students to produce word documents and templates emphasizing commonly used commands and strategies for formatting, editing and revising text. Repeatable to a maximum of 9 semester hours; 3 semester hours may apply to a degree or certificate.

*Recommended Prereq:* AOS100; AOS110; CIS105.

(3 lec/ lab)

3 sem hrs

**AOS 115 Document Formatting**

Students format letters, memos, reports, tables and commonly used business documents using word processing functions. Advanced features of a word processing software program are introduced. Students also improve their keyboarding speed and accuracy.

*Recommended Prereq:* AOS100 or minimum of 30 wpm keyboarding skills.

*Prereq:* AOS110.

(2 lec/2 lab)

3 sem hrs

**AOS 130 Customer Service**

This customer service course introduces students to a variety of skills including identifying customer behavior, determining customer needs through active listening, becoming an effective verbal and nonverbal communicator, honing your telephone customer service skills, handling difficult customers, encouraging customer loyalty, and practicing service recovery.

(2 lec/0 lab)

2 sem hrs

**AOS 140 Proofreading and Number Skills**

Students receive instruction in a systematic method of proofreading and developing accuracy in working with numbers. Common proofreading errors are identified. Audio-visual drills and workbook exercises are used to improve numeric accuracy and speed.

*Recommended Prereq:* AOS115.

(3 lec/0 lab)

3 sem hrs

**AOS 205 Records Management**

This course covers records management concepts and skills, with emphasis on the information cycle and systems for managing and using information. It includes an introduction to principles for managing paper-based, image-based and computer-based records.

*Recommended Prereq:* AOS100; AOS110; CIS114.

(2 lec/2 lab)

3 sem hrs

**AOS 210 Emerging Technologies**

This capstone course provides opportunities to explore emerging technologies. Emphasis is placed on identifying, researching, and presenting current technological topics for class consideration and discussion. Upon completion, students should be able to understand the importance of keeping abreast of technological changes and support their use in the office.  
*Prereq:* AOS110.

(2 lec/2 lab)

3 sem hrs

**AOS 280 Administrative Office Systems**

Responsibilities and tasks expected of a secretary or administrative assistant are covered: office systems and organization, human relations (communication), work planning and prioritizing, decision making, processing mail, telephone techniques, meeting and conference planning, travel arrangements reference sources, and professional growth opportunities.

*Recommended Prereq:* AOS130.

(3 lec/0 lab)

3 sem hrs

**AOS 296 Special Topics in Office Systems**

This course offers in-depth exploration of a special topic, issue or trend in the office systems field. Topics might include the impact of technology in the office.

Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(0 to 3 lec/0 to 6 lab)

1 to 3 sem hrs

**AOS 297 Administrative Office Systems Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the administrative office field. Eighty hours are required for 1 credit. Repeatable to a maximum of 4 semester hours; 6 semester hours from the administrative office systems internship courses (AOS297, AOS298, AAOS299) may apply to a degree or certificate.  
*Prereq:* 15 semester hours of AOS or MCS courses; consent of instructor.

(0 lec/5 lab)

1 sem hrs

**AOS 298 Administrative Office Systems Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the administrative office field. One hundred sixty hours are required for 2 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the administrative office systems internship courses (AOS297, AOS298, AAOS299) may apply to a degree or certificate.  
*Prereq:* 15 semester hours of AOS or MSC courses; consent of instructor

(0 lec/10 lab)

2 sem hrs

**AOS 299 Administrative Office Systems Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the administrative office field. Two hundred forty hours are required for 3 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the administrative office systems internship courses (AOS297, AOS298, AOS299) may apply to a degree or certificate.

*Prereq:* 15 semester hours of AOS or MCS courses; consent of instructor.

(0 lec/15 lab)

3 sem hrs

**Agriculture (AGR)****AGR 100 Introduction to Animal Science**

Introduction to Animal Science explores the application of genetics, physiology and nutrition to the improvement of animal industries. The course also introduces animal management and production practices.

Note: This course is part of the University of Illinois ACES ACCESS program and will be taught by a University of Illinois instructor.

*IAI: AG 902 (under IAI review).*

(3 lec/2 lab)

4 sem hrs

**AGR 105 Introduction to Crop Science**

Introduction to Crop Science studies the basic principles of plant growth, including the influence of human and environmental factors. The theoretical and practical applications of agronomic principles to crop production are also explored.

Note: This course is part of the University of Illinois ACES ACCESS program and will be taught by a University of Illinois instructor.

*IAI: AG 903 (under IAI review).*

(3 lec/2 lab)

4 sem hrs

**AGR 110 Introduction to Soil Science**

Introduction to Soil Science explores the chemical, physical and biological properties of soils; the origin, classification, and distribution of soils and their influence on people and food production; the management and conservation of soils; and the environmental impact of soil use.

Note: This course is part of the University of Illinois ACES ACCESS program and will be taught by a University of Illinois instructor.

*IAI: AG 904.*

(3 lec/2 lab)

4 sem hrs

**AGR 115 Introduction to Horticulture**

The principles and practices in the development, production and use of horticultural crops are introduced in this course. Topics also include the classification, structure, growth, development and environmental influences on horticultural plants.

Note: This course is part of the University of Illinois ACES ACCESS program and will be taught by a University of Illinois instructor.

*IAI: AG 905.*

(3 lec/0 lab)

3 sem hrs

**Allied Health (ALH)****ALH 100 Basic 12-Lead EKG and Arrhythmia**

This course is designed to prepare individuals to perform EKGs in a variety of health care settings while augmenting their abilities in a variety of health care roles. This course is intended for CNA, EMT, paramedic, phlebotomy, nursing, MLA, surgical technology, and other interested health care professionals. Content includes: basic anatomy with emphasis of the cardiovascular and circulatory systems, electrical conduction system of the heart, special cardiology procedures and basic ECG, among other related topics.

(3 lec/0 lab)

3 sem hrs

**Anthropology (ANT)****ANT 100 Introduction to Anthropology**

This course presents a survey of human physical development, addressing peoples' interaction with their physical and social environment today. The major subfields of anthropology - cultural anthropology, physical anthropology, archaeology and linguistics - are also studied.

*IAI: S1 900N.*

(3 lec/0 lab)

3 sem hrs

**ANT 101 Cultural Anthropology**

Cultural Anthropology provides an introduction to social and cultural anthropology, emphasizing the socio-culture and psychological characteristics of various cultures: hunters, tribesmen, chiefdoms, peasants and industrial societies. Emphasis is placed on cultural universals, integration of social institutions and the continuing adaptation of man to his environment.

*IAI: S1 901N.*

(3 lec/0 lab)

3 sem hrs

**ANT 102 Human Origins**

Physical anthropology explores the origins and development of human beings and our closest non-human relatives in the primate order. This course examines the mechanics of genetics and the processes of evolution. Students also investigate the fossil record and archaeological evidence in order to understand the sequence of early human ancestors. In addition, this course studies non-human primates, both living and extinct. The course also explores the adaptability and variation seen in modern human populations.

*IAI: S1 902.*

(3 lec/0 lab)

3 sem hrs

**ANT 110 Introduction to Archaeology**

Introduction to Archaeology explores the concepts, principles and archaeological methods utilized by anthropologists to reconstruct and interpret past cultures. Specific prehistorical cultures are examined to illustrate this process.

*IAI: S1 903.*

(3 lec/0 lab)

3 sem hrs

**ANT 120 Cultures and Peoples of Central America**

This course provides a study of the prehistorical, historical, social, economic and political characteristics of the following cultures: Guatemala, Honduras, Costa Rica, Panama, Cuba, Nicaragua and Mexico. Special emphasis is placed on the prehistorical development of Mesoamerica, the Spanish conquest and the hybrid culture developed throughout the region.

(3 lec/0 lab)

3 sem hrs

**APICS (APC)****APC 100 Principles of Inventory Control**

Students are introduced to essential vocabulary and skills in identifying and applying basic principles of inventory management. Basic methods of planning and controlling inventory in manufacturing, institutional, distribution and retail environments are covered. The questions of what to stock are addressed through an examination of current and evolving technologies of inventory management. Note: This course is taught by an APICS-certified instructor.

(2 lec/0 lab)

2 sem hrs

**APC 110 Principles of Planning**

Students learn the fundamentals of basic planning principles and techniques that are used at each level in the planning process. The course focuses on practical examples and exercises, giving participants an opportunity to improve their planning, teamwork and presentation skills.

Note: This course is taught by an APICS-certified instructor.

(2 lec/0 lab)

2 sem hrs

**APC 115 Principles of Manufacturing Control**

This course deals with priority and capacity management through the use of Material Resource Planning (MRP) capacity management, Capacity Requirements Planning (CRP), Production Activity Control (PAC) and Just-in-Time (JIT). This course studies the execution of the production plan and master production schedule, reactions to capacity constraints and maintenance of individual order control.

Note: This course is taught by an APICS-certified instructor.

(2 lec/0 lab)

2 sem hrs

**APC 120 Principles of Operations Management**

In this course students gain a fundamental knowledge and understanding of operations resource management and the factors involved in designing and operating a production process. Topics covered include facilities planning, TQM, cost analysis, project planning and operations resource management.

Note: This course is taught by an APICS-certified instructor.

(2 lec/0 lab)

2 sem hrs

**APC 125 Basics of Supply Chain Management**

This course provides basic definitions and concepts for planning and controlling the flow of materials into, through and out of an organization. It explains fundamental relationships among the activities that occur in the supply chain from suppliers to customers. In addition, the course addresses types of manufacturing systems, forecasting, master planning, material requirements planning, capacity management, production activity control, purchasing, inventory management, distribution, quality management, and Just-in-Time manufacturing.

Note: This course is taught by an APICS-certified instructor.

(1.5 lec/0 lab)

1.5 sem hrs

**APC 130 Master Planning of Resources**

In this course students explore processes used to: develop sales and operations plans; identify and assess internal and external demand and forecasting requirements; and effect an achievable master schedule consistent with business policies, objectives, and resource constraints. The course focuses on developing and validating a plan of supply, relating management of demand to environment, and developing and validating the master schedule.

Note: This course is taught by an APICS-certified instructor.

(1.5 lec/0 lab)

1.5 sem hrs

**APC 135 Detailed Scheduling and Planning**

This course focuses on material and capacity scheduling and planning. It includes a detailed explanation of Material Requirements Planning (MRP), a technique suitable for use in job shops. The course also introduces another material planning technique, material-dominated scheduling, which is applicable to process industries and other mature production environments. The course explains capacity requirements planning in detail and introduces other capacity-planning techniques, including processor-dominated scheduling.

Note: This course is taught by an APICS-certified instructor.

(1.5 lec/0 lab)

1.5 sem hrs

**APC 140 Execution and Control of Operations**

This course focuses on three main areas: prioritizing and sequencing work; executing work plans, implementing controls and reporting activity results; and evaluating and providing feedback on performance. The course explains techniques for scheduling and controlling production and process operations. It also addresses the execution of quality initiatives and continuous improvement plans as well as the control of handling of inventories. Finally, the course presents techniques for evaluating performance and collecting data for effective feedback.

Note: This course is taught by an APICS-certified instructor.

(1.5 lec/0 lab)

1.5 sem hrs

**APC 145 Strategic Management of Resources**

In this course students explore the relationship of existing and emerging processes and technologies to manufacturing strategy and supply chain-related functions. The course addresses three main topics: aligning resources with the strategic plan, configuring and integrating operating processes to support the strategic plan, and implementing change.

Note: This course is taught by an APICS-certified instructor.

*Recommended Prereq:* APC125; APC130; APC135; APC140.

(1.5 lec/0 lab)

1.5 sem hrs

**Art (ART)****ART 100 Art Appreciation**

ART100 is the study of the developments in fine and applied arts throughout human history. Students are introduced to the vocabulary and media of art. This course is intended to develop an understanding and awareness of the contributions artists make to society. Note: This course is not recommended for art majors.

*IAI: F2 900.*

(3 lec/0 lab)

3 sem hrs

**ART 101 History of Western Art-  
Ancient to Medieval**

This course is a study of the historical developments of the visual arts in Western society from prehistoric through medieval time periods. Discussion of major artistic trends and movements is framed by an examination of the historical context and social milieu.

*IAI: F2 901.*

(3 lec/0 lab)

3 sem hrs

**ART 102 History of Western Art-  
Renaissance to Modern Art**

This course is a study of the historical developments of the visual arts in Western society from the Renaissance time period to the present. Discussion of major artistic trends and movements is framed by an examination of the historical context and social milieu.

*IAI: F2 902.*

(3 lec/0 lab)

3 sem hrs

**ART 103 History of Non-Western Art**

This course is a study of the historical developments of the visual arts in non-Western society. Discussion of major artistic trends and movements is framed by an examination of the historical context and social milieu.

*IAI: F2 903N.*

(3 lec/0 lab)

3 sem hrs

**ART 104 History of Photography**

This course covers the history of photography from its beginnings in the 1830s to the present. It familiarizes the student with key photographic artists, styles and movements. Current photographic processes and criticism are discussed.

*IAI: F2 904.*

(3 lec/0 lab)

3 sem hrs

**ART 105 Women in Art**

This course focuses on women as creators and subjects of visual art throughout history and diverse cultures. Consideration is given to how gender is relevant to the definition, creation and appreciation of art.

*IAI: F2 907D.*

(3 lec/0 lab)

3 sem hrs

**ART 110 Design I**

This is a basic course in the application and appreciation of the principles and elements of two-dimensional design. It examines selected problems using line, color, mass, value and texture.

(1 lec/5 lab)

3 sem hrs

**ART 111 Design II**

This course explores the basic elements of three-dimensional design. Directed exercises with paper, foamcore, wood, wire, plaster, polymer clay and assorted materials are included.

Note: Required for art majors.

*Prereq: ART110.*

(1 lec/5 lab)

3 sem hrs

**ART 112 Color**

This course introduces color theory and its application to the visual arts. Students explore the interaction of color in contemporary, historical and cultural contexts.

*Recommended Prereq: ART110.*

(1 lec/5 lab)

3 sem hrs

**ART 120 Basic Drawing I**

This course encompasses drawing of natural and artificial forms from observation. Line, shape, values, mass, volume and composition are explored. Emphasis is on the use of dry media: pencil, graphite sticks, powdered graphite, charcoal, tortillions and kneaded eraser. Some class sessions may be on life drawing from a live model.

(1 lec/5 lab)

3 sem hrs

**ART 121 Basic Drawing II**

This course is a continuation of ART120, with development of skill in representation and interpretation of subjects, including figure drawing, landscape, still life and imagination. Emphasis is on the continued use of charcoal, pastels, colored pencils, ink and collage materials. Selected class sessions involve life drawing from a live model. Required for art majors.

*Prereq: ART120.*

(1 lec/5 lab)

3 sem hrs

**ART 123 Contemporary Drawing**

The course involves studio experiments in drawing with an emphasis on abstract concepts, image manipulation and content development. Contemporary drawing trends are examined, discussed and attempted. Students are encouraged to explore current drawing processes, methods and materials.

*Recommended Prereq: ART110 strongly recommended.*

(1 lec/5 lab)

3 sem hrs

**ART 130 Ceramics I**

This course is an introduction to the processes and techniques involved in making clay objects through hand-building and utilizing the potter's wheel. Various forms are explored. Issues related to both sculptural and functional aesthetics are addressed.

(1 lec/5 lab)

3 sem hrs

**ART 131 Ceramics II**

This course guides students toward developing techniques involved in creating clay vessels on the potter's wheel and a further introduction into hand-building. Students are challenged with conceptual assignments relating to both the historical and contemporary world. Various forms are explored. Students learn to load and fire kilns of multiple processes.

*Recommended Prereq: ART130.*

(1 lec/5 lab)

3 sem hrs

**ART 140 Photography I**

This course provides technical grounding in black and white 35mm film photography including film processing, enlarging, finishing and presentation. Students explore the historical and contemporary uses and criticisms of photography. A wide range of photographic genres are discussed involving camera vision and ideas.

Note: Students are required to have their own SLR 35mm film camera with interchangeable lenses.

(1 lec/5 lab)

3 sem hrs

**ART 142 Beginning  
Digital Photography**

This course explores basic techniques and applications of acquiring, manipulating and outputting digitized photographic images utilizing Adobe Photoshop.

Note: Students should have their own digital camera that has interchangeable lenses, is capable of photographing with the RAW file format, and has a minimum of 8 mega-pixels.

*Prereq: ART140.*

(1 lec/5 lab)

3 sem hrs

**ART 155 Sculpture I**

This studio course introduces basic sculptural processes, materials, and tools, and idea communication through these methods. Studio safety is strongly emphasized. Processes include additive, modeling, constructive; subtractive, carving; and replacement casting. Time arts/4-D may be considered.

*Recommended Prereq: ART111.*

(1 lec/5 lab)

3 sem hrs

**ART 222 Life Drawing**

This course focuses on the study of the human figure through selected assignments in contour, value, and gesture drawing of the undraped figure. Naturalistic and expressive interpretations in a variety of drawing media are included.

*Prereq: ART120.*

(1 lec/5 lab)

3 sem hrs

**ART 230 Ceramics III**

This course further develops the skills acquired in ART131 with emphasis placed on a more personal expression within the confines of the processes and material. More complex techniques are explored, and issues related to functional and non-functional aesthetics are addressed. Students learn to load and fire kilns of multiple processes.

*Recommended Prereq: ART131.*

(1 lec/5 lab)

3 sem hrs

**ART 231 Materials:  
Clay and Glaze Development**

This course is an introduction to the processes and techniques involved in making clay bodies, glazes and slips for specific firing processes.

*Prereq: ART130.*

(0 lec/2 lab)

1 sem hrs

**ART 240 Photography II**

This course provides in-depth instruction in black and white 35mm film photography. It introduces the 4x5 view camera and the usage of large format film, color theory and color transparency film, multiple imagery, construction of narratives and experimental black and white darkroom processes. Students learn to master camera operations and film processing, as well as special effects and manipulations.

*Prereq:* ART140.

(1 lec/5 lab)

3 sem hrs

**ART 241 Photographic Lighting**

This course introduces students to fundamental lighting techniques and concepts encountered in the studio and on location. Students are instructed in the use of 4"x5" view camera, light meters, sheet film, roll film, color transparency, instant film and digital photographing techniques. Both the artistic and commercial use of lighting are explored.

*Recommended Prereq:* ART240.

*Prereq:* ART142.

(1 lec/5 lab)

3 sem hrs

**ART 242 Intermediate****Digital Photography**

In this course students refine their command and control of Adobe Photoshop skills, focusing on the use of more advanced photo-manipulation tools.

*Prereq:* ART142.

(1 lec/5 lab)

3 sem hrs

**ART 243 Advanced****Digital Photography**

This course is a continuation of ART242. Students explore advanced concepts and techniques in computer image processing. The course culminates in the creation of a digital portfolio.

*Prereq:* ART242.

(1 lec/5 lab)

3 sem hrs

**ART 255 Sculpture II**

This studio course continues the exploration of sculptural processes, materials, and tools, and the idea of communication through sculptural methods. Studio safety is strongly emphasized. Students develop proficiency in selection, use and manipulation of materials as well as mastery of the processes involved.

*Recommended Prereq:* ART155.

(1 lec/5 lab)

3 sem hrs

**ART 260 Painting I**

This course is an introduction to painting in acrylic and/or oil media. Students depict a variety of subject matter using a creative approach.

Note: Students are strongly encouraged to complete both ART110 and ART120.

*Prereq:* ART110 or ART120.

(1 lec/5 lab)

3 sem hrs

**ART 261 Painting II**

This course is a continuation of ART260. Students explore a variety of painting techniques pertinent to the 21st century.

*Prereq:* ART260.

(1 lec/5 lab)

3 sem hrs

**ART 262 Painting III**

This course is a continuation of ART261. Students explore contemporary issues and how they relate to a realization of personal style in creating art work.

*Prereq:* ART261.

(1 lec/5 lab)

3 sem hrs

**ART 265 Watercolor**

This course is an introduction to the basic techniques of transparent and opaque watercolor painting. Directed exercises in color and technique execution are included. Students produce finished paintings of still life, figure and/or landscape renditions.

*Recommended Prereq:* ART120.

(1 lec/5 lab)

3 sem hrs

**ART 290 Studio Art**

This is an advanced studio course for art majors. It allows continuation and concentration in a subject field with emphasis on individual research and personal exploration. Students can further their knowledge in drawing, life drawing, painting, design, photography, sculpture or ceramics. Repeatable to a maximum of 12 semester hours; 6 semester hours may apply to a degree or certificate.

*Prereq:* Consent of instructor.

(1 lec/5 lab)

3 sem hrs

**ART 291 Digital Art Portfolio**

This course provides non-digital 2-D and 3-D artists a way to digitize their portfolios by photographing, scanning and processing images. Students are expected to have an existing body of artwork to document.

(.5 lec/1 lab)

1 sem hrs

**ART 292 Art Professional Development**

This course is designed to teach essential skills that provide art students with the resources necessary to be successful in the creative job market.

*Prereq:* ART142 or ART291.

(.5 lec/1 lab)

1 sem hrs

**ART 296 Special Topics for the Arts**

This course offers in-depth exploration of a special topic, issue or trend in the arts. Repeatable to a maximum of 24 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(0 to 6 lec/0 to 12 lab)

1 to 6 sem hrs

**ART 297 Art Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the art field, including positions related to visual art and art administration. Eighty hours are required for 1 credit. Repeatable to a maximum of 4 semester hours; 6 semester hours from the art internship courses (ART297, ART298, ART299) may apply to a degree or certificate.

*Prereq:* Consent of instructor.

(0 lec/5 lab)

1 sem hrs

**ART 298 Art Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the art field, including positions related to visual art and art administration. One hundred sixty hours are required for two credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the art internship courses (ART297, ART298, ART299) may apply to a degree or certificate.

*Prereq:* Consent of instructor.

(0 lec/10 lab)

2 sem hrs

**ART 299 Art Internship**

Combining academic credit with professional experience, this intership allows students to learn about, observe and work in the art field, including positions related to visual art and art administration. Two hundred forty hours are required for three credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the art internship courses (ART297, ART298, ART299) may apply to a degree or certificate.

*Prereq:* Consent of instructor.

(0 lec/15 lab)

3 sem hrs

**Astronomy (AST)****AST 100 Introduction to Astronomy**

This course is a descriptive, nonmathematical, nonlaboratory survey course in astronomy - some basic arithmetic may be required.

Topics include earth and sky, the structure and evolution of the solar system, stars, galaxies and the universe.

Note: AST100 will not count toward a degree if the student completes AST105 or AST110.

*IAI: P1 906.*

(3 lec/0 lab)

3 sem hrs

**AST 105 Astronomy**

This course is a descriptive, laboratory, survey course in astronomy. Topics include structure and evolution of the solar system and universe, history of astronomy, interstellar medium, Milky Way, galaxies and cosmology.

Note: Students will not receive credit toward a degree for both AST100 and AST105.

*Recommended Prereq:* A course in basic algebra.

*IAI: P1 906L.*

(3 lec/2 lab)

4 sem hrs

**AST 110 Planetary Science**

This course is a descriptive course in astronomy of the solar system. Topics include motions, time, tides, calendars, seasons, earth, moon, planets, minor members of the solar system, tools and history of space and planetary science, results of space exploration and terrestrial and extraterrestrial life.

Note: Students will not receive credit toward a degree for both AST100 and AST110.

*Recommended Prereq:* A course in basic algebra.  
*IAI: P1 906L.*

(3 lec/2 lab)

4 sem hrs

**AST 115 Astronomy for Educators**

This is a survey course in astronomy designed for present or future teachers at all levels. It is a descriptive, non-mathematical, non-laboratory course to provide teachers an understanding of the fundamentals of astronomy.

Demonstrations and activities are presented during the class that the student can then use in their own classroom, including the motions of the sky, formation and description of the solar system, formation, types and evolution of stars and galaxies.

(3 lec/0 lab)

3 sem hrs

**AST 296 Topics/Issues  
for the Sciences**

This course offers in-depth exploration of a special topic, issue or trend in one or more of the biological or physical sciences fields. Repeatable to a maximum of 24 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(1 to 6 lec/0 lab)

1 to 6 sem hrs

**Auto Body Repair (ABR)****ABR 100 Auto Body Welding**

This course is designed to develop a high level of student skill in the use of various welding and fastening techniques as they relate to auto body repair. Concurrently, the student practices with various tools used in the disassembly of auto body panels. Familiarization with shop facility and routine is also established.

*Prereq:* Reading assessment.

*Coreq:* ABR105; ABR110; ABR115; ABR120; ABR125.

(1 lec/2 lab)

2 sem hrs

**ABR 105 Sheet Metal Repair**

This course trains students in the use of metal straightening tools and techniques vital to the repair of damaged auto body panels. Skill levels are developed which allow for metal finishing a panel without the use of body fillers.

*Prereq:* Reading assessment.

*Coreq:* ABR100; ABR110; ABR115; ABR120; ABR125.

(1 lec/2 lab)

2 sem hrs

**ABR 110 Fiberglass  
Panel and Plastic Repair**

This course is designed to enable students to make repairs of both plastic and fiberglass panels.

*Prereq:* Reading assessment.

*Coreq:* ABR100; ABR105; ABR115; ABR120; ABR125.

(.5 lec/1 lab)

1 sem hrs

**ABR 115 Basic Auto Body Repair**

In this phase of auto body training, students are given the opportunity to apply skills learned previously. Some panel replacements may be necessary to complete the repair. Activities include feathering, taping, masking and spot repair.

*Prereq:* Reading assessment.

*Coreq:* ABR100; ABR105; ABR110; ABR120; ABR125.

(2 lec/4 lab)

4 sem hrs

**ABR 120 Auto Painting and  
Refinishing**

This comprehensive course covers the entire area of auto painting, from the equipment used through prepainting procedures and application techniques including masking and taping, and finishing with rubbing and polishing. Each student must complete a checklist of tasks that encompasses the many facets of auto painting.

*Prereq:* Reading assessment.

*Coreq:* ABR100; ABR105; ABR110; ABR115; ABR125.

(2 lec/4 lab)

4 sem hrs

**ABR 125 Auto Body Careers**

This course provides students with exposure to the auto body field. Students experience and observe actual shop operations and career opportunities.

*Prereq:* Reading assessment.

*Coreq:* ABR100; ABR105; ABR110; ABR115; ABR120.

(1 lec/0 lab)

1 sem hrs

**ABR 130 Automotive  
Collision Appraisal**

This course is designed to prepare students for entry into the field of collision repair and collision damage estimating. It deals with evaluating the extent of the damage and defining what repair costs will be for the vehicle.

*Prereq:* Reading assessment; all basic ABR courses.

*Coreq:* ABR135; ABR140; ABR145; ABR150.

(.5 lec/1 lab)

1 sem hrs

**ABR 135 Frame Repair**

This course gives students the opportunity to use various body frame machines and measuring systems to effect repairs to frames and unibodies.

*Prereq:* Reading assessment; all basic ABR courses.

*Coreq:* ABR130; ABR140; ABR145; ABR150.

(3 lec/6 lab)

6 sem hrs

**ABR 140 Glass Service**

This course trains students in the care and service of automotive glass and glass replacement.

*Prereq:* Reading assessment; all basic ABR courses.

*Coreq:* ABR130; ABR135; ABR145; ABR150.

(.5 lec/1 lab)

1 sem hrs

**ABR 145 Intermediate  
Auto Body Repair**

This course involves the student in the repair of a vehicle with extensive damage. Students join into teams as they now apply all of their basic training. Sectioning, clipping, quarter panel replacement and frame straightening are included. Production and speed are stressed in this phase of the work.

*Prereq:* Reading assessment; all basic ABR courses.

*Coreq:* ABR130; ABR135; ABR140; ABR150.

(3 lec/6 lab)

6 sem hrs

**ABR 150 Chassis and Electrical  
Systems for Auto Collision**

This course is designed to provide auto body students with repair skills in automotive chassis and electrical systems as they relate to work in auto body and collision.

*Prereq:* Reading assessment; all basic ABR courses.

*Coreq:* ABR130; ABR135; ABR140; ABR145.

(2 lec/0 lab)

2 sem hrs

**ABR 215 Advanced Auto Body Repair**

This final phase of the auto body repair program is designed to allow the auto body student mastery-level experiences. Students use their previously learned skills to complete real-life auto body and collision repairs.

*Prereq:* Reading assessment; all advanced ABR courses.

(1 lec/4 lab)

3 sem hrs

**ABR 297 Auto Body Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the auto body repair field. Eighty hours are required for 1 credit. Repeatable to a maximum of 4 semester hours; 1 semester hour from the auto body internship courses (ABR297, ABR298, ABR299) may apply to the auto body degree or certificate.

*Prereq:* Reading assessment; all basic ABR courses; consent of instructor.

(0 lec/5 lab)

1 sem hrs

**ABR 298 Auto Body Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the auto body repair field. One hundred sixty hours are required for 2 credits. Repeatable to a maximum of 6 semester hours; 1 semester hour from the auto body internship courses (ABR297, ABR298, ABR299) may apply to the auto body degree or certificate.

*Prereq:* Reading assessment; all basic ABR courses; consent of instructor.

(0 lec/10 lab) 2 sem hrs

**ABR 299 Auto Body Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the auto body repair field. Two hundred forty hours are required for 3 credits. Repeatable to a maximum of 6 semester hours; 1 semester hour from the auto body internship courses (ABR297, ABR298, ABR299) may apply to the auto body degree or certificate.

*Prereq:* Reading assessment; all basic ABR courses; consent of instructor.

(0 lec/15 lab) 3 sem hrs

**Automotive  
Technology (AUT)****AUT 100 Fundamentals  
of Automotive Technology**

This lecture-lab course is designed to acquaint students with shop safety, shop operations, tools, chemicals, and how to obtain service information. Also covered are employment options and responsibilities in the automotive field.

(1 lec/2 lab) 2 sem hrs

**AUT 110 Engine Service I**

This course is designed to provide background in design, troubleshooting and service procedures of automotive engines. Use of service manuals, shop safety and shop procedures are covered. Students participate in the disassembly, identification and inspection of the engine components, and reassembly of the engine. This class is a hands-on experience of engine rebuilding and problem diagnosis.

(1 lec/5 lab) 3 sem hrs

**AUT 111 Automotive Power Trains**

This lecture-lab course is designed to provide the student an opportunity to learn the design, operation and service procedures of automotive power train components. Clutches, manual transmissions, transaxles, differentials and 4 x 4 service are covered.

(1 lec/5 lab) 3 sem hrs

**AUT 112 Automotive Brake Systems**

This lecture/lab course is designed to provide the student with a thorough understanding of the design, operation and service procedures related to the complete automotive brake system. This course covers both import and domestic.

(1 lec/5 lab) 3 sem hrs

**AUT 113 Automotive Electrical/  
Electronic Systems**

This lecture/lab course is designed to provide the knowledge and skills needed to service modern automotive electrical/electronic systems. Basic electrical/electronic topics including circuit types and designs, wiring diagram analysis, wire service and electrical troubleshooting procedures are stressed. Operation and diagnosis of battery, starting, charging, lighting and accessory circuits are also detailed.

(1 lec/5 lab) 3 sem hrs

**AUT 120 Engine Service II**

This advanced course in automotive engine service presents maintenance and service on some of the more common procedures and repairs on gasoline engines and related areas.

*Recommended Prereq:* AUT110.

(1 lec/5 lab) 3 sem hrs

**AUT 122 Automotive Suspension  
and Wheel Alignment**

This lecture/lab course is designed to provide the student an opportunity to learn the design, operation and service procedures of the automotive suspension system. Emphasis is placed on front-wheel drive, strut-equipped vehicles. General areas are tires, wheel balancing, front MacPherson and rear suspensions.

(1 lec/5 lab) 3 sem hrs

**AUT 123 Automotive Ignition Systems**

This lecture/lab course is designed to acquaint students in the design, operation and testing of various non-computer and computer-controlled ignition systems. Oscilloscope operation and testing are stressed. Conventional, electronic and distributorless systems are also discussed.

(2 lec/3 lab) 3 sem hrs

**AUT 124 Automotive Fuel  
and Emission Systems**

This course examines the design and operation of various fuel delivery and emission system components. Topics covered include conventional carburetion, feedback carburetion, basic fuel injection, air induction, PCV systems, catalytic converters, evaporative emission systems and exhaust gas recirculation. Detailed fuel and emission system testing, including infra-red exhaust gas analysis, is emphasized. Both carburetor and fuel injection diagnosis, testing and adjustment procedures are covered.

*Recommended Prereq:* AUT113.

(2 lec/3 lab) 3 sem hrs

**AUT 211 Automotive Recycling Basics**

The automotive recycling industry, dismantling best practices and techniques, and safety requirements, quality control, and parts grading are studied in this course. The course prepares students for a variety of roles within the automotive recycling industry such as dismantler and inventory specialist.

(1.5 lec/0 lab) 1.5 sem hrs

**AUT 212 Environmental Standards  
for Automotive Recycling**

Automotive recycling industry environmental best practices are reviewed in this course. Topics such as safe removal of mercury switches, storm water sampling, and the Illinois Green Certified Automotive Recycler standards are included.

(1.5 lec/0 lab) 1.5 sem hrs

**AUT 231 Automatic  
Transmissions/ Transaxles**

This lecture-lab course in automatic transmission/transaxle theory and service covers the current more popular transmissions/transaxle drive units including electronic transmissions. Students participate in inspection disassembly, repair, reassembly and testing of automatic transmissions/transaxles.

*Recommended Prereq:* AUT111.

(1 lec/5 lab) 3 sem hrs

**AUT 232 Advanced Brakes and  
Suspension Systems**

This advanced level, lecture/lab course is designed to provide a student with an opportunity to learn design, operations and service procedures of the automotive brakes and suspension systems, and to acquire knowledge in diagnosing problems related to the operation of these systems. Emphasis is placed on learning the procedures necessary in performing thorough, complete servicing of the brakes and suspension systems.

*Recommended Prereq:* AUT112; AUT122.

(1 lec/5 lab) 3 sem hrs

**AUT 233 Applied Automotive  
Fuels and Electricity**

This course is designed to give advanced automotive students and professional technicians an opportunity to fine tune their performance-related diagnostic and troubleshooting skills. The testing, diagnosis and repair of various fuel and electrical system problems are stressed. A wide range of hands-on experiences with practical applications are provided.

*Recommended Prereq:* AUT113; AUT123; AUT124.

(1 lec/5 lab) 3 sem hrs

**AUT 240 Service Shop Operations**

This course is a simulation of the automotive shop environment that includes customer relations, vehicle diagnosis and repairs. Students are provided the opportunity to reinforce previously learned skills and also to complete NATEF tasks from other courses that were not completed. This course helps to make a smoother transition to the work environment.  
*Recommended Prereq:* AUT100; AUT110; AUT111; AUT112; AUT113; AUT120; AUT122; AUT123; AUT124; AUT231; AUT232; AUT233.

(1 lec/5 lab)

3 sem hrs

**AUT 243 Advanced Engine Control Systems**

This course is designed to acquaint students with electronic engine control systems including advanced fuel, emission and ignition subsystems. Primary emphasis is placed on understanding and developing troubleshooting techniques for 1996 and newer On-Board Diagnostic II systems. Additionally, the design and operation of both generic and manufacturer-specific computer systems are discussed. Troubleshooting procedures detailing both scan and non-scan sequences are also covered.

*Recommended Prereq:* AUT113; AUT123; AUT124; AUT233.

(1 lec/5 lab)

3 sem hrs

**AUT 245 Automotive Heating and Air Conditioning**

This lecture-lab course is designed to develop the necessary skills and provide the knowledge required to understand, diagnose and service modern automotive heating and air conditioning systems.

(2 lec/3 lab)

3 sem hrs

**AUT 246 Automotive Accessories and Diagnostics**

This lecture-lab course is designed to further develop student competency in the area of automotive diagnostics. Advanced electrical/electronic troubleshooting and repair procedures related to electrical accessories are emphasized. Areas of coverage include, but are not limited to, air bags, power windows, power locks, keyless entry, navigation systems and electronic dash and gauges.

*Recommended Prereq:* AUT113; AUT124.

(1 lec/5 lab)

3 sem hrs

**AUT 275 Inspection and Maintenance 240 Diagnosis and Repair**

This course is designed to meet the State of Illinois IM-240 training requirements for automotive technicians. The course is a lecture/lab course for technicians and covers diagnostic and repair techniques for IM-240 repairs.

*Recommended Prereq:* AUT124 and AUT243; or consent of instructor.

(1 lec/2 lab)

2 sem hrs

**Aviation Pilot (AVP)****AVP 100 Private Pilot Certification**

The Private Pilot Certification course is the first step to becoming a Professional Pilot and is designed to fulfill the requirements of the Federal Aviation Regulations for a private pilot certification course. This training program contains both a flight training syllabus and a ground training syllabus. The flight training syllabus has 35 hours of flight training, consisting of 20 hours of dual instruction and 15 hours of solo flight. The ground training syllabus consists of 35 hours to include block tests and final examination.

(3 lec/4 lab)

5 sem hrs

**AVP 110 Professional Instrument Rating**

The Professional Instrument Rating course is designed to fulfill the requirements of the Federal Aviation Regulations for the Instrument Rating (airplane). This training program, which contains both a flight training syllabus and a ground training syllabus, provides at least 35 hours of flight training and 35 hours of ground training.

(3 lec/4 lab)

5 sem hrs

**AVP 120 Professional Commercial Pilot**

The Professional Commercial Pilot training course is designed to fulfill the requirements of the Federal Aviation Regulations for a commercial pilot certification course. This training program contains both a flight training syllabus and a ground training syllabus. The flight training syllabus has 155 hours of flight training. The ground training syllabus consists of 30 hours of ground training.

(3 lec/4 lab)

5 sem hrs

**AVP 130 Professional Multiengine Rating**

The Professional Multiengine Rating course is designed to fulfill the requirements of the Federal Aviation Regulations for additional aircraft rating courses. This training program contains both a flight training syllabus and a ground training syllabus. The flight training syllabus has a minimum of 15 hours of dual flight instruction. The ground training syllabus consists of 15 hours of ground training.

(2 lec/2 lab)

3 sem hrs

**AVP 200 Certified Flight Instructor (CFIA)**

The Certified Flight Instructor course is designed to fulfill the requirements of the Federal Aviation Regulations for the Basic Instructor course. This training program contains both a flight training syllabus and a ground training syllabus. The flight training syllabus for the Basic Instructor has 10 hours of flight training on analysis of maneuvers, 10 hours of practice instruction and 3 hours of progress checks. The ground training syllabus consists of 45 hours of ground training.

(2 lec/2 lab)

3 sem hrs

**AVP 210 Certified Flight Instrument Instructor (CFIIA)**

The Certified Flight Instrument Instructor course is designed to fulfill the requirements of the Federal Aviation Regulations for the Instrument Instructor course. This training program contains both a flight training syllabus and a ground training syllabus. Since the syllabus is designed to meet all of the requirements of the Federal Aviation Regulations, the student is assured the best training possible.

*Prereq:* Valid FAA second-class medical; at least 18 years of age at completion of course; ability to read, speak and understand the English language.

(2 lec/2 lab)

3 sem hrs

**AVP 230 Certified Flight Instructor Multiengine**

The Certified Flight Instructor Multiengine training course is designed to fulfill the requirements of the Federal Aviation Regulations for the Multiengine Instructor course. This training program contains both a flight training syllabus and a ground training syllabus. The flight training syllabus for the CFIMEL has 10 hours of flight training on analysis of maneuvers, 10 hours of practice instruction and 3 hours of progress checks. The ground training syllabus consists of 32 hours of ground training.

*Prereq:* Valid FAA second-class medical; at least 18 years of age at completion of course; ability to read, speak and understand the English language.

(2 lec/2 lab)

3 sem hrs

**Biology (BIO)**

See also Oceanography (ESC 130).

**BIO 100 Introduction to Biology**

This general survey course deals with selected concepts and theories in biology such as organization, function, heredity, evolution and ecology. Biological issues with personal and social implications are introduced to allow students to make informed decisions regarding issues with a biological basis.

Note: Not intended for students majoring in biology or the health professions. Students enrolling in BIO100 are not required to enroll in BIO101 (lab). However, those students needing a four semester-hour lab science for transfer purposes may wish to concurrently enroll in BIO100 and BIO101.

*Recommended Coreq:* BIO101.

*IAI: L1 900.*

(3 lec/0 lab)

3 sem hrs

**BIO 101 Introduction to Biology Laboratory**

A laboratory course intended to be taken concurrently with BIO100, this course explores selected concepts and theories in biology such as organization, function, heredity, evolution and ecology through laboratory exercises.

Note: Not intended for students majoring in biology or the health professions.

*Recommended Coreq:* BIO100.

*IAI: L1 900L.*

(0 lec/2 lab)

1 sem hrs

**BIO 102 Human Biology**

This general survey course focuses on the biology of the human organism. Concepts include the structure, organization, and function of human systems with a focus on the interconnectedness of these systems, health and disease, growth and development, genetics, and evolution. Emphasis is placed on the relationship of the issues to the individual and society.

Note: Not intended for students majoring in biology or the health professions. Students enrolling in BIO102 are not required to enroll in BIO103 (lab). However, those students needing a 4 semester-hour lab science for transfer purposes may wish to concurrently enroll in BIO102 and BIO103.

*Recommended Coreq:* BIO103.

*IAI: L1 904.*

(3 lec/0 lab)

3 sem hrs

**BIO 103 Human Biology Laboratory**

This laboratory course is meant to be taken concurrently with Human Biology (BIO102). Through laboratory experiences, this course explores selected concepts and theories in biology such as organization, structure, function, heredity and evolution using the human organism as a model.

Note: Not intended for students majoring in biology or the health professions.

*Recommended Prereq:* BIO102 or concurrent enrollment.

*IAI: L1 904L.*

(0 lec/2 lab)

1 sem hrs

**BIO 104 The Nature of Science**

The process of science is exciting, but traditional explanations often miss its dynamic nature. Science affects us all everyday, but people often feel removed from science. Science is an intensely human endeavor, but many portrayals gloss over the passion, curiosity and even rivalries and pitfalls that characterize this specific human venture. This course gives students an inside look at the general principles, methods and motivations that underlie all of science.

(3 lec/2 lab)

4 sem hrs

**BIO 110 Environmental Biology**

This course examines ecological principles in relation to environmental problems. Basic ecology and a study of biodiversity are included with an emphasis on current environmental issues and possible solutions and courses of action. Both local and global environmental issues are examined from the biological, political, sociological, economic and ethical views.

Note: Students enrolling in BIO110 are not required to enroll in BIO111 (lab). However, those students needing a four semester-hour lab science for transfer purposes may wish to concurrently enroll in BIO110 and BIO111.

*Recommended Coreq:* BIO111.

*IAI: L1 905.*

(3 lec/0 lab)

3 sem hrs

**BIO 111 Environmental Biology Laboratory**

This laboratory course, meant to be taken concurrently with BIO110, examines ecological principles in relation to environmental problems, allowing students to gain an awareness of their surroundings. Biotic and abiotic components of ecosystems are examined, as are various types of air, water and soil pollutants. Procedures and techniques used in the study of environmental issues are introduced, as are biological basics such as experimental design and problem solving.

*Recommended Coreq:* BIO110.

*IAI: L1 905L.*

(0 lec/2 lab)

1 sem hrs

**BIO 120 Principles of Biology I**

This course includes an introduction to science, general chemistry, organic chemistry, cell structures and their functions, cellular activities (photosynthesis, respiration and reproduction), classical and molecular genetics, and evolution. Selected topics discussed in lecture are expanded upon and explored in the laboratory. Emphasis in the laboratory is on cellular functions and processes.

*IAI: L1 900L, BIO 910.*

(3 lec/3 lab)

4 sem hrs

**BIO 122 Principles of Biology II**

Topics covered in this continuation of the study of general biology include general ecology, detailed discussion of the process of evolution, selected study of plants and animals which represent key organisms as well as the study of plant and animal tissues, and a brief overview of all the vertebrate organ systems. Significant laboratory time is spent on using the scientific process and writing a scientific paper.

*Recommended Prereq:* BIO120.

*IAI: BIO 910.*

(3 lec/3 lab)

4 sem hrs

**BIO 126 Ecology and Field Biology**

A field-orientation course designed to introduce the basic concepts of ecology. Topics covered include the interrelationships of plants, animals and organization of ecosystems. Habitats, energy flow, conservation and management of natural resources are also studied. Current environmental problems including the study of local plant and animal communities and their identification, collection cataloging and preservation are integrated into the course. Field experiments include collecting specimens and recording data. Report writing is also included in the laboratory portion of the course. This course assists students in acquiring basic working knowledge in fieldwork.

*IAI: L1 905L.*

(3 lec/3 lab)

4 sem hrs

**BIO 128 Evolution**

Evolution examines the origin of life and its diversification from a scientific perspective, including the impact of evolution on human thought.

*IAI: L1 907L.*

(3 lec/3 lab)

4 sem hrs

**BIO 200 Nutrition**

This course involves the study of nutrients including amino acids, carbohydrates, fats, vitamins, minerals and water and their relationship to health and disease. Cultural and psychosocial influences on food selection and habits are studied as well as respiration, metabolism and the digestive process.

*IAI: L1 904.*

(3 lec/0 lab)

3 sem hrs

### BIO 244 Survey of the Animal Kingdom

This evolutionary survey course of the protozoan and animal kingdoms is a comparative approach to how organisms have solved the problems of support (physical form), locomotion, respiration, digestion and reproduction. Representatives of the major phyla are dissected in laboratory. The link between humans and the rest of the animal kingdom is stressed in every chapter, making clear how even the most obscure invertebrate has an impact on the human species. These interactions are grouped in four categories: Harmful Animals, Helpful Animals, Animals as Food and Animals as Medicine.

*IAI: L1 902L.*

(3 lec/3 lab)

4 sem hrs

### BIO 250 Microbiology

This one-semester course studies the general characteristics of bacteria, fungi, algae and viruses. Included are isolation, cultivation and biochemical identification of bacteria. Certain aspects of pathology and immunity are also studied. Aseptic techniques are especially emphasized.

*IAI: L1 903L.*

(3 lec/3 lab)

4 sem hrs

### BIO 254 Introduction to Genetics

This introduction to the principles of genetics emphasizes the significance of genetics to man in terms of inheritance, plant and animal breeding, disease, evolution and behavior.

*IAI: L1 906.*

(3 lec/0 lab)

3 sem hrs

### BIO 260 Human

#### Structure and Function

This study of the human body and how it works begins with basic scientific and biological principles necessary to understand human anatomy and physiology and progresses through a brief study of all body systems. Laboratory sessions provide the opportunity to identify anatomical structures on models and skeletal materials.

(3 lec/2 lab)

4 sem hrs

### BIO 262 Neuro-

#### musculoskeletal Systems

This course is a study of the interrelatedness of the nervous, muscular and skeletal systems as well as the influence of the hormonal system, with a focus on muscle control and movement. The course provides the foundation for the study of biomechanics and incorporates the use of anatomical models and human cadaver laboratory experiences.

*Recommended Prereq:* BIO260; or BIO270 and concurrent enrollment in BIO272.

(2 lec/2 lab)

3 sem hrs

### BIO 264 Kinesiology and Pathology

This course is the study of the skeletal and muscular systems and their relation to movement, including an introduction to homeostasis and disease. The course focus begins with the study of the anatomical aspects of movement, with exploration of the pectoral girdle, shoulder joint and upper extremities, followed by a study of the pelvic girdle and lower extremities prior to an analysis of the trunk. A brief study of the biomechanical factors of posture and the pathological processes of the organ systems possibly encountered during treatments concludes this course.

*Recommended Prereq:* BIO262.

(2 lec/2 lab)

3 sem hrs

### BIO 270 Anatomy and Physiology I

This course begins with an orientation to the human body followed by a brief review of basic biochemistry and the structure and function of cells. The student is then engaged in major units of study involving tissues; the skeletal, muscular and nervous systems; and the special senses. Incorporates human cadaver laboratory experiences. First of a two-semester sequence.

*Recommended Prereq:* High school biology and chemistry or the equivalents within the past five years. BIO120 strongly recommended.

*IAI: L1 904L.*

(3 lec/3 lab)

4 sem hrs

### BIO 272 Anatomy and Physiology II

This continuation of BIO270 includes study of the following body systems: endocrine, cardiovascular, lymphatic, immune, respiratory, digestive, urinary and reproductive. The study of nutrition, metabolism and fluid-electrolyte, acid-base balance is incorporated with appropriate organ systems. Laboratory work utilizes models, microscopes and human cadavers.

*Prereq:* C or better in BIO270.

(3 lec/3 lab)

4 sem hrs

## Business

### Administration (BUS)

See also APICS (APC), Entrepreneurship (ETR), Finance and Banking (FIN), Management (MGT) and Marketing (MKT).

See also Business Mathematics (MTH 104) and Industrial Organizational Psychology (PSY 245).

### BUS 100 Introduction to Business

This course provides the foundation for developing concepts, attitudes and philosophies about business operations. The following topics are introduced: management, marketing, accounting, finance, economics, ethics and social responsibility human resources, advertising and promotion, distribution and international business.

(3 lec/0 lab)

3 sem hrs

### BUS 207 Business Statistics

This introductory course consists of statistical methods applied in the business environment. Topics include: the collection and presentation of data, measures of central tendency, dispersion, probability, sampling theory, correlation and regression. Students are introduced to at least one computer software package for statistical analysis.

*Prereq:* C or better in MTH070 or placement determined by assessment.

*IAI: BUS 901.*

(3 lec/0 lab)

3 sem hrs

### BUS 210 Legal

#### Environment of Business

This business administration transfer course covers the legal environment in which business and society function. Emphasis is on the judicial system, government regulations, employment and labor law, and the evolving international legal system. These topics are presented within an ethical, social and political framework.

*Recommended Prereq:* BUS100.

(3 lec/0 lab)

3 sem hrs

### BUS 211 Business Law

This course provides a basic understanding of the principles of law relating to the sources of law, court systems, litigation, contracts and sales, employment law and antitrust.

*Recommended Prereq:* BUS100.

(3 lec/0 lab)

3 sem hrs

### BUS 215 Business Ethics

This course introduces students to the fundamentals of ethics in the workplace. It explores ethical dilemmas pertaining to a variety of aspects of organizational life. The purpose is to provide students with a framework for ethical reasoning, ethical arguing, ethical decision making, and understanding ethical policies and behaviors.

*Recommended Prereq:* BUS100.

(3 lec/0 lab)

3 sem hrs

### BUS 220 Leadership in Business

Leadership has transcended the executive level of organizations and has been identified as a necessary skill for individuals working within teams, task forces and work units at all levels. This course integrates fundamental leadership principles and the operation of a business organization. The emphasis is on skill development based on research and experience.

*Recommended Prereq:* BUS100.

(3 lec/0 lab)

3 sem hrs

### BUS 225 Organizational Behavior

This course explores the study of individual behavior and group dynamics in organizations. Psychosocial, interpersonal and behavioral dynamics are considered within the variable framework of jobs, work design, communication, performance appraisal, organizational design and structure.

(3 lec/0 lab)

3 sem hrs

**BUS 240 International Business**

This course builds upon the economic concepts learned in the principles of economics courses and studies the operations of international businesses in global markets. It focuses on the economic and competitive forces as well as the cultural, political and legal forces of national business environments. It also addresses the forces of governments, financial institutions and monetary systems, labor, and consumers in the international business environment.

*Recommended Prereq:* BUS100, ECN100, ECN110, ECN121, or ECN122.

(3 lec/0 lab)

3 sem hrs

**BUS 296 Special Topics/Business**

This course offers in-depth exploration of a special topic, issue or trend in the business field. Topics might include current events' impact (economic or technical) on business. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(1 to 3 lec/0 lab)

1 to 3 sem hrs

**BUS 297 Business Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the business field, including positions related to management, marketing, banking and finance. Eighty hours are required for 1 credit. Repeatable to a maximum of 4 semester hours; 6 semester hours from the business internship courses (BUS297, BUS298, BUS299) may apply to the business degrees or certificates.

*Prereq:* Consent of instructor.

(0 lec/5 lab)

1 sem hrs

**BUS 298 Business Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the business field, including positions related to management, marketing, banking and finance. One hundred sixty hours are required for 2 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the business internship courses (BUS297, BUS298, BUS299) may apply to the business degrees or certificates.

*Prereq:* Consent of instructor.

(0 lec/10 lab)

2 sem hrs

**BUS 299 Business Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the business field, including positions related to management, marketing, banking and finance. Two hundred forty hours are required for 3 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the business internship courses (BUS297, BUS298, BUS299) may apply to the business degrees or certificates.

*Prereq:* Consent of instructor.

(0 lec/15 lab)

3 sem hrs

**Chemistry (CHM)****CHM 100 Introduction to Chemistry**

This introduction to the basic concepts of general chemistry includes basic atomic structure, chemical symbols, formulas and equations, chemical equation calculations, phases of matter, algebraic manipulations, molecular structure, solutions and solution chemistry.

Note: Students enrolling in CHM100 are not required to enroll in CHM101 (lab). However, those students needing a four semester-hour lab science for transfer purposes may wish to concurrently enroll in CHM100 and CHM101. This course is not intended for majors in the physical sciences, students with previous chemistry or students with credit in CHM121.

*IAI: P1 902.*

(3 lec/0 lab)

3 sem hrs

**CHM 101 Introduction to Chemistry Laboratory**

This is a beginning laboratory course for those students with no previous laboratory experience. It is designed to acquaint the student with various basic skills and techniques, terms and minimal theory.

*Recommended Coreq:* CHM100.

*IAI: P1 902L.*

(0 lec/3 lab)

1 sem hrs

**CHM 102 Introduction to Organic Chemistry**

This beginning course in organic chemistry includes the structure and reactions of functional groups, with further applications in biochemistry. It is designed to follow CHM100 and to provide a one-year sequence of chemistry.

*Recommended Prereq:* CHM100 or consent of instructor.

*IAI: P1 904.*

(3 lec/0 lab)

3 sem hrs

**CHM 103 Introduction to Organic Chemistry Laboratory**

This introductory laboratory for organic chemistry and biochemistry is designed to accompany CHM102.

*Recommended Prereq:* CHM100 and CHM101; or instructor approval.

*Recommended Coreq:* CHM102.

*IAI: P1 904L.*

(0 lec/3 lab)

1 sem hrs

**CHM 106 Chemistry in Society**

This introductory chemistry course for non-science majors applies chemistry to society through the study of contemporary issues such as the environment, energy and health.

*IAI: P1 903L.*

(3 lec/3 lab)

4 sem hrs

**CHM 121 General Chemistry**

This basic course in the principles of chemistry emphasizes chemical calculations and structure. It is recommended for science and professional majors.

*Recommended Prereq:* High school chemistry or equivalent.

*Prereq:* MTH070 or placement determined by assessment.

*IAI: P1 902L, CHM 911.*

(3 lec/3 lab)

4 sem hrs

**CHM 122 Chemistry and Qualitative Analysis**

This continuation of CHM121 emphasizes solution equilibrium chemistry, including gases, precipitation, acid/base, coordination chemistry and oxidation-reduction, culminated with the Nernst equation. It also includes thermodynamics and kinetics.

*Prereq:* CHM121.

*IAI: CHM 912.*

(3 lec/3 lab)

4 sem hrs

**CHM 231 Organic Chemistry I**

This course is a study of the fundamental aspects of organic chemistry such as structure, classification of organic reactions and reactions of functional groups.

*Recommended Prereq:* CHM122 or consent of instructor.

*IAI: CHM 913.*

(3 lec/6 lab)

5 sem hrs

**CHM 232 Organic Chemistry II**

This course is a continuation of the study of the fundamental aspects of organic chemistry with emphasis on the reactions mechanisms and spectra of functional groups.

*Recommended Prereq:* CHM231.

*IAI: CHM 914.*

(3 lec/6 lab)

5 sem hrs

**Chinese (CHN)****CHN 101 Elementary Chinese I**

This introduction to standard, modern Mandarin Chinese includes pronunciation, idiomatic expressions, speech patterns, and characters for the beginning students.

(3 lec/0 lab)

3 sem hrs

**CHN 102 Elementary Chinese II**

This course is a continuation of CHN101 using standard, modern Mandarin Chinese with emphasis on increased accuracy in listening, speaking skills, reading, and writing skills.

*Recommended Prereq:* CHN101 or one year of high school Chinese or its equivalent.

(3 lec/0 lab)

3 sem hrs

## Communications (COM)

### COM 100 Fundamentals of Speech Communication

This basic course in speech communication serves three primary goals: introduction to the theories of human communication, classroom experiences in a variety of communication situations, and evaluation of individual communicative behavior.

*IAI: C2 900.*

(3 lec/0 lab)

3 sem hrs

### COM 110 Voice and Diction

Clarity of speech, articulation, accurate pronunciation, effective choices of words, effective use of vocal pitch, rate, and volume make up the core of this course. Incorporated in the study is a basic understanding of the vocal mechanism, phonation and breath control. The International Phonetic Alphabet is also a component of the course and complements the vocal training.

(3 lec/0 lab)

3 sem hrs

### COM 115 Online Communication

This course introduces a student to considerations of computer-mediated communication (CMC). Basic principles of effective communication are integrated with the identification of the common language, modes, strengths and limitations inherent to CMC. Consideration of aspects of diversity, culture, ethics, ambiguity and effectiveness are applied to the contexts of interpersonal, group, workplace and e-commerce (global) communication situations.

(3 lec/0 lab)

3 sem hrs

### COM 120 Interpersonal Communication

This course is a study of interpersonal communication with emphasis on the communication process, self perception, self expression, verbal and nonverbal communication, and listening behavior. Students also study interpersonal relationships and conflict resolution.

(3 lec/0 lab)

3 sem hrs

### COM 121 Communication in the Workplace

The purpose of this course is to develop interpersonal communication skills for the workplace. Areas of emphasis include: verbal and nonverbal communication principles, persuasion, interviewing, communication with customers, group participation and conflict management.

(3 lec/0 lab)

3 sem hrs

### COM 122 Group Communication

This course studies the theories and research explaining small group behavior and provides practical experience working in problem-solving and decision-making groups. Areas of emphasis include interpersonal communication, group leadership, individual roles, norms, phases of group development, decision-making processes and conflict resolution methods.

(3 lec/0 lab)

3 sem hrs

### COM 125 Communication Strategies for Health Care Careers

This course explores the theory and practice of selected health-related models of communication for individuals in the health care field. Verbal and non-verbal communication in professional-client, professional-professional, and family relationships is stressed. Conflict resolution, informed consent, ethical responsibility, and effective intercultural communication are also emphasized. This course is designed for individuals interested in a career as a medical assistant, phlebotomist, registered nurse, licensed practical nurse, nurse assistant, or other health care fields.

Note: COM125 cannot be substituted for other communication courses required in a degree or certificate.

(2 lec/0 lab)

2 sem hrs

### COM 135 Introduction to Advertising Communication

Students in this course explore the theory and practice of advertising with special focus on its role in integrated marketing communication. Topics include consumer behavior, market research, communication planning, creative strategies and types of media. Students prepare an original advertising campaign from market/product research to a client presentations.

*IAI: MC 912.*

(3 lec/0 lab)

3 sem hrs

### COM 200 Advanced Speech Communication

Building on the skills developed in Fundamentals of Speech Communication (COM 100), this course provides advanced skill development in the art of speechmaking. An additional focus is on rhetorical backgrounds in public speaking to contextualize what we see every day in public address.

*Prereq: COM100.*

(3 lec/0 lab)

3 sem hrs

### COM 201 Business and Professional Presentations

COM201 targets the theory and practice of public speaking in business and professional settings. The course examines techniques and tools for building content, organization and delivery of business-related presentations. Presentation topics vary depending on the needs and goals of the learners.

*Recommended Prereq: Basic knowledge of PowerPoint.*

(3 lec/0 lab)

3 sem hrs

### COM 210 Intercultural Communication

This course introduces students to the study of communication and culture. Students examine their own cultural identity and how it influences communication with others. Theories and concepts related to communication and culture are discussed in building communication skills to improve intercultural communication, manage conflicts successfully and build intercultural relationships.

*Recommended Prereq: COM100; ENG101.*

(3 lec/0 lab)

3 sem hrs

## Computer-Aided Design and Drafting (CAD)

### CAD 100 Basic Technical Drawing

This course includes study and practice in instrument drawing, lettering, technical sketching, geometric constructions, multiview projection, pictorial drawing, section view, auxiliary view, conventions and drawing reproduction.

*Recommended Coreq: CAD102.*

(1 lec/4 lab)

3 sem hrs

### CAD 102 Introduction to 2-D CAD

This course provides students who have elementary manual drafting skills with basic competencies in computer-aided drafting on microcomputers using AutoCAD, the most widely used micro-CAD software in the United States. It is recommended students have PC experience with MS Windows and basic keyboarding skills. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.

*Recommended Prereq: CAD100 or EGR101, or concurrent enrollment; or consent of instructor.*

(2 lec/2 lab)

3 sem hrs

### CAD 110 Interior Design

This course explores the elements and principles of design theory as they relate to an interior space. Aesthetic and practical applications of room arrangement and furniture selection principles to the interior are covered. Students develop interior projects using space planning, furniture selection, furniture elevations and presentation techniques.

*Recommended Prereq: CAD102.*

(2 lec/2 lab)

3 sem hrs

**CAD 120 2-D CAD Detailing and Layout**

This course is a continuation of CAD102. Students learn how to detail dimension and conventionally tolerance drawings. Utilizing both structural and mechanical drawing problems students learn how to properly annotate working drawings. Topics of study include: multi-sheet layouts, block attributes, externally referenced files, assemblies and sub-assemblies, weldments, fasteners and simple AutoCAD customizing. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.  
*Recommended Prereq:* CAD100 and CAD102, or consent of instructor.  
(2 lec/3 lab) **3 sem hrs**

**CAD 140 Residential Architectural Drafting**

This course is a study of basic drafting techniques that includes lines, lettering instruments and orthographic projection. Students develop floor plans, elevation, sections and building specifications for a single building. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.  
*Recommended Prereq:* CAD100; CAD102.  
(2 lec/2 lab) **3 sem hrs**

**CAD 170 Commercial Architectural Drafting**

Students develop a set of drawings for a small commercial building to meet a developer's specifications. The design process includes a review of the site for automobile access, building codes requirements including ADA specifications, and a set of drawings complete with site plan, floor plans, ceiling plans, elevations and detail wall sections. Heating and ventilating, plumbing electrical and sprinkler planning are covered. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.  
*Prereq:* CAD140.  
(2 lec/2 lab) **3 sem hrs**

**CAD 176 Structural Drafting**

This course is designed to provide an in-depth study of structural drafting procedures from erection plans to details of items such as columns, beams, trusses, bracing and plate girders.  
*Prereq:* CAD102.  
(2 lec/2 lab) **3 sem hrs**

**CAD 180 Civil Engineering Drafting**

This course presents the fundamentals of civil drafting as it relates to land development, property design, topographical and profile layouts, and road concepts.  
*Recommended Prereq:* CAD102 or EGR101.  
(2 lec/2 lab) **3 sem hrs**

**CAD 200 Introduction to 3-D CAD Modeling**

This course covers the basics of 3-D modeling, including surface modeling, solid modeling and the introduction to parametric modeling. Students learn the concepts and techniques required to construct 3-D objects, including 3-D coordinates, 3-D viewing, 3-D Boolean construction, 3-D boundary represented construction, 3-D primitives, 3-D shapes, 3-D editing techniques and an introduction to 3-D parametric modeling. Rapid Prototyping is incorporated to build 3-D models. AutoCAD software is used in this 3-D modeling courses. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.  
*Recommended Prereq:* CAD100 and CAD102; or EGR101; or consent of instructor.  
*Recommended Coreq:* CAD120.  
(2 lec/2 lab) **3 sem hrs**

**CAD 210 Geometric Dimensioning and Tolerancing**

This course introduces the student to the principles of geometric dimensioning and tolerancing as specified by the American Society of Mechanical Engineers (ASME) titled ASME Y14.5M (1994 standard). Topics include part dimensional control techniques, interchangeability of parts, and the differences between traditional dimensioning and geometric dimensioning. Symbols and terms for dimensioning datum and material condition symbols are studied. Various tolerances of form, profile, orientation run-out and location are demonstrated. Feature control frames are discussed. The student is expected to interpret all geometric tolerances and dimensions from a print of intermediate complexity.  
*Recommended Prereq:* CAD120 or consent of instructor.  
(3 lec/0 lab) **3 sem hrs**

**CAD 220 Design Visualization**

This course concentrates on 3-D design visualization. Topics for discussion include setting up 3-D scenes, viewing 3-D space, parametric primitives, importing 3-D CAD geometry, lights, cameras, defining materials properties, basic material design, materials editing, mapped materials and rendering/rendering effects of parts and/or assemblies. Students build and animate simple hierarchies and produce basic time, length and key frame animations. Students also build rapid prototyping of models.  
*Recommended Prereq:* CAD200.  
(1 lec/2 lab) **2 sem hrs**

**CAD 230 3-D Architectural Modeling Applications**

This course enables students to create 3-D architectural models using Revit 3-D modeling software. Drafting projects focus on modeling buildings and building components. Students model walls, doors, windows, furniture, fixtures, column and ceiling grids, stairs and roofs. From these models, elevations and sections are generated. Components are dimensioned and tagged, and data schedules are created. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.  
*Recommended Prereq:* CAD140, CAD170, and CAD200; or consent of instructor.  
(2 lec/2 lab) **3 sem hrs**

**CAD 240 Parametric Part Modeling**

Using SolidWorks software, this course focuses on 3-D solid parametric modeling in an engineering design environment. Hands-on learning in basic sketch profiles with constraint based 2-D shape control is studied. Part design, Boolean operations, placed features, parametric features, dimensions and constraints, design modification of solid part, analyzing and documentation of the part or parts are also covered. Bi-directional control of 3-D model to 2-D part drawing is studied. The use of rapid prototyping techniques for model creation and design, analysis and redesign are incorporated. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.  
*Recommended Prereq:* CAD102 or consent of instructor; CAD200.  
(2 lec/2 lab) **3 sem hrs**

**CAD 242 Applied 3-D Parametric Part and Assembly Modeling**

This course introduces the use of local and global parameters in the area of 3-D parametric solid modeling with SolidWorks software. Students learn to control parts with design variables, 3-D constraints, variable dimensions, table driven parts, mathematical operators and adaptive technology. Assembly constraints are placed on components that are linked to one another, and the overall engineering design process through the revision process is addressed. The effective use of global parameters in managed assemblies, control of the assembly, interference checking, design elements and documentation of the assembly is examined, and rapid prototyping design creation and engineering analysis of models are included. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.  
*Recommended Prereq:* CAD240.  
(2 lec/2 lab) **3 sem hrs**

### CAD 270 Product Design and Development

This course studies how a product is designed from conception to final prototype modeling. Students utilize all of the documentation procedures learned in the preceding drafting courses and learn the basic industrial operations and management concepts involved in the design and manufacturing of commercial products and structures. Students work individually and in teams to solve design problems relevant to their training and interests.

*Recommended Prereq:* CAD220, CAD230, and CAD240; or consent of instructor.

(2 lec/2 lab) **3 sem hrs**

### CAD 297 CAD Internship

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the computer-aided design and drafting field. Eighty hours are required for 1 credit. Repeatable to a maximum of 4 semester hours; 6 semester hours from the CAD internship courses (CAD297, CAD298, CAD299) may apply to the computer-aided design and drafting degree and certificates.

*Prereq:* All 100-level CAD courses; consent of instructor.

(0 lec/5 lab) **1 sem hrs**

### CAD 298 CAD Internship

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the computer-aided design and drafting field. One hundred sixty hours are required for 2 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the CAD internship courses (CAD297, CAD298, CAD299) may apply to the computer-aided design and drafting degree and certificates.

*Prereq:* All 100-level CAD courses; consent of instructor.

(0 lec/10 lab) **2 sem hrs**

### CAD 299 CAD Internship

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the computer-aided design and drafting field. Two hundred forty hours are required for 3 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the CAD internship courses (CAD297, CAD298, CAD299) may apply to the computer-aided design and drafting degree and certificates.

*Prereq:* All 100-level CAD courses; consent of instructor.

(0 lec/15 lab) **3 sem hrs**

## Computer Information Systems (CIS)

See also Information and Communication Technology (ICT) and World Wide Web/Internet (WEB).

### CIS 105 Introduction to Windows

This introduction to a graphical interface software package emphasizes the Windows environment, manipulation of taskbar, file maintenance and folder manipulation. Repeatable to a maximum of 3 semester hours; 1 semester hour may apply to a degree or certificate.

(.5 lec/1 lab) **1 sem hrs**

### CIS 110 Business Information Systems

This course is an introduction to computer information systems, information processing, computer-generated reports for decision making and careers in business and information systems. Typical microcomputer productivity tools include word processing, spreadsheets, database management, graphics, data communications and Internet browsers. Operating systems are used to interface with these productivity tools.

Note: Students must have the current version of Word, Excel and Access.

*IAI: BUS 902.*

(3 lec/0 lab) **3 sem hrs**

### CIS 111 Introduction to Excel Spreadsheet

This introductory electronic spreadsheet course emphasizes creating, modifying, designing and manipulating spreadsheet models and charts. Database concepts of spreadsheet software and working with multiple workbooks are introduced. Repeatable to a maximum of 4.5 semester hours; 1.5 semester hours may apply to a degree or certificate.

Note: Students will not receive credit toward a degree or certificate for both CIS111 and CIS112.

*Recommended Prereq:* CIS105.

(1 lec/1 lab) **1.5 sem hrs**

### CIS 112 Comprehensive Excel Spreadsheet

This electronic spreadsheet course emphasizes designing, formatting and modifying worksheet models and charts. Included are integration features of charting, word processing, database and macros. Repeatable to a maximum of 9 semester hours; 3 semester hours may apply to a degree or certificate.

Note: Students will not receive credit toward a degree or certificate for both CIS111 and CIS112.

*Recommended Prereq:* CIS105.

(2 lec/2 lab) **3 sem hrs**

### CIS 113 Introduction to Access Database

This beginning course uses relational database management software on microcomputer systems. Students design, build and maintain relational databases while learning to integrate databases with other software applications. Repeatable to a maximum of 4.5 semester hours; 1.5 semester hours may apply to a degree or certificate.

Note: Students will not receive credit toward a degree or certificate for both CIS113 and CIS114.

*Recommended Prereq:* CIS105.

(1 lec/1 lab) **1.5 sem hrs**

### CIS 114 Comprehensive Access Database

This comprehensive course focuses on understanding relational database management software on microcomputer systems. Students design, build and maintain relational databases while learning to integrate databases with other software. Also included is an introduction to concepts of programming language for database applications with emphasis on the fundamentals of event-driven programming techniques. Repeatable to a maximum of 9 semester hours; 3 semester hours may apply to a degree or certificate.

Note: Students will not receive credit toward a degree or certificate for both CIS113 and CIS114.

*Recommended Prereq:* CIS105.

(2 lec/2 lab) **3 sem hrs**

### CIS 115 Introduction to Programming

This course is an introduction to the program development process with emphasis on problem-solving and algorithm development using various programming languages. Students write, document and test approximately 10 to 12 programs in both interactive and batch modes of processing. Programs involve use of procedures, functions, and data abstraction; selection, sequence and repetition structures; arrays; objects and file-based input/output operations. Emphasis is placed on structured program design and style.

*Recommended Prereq:* MTH070.

*Recommended Coreq:* CIS116.

(3 lec/0 lab) **3 sem hrs**

### CIS 116 Structured Program Design

This course provides an introduction to the concepts of structured programming and the use of structured program design techniques to develop solutions to common business programming problems. Different design methods are demonstrated and used to solve problems. The emphasis is on practical business applications.

*Recommended Coreq:* CIS115.

(3 lec/0 lab) **3 sem hrs**

**CIS 117 Discrete Structures**

This course is an introduction to finite processes and techniques in algorithm design aiding in the task of logical analysis and problem solving. Concepts include sets, logic, arrays, subscripts, counting methods, graph theory and trees, recursion, Boolean algebra and number systems. Students write computer programs to demonstrate discrete structure concepts.

*Recommended Prereq:* CIS115.

*Prereq:* MTH070 or placement by assessment.  
*IAI:* CS 915.

(3 lec/0 lab)

3 sem hrs

**CIS 120 Visual BASIC Programming**

A disciplined approach to event-driven programming in a Graphical User Interface (GUI) environment, this course emphasizes problem solving and algorithm development using the Visual BASIC.Net programming language. Students write, document and test programs using structured procedures and data abstraction, selection, sequence and repetition structures, arrays, data validation and exception handling, the use of multiple forms, and file and database input/output operations. Emphasis is on interface and program design enhanced through extensive laboratory time.

*Recommended Prereq:* CIS115.

(2 lec/2 lab)

3 sem hrs

**CIS 130 C++ Programming**

This introductory course in C++ programming includes object-oriented, event-driven, interactive programming techniques. Topics include data types, pointers, arrays, stacks, recursion, string processing, searching and sorting algorithms, classes and objects, references and memory addresses, scope, streams and files, and graphics. A wide variety of business-oriented problems are solved by writing C++ programs.

*Recommended Prereq:* CIS115.

*IAI:* CS 911.

(2 lec/2 lab)

3 sem hrs

**CIS 150 Introduction to Java**

This course introduces the concepts of object-oriented programming with an emphasis on programming using Java.

*Recommended Prereq:* CIS115; WEB110.

*IAI:* CS 911.

(2 lec/2 lab)

3 sem hrs

**CIS 170 Networking Essentials**

Designed for the beginning network administration student, this course covers basic network fundamentals including standard design principles, common network devices, common network operating systems and topologies, and network management issues.

(3 lec/0 lab)

3 sem hrs

**CIS 173 Introduction to TCP/IP Internetworking**

Designed for the beginning network administration student, this course covers basic TCP/IP fundamentals including, IP utilities, name resolution, remote access, sub-netting, IP routing, WINS, DNS server, DHCP and troubleshooting issues. Repeatable to a maximum of 8 semester hours; 2 semester hours may apply to a degree or certificate.

*Recommended Prereq:* CIS170.

(1.5 lec/1 lab)

2 sem hrs

**CIS 174 Wireless Local Area Networking**

This course provides a hands-on introduction to Wireless Local Area Networking (WLANs), including the design, planning, implementation, operation and troubleshooting of WLANs. The course also provides a comprehensive overview of the technologies, security and design of WLANs. Repeatable to a maximum of 8 semester hours; 2 semester hours may apply to a degree or certificate.

*Recommended Prereq:* CIS170.

(1.5 lec/1 lab)

2 sem hrs

**CIS 175 Windows Professional Administration**

This course offers an introduction and examination of the architecture and features of Microsoft Windows Professional. Repeatable to a maximum of 6 semester hours; 3 semester hours may apply to a degree or certificate.

*Recommended Prereq:* CIS105.

*Recommended Coreq:* CIS170 or CIS176.

(2 lec/2 lab)

3 sem hrs

**CIS 176 Windows Server Administration**

This course provides a hands-on introduction and examination of the architecture and features of Windows Server. Repeatable to a maximum of 6 semester hours for version updates; 3 semester hours may apply to a degree or certificate.

*Recommended Prereq:* CIS170 or concurrent enrollment.

(2 lec/2 lab)

3 sem hrs

**CIS 180 Linux/UNIX Operating System**

This course builds a thorough understanding of the Linux/UNIX operating system. Topics include: the role Linux/UNIX plays in today's operating systems and Internet market, use of utility commands, navigation of file system structure, VI editor, programming the Korn Shell, Linux/UNIX internals including process management, Linux/UNIX networking elements including file system structure, and Linux/UNIX tools to compile software such as C and C++.

(2 lec/2 lab)

3 sem hrs

**CIS 181 Introduction to Information Systems Security**

This introductory course is intended for the information systems and networking student. It covers an introduction to the principles of information security, including: the need for security systems; legal, ethical and professional issues; risk management; security planning; physical security; and technology, implementation and maintenance issues.

*Recommended Prereq:* CIS170.

(3 lec/0 lab)

3 sem hrs

**CIS 185 Game Design**

Students learn the tasks involved in the game development cycle and create game design documents. Game concepts and worlds, storytelling, character and user interface design, core mechanics and balance are examined. While learning how to design their own game, the students discuss, analyze and implement design techniques. In addition, students discuss the major game genres and identify the design patterns and unique creative challenges that characterize them. Repeatable to a maximum of 12 semester hours; three semester hours may apply to a degree or certificate.

(2 lec/2 lab)

3 sem hrs

**CIS 186 Game Development**

This introductory course in Game Development includes object-oriented, event-driven, interactive programming techniques. Students write various 2-D games. Topics include sprite creation and manipulation, and working with physics, as it relates to games. Various genres of games are discussed and developed, including serious games. Emphasis is placed on good game design and game play. Repeatable to a maximum of 12 semester hours; three semester hours may apply to a degree or certificate.

(2 lec/2 lab)

3 sem hrs

**CIS 190 PC Hardware Essentials**

This course is designed as an overview of the essentials in the servicing and maintenance of personal computer and portable devices. It provides an introduction to operating systems, printers and scanners, networks and security in regard to identification, installation and upgrading. This course aligns with the objectives of the CompTIA A+ Essentials examination.

(3 lec/0 lab)

3 sem hrs

**CIS 191 PC Repair Essentials**

This course provides an introduction to the methodology and procedures used to identify PC problems and the proper techniques and tools to use to resolve these problems. The course aligns with the objectives of the CompTIA A+ Essentials exam. Repeatable to a maximum of 4 semester hours; 1 semester hour may apply to a degree or certificate.

*Recommended Prereq:* CIS190 or concurrent enrollment.

(1 lec/0 lab)

1 sem hrs

### CIS 201 Applied Computer Operating Systems

This course provides an overview of the nature and function of computer operating systems, including process management, memory and storage management including virtual storage single- and multi-user systems, distributed systems, multitasking, protection and security.

*Recommended Prereq:* CIS110.  
(3 lec/0 lab) 3 sem hrs

### CIS 202 Data Management Concepts and Practices

Introduction to the basic database models and capabilities of standard DBMS packages. Various database models are examined and students are guided through database design, modeling and implementation. Material includes single and multi-user databases and the examination of access standards for database application processing. Projects provide practical experiences designing, building, and updating a database.

(3 lec/0 lab) 3 sem hrs

### CIS 203 Systems Analysis and Design

This course covers the functions and techniques of systems analysis, design and development, including the analysis of information flow, developing system specifications, and analyzing equipment needs. The traditional structured methodology and associated tools as well as the object-oriented approach are used throughout the analysis process, from initial investigation through installation and review.

*Recommended Prereq:* CIS110 or consent of division dean.

*Recommended Coreq:* CIS205.  
(3 lec/0 lab) 3 sem hrs

### CIS 205 Information Technology Project Management

This course explains the foundations of project management - project integration, scope, time, cost, quality, human resources, communications, risk and procurement - using the experiences of real-life businesses. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.

(2 lec/2 lab) 3 sem hrs

### CIS 220 Advanced Visual BASIC Programming

An in-depth study of advanced Visual BASIC. Net and ASP.Net concepts, this course includes database file processing, creating classes, understanding inheritance and polymorphism, and creating user controls. Students write complete, large, interactive systems involving ADO.Net objects to access databases, and ASP. Net based Web applications.

*Recommended Prereq:* CIS114; CIS120.  
(2 lec/2 lab) 3 sem hrs

### CIS 230 Advanced Topics in C++ Programming

An advanced course in C++ programming that includes in-depth programming techniques. Topics include C++ I/O classes and objects, data structures, inheritance, function and operator overloading, templates, memory allocation virtual functions, polymorphism and references.

*Recommended Prereq:* CIS130 or consent of instructor.  
(2 lec/2 lab) 3 sem hrs

### CIS 250 Advanced Java

This course expands on the topics learned in the introductory course and focuses on Java as an applications development tool for stand-alone applications with swing components and utility classes. Web applications using JSP and servlet technology and database access with JDBC are also discussed.

*Recommended Prereq:* CIS150.  
(2 lec/2 lab) 3 sem hrs

### CIS 280 Linux/UNIX System Administration

This course is designed to teach students to set up and administer the Linux/UNIX operating system. Students will perform hardware and software installation and customization.

Other topics covered include networking and installation and customization of web server related software. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply toward a degree or certificate.

*Recommended Prereq:* CIS180.  
(2 lec/2 lab) 3 sem hrs

### CIS 286 Xbox Game Development

Students create 2-D games for the Xbox using the C# language in XNA Game Studio. Object-oriented, event-driven techniques are utilized with emphasis on game design and game play. Students create and manipulate sprites, work with game-related physics, and integrate audio into their games.

*Recommended Prereq:* CIS115; CIS185.  
(3 lec/0 lab) 3 sem hrs

### CIS 296 Special Topics/ Information Systems

This course offers in-depth exploration of a special topic, issue or trend in the information systems field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(0 to 3 lec/0 to 6 lab) 1 to 3 sem hrs

### CIS 297 Computer Information Systems Internship

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the information systems field. Eighty hours are required for 1 credit. Repeatable to a maximum of 4 semester hours; 6 semester hours from the computer information systems internship courses (CIS297, CIS298, CIS299) may apply to the computer information systems degrees or certificates.

*Prereq:* Consent of instructor.  
(0 lec/5 lab) 1 sem hrs

### CIS 298 Computer Information Systems Internship

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the information systems field. One hundred sixty hours are required for 2 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the computer information systems internship courses (CIS297, CIS298, CIS299) may apply to the computer information systems degrees or certificates.

*Prereq:* Consent of instructor.  
(0 lec/10 lab) 2 sem hrs

### CIS 299 Computer Information Systems Internship

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the information systems field. Two hundred forty hours are required for 3 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the computer information systems internship courses (CIS297, CIS298, CIS299) may apply to the computer information systems degrees or certificates.

*Prereq:* Consent of instructor.  
(0 lec/15 lab) 3 sem hrs

## Construction Management (CMT)

### CMT 101 The Construction Industry

This survey course provides an introduction to the construction industry, including career paths in estimating, site supervision, project management, and the trades. Also addressed are related areas of design, engineering, inspection and planning. Commercial, heavy/highway/infrastructure, industrial, institutional, and residential industry segments are explored.

(3 lec/0 lab) 3 sem hrs

**CMT 105 Print Reading  
for Construction**

Civil, architectural and structural drawings commonly used in residential, light commercial buildings, industrial construction and land development are studied in this course. Plan views, elevations, sections, details and schedules are examined in depth.  
*Recommended Coreq:* CMT111.  
(3 lec/0 lab) 3 sem hrs

**CMT 111 Construction Materials**

This is a survey course of general building materials used in residential, commercial and other similar new construction and renovation projects. Physical characteristics and properties, manufacture and distribution are covered.  
(3 lec/0 lab) 3 sem hrs

**CMT 115 Construction Methods**

This survey course introduces construction techniques and installation procedures in building construction. Subjects include earthwork, concrete, masonry, steel and wood construction in a variety of different project types and systems.  
*Recommended Prereq:* CMT111.  
(3 lec/0 lab) 3 sem hrs

**CMT 121 Sustainable Construction  
and Design Principles**

Sustainable Construction and Design Principles is an introduction to sustainable design, building and remodeling. The elements and techniques of sustainable construction and design are explored. Students also review major state and national standards for sustainable building  
(3 lec/0 lab) 3 sem hrs

**CMT 201 Codes, Contracts  
and Specifications**

This course provides an introduction to local, state, national and international building codes and standards, including a survey of code organizations and relevant legislation. Contracts commonly used in the industry are studied, along with an overview of project specifications necessary to meet contract requirements.  
*Recommended Prereq:* BUS210; CMT111.  
(3 lec/0 lab) 3 sem hrs

**CMT 210 Construction Estimating**

Construction estimating is covered, beginning with an understanding of the costs of labor, equipment and materials as well as profit and overhead. Quantity measurements of basic construction materials are used to develop bidding packages.  
*Recommended Prereq:* CMT111; CMT115.  
(3 lec/0 lab) 3 sem hrs

**CMT 215 Contract  
and Project Administration**

This course studies principals and procedures of construction project administration from the differing viewpoints of an owner's project representative and that of a contractor's on various project types. Specifically addressed are issues relating to authority, liability and responsibility of each party.  
*Recommended Prereq:* CMT115; CMT201.  
(3 lec/0 lab) 3 sem hrs

**CMT 225 Construction  
Project Management**

This course provides students with the knowledge required to plan, schedule and manage construction projects. Tools such as Gantt Charts, PERT and CP/M are discussed. Students apply electronic aids to assist in planning and scheduling a project. Basic total quality management, team building and change management techniques are also presented.  
*Recommended Prereq:* CMT210 or concurrent enrollment.  
*Recommended Coreq:* CMT215.  
(3 lec/0 lab) 3 sem hrs

**CMT 230 Construction  
Safety and Health**

This overview of safety rules and procedures for working on construction sites includes general and company safety policies, construction site job hazards and procedures, and personal protective equipment needs and uses. It also includes lifting, ladder and scaffold procedures, hazards, communications requirements, and fire and electrical safety guidelines.  
(3 lec/0 lab) 3 sem hrs

**CMT 240 Construction Surveying**

This course presents the principles and methods for transferring engineering and architectural designs to the ground to enable timely and efficient construction of buildings and site improvements. Associated topics include the use and care of surveying instruments, differential leveling, traversing, calculations, coordinate geometry, and basic site design principles.  
*Recommended Prereq:* CMT105.  
(2 lec/2 lab) 3 sem hrs

**CMT 297 Construction  
Industry Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the construction management field. Eighty hours are required for 1 credit. Repeatable to a maximum of 4 semester hours; 3 semester hours from the construction internship courses (CMT297, CMT298, CMT299) may apply to the degree.  
*Prereq:* All 100-level CMT courses; consent of instructor.  
(0 lec/5 lab) 1 sem hrs

**CMT 298 Construction  
Industry Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the construction management field. One hundred sixty hours are required for 2 credits. Repeatable to a maximum of 6 semester hours; 3 semester hours from the construction internship courses (CMT297, CMT298, CMT299) may apply to the degree.  
*Prereq:* All 100-level CMT courses; consent of instructor.  
(0 lec/10 lab) 2 sem hrs

**CMT 299 Construction  
Industry Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the construction management field. Two hundred forty hours are required for 3 credits. Repeatable to a maximum of 6 semester hours; 3 semester hours from the construction internship courses (CMT297, CMT298, CMT299) may apply to the degree.  
*Prereq:* All 100-level CMT courses; consent of instructor.  
(0 lec/15 lab) 3 sem hrs

**Criminal Justice (CRJ)****CRJ 100 Introduction  
to Criminal Justice**

This course offers a survey and analysis of the criminal justice system, including a historical and philosophical overview of its development. The criminal justice system's primary components (police, courts and corrections) and the relationship among these components in the administration of criminal justice in America are emphasized.  
*IAI: CRJ 901.*  
(3 lec/0 lab) 3 sem hrs

**CRJ 101 Introduction to Corrections**

This course provides an overview and analysis of the American correctional system. The history, evolution and philosophy of punishment and treatment; the operation and administration of corrections in institutional and non-institutional settings; and issues in correctional law are covered.  
*IAI: CRJ 911.*  
(3 lec/0 lab) 3 sem hrs

**CRJ 102 Criminal  
Justice Career Exploration**

This course is designed to allow students to explore the various career choices within the criminal justice system. Emphasizing work-related characteristics, job duties employment potential, and career trends, the course provides an overview of the day-to-day operations and activities of policing.  
(2 lec/0 lab) 2 sem hrs

**CRJ 103 Criminal  
Justice Report Writing**

This course provides criminal justice students with instruction and practice in the preparation of accurate police reports suitable for use in the courtroom. The development of a clear, concise, narrative writing style is emphasized, and weekly report writing exercises are critiqued. *Prereq:* ENG101 or concurrent enrollment. (3 lec/0 lab) 3 sem hrs

**CRJ 105 Patrol Operations**

This course introduces students to the police patrol function, focusing on the history of policing, the importance of communication, problem solving and tactics. Topics include law enforcement philosophies and theories, community policing, the importance of written and verbal communication in the patrol process, ethical considerations, officer safety and criminal investigation. (3 lec/0 lab) 3 sem hrs

**CRJ 107 Juvenile Justice**

This course reviews the juvenile justice system. Criminal and non-criminal behaviors, juvenile arrests, investigation, interview techniques, the purposes of juvenile court hearings, and the use of probation, parole and incarceration as means of treatment/punishment are studied. *IAI: CRJ 914.* (3 lec/0 lab) 3 sem hrs

**CRJ 115 Accident Investigation**

This course provides a study of the evolution of vehicular and pedestrian traffic. The needs, trends and hazards of the driver, vehicle and roadway are examined. Students are introduced to the components of accident investigation with an emphasis on obtaining, recording and interpreting information to successfully reconstruct an accident scene. The course also includes the following topics: the application of traffic engineering, use of enforcement to solve traffic problems, the collection and interpretation of statistical data, and court testimony. (3 lec/0 lab) 3 sem hrs

**CRJ 120 The American Court System**

This course studies the American criminal court system and its relationship with law enforcement and corrections. Focusing on the adult criminal court system, topics include the dynamics of the court system, the pivotal role the court plays in the criminal justice system, and the court's relationship with the juvenile justice system. (3 lec/0 lab) 3 sem hrs

**CRJ 145 Commercial  
Security Operations**

This course provides a study of commercial security responsibilities and methods of operation with an emphasis on firearm liability, safety and policy as they are practiced in range applications. Students completing the course can apply for certification as an armed security guard in Illinois. (3 lec/0 lab) 3 sem hrs

**CRJ 200 Criminal Investigation**

This course introduces students to the fundamentals of criminal investigation. Topics include an examination of the preliminary and follow-up investigation, crime scene search, and collection and preservation of evidence. Interviewing witnesses and victims, interrogation of suspects, and rules governing the admissibility of evidence in court testimony are also covered. (3 lec/0 lab) 3 sem hrs

**CRJ 201 Crime Scene  
Investigation Laboratory**

This course studies the collection and preservation of physical evidence. Emphasis is on reconstructing, sketching and photographing/videotaping crime scenes. Techniques such as plaster casting, fingerprinting and computer-assisted composite drawing are explored. (2 lec/2 lab) 3 sem hrs

**CRJ 202 Drug Enforcement  
Investigation**

This course offers a study of drugs, including drug abuse and criminal usage and their impact on society and enforcement agencies. Emphasis is on the detection, recognition and investigation of drugs. The history of drugs, psychological and physiological reactions, the law, identification of drugs, and the tactics and investigation of drug violations are also covered. (3 lec/0 lab) 3 sem hrs

**CRJ 207 Juvenile Delinquency**

This course studies the history and philosophies of society's reaction to juvenile behavior and problems. Interaction among the police, judiciary and corrections are examined within the context of cultural influences. Theoretical perspectives of causation and control are explored. *IAI: CRJ 914.* (3 lec/0 lab) 3 sem hrs

**CRJ 220 Criminal Law**

This course examines and analyzes the structure and function of substantive criminal law and the principles of criminal law. The acts, mental state and attendant circumstances that are the necessary elements of crime are included. (3 lec/0 lab) 3 sem hrs

**CRJ 226 Criminal Evidence**

This course introduces the student to legal requirements as they relate to the rules of evidence, including testimony of witnesses, admissibility of evidence and effective court testimony. (3 lec/0 lab) 3 sem hrs

**CRJ 230 Criminology**

This course introduces students to the multi-disciplinary study and analysis of the nature, causes and control of crime. The measurement of crime and the interactive roles of the system, victim and offender are studied. *IAI: CRJ 912.* (3 lec/0 lab) 3 sem hrs

**CRJ 235 Multicultural  
Law Enforcement**

This course studies cultural diversity in America and its relationship with law enforcement. The content of the course includes the impact of diversity on law enforcement; cultural specifics for law enforcement; multicultural elements in terrorism and homeland security; law enforcement response strategies; and cultural effectiveness for law enforcement officers. *Recommended Prereq:* CRJ100. (3 lec/0 lab) 3 sem hrs

**CRJ 250 Ethics in Criminal Justice**

This course explores moral, ethical and professional issues that are encountered in the criminal justice professions. Topics covered include the following challenges faced by criminal justice practitioners: excessive use of force, corruption and graft, bribery and gratuities, and diversity of cultures and values. (3 lec/0 lab) 3 sem hrs

**CRJ 260 Supervision  
of Police Personnel**

This course studies the role of the supervisor in police organizations and relationships with subordinates. The content includes leadership and command roles, employee satisfaction/dissatisfaction, problem employees, remediation, employee evaluations, discipline issues, deployment and conference facilitation. *Recommended Prereq:* CRJ105; CRJ250. *Prereq:* CRJ100. (3 lec/0 lab) 3 sem hrs

**CRJ 296 Special  
Topics/Criminal Justice**

This course offers in-depth exploration of a special topic, issue or trend in the criminal justice field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate. (0 to 3 lec/0 to 6 lab) 1 to 3 sem hrs

**Disability Studies (DIS)****DIS 101 Disability in Society**

It has been estimated that nearly 10 percent of the world's population has a disability. This course is intended to give students working definitions of types of disabilities, as well as provide an overview of various disability models and stereotypes. Students explore the experience of disability through case studies, guest speakers, and role play.

(3 lec/0 lab)

3 sem hrs

**DIS 110 Perspectives on Disability**

Over 34 million people in the United States are identified as having a disability. This course expands students' understanding of the impact of a disability throughout the lifespan. Topics include the history, economics and geographical perspectives of disability, a study of disability in infancy, inclusion in education, adolescence and adulthood.

*Recommended Prereq:* DIS101.

(3 lec/0 lab)

3 sem hrs

**DIS 201 Catalyst for Change**

People with disabilities comprise the largest minority population in the United States. This course focuses on improving the quality of life for all people. Students are challenged to discover personal changes that lead to action and planned change. Specific topics include ethics, assistive technology and universal design.

*Recommended Prereq:* DIS101 and DIS110.

(3 lec/0 lab)

3 sem hrs

**DIS 296 Special Topics  
for Disability Studies**

This course offers in-depth exploration of a special topic, issue or trend in the disability studies field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(1 to 3 lec/0 lab)

1 to 3 sem hrs

**Early Childhood  
Education (ECE)****ECE 101 Introduction to Early  
Childhood Education**

Introducing students to the field of early childhood education, this course presents an overview of the philosophy, structure and organization of early childhood care and education in the context of appropriate practices. Students examine how their own personal qualities relate to the expectations of the field, and they study and observe developmentally appropriate practices in different types of early childhood programs. Students also review the state and federal regulations that govern early childhood programs.

(3 lec/0 lab)

3 sem hrs

**ECE 102 Career Explorations  
in Early Childhood**

This course examines the responsibilities of an early childhood professional, including practical guidelines for providing care for preschool-aged children and their families. State and local requirements, guidance techniques, communication with parents, health, safety and nutrition, learning experiences and multicultural education are all discussed.

(3 lec/0 lab)

3 sem hrs

**ECE 105 Observation and  
Guidance of Young Children**

This course offers a study of early childhood education guidance practices. Emphasis is placed on the identification and application of positive guidance methods and techniques in developing young children's potential. Recording and objectively interpreting children's behavior through observation is also covered.

(3 lec/0 lab)

3 sem hrs

**ECE 107 Development and Guidance  
of the School-Age Child**

This course focuses on the principles and theories of the development of children between the ages of six and twelve. The use of effective guidance and interaction techniques with school-age children will be emphasized, and their implications for school-age child care and education programs will be discussed.

(3 lec/0 lab)

3 sem hrs

**ECE 110 Infant and Toddler Care**

This course focuses on prenatal development, the birth process, infancy and toddlers, with an emphasis on forming relationships with infants and toddlers, developing caregiving strategies, and reviewing current issues and trends. The social, emotional, intellectual and physical development of infants and toddlers is examined, and the role of adults in enhancing infant and toddler development is explored.

(3 lec/0 lab)

3 sem hrs

**ECE 115 Child Growth  
and Development**

This course provides a foundation in the theory and principles of child development from the prenatal through early adolescent stages. Students examine the theories of Piaget, Erikson, Vygotsky, Skinner and others in an in-depth study of children's physical, social, emotional, cognitive, language and aesthetic development. Emphasizing implications for early childhood education practice, child development is also explored in the context of gender, family, culture and society.

(3 lec/0 lab)

3 sem hrs

**ECE 120 Health, Safety and Nutrition**

This course explores the personal health of students and the health, safety and nutrition needs of children in group settings. Students examine the Illinois Department of Children and Family Services licensing standards, procedures for providing safe environments for children, assessment of children's health, and the nutritional requirements of children.

(3 lec/0 lab)

3 sem hrs

**ECE 125 Child, Family and Community**

This course is a comprehensive study of the child as she/he relates to her/his family and community. Emphasis is on communication, diversity, professionalism and social policy. An in-depth study of community resources is included.

(3 lec/0 lab)

3 sem hrs

**ECE 140 Inclusion in Early  
Childhood: Birth Through Age Eight**

This course provides students with the tools and skills to work with children with developmental differences. The focus of the course is on inclusion, including the identification of developmental differences; assessment and referral practices; the adaptation of curriculum and learning environments, and the development of community support and parent/teacher partnerships.

*Recommended Prereq:* ECE101, ECE115.

(3 lec/0 lab)

3 sem hrs

**ECE 145 Multiculturalism  
in Early Childhood**

This course focuses on the implementation of cultural and anti-bias education with young children. Emphasizing the development of practical applications that balance classroom daily routines, curriculum and teaching strategies with the child's home culture, the course presents effective ways that teachers can assist children in learning to respect, appreciate and develop positive interactions with people different than themselves. Theories of multicultural education and the student's own cultural identity and attitudes toward others are explored.

*Recommended Prereq:* ECE101, ECE115.

(3 lec/0 lab)

3 sem hrs

**ECE 150 Foundations of Early  
Childhood Education**

This course provides a study of early childhood education and child care that places current trends and issues in historical and philosophical perspectives. It includes a review of research in the field and a comparative study of theories of early childhood education as reflected in existing program models.

(3 lec/0 lab)

3 sem hrs

**ECE 207 School-Age Programming**

This course examines the knowledge and skills needed to work effectively with the school-age child. Focusing on the planning, organization, assessment and implementation of developmentally appropriate activities, the course also explores the impact of cultural diversity on all aspects of care and education of the school-age child.

(3 lec/0 lab)

3 sem hrs

**ECE 210 Language Arts  
for the Young Child**

This course offers a study of the language development of preschool children with specific emphasis on how language is acquired and used from ages 0-6. The course highlights developmental milestones in the child's language development. Attention is given to the selection and use of quality literature with young children.

Recommended Prereq: ECE235.

(3 lec/0 lab)

3 sem hrs

**ECE 215 Creative Activities  
for the Young Child**

This course focuses on the theory and research related to the creative development of young children. Art and music resources that encourage children's creativity are also addressed.

Recommended Prereq: ECE235.

(3 lec/0 lab)

3 sem hrs

**ECE 220 Mathematics and  
Science for the Young Child**

This course emphasizes the theory and developmentally appropriate practices, activities and materials for early childhood education, mathematics and science curricula.

Recommended Prereq: ECE235.

(3 lec/0 lab)

3 sem hrs

**ECE 225 Play and Creative Expression  
for the Young Child**

This course provides a study of different theories and types of play. The role of the teacher in modeling and facilitating play is explored. Choosing appropriate materials and equipment for play is emphasized.

Recommended Prereq: ECE115.

(3 lec/0 lab)

3 sem hrs

**ECE 230 Early Childhood  
Center Administration**

This course offers a study of guidelines for the establishment of a child development center. Emphasis is placed upon the student's understanding of the written philosophy of a center and the program used by that center. Staffing, equipment and budgeting processes are studied. The expectations of the state licensing agency and other regulating agencies are examined.

Recommended Prereq: ECE101, ECE115.

(3 lec/0 lab)

3 sem hrs

**ECE 235 Curriculum for Early  
Childhood Programs**

This course provides an overview of the planning implementation and evaluation of developmentally appropriate curriculum. Early childhood curriculum models are introduced and such topics as lesson plans, classroom management strategies, scheduling materials, and equipment are covered.

Recommended Prereq: ECE115.

(3 lec/0 lab)

3 sem hrs

**ECE 250 Early Childhood  
Education Practicum**

This course combines a supervised, 240-hour fieldwork experience with on-campus group seminars. It is designed to provide students with the opportunity to apply the theories, principles and developmentally appropriate practices of early childhood education. Emphasis is placed on students' understanding and self-evaluation of their roles as teachers of young children and as members of a teaching team.

Recommended Prereq: Consent of instructor.

(1 lec/15 lab)

4 sem hrs

**ECE 296 Special Topics for Early  
Childhood Education**

This course offers in-depth exploration of a special topic, issue or trend in the early childhood education field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(1 to 3 lec/0 lab)

1 to 3 sem hrs

**ECE 299 Early Childhood Education  
Administration Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the early childhood education field. It provides students with the opportunity to apply leadership skills in a supervised, fieldwork experience, with emphasis placed upon students' understanding and self-evaluation of their roles as administrators of Early Childhood Education programs. The internship requires the completion of 300 contact hours of experience in an administrative role.

Prereq: Consent of instructor.

(0 lec/20 lab)

3 sem hrs

**Earth Science (ESC)****ESC 100 Survey of Earth Science**

This course is designed to provide an introduction to science, the earth sciences, and to acquaint the student with earth systems. Emphasis is on geology, meteorology, climatology, geomorphology and environmental change, with lesser emphasis on the principles of astronomy and oceanography.

Note: Students enrolling in ESC100 are not required to enroll in ESC101 (lab). However, those students needing a four semester-hour lab science for transfer purposes may wish to concurrently enroll in ESC100 and ESC101.

IAI: P1 905.

(3 lec/0 lab)

3 sem hrs

**ESC 101 Survey of Earth  
Science Laboratory**

This course is designed to acquaint the student with the scientific method and earth systems. Emphasis is on topics related to geology, oceanography and meteorology, which are explored through selected laboratory exercises.

Prereq: ESC100 or concurrent enrollment.

IAI: P1 905L.

(0 lec/2 lab)

1 sem hrs

**ESC 120 Introduction to Meteorology**

This course is an introduction to Earth's atmosphere and the forces behind the weather. Topics include temperature, water vapor, cloud and precipitation formation, atmospheric stability, mid-latitude cyclones, weather forecasting, thunderstorms, tornadoes and hurricanes. A laboratory section includes weather observation and analysis techniques, using weather charts, diagrams and studying past storm events.

IAI: P1 905L

(3 lec/2 lab)

4 sem hrs

**ESC 130 Introduction to Oceanography**

This course is designed to provide an introduction to oceanography by highlighting several components of the marine environment. Emphasis is on plate tectonics, oceanic circulation, the properties of seawater, waves and tidal action, coastal features and landforms, and oceanic habitats and their biota. Lesser emphasis is placed on marine sedimentation, the physiography of the ocean floor and general marine productivity.

IAI: P1 905.

(3 lec/0 lab)

3 sem hrs

**ESC 220 Climate and Global Change**

This course is designed to provide an introduction to climate and to acquaint the student with the processes that govern global weather and climate conditions. The student will gain a general understanding of climate change, global warming, acid rain, ozone depletion and desertification. Current theories regarding humankind's impact on climate will also be emphasized.

*IAI: P1 905.*

(3 lec/0 lab)

3 sem hrs

**ESC 296 Special Topics/Earth Science**

This course offers in-depth exploration of a special topic, issue or trend in earth science, including specific studies in geology, geography, oceanography, meteorology or any of their sub-disciplines. Repeatable to a maximum of 24 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(0 to 6 lec/0 to 12 lab)

1 to 6 sem hrs

**Economics (ECN)****ECN 100 Introduction to Economics**

This survey of the structure and function of the American economy emphasizes current economic problems. Topics studied include: how markets work, competition, income distribution, fiscal and monetary policy, and the global economy and market place.

Note: Not intended for students majoring in economics or business or for students with a minor in economics.

*IAI: S3 900.*

(3 lec/0 lab)

3 sem hrs

**ECN 105 Consumer Economics**

This course is a study of basic economic issues that impact individuals and society. Specific topics include: personal consumption, financial investments, investment and retirement planning, consumer credit, consumer legislation, taxes and tax policies, and the consumer and social responsibility.

(3 lec/0 lab)

3 sem hrs

**ECN 110 Survey of Contemporary Economic Issues**

The framework and models necessary to understand current social/economic issues and the evaluation of current and proposed policy solutions in the context of introductory economic analysis are presented. Topics may include: poverty, labor market discrimination, international trade and immigration, environmental policy, social security and health care, crime and drugs, and education.

Note: Not intended for students majoring in economics or business or for students with a minor in economics.

*IAI: S3 900.*

(3 lec/0 lab)

3 sem hrs

**ECN 121 Principles of Economics-Macroeconomics**

This course provides an introduction to basic economic principles and the principles of macroeconomics. Topics include demand and supply national income accounting, fiscal and monetary policy economic systems and economic growth, income distribution, and international trade, as well as applications to relevant current economic issues.

*IAI: S3 901.*

(3 lec/0 lab)

3 sem hrs

**ECN 122 Principles of Economics-Microeconomics**

This course provides an introduction to basic economic principles and the principles of microeconomics. Topics include price theory and resource allocation, perfect and imperfect competition, antitrust policy and the economics of the labor market, as well as applications to relevant current economic issues.

*IAI: S3 902.*

(3 lec/0 lab)

3 sem hrs

**Education (EDU)**

See also Mathematics (MTH) and Music (MUS) for additional courses for education majors.

**EDU 100 Strategies for the Paraprofessional Educator**

This course provides an overview of the roles and responsibilities of a paraprofessional educator. Team building, instructional strategies, classroom management/organization techniques, diversity in the classroom, and the ethical and legal aspects of the role are considered. The student is also introduced to the ages and stages of child development and the field of special education.

(3 lec/0 lab)

3 sem hrs

**EDU 200 Introduction to Education**

This course provides an introduction to the profession of teaching in the context of the American educational system. The historical, philosophical, social and legal foundations of education are introduced, and ethical issues in a diverse society, the organizational structure of school systems and school governance are examined.

*Recommended Coreq: EDU202.*

(3 lec/0 lab)

3 sem hrs

**EDU 202 Clinical Experience in Education**

This 45-hour documented clinical experience allows students considering a career in teaching to observe and interact with children and teachers in classroom settings. Focused on the subject and age category in which the students are planning to teach, the clinical experience is planned, guided, and evaluated by a cooperating teacher and the college instructor. A weekly on-campus seminar explores such topics as effective teaching methods, classroom management techniques, and learning styles, and assists students in assessing their commitment to teaching as a career.

Note: A background check may be required to fulfill the clinical experience. Also, the number of EDU202 Clinical Experience in Education transferable hours will be determined by the transfer institution.

*Recommended Coreq: EDU200.*

(1.5 lec/3 lab)

3 sem hrs

**EDU 205 Introduction to Technology in Education**

This course introduces students entering the teaching profession to the knowledge and skills required to demonstrate proficiency in the current technology standards that have been established for educators. The course focuses on both knowledge and performance, and it includes hands-on technology activities. Recommended Prereq: Keyboarding; basic skill in word processing, spreadsheet and database programs.

(3 lec/0 lab)

3 sem hrs

**EDU 210 Educational Psychology**

This course studies the psychological principles that provide the foundation for educational practice. The theories of cognitive and psychological development, human learning and motivation are discussed, with an emphasis on application for instruction and assessment. Learner-centered instruction and diversity issues are also addressed.

*Recommended Prereq: PSY100.*

(3 lec/0 lab)

3 sem hrs

**EDU 215 Introduction to the Foundations of Reading**

This course provides an introduction to theory and practice in teaching reading and related language arts areas. Students learn the basic components of reading instruction and the importance of literacy learning, including an introduction to Illinois Learning Standards in the areas of reading and language arts.

*Recommended Prereq: ECE115 and EDU200.*

(3 lec/0 lab)

3 sem hrs

**EDU 220 Introduction to Special Education**

This survey course introduces the historical, philosophical and legal foundations of special education. Topics include an overview of the characteristics of individuals with disabilities; a review of the provisions of the Individuals With Disabilities Education Act (IDEA) and its associated programs; and an examination of the diverse nature of exceptional populations, with an emphasis on the relationship between personal and student cultural perspectives. Students pursuing the Associate of Arts in Teaching degree are required to enroll concurrently in EDU202 Clinical Experience in Education.

*Recommended Prereq:* ECE115.

*Recommended Coreq:* EDU202.

(3 lec/0 lab)

3 sem hrs

**EDU 225 Diversity of Schools and Society**

This course uses social and global perspectives to explore the diversity of schools and society. Students learn how such social aspects as social and global contexts shape education.

(3 lec/0 lab)

3 sem hrs

**EDU 295 Topics/Issues for Paraprofessional Educators**

This course offers topics and issues of current/special interest in paraprofessional education. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(1 to 3 lec/0 lab)

1 to 3 sem hrs

**EDU 296 Topics/Issues for Education**

This course offers in-depth exploration of a special topic, issue or trend in the education field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(1 to 3 lec/0 lab)

1 to 3 sem hrs

**Electronics Technology (ELT)**

**ELT 101 Introductory Electronics**

This course introduces laboratory instruments, circuit components, basic measuring techniques and basic circuits used as building blocks in any electronic system.

(3 lec/2 lab)

4 sem hrs

**ELT 111 Circuit Analysis I (DC)**

This course serves as a foundation for all analog circuit analysis. The fundamental quantities of electric circuits are defined and basic units of measurement are emphasized in the laboratory. Ohm's Law, Kirchoff's Law and the basic series and parallel circuit configurations are analyzed. The fundamental theorems of circuit analysis are covered along with the development of node and loop equations.

*Recommended Prereq:* ELT101 or concurrent enrollment; or consent of instructor.

(3 lec/2 lab)

4 sem hrs

**ELT 112 Circuit Analysis II (AC)**

This course introduces the analysis of AC circuits using principles, theorems and equations developed in Circuit Analysis I (DC). The fundamental circuit components of resistance, inductance and capacitance are studied with respect to changes in frequency. The course builds on a strong foundation of complex numbers and trigonometry applied to the analysis of AC circuits by developing the concepts of resonance, power and filter response. Frequency response characteristics of circuits are stressed throughout.

*Recommended Prereq:* ELT111 or consent of instructor.

(3 lec/2 lab)

4 sem hrs

**ELT 121 Linear Devices I**

This course introduces semiconductor electronic devices. The DC theory of operation is emphasized throughout. The characteristic curves and DC biasing are developed. Simple troubleshooting techniques are defined.

*Recommended Prereq:* ELT101 or consent of instructor.

(3 lec/2 lab)

4 sem hrs

**ELT 131 Digital Electronics I**

This first course in digital electronics introduces the foundation elements of the subject and prepares the student for advanced-level courses in digital electronics, telecommunications and microprocessors.

*Recommended Prereq:* ELT101 or consent of instructor.

(2 lec/2 lab)

3 sem hrs

**ELT 161 Introductory Telecommunications**

This overview of the basic concepts and applications of telecommunications covers both wireless and wired communications. Subjects include AM and FM transmission and reception, multiplexing techniques, transmission lines, electromagnetic wave propagation, digital communications, fiber optics and satellite communications.

(3 lec/0 lab)

3 sem hrs

**ELT 180 Introduction to Audio Recording Engineering**

This course introduces basic audio recording principles, with an emphasis on digital and other modern audio engineering techniques. Topics include special effects, signal processing and Musical Instrument Digital Interface (MIDI), as well as an in-depth study of the different types of microphones.

(3 lec/0 lab)

3 sem hrs

**ELT 203 Advanced Mathematical Methods for Electronics Technology**

This course introduces complex numbers and complex arithmetic with practical applications. It also introduces the inverse trigonometric functions and continues the study of algebra including exponential, logarithmic, and polynomial functions. Determinants, matrices, and their applications are studied as well as analytic geometry. Calculus concepts such as the limit, derivative, and integral are introduced on a rudimentary level. Significant emphasis is placed on using a graphing calculator to master the course content and solve applied problems.

*Prereq:* MTH113 or placement determined by assessment.

(4 lec/0 lab)

4 sem hrs

**ELT 221 Linear Devices II**

This course introduces the AC equivalent of semiconductor diode and amplifier circuits. Power amplifiers are analyzed and the FET is introduced. Several common amplifier configurations are analyzed.

*Recommended Prereq:* ELT121.

(3 lec/2 lab)

4 sem hrs

**ELT 229 Digital Electronics II**

This course covers more advanced topics of digital electronic technology and introduces complex digital circuitry like counters, shift registers and memory devices. It also studies the way digital circuitry is put together to form microprocessors and computers.

*Recommended Prereq:* ELT131 or consent of instructor.

(2 lec/2 lab)

3 sem hrs

**ELT 231 Microprocessor Theory**

This course introduces the microprocessor using the 8 bit machine. Basic computer arithmetic is covered along with memory and bus structure. Addressing structures are covered along with simple program writing. Hardware configurations and its relation to input/output, interrupts and DMA are introduced.

*Recommended Prereq:* ELT131 or consent of instructor.

(3 lec/2 lab)

4 sem hrs

**ELT 232 Advanced  
Microprocessor Theory**

This course deals with the interfacing of the INTEL and Motorola microprocessors to the outside world. It explains the interaction with computer peripherals, like keyboards, memory chips and CRT, and with temperature, pressure and position sensors. It also deals with the output of command signals from the microprocessor to motors, relays and solenoid valves in control system applications.

*Recommended Prereq:* ELT231 or consent of instructor.

(2 lec/2 lab)

3 sem hrs

**ELT 261 Intermediate  
Telecommunications**

This course is a discussion of the most modern techniques in telecommunications. After a quick review of AM and FM transmission and reception, the course describes the effects of noise in telecommunications, then moves on to the different multiplexing techniques, especially for digital data transmission. The different protocols in digital communications are particularly stressed, because of their critical importance. Modems, terminals, LANS and cellular telephony are covered as applications of digital communications.

*Recommended Prereq:* ELT161.

(3 lec/0 lab)

3 sem hrs

**ELT 296 Special Topics/Electronics**

This course offers in-depth exploration of a special topic, issue or trend in the electronics field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(0 to 3 lec/0 to 6 lab)

1 to 3 sem hrs

**Emergency  
Medical Technician (EMT)****EMT 120 Emergency Medical  
Technician - Basic**

This course emphasizes emergency medical care skills and teaches these skills in a job-related context based on the Department of Transportation (DOT) National Standard Curriculum. Course content includes the care of individuals with various traumatic/emergent medical conditions, as well as training in the use of medical equipment and materials. This course prepares the student for either the State licensure examination for the State Emergency Medical Technician Basic or the National Registry of Emergency Medical Technician Examination through the Illinois Department of Public Health. Repeatable to a maximum of 24 semester hours; 6 semester hours may apply to a degree or certificate.

Note: Students must submit proof of current CPR or Basic Life Support for Health Care Providers to the instructor on the first day of class and are required to purchase a stethoscope. The State of Illinois requires completion of GED or a high school diploma prior to testing for certification, and that students be at least 18 years of age to test. Proof of a tuberculosis test and current immunizations must be submitted to the instructor prior to the first day of the emergency room experience.

*Prereq:* Reading assessment; CPR training (American Heart Association Basic Life Support for Health Care Providers or American Red Cross Professional Rescuer); 17.5 years of age or older; ability to lift a pre-determined weight.

(5 lec/2 lab)

6 sem hrs

**EMT 125 Paramedic I**

This course is intended to train paramedics in medical/legal issues, ethics, Emergency Medical Systems, personal wellness, injury prevention, communications, anatomy and physiology, pathophysiology, medication administration and life span development. This course includes classroom theory and laboratory experience.

*Prereq:* Program admission; current license as an EMT-B.

(4 lec/5 lab)

6.5 sem hrs

**EMT 126 Paramedic II**

This course is intended to train paramedics in airway management, patient assessment, arrhythmia recognition and cardiology. This course includes classroom theory and laboratory experience.

*Prereq:* Program admission; current license as an EMT-B.

(4 lec/5 lab)

6.5 sem hrs

**EMT 127 Paramedic III**

This course is intended to train paramedics in International Life Support, trauma, pulmonology, neurology, endocrinology, allergies/anaphylaxis, gastroenterology, urology/nephrology, toxicology and substance abuse. This course includes classroom theory and laboratory experience.

*Prereq:* Program admission; current license as an EMT-B.

(3 lec/3 lab)

4.5 sem hrs

**EMT 128 Paramedic IV**

This course is intended to train paramedics in hematology, environmental emergencies, infectious disease, psychiatric and behavioral disorders, gynecology, obstetrics, neonatology, pediatrics, Pediatric Advanced Life Support, geriatric emergencies, abuse and assault, challenged patients, acute interventions for chronic-care patients and assessment-based management. This course includes classroom theory and laboratory experience.

*Prereq:* Program admission; current license as an EMT-B.

(3 lec/3 lab)

4.5 sem hrs

**EMT 129 Paramedic V**

This course is intended to train paramedics in Advanced Cardiac Life Support, protocols, extrication awareness, ambulance operations, medical incident command, crime scene awareness and rural EMS. This course includes classroom theory and laboratory experience.

*Prereq:* Program admission; current license as an EMT-B; EMT125; EMT126; EMT127; EMT128.

(1 lec/1 lab)

1.5 sem hrs

**EMT 130 In-Hospital Clinical  
Experience for the  
Paramedic I**

In-hospital clinical experience includes: instruction and supervised practice of emergency medical skills primarily in the Emergency Departments of Delnor-Community Hospital, Provena-Mercy Center and Rush-Copley Medical Center. Other experience is gained in critical care units, operating rooms, labor and delivery or cardiac catheterization labs. The in-hospital clinical runs concurrently with the field clinical and the paramedic internship.

*Prereq:* Program admission; current license as an EMT-B; EMT125; EMT126.

*Coreq:* EMT127; EMT128; EMT131.

(0 lec/3 lab)

1 sem hrs

### EMT 131 Field Clinical Experience for the Paramedic I

Field clinical experience includes: a period of supervised pre-hospital experience on an Advanced Life Support vehicle. Students are under the direct supervision of a department approved mentor. This represents the phase of instruction where the student learns how to apply cognitive knowledge and the skills developed in the skills laboratory and hospital clinical to the field environment. The field clinical runs concurrently with the in-hospital clinical and the paramedic internship.

*Prereq:* Program admission; current license as an EMT-B; EMT125; EMT126.

*Coreq:* EMT127; EMT128; EMT130.

(0 lec/5 lab)

1 sem hrs

### EMT 230 In-Hospital Clinical Experience for the Paramedic II

In-hospital clinical experience includes: instruction and supervised practice of emergency medical skills primarily in the Emergency Departments of Delnor-Community Hospital, Provena-Mercy Center and Rush-Copley Medical Center. Other experience is gained in critical care units, operating rooms, labor and delivery or cardiac catheterization labs. The in-hospital clinical runs concurrently with the field clinical and the paramedic internship.

*Prereq:* Program admission; current license as an EMT-B; EMT125; EMT126; EMT127; EMT128; EMT130; EMT131.

*Coreq:* EMT231; EMT299.

(0 lec/6 lab)

3 sem hrs

### EMT 231 Field Clinical Experience for the Paramedic II

Field clinical experience includes: a period of supervised pre-hospital experience on an Advanced Life Support vehicle. Students are under the direct supervision of a department approved mentor. This represents the phase of instruction where the student learns how to apply cognitive knowledge and the skills developed in the skills laboratory and hospital clinical to the field environment. The field clinical runs concurrently with the in-hospital clinical and the paramedic internship.

*Prereq:* Program admission; current license as an EMT-B; EMT125; EMT126; EMT127; EMT128; EMT130; EMT131.

*Coreq:* EMT230; EMT299.

(0 lec/7.5 lab)

2 sem hrs

### EMT 299 Paramedic Internship

Combining academic credit with professional experience, the paramedic internship is the evaluative phase of the paramedic program. Students serve as entry-level paramedics under the supervision of an approved Southern Fox Valley-Emergency Medical Systems preceptor. The paramedic internship runs concurrently with the in-hospital clinical and the field clinical.

*Prereq:* Program admission; current license as an EMT-B; EMT125; EMT126; EMT127; EMT128; EMT129.

*Coreq:* EMT130; EMT131.

(0 lec/9.5 lab)

3 sem hrs

## Emergency Preparedness Management (EPM)

### EPM 120 Emergency Management

This course covers the four phases of emergency management: mitigation, preparedness, response and recovery. Topics include organizing for emergency management, coordinating community resources, public sector liability and the roles of government agencies at all levels. Upon completion, students should be able to demonstrate an understanding of comprehensive emergency management and the integrated emergency management system.

(3 lec/0 lab)

3 sem hrs

### EPM 200 Disaster Response Operations and Management

This course covers the basic concepts and operational procedures and authorities involved in responding to major disasters. Topics include federal, state and local roles and responsibilities in major disaster recovery work, with an emphasis on governmental coordination. Upon completion, students should be able to implement a disaster plan and assess the needs of those involved in a major disaster.

*Recommended Prereq:* EPM120.

(3 lec/0 lab)

3 sem hrs

## Engineering (EGR)

### EGR 101 Engineering Graphics

This introduction to engineering and design includes drafting, dimensioning, tolerancing, fasteners and descriptive geometry. Engineering graphics topics include multi-view orthographic representations, principal auxiliary views, section views and production drawings. At least 50 percent of the course will require the student to use CAD. Additional lab time outside of class may be required in order to complete assignments/projects.

*IAI:* EGR 941, IND 911.

(2 lec/4 lab)

4 sem hrs

### EGR 220 Analytical Mechanics-Statics

This is the first part of an introduction to mechanics from an engineering perspective. It is a study of systems of forces and moments as they apply to the equilibrium of particles and rigid bodies and to the analysis of structures such as trusses, beams, frames and machines.

*Prereq:* MTH131 and PHY221.

*IAI:* EGR 942.

(3 lec/0 lab)

3 sem hrs

### EGR 230 Analytical Mechanics- Dynamics

This is the second part of an introduction to mechanics from an engineering perspective. It is a study of the motion of particles and rigid bodies, in general and as applied to simple mechanisms.

*Recommended Prereq:* EGR220.

*IAI:* EGR 943.

(3 lec/0 lab)

3 sem hrs

### EGR 240 Introduction to Circuit Analysis

This course includes an introduction to the principles of linear electric circuits and the methods of linear network analysis. Properties of electric circuit elements, network laws, theorems and network topology are studied. Transient and steady currents are analyzed.

*Prereq:* PHY222 and MTH233.

*IAI:* EGR 931.

(3 lec/0 lab)

3 sem hrs

### EGR 296 Topics/Issues for Engineering

This course offers in-depth exploration of a special topic, issue or trend in the engineering field. Repeatable to a maximum of 24 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(1 to 6 lec/0 lab)

1 to 6 sem hrs

## English (ENG)

See also Intensive English Basic (IEB), Intensive English Institute (IEI) and Reading (RDG).

NOTE: Placement in English courses is determined by scores on required assessment tests or ACT scores.

### ENG 050 Basic Composition I

Basic Composition I is the first in a two-course developmental composition sequence that precedes transfer-level composition courses. This course encourages students to find/define their voice while developing an understanding and facility with basic writing skills and negotiating an individualized writing process. Students express themselves in a variety of rhetorical/writing situations while actively participating in the larger scope of academic work. Repeatable to a maximum of 12 semester hours; does not apply to a degree or certificate.

(3 lec/0 lab)

3 sem hrs

**ENG 051 Basic Composition I-ESL**

Basic Composition I - ESL is the first in a two-course composition sequence that precedes transfer-level composition courses. This course encourages students to find/define their voice while developing an understanding and facility with basic writing skills and negotiating an individualized writing process. Particular emphasis is placed on vocabulary development and basic grammar skills for advanced English as a Second Language students. Repeatable to a maximum of 12 semester hours; does not apply to a degree or certificate.

(3 lec/0 lab)

3 sem hrs

**ENG 070 Basic Composition II**

Basic Composition II is the second in a two-course developmental composition sequence that precedes transfer-level composition courses. This course encourages students to develop/refine their voice and writing skills while responding to more complex writing situations. Students learn how to compose essays and engage in the research process as they participate in a larger academic community of thinkers, readers and writers. Repeatable to a maximum of 12 semester hours; does not apply to a degree or certificate.

*Prereq:* C or better in ENG050 or placement by assessment.

(3 lec/0 lab)

3 sem hrs

**ENG 101 First-Year Composition I**

This course focuses on the writing and revising of expository essays and writing projects and is the first in a two-course sequence. It concentrates on the writing process, identifying and responding to different audiences and rhetorical situations, and understanding the conventions of format and structure in various discourse communities, including academic writing. Practice in critical thinking and essay development is emphasized.

Note: IAI General Education requires a C or better in this course.

*Prereq:* C or better in ENG070 or placement by assessment.

*IAI: C1 900.*

(3 lec/0 lab)

3 sem hrs

**ENG 102 First-Year Composition II**

This course focuses on the writing, researching and revising of expository essays and writing projects. The second of a two-course sequence, it concentrates on the writing process, identifying and responding to different audiences and rhetorical contexts, and understanding the conventions of format and structure in various discourse communities, including academic writing. Practice in critical thinking and essay development is emphasized. Students write analytical and argumentative essays, including an academic research paper. Note: IAI General Education requires a C or better in this course.

*Prereq:* C or better in ENG101.

*IAI: C1 901R.*

(3 lec/0 lab)

3 sem hrs

**ENG 151 Foundations of Written Business Communication**

This basic communications course for the occupational or technical student is intended to improve the student's communications skills, with major emphasis on writing more effectively for business and industry. This class is intended for students with little experience in professional writing.

*Prereq:* C or better in ENG070 or placement by assessment.

(3 lec/0 lab)

3 sem hrs

**ENG 152 Business Communication-Letter Writing**

This course includes a review of the writing process for composing business letters and memoranda. Topics include order and remittance letters, request and response letters, claim and adjustment letters, credit and collection letters, letters of application and professional resumes.

*Prereq:* C or better in ENG070 or placement determined by assessment score.

(3 lec/0 lab)

3 sem hrs

**ENG 153 Business Communication-Technical Writing**

This course emphasizes technical writing basics, including defining an audience, understanding style and format, using graphic elements and visual aids, and evaluating purpose and format. Students develop business-related documents such as proposals, reports, user manuals and technical brochures. Sentence-level mechanics, conciseness, paragraph structure, organization and language precision are addressed. Collaboration and revision are emphasized.

*Prereq:* C or better in ENG070 or placement determined by assessment score.

(3 lec/0 lab)

3 sem hrs

**ENG 204 Creative Writing: Fiction**

This course provides guided practice in writing fiction, with emphasis on the structure, elements and skills common to creative expression in fiction. It is designed to help students discover and develop their own best medium for expression.

*Prereq:* ENG 101.

(3 lec/0 lab)

3 sem hrs

**ENG 205 Creative Writing: Poetry**

This course provides practice in writing free-verse and formal poetry with emphases on the structure, elements, and skills common to creative expression in poetry. This course is designed to help students discover and develop and analyze their own poetry and the poetry of professionally published poets.

*Prereq:* ENG 101.

(3 lec/0 lab)

3 sem hrs

**ENG 211 American Literature to 1865**

This course explores varied writings in the Americas from the beginning of colonialism to the end of the U.S. Civil War. With emphases on form, content and context, students read and discuss literary works from several genres falling into literary periods such as The Conquest and Colonial periods; the eighteenth century, Revolutionary and Republican eras; and the early nineteenth century, American Renaissance, Abolitionist and Civil War periods.

*Prereq:* ENG101.

*IAI: H3 914.*

(3 lec/0 lab)

3 sem hrs

**ENG 212 American Literature From 1865**

This course explores writings in the United States from the end of the Civil War to the present with emphases on major literary movements, such as Realism, Naturalism, Modernism, Postmodernism and Multiculturalism, understood in relation to their intellectual, social and political contexts.

*Prereq:* ENG101.

*IAI: H3 915.*

(3 lec/0 lab)

3 sem hrs

**ENG 215 Masterpieces of American Literature**

This is a study of the development and treatment of major themes and ideas in the works of significant American authors. Such representative writers as Bradford Edwards, Franklin, Hawthorne, Poe, Melville, Emerson, Thoreau, Twain, James, Dickinson, Faulkner, Hemingway, Steinbeck and others are read. Understanding and enjoyment of the assigned readings are emphasized along with historical and sociological contexts.

*Prereq:* ENG101.

*IAI: H3 915.*

(3 lec/0 lab)

3 sem hrs

**ENG 220 Multicultural Literatures of the United States**

This course is an introduction to multicultural literary works of the United States, with emphases on novels, autobiographies, poetry, short stories, drama, memoir, essays, journals and other literary genres. This course requires students to read and understand a variety of texts in order to explore issues of race, ethnicity, class, caste, gender, sex, sexuality, nation, region, disability, age and ecosystem, along with history, formal dynamics and the personal as political.

*Prereq:* ENG101.

*IAI: H3 910D.*

(3 lec/0 lab)

3 sem hrs

**ENG 221 British Literature to 1800**

This course is a chronological study of British masterpieces from Beowulf through the pre-Romantics. The history of ideas may be studied to show the relationship between an idea and its literary embodiments. Critical analysis skills are required.

*Prereq:* ENG101.

*IAI: H3 912.*

(3 lec/0 lab)

3 sem hrs

**ENG 222 British Literature From 1800**

This course is a chronological study of British literature. Major works from the Romantic, Victorian and Modern periods are studied. This course is a continuation of ENG221 but may be taken independently. Critical analysis skills are required.

*Prereq:* ENG101.

*IAI: H3 913.*

(3 lec/0 lab)

3 sem hrs

**ENG 225 Masterpieces of British Literature**

This course is a study of British masterpieces including selections from Shakespeare, Milton, Swift, the Romantic, Victorian and Modern eras, and modern British literature. Understanding and enjoyment of the British literary tradition, rather than technical aspects of the assigned readings, are emphasized.

*Prereq:* ENG101.

*IAI: H3 913.*

(3 lec/0 lab)

3 sem hrs

**ENG 226 Introduction to Shakespeare**

This course is an introduction to the works of Shakespeare for understanding and enjoyment through a survey of representative plays.

*Prereq:* ENG101.

*IAI: H3 905.*

(3 lec/0 lab)

3 sem hrs

**ENG 227 Literature and Contemporary American Thought**

This course is a study of the great books that shaped and mirrored 20th century thought and sensibility and the literary works and intellectual milieu from which they sprang. Various types of literary works that reflect the experience and construction of contemporary American thought set in historical context are examined.

*Prereq:* ENG101.

(3 lec/0 lab)

3 sem hrs

**ENG 228 Children's Literature**

Children's Literature introduces the student to major genres of children's books and non-print formats. The class focuses on the primary works, authors, illustrators and trends in children's literature for preschoolers through sixth graders. The course looks at the impact of popular media and societal trends on children's literature. Storytelling, story times and selection of age-appropriate materials are also emphasized.

*Prereq:* ENG101.

(3 lec/0 lab)

3 sem hrs

**ENG 229 Introduction to Literature**

This course is an introduction to fiction (short story and novellas or novels), poetry and drama from classic to contemporary selections. This course includes study of literary techniques and thematic interpretations of the works read.

*Prereq:* ENG101.

*IAI: H3 900.*

(3 lec/0 lab)

3 sem hrs

**ENG 230 Introduction to Poetry**

This course is a critical study of world poetry with respect to structure and content through close reading of poems in a variety of styles from the Renaissance to recent times.

*Prereq:* ENG101.

*IAI: H3 903.*

(3 lec/0 lab)

3 sem hrs

**ENG 235 Introduction to Fiction**

This course is a critical study of three genres of fiction (short story, novella and novel) from classic and contemporary selections. It includes critical analysis, study of techniques, historical background and thematic interpretations of the works read.

*Prereq:* ENG101.

*IAI: H3 901.*

(3 lec/0 lab)

3 sem hrs

**ENG 240 Introduction to Drama as Literature**

This course explores the literary aspects, concepts and principles of drama. It includes the critical study of various types of plays from a variety of periods. Consideration is given to the technical aspects of dramatic production, as well as backgrounds of the physical theatre, historical development of the drama form and selected authors.

*Prereq:* ENG101.

*IAI: H3 902.*

(3 lec/0 lab)

3 sem hrs

**ENG 245 World Literature**

This course is a survey of representative readings from ancient times to the present. The course emphasizes the significance of the selections as human documents as well as their importance as literature. Although this course focuses primarily upon Western literature, representative texts from other cultures may be integrated into the syllabus. A cross selection of literary genre ranging from Greek and Roman epics to modern plays, love sonnets and modern short stories constitutes the course reading list.

*Prereq:* ENG101.

*IAI: H3 906.*

(3 lec/0 lab)

3 sem hrs

**ENG 255 Women's Literature**

This course introduces students to novels, short stories, poetry, essays, memoir, drama, journals and other literary genre written by women in English across several centuries and from a variety of racial, ethnic, sexual, class, disability, age, regional and national backgrounds.

Students explore how systems of race, ethnicity, class, caste, gender, sex, sexuality, disability, age, region, nation and ecosystem affect the conditions under which women write as well as what they write. Students also explore differences and continuities in women writers' perspectives and their uses of form, content and subject.

*Prereq:* ENG101.

*IAI: H3 911D.*

(3 lec/0 lab)

3 sem hrs

**ENG 260 Postcolonial Literatures**

This course is an introduction to Postcolonial literatures with emphases on reading contemporary literary works across genres from Africa, Asia, Australia, the Caribbean, South and North Americas, and colonized Europe. Anglophone texts are read with the intent of understanding the historical, cultural and political contexts of colonialism and postcolonialism.

*Prereq:* ENG101.

(3 lec/0 lab)

3 sem hrs

**ENG 265 Latina and Latino Literature**

Latina and Latino Literature introduces students to major Latina and Latino writings in English in the United States. The course focuses on the primary works, authors and trends in Latina/o literature. Students read texts in a variety of genres—fiction, drama, essays, poetry, memoir, etc. Authors include, but are not limited to, those with roots in Cuba, the Dominican Republic, Mexico, Puerto Rico and throughout South, Central and North Americas.

*Recommended Prereq:* ENG101.

(3 lec/0 lab)

3 sem hrs

**ENG 296 Special Topics in Literature**

This course offers in-depth exploration of a special topic, issue or trend in English literature. Repeatable to a maximum of 16 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

*Prereq:* ENG101.

(2 to 4 lec/0 lab)

2 to 4 sem hrs

**Entrepreneurship (ETR)****ETR 140 Introduction to Entrepreneurship**

This course exposes students to the entrepreneurial experience and perspective, the role of entrepreneurship and its impact on organizations of all types and society-at-large. Included are case studies of both failed and successful ventures and a look at current economic needs and trends.

(3 lec/0 lab)

3 sem hrs

**ETR 150 Business Plan Development**

This course guides students through the planning needed to acquire, form or grow a business or non-profit enterprise. Practical business concepts are applied to entrepreneurial endeavors. Topics include legal business structures, business plan components, development of a business plan and related issues concerning ongoing management of the organization.

*Recommended Prereq:* ETR140.

(3 lec/0 lab)

3 sem hrs

**ETR 160 Entrepreneurial Finance**

This course provides business owners and managers with tools to identify and better comprehend sources of venture funding and to understand financial reporting, including related valuation and management issues. Topics covered include finance terminology, financial statements, debt and equity funding, and long and short term capital requirements.

*Recommended Prereq:* ETR150.

(3 lec/0 lab)

3 sem hrs

**ETR 250 Advanced Business Planning**

This course is the capstone for small business and entrepreneurial students, with a focus on high quality business plans intended for management use or for attracting new venture capital.

*Recommended Prereq:* ETR160; MKT200.

*Prereq:* ETR150.

(3 lec/0 lab)

3 sem hrs

**Film Studies (FLM)****FLM 250 Film as Art: A Survey of Film**

An introduction to film as an art form, this course examines aesthetic and production elements of the motion picture medium, including its narrative genres, directorial styles, cinematography, film acting, and film editing.

*IAI:* F2 908.

(3 lec/0 lab)

3 sem hrs

**FLM 260 History of Film**

This course surveys the historical development of film, emphasizing the study of international films, movements, genres, and innovations in film production that have had significant influence on film as an art form.

*IAI:* F2 909.

(3 lec/0 lab)

3 sem hrs

**FLM 270 Film and Literature**

This course is a study of formal, thematic and/or historical relationships between literary and cinematic forms, including an examination of adaptations and influences that demonstrate the strengths of each artistic medium.

*IAI:* HF 908.

(3 lec/0 lab)

3 sem hrs

**Finance and Banking (FIN)****FIN 200 Principles of Finance**

In this introduction to the role of financial management in today's business world, the following course topics are emphasized: financial markets, debt and equity financing, short and long term financing, capital budgeting, risk and rates of return, and financial statement analysis.

*Recommended Prereq:* ACC120.

(3 lec/0 lab)

3 sem hrs

**FIN 205 Personal Finance and Investing**

This course offers students sound direction in making personal financial decisions. It is a comprehensive look at the important financial decisions that individuals make throughout their lives and provides a foundation for making informed personal financial decisions. Coverage includes investment fundamentals and investing strategies, guidance on consumer purchases, insurance basics, time value of money concepts, and retirement and estate planning.

*Recommended Prereq:* BUS100.

(3 lec/0 lab)

3 sem hrs

**FIN 210 Money and Banking**

This course stresses basic monetary theory required in the banking and finance industry. Topics include: economic stabilization, types of spending, the role of gold, limitations of central bank control, government fiscal policy, balance of payments, foreign exchange, repercussions on the banking industry in affecting yield curves, and structuring of portfolios.

*Recommended Prereq:* ECN121.

(3 lec/0 lab)

3 sem hrs

**FIN 215 Financial Institutions**

The basic concepts for managing the following financial institution functions and services are covered: banking monetary theory, cash flow and operations of financial institutions. Emphasis is given to the impact of these financial services in a market-oriented economy.

(3 lec/0 lab)

3 sem hrs

**Fire Science (FSC)****FSC 105 Basic Operations Firefighter I**

This course provides partial training toward Basic Operations Firefighter Certification by the Office of the State Fire Marshal. This course covers fire department organization, fire behavior, building construction, safety, communications, self contained breathing apparatus, extinguishers, ropes and knots, water supply, hose and appliances, nozzles and fire streams.

(4 lec/0 lab)

4 sem hrs

**FSC 115 Basic Operations Firefighter II**

This course provides partial training toward Basic Operations Firefighter Certification by the Office of the State Fire Marshal. Topics discussed include ladders, forcible entry, ventilation, search and rescue, fire control, protecting evidence, fire detection and alarm suppression systems, prevention and public education, loss control, wildland and ground cover fires, firefighter survival and hazardous materials awareness. Course completion qualifies students for the State Fire Marshal Certification Test for Hazardous Materials Awareness. Students need not have completed Basic Operations Firefighter I to enroll.

(4 lec/0 lab)

4 sem hrs

**FSC 120 Hazardous Materials Operations**

This course is designed to provide students with the skills and knowledge necessary to be examined and certified by the Illinois Office of the State Fire Marshal as a Hazardous Materials First Responder.

(3 lec/0 lab)

3 sem hrs

**FSC 125 Advanced Technician Firefighter**

This course provides partial training toward Advanced Technician Firefighter Certification and instructs Basic Operations Firefighter students in advanced firefighting techniques. Content for this course includes fire department organization, fire behavior, safety, communications, building construction, ladders, fire hose, water supply, tools and equipment, forcible entry, ventilation, fire control, protecting evidence for cause and origin, fire prevention and education, fire detection and alarm suppression systems, firefighter survival and technical rescue. Successful completion of this course, practical completion and passage of the state written exam along with other required Office of the State Fire Marshal courses leads to Office of the State Fire Marshal Certification as an Advanced Technician Firefighter.  
*Recommended Prereq:* FSC105 and FSC115; or Basic Operations Firefighter Certification.  
(4 lec/0 lab) **4 sem hrs**

**FSC 140 Fire Apparatus Engineer**

This course is designed to provide students with the necessary background, knowledge and skills to perform the duties of a fire apparatus engineer, which include pump operations, pump functions, pumper components, pumper requirements for maintaining and testing apparatus, fire stream development, and water supply in relation to various fire ground situations. This course provides training toward Fire Apparatus Engineer Certification by the Illinois Office of the State Fire Marshal.  
*Recommended Prereq:* Firefighter II Certification.  
(4 lec/0 lab) **4 sem hrs**

**FSC 150 Vehicle and Machinery Operations**

This course provides basic skills toward the performance of rescue specialist operations. It provides an introduction to the knowledge and skills required in the various specialties of extrication. This course provides training toward Rescue Specialist-Roadway Extrication Certification by the Illinois Office of the State Fire Marshal. Repeatable to a maximum of 6 semester hours; 3 semester hours may apply to the degree.  
*Recommended Prereq:* Firefighter II Certification.  
(2 lec/2 lab) **3 sem hrs**

**FSC 160 Tactics and Strategy I**

This introduction to the basic principles and methods associated with fireground tactics and strategy as required of the company officer emphasizes size-up, fire ground operations, pre-fire planning, and basic engine and truck company operations.  
*Recommended Prereq:* FSC105.  
(3 lec/0 lab) **3 sem hrs**

**FSC 170 Fire Science Instructor I**

This course is designed to meet the needs of those individuals who wish to expand their knowledge in the area of instructing other individuals. It is structured to provide basic information about human relations in the teaching-learning environment, methods of teaching and the proper method of writing lesson plans. This course provides training toward Fire Instructor I Certification by the Illinois Office of the State Fire Marshal and is designed using NFPA Standard 1041, Chapter 2, 1996 edition. A Firefighter II Certification is required to qualify for an Instructor I Certification.  
*Recommended Prereq:* Firefighter II Certification.  
(3 lec/0 lab) **3 sem hrs**

**FSC 215 Technical Rescue and Vehicle Operations**

This course provides training toward the Office of the State Fire Marshal Technical Rescue Awareness Certification and partial training toward the Fire Service Vehicle Operator Certification. The technical rescue awareness segment of the course covers identification of rescue situations, their specific hazards, and the appropriate responses. Successful completion qualifies the student for the Office of the State Fire Marshal State Certification exam for Technical Rescue Awareness. The fire service vehicle operator portion of the course discusses the safe operation of a fire service vehicle during emergency and non-emergency situations. The classroom instruction must be combined with a fire department practical driving exam for the completion of the Office of the State Fire Marshal examination for the Fire Service Vehicle Operator Certification.  
(1 lec/0 lab) **1 sem hrs**

**FSC 220 Fire Inspection and Prevention**

This fire prevention and inspection course is designed to provide basic training in the principle aspects of public education, code enforcement and engineering. Subject material covered includes life safety, hazards, cause, codes, public education and fire prevention bureau management.  
*Recommended Prereq:* Firefighter III Certification.  
(3 lec/0 lab) **3 sem hrs**

**FSC 231 Fire Science Administration I**

This course covers the role and function of a Fire Officer I, management principles, organizational concepts, staffing, basic motivational skills and performance appraisal. This course provides training toward Fire Officer I. Certification is required to qualify for Fire Officer I.  
*Recommended Prereq:* Firefighter III Certification.  
(3 lec/0 lab) **3 sem hrs**

**FSC 232 Fire Science Administration II**

This course covers workplace communication, work groups, group job performance, group leadership, and the role of health and safety in a fire science organization. This course provides training toward Fire Officer I Certification by the Illinois Office of the State Fire Marshal.  
*Recommended Prereq:* FSC231.  
(3 lec/0 lab) **3 sem hrs**

**FSC 233 Fire Science Administration III**

This course covers the role and function of a Fire Officer II. Topics include organization, management, social services, capital resource management, public finance and budgeting, public relations and information management as they pertain to a fire science organization. This course provides training toward Fire Officer II Certification by the Illinois Office of the State Fire Marshal.  
*Recommended Prereq:* Fire Officer I Certification.  
(3 lec/0 lab) **3 sem hrs**

**FSC 234 Fire Science Administration IV**

This course covers personnel management, health and safety, and labor relations as they pertain to a fire science organization. This course provides training toward Fire Officer II Certification by the Illinois Office of the State Fire Marshal.  
*Recommended Prereq:* FSC233.  
(3 lec/0 lab) **3 sem hrs**

**FSC 260 Tactics and Strategy II**

This course provides additional tactics and strategies essential for effective ground operations. It emphasizes strategy, incident management, multicompany operations, planning and stress. This course provides training toward Fire Officer II Certification by the Illinois Office of the State Fire Marshal.  
*Recommended Prereq:* FSC160 or Fire Officer I certification.  
(3 lec/0 lab) **3 sem hrs**

**FSC 270 Fire Science Instructor II**

This course is designed to meet the needs of those individuals who wish to expand their knowledge in the area of instructing others. It is structured to provide basic information about human relations in the teaching-learning environment, methods of teaching and the proper method of writing lesson plans. This course provides training toward Fire Instructor II Certification by the Illinois Office of the State Fire Marshal and is designed using NFPA Standard 1041, Chapter 3, 1996 edition.  
*Recommended Prereq:* FSC170 or Fire Science Instructor I Certification.  
(3 lec/0 lab) **3 sem hrs**

## Foreign Languages

See individual languages: Chinese, French, German, Japanese, Spanish.

### French (FRE)

#### FRE 101 Elementary French I

This is an introductory course in the basic structures and vocabulary of French. Because language is a reflection of culture, the course incorporates colloquial French expressions and Gallic behaviors. The French-speaking world is studied as well as French grammar. The four basic skills of listening, speaking, reading and writing are stressed.

(3 lec/0 lab)

3 sem hrs

#### FRE 102 Elementary French II

This continuation of FRE101 is an introductory course in the basic structures and vocabulary of French. The main objective of the course is to expand and broaden skills in communicating effectively in French. The four basic skills of listening, speaking, reading and writing are further developed.

*Recommended Prereq:* FRE101 or one year of high school French or its equivalent.

(3 lec/0 lab)

3 sem hrs

#### FRE 201 Intermediate French I

This course presents a thorough review of the essentials of French grammar and includes readings in French on French and Francophonic civilization and literature.

*Recommended Prereq:* FRE102 or two years of high school French or its equivalent.

(3 lec/0 lab)

3 sem hrs

#### FRE 202 Intermediate French II

This course is a continuation of FRE201. Reviewing essentials of French grammar and reading in French on French and Francophonic civilization and literature are emphasized.

*Recommended Prereq:* FRE201 or three years of high school French or its equivalent.

*IAI: H1 900.*

(3 lec/0 lab)

3 sem hrs

## Geography (GEO)

#### GEO 121 Physical Geography

This course is designed to provide an introduction to physical geography and to acquaint the student with the general physical environment emphasizing earth-sun relationships and motions, meteorology and climatology, geography, soils, biomes and environmental degradation. A laboratory component examines the above topics and process in more detail using the scientific method of observation, hypothesis formation, and experimentation.

*IAI: P1 909L.*

(3 lec/2 lab)

4 sem hrs

#### GEO 130 GIS and Mapping Principles

This course is designed to provide the student with an introduction to geographic information systems. It covers topics such as map projections, cartographic design, editing, and hands on use of ESRI ArcGIS software. Additional topics such as project creation and data manipulation are also reviewed.

*Recommended Prereq:* GEO220.

(2 lec/2 lab)

3 sem hrs

#### GEO 131 Geographic Information Systems I

This course is designed to continue the study of GIS topics and techniques that were introduced in GEO130. The geodatabase model is examined as well as various editing techniques and annotations. In addition, emphasis is placed on project design and ArcGIS extensions.

*Recommended Prereq:* GEO130.

(2 lec/2 lab)

3 sem hrs

#### GEO 132 Geographic Information Systems II

This course is designed to continue the study of GIS topics and techniques that were introduced in GEO131. Land use and emergency operations topics are used as examples of how many industry topics can be applied in GIS using the same criteria. Various ArcGIS extensions are also reviewed.

*Recommended Prereq:* GEO131.

(2 lec/2 lab)

3 sem hrs

#### GEO 140 Geographic Information Systems III

This course is designed to further advance a student's knowledge of GIS topics and techniques that were introduced in GEO132. Emphasis is placed on toolsets and other editing procedures used in ArcGIS. Students examine advanced modeling techniques and complete a research project utilizing GIS in an industry sector of their choice.

*Recommended Prereq:* GEO132.

(2 lec/2 lab)

3 sem hrs

#### GEO 200 Applications for Geographic Information Systems

In this course, students apply their knowledge and skills to carry out a complete GIS project. Students are encouraged to identify and justify a project that aligns with their academic major, their current employment, or some other area of their interest. Each student submits a project report and makes a presentation of their project to the class.

*Recommended Prereq:* GEO140.

(2 lec/2 lab)

3 sem hrs

#### GEO 210 GIS and Logistics Management

This course is designed to prepare students to apply geographic information systems for the purpose of logistics management. Warehouse distribution, fleet routing, emergency management, territory planning, and budget analysis are some of the solutions that are examined using a geographic information framework.

*Recommended Prereq:* GEO131.

(2 lec/2 lab)

3 sem hrs

#### GEO 220 Geography of the Developing World

This course is organized on a regional basis and is designed to provide an introduction to geography by highlighting various geographic concepts. The course is intended to acquaint the student with the physical, economic, political and social factors that influence change in developing (non-Western) countries.

*IAI: S4 902N.*

(3 lec/0 lab)

3 sem hrs

#### GEO 230 Economic Geography

This course is designed to provide an introduction to economic geography by highlighting various geographic concepts. The course is intended to acquaint the student with a general understanding of the economic interdependence among people, regions and countries.

*Recommended Prereq:* GEO220 or consent of instructor.

*IAI: S4 903N.*

(3 lec/0 lab)

3 sem hrs

#### GEO 235 Human Geography

This course is organized on a topical basis and is designed to provide an introduction to human geography by highlighting various geographic concepts. The course is intended to acquaint the student with a general understanding of culture including language and religion, spatial interaction between people, regionalism, the physical environment and population trends.

*Recommended Prereq:* GEO220 or consent of instructor.

*IAI: S4 900N.*

(3 lec/0 lab)

3 sem hrs

#### GEO 297 Geographic Information Systems Internship

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the geographic information systems field. Eighty hours are required for 1 credit. Repeatable to a maximum of 4 semester hours; 6 semester hours from the GIS internship courses (GEO297, GEO298, GEO299) may apply to the geographic information systems degree and certificate.

*Prereq:* Consent of instructor.

(0 lec/5 lab)

1 sem hrs

### **GEO 298 Geographic Information Systems Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the geographic information systems field. One hundred sixty hours are required for 2 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the GIS internship courses (GEO297, GEO298, GEO299) may apply to the geographic information systems degree and certificate.

*Prereq:* Consent of instructor.  
(0 lec/10 lab)

2 sem hrs

### **GEO 299 Geographic Information Systems Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the geographic information systems field. Two hundred forty hours are required for 3 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the GIS internship courses (GEO297, GEO298, GEO299) may apply to the geographic information systems degree and certificate.

*Prereq:* Consent of instructor.  
(0 lec/15 lab)

3 sem hrs

## **Geology (GLG)**

### **GLG 100 Introduction to Physical Geology**

This course examines the basic principles of geology from a physical and historical perspective. It includes such topics as the formation of rocks and minerals; internal and external processes modifying the earth's surface and other natural phenomena; and the evolutionary history of the earth, including its life forms and continents.

Note: Students enrolling in GLG100 are not required to enroll in GLG101 (lab). However, those students needing a four semester-hour lab science for transfer purposes may wish to concurrently enroll in GLG100 and GLG101.

*IAI: P1 907.*

(3 lec/0 lab)

3 sem hrs

### **GLG 101 Introduction to Physical Geology Laboratory**

This course includes weekly laboratory work involving mineral and rock identification, topographic and geologic map exercises, and some fieldwork.

*Prereq:* GLG100 or concurrent enrollment.

*IAI: P1 907L.*

(0 lec/2 lab)

1 sem hrs

### **GLG 103 Environmental Geology**

This course examines human interaction with geologic processes and hazards, including earthquakes, volcanoes, mass wasting and flooding. Environmental concerns to be discussed include the occurrence and availability of geologic resources (energy, water and minerals), land use planning, groundwater pollution and remediation, environmental health and law. The course is intended for non-science or potential environmental sciences majors.

*IAI: P1 908.*

(3 lec/0 lab)

3 sem hrs

## **German (GER)**

### **GER 101 Elementary German I**

For students without previous knowledge of German, this is an interesting and informative course taught by using culturally authentic themes from everyday life, with emphasis on communication. In addition to the four basic language skills (listening, reading, speaking and writing), cultural aspects of the German-speaking countries are also presented.

(3 lec/0 lab)

3 sem hrs

### **GER 102 Elementary German II**

A continuation of GER101, this course expands on elementary grammar essentials. Reading and interpreting of more advanced German prose and conversation, diction and composition are included.

*Recommended Prereq:* GER101 or one year of high school German.

(3 lec/0 lab)

3 sem hrs

### **GER 201 Intermediate German I**

This course provides a thorough review of grammar and the completion of the most difficult grammatical concepts. Emphasis on reading, writing and speaking the German language is stressed throughout the course.

*Recommended Prereq:* GER102 or two years of high school German. s

(3 lec/0 lab)

3 sem hrs

### **GER 202 Intermediate German II**

A continuation of GER201, this course is a further study and review of grammar, and idiomatic and colloquial German. Increasing stress is placed on conversational and free composition, including the reading of more difficult texts.

*Recommended Prereq:* GER201 or three years of high school German.

*IAI: H1 900.*

(3 lec/0 lab)

3 sem hrs

## **Graphic Design (GRD)**

### **GRD 105 History of Graphic Design**

This course introduces the student to the history of graphic design. It focuses on how visual communication relates to culture and society. Furthermore, it examines the influences of technology on culture and how it affects the aesthetics of graphic design.

(3 lec/0 lab)

3 sem hrs

### **GRD 135 Desktop Publishing**

This course covers desktop publishing technology, progressing from the beginning to the advanced level. Students design projects exploring the software and hardware aspects of electronic page layout and design. Students also learn to integrate various type, image and graphic elements. Other topics include file transfer and document printing. Software includes InDesign and other electronic page layout applications.

(1 lec/5 lab)

3 sem hrs

### **GRD 160 Computer Illustration**

This course covers vector graphics computer software, progressing from the beginning to the advanced level. Students explore the methods and techniques of computer-generated images as solutions to illustration projects. Object-oriented and vector-based graphics as well as print programs are utilized. Software includes Adobe Illustrator.

(1 lec/5 lab)

3 sem hrs

### **GRD 165 Typography**

This course provides an introduction to typographic history, study of letterforms, terms, classifications and typeface selection. Students explore type mechanics and aesthetics by using type in a variety of design applications. Students examine structure, layout, and information hierarchy, as well as the relationship of type to image and cultural context. Software includes: InDesign, Adobe Illustrator, and font editing and font managing applications.

*Prereq:* GRD135 and GRD160; or concurrent enrollment.

(1 lec/5 lab)

3 sem hrs

### **GRD 170 Digital Image**

This course covers digital image computer software, progressing from the beginning to the advanced level. Students learn techniques and features, with emphasis on composition and color, through a number of challenging assignments. Image scanning, manipulation, editing, repairing and color correction are also covered. Software includes Adobe Photoshop.

(1 lec/5 lab)

3 sem hrs

**GRD 173 Graphic Design I**

This course presents an introduction to computers and their use in the field of advertising design. Emphasis is placed on creativity, design issues and the computer as a design tool. Use of QuarkXpress, Adobe Illustrator and Adobe Photoshop in the creation of a variety of design projects is involved. Software includes: QuarkXpress, Adobe Illustrator, Adobe Photoshop or other software on the Macintosh platform.

*Prereq:* GRD135 and GRD160; or concurrent enrollment.  
(1 lec/5 lab) 3 sem hrs

**GRD 190 Print Production**

This course covers the prepress process of graphic design from computer layout to printed piece, using all technical aspects of digital print production. Through an overview of electronic print technology, students learn how to perform prepress functions by using graphic design software and the new direct-to-plate printing process. Software includes: QuarkXpress, Adobe InDesign, Adobe Illustrator and Adobe Photoshop.

*Prereq:* GRD173 or concurrent enrollment.  
(1 lec/5 lab) 3 sem hrs

**GRD 265 Graphic Design for the World Wide Web**

This is an introductory course in Web page design. Topics include: exploring navigation browsers and search software, storyboarding, site content and organization, scanning and importing imagery, understanding file formats, publishing procedures, Web animation, and solving typographic issues. Adobe Dreamweaver and image manipulation software are used.

*Recommended Prereq:* GRD173; WEB110.  
(1 lec/5 lab) 3 sem hrs

**GRD 273 Graphic Design II**

This course is a continuation of the analysis and interpretation of graphic design through illustration, symbolism and typography. Emphasis is placed on developing a portfolio from visualization to production techniques, through directed studio exercises using the Macintosh computer. Primary software used: Adobe Photoshop and Adobe Illustrator.

*Prereq:* GRD173.  
(1 lec/5 lab) 3 sem hrs

**GRD 275 Digital Photography**

This course is a practical studio course covering digital photography in contrast to traditional photography. Digital cameras and scanners are the primary input for image manipulation. This course also includes discussion of how graphic designers and photographers enhance their images. Students use Macintosh platform, digital camera, Adobe Photoshop, and scanning software.

*Recommended Prereq:* GRD170 and ART140; or concurrent enrollment.  
(1 lec/5 lab) 3 sem hrs

**GRD 280 2-D Animation and Multimedia**

This course is a study of the computer-generated animation sequence from storyboard through two-dimensional rendering to final output. Students learn to combine images, illustrations, type and sound into animation by using Adobe Flash, Apple Final Cut Pro, and other sound and graphic design programs.

*Recommended Prereq:* GRD160; GRD170.  
(1 lec/5 lab) 3 sem hrs

**GRD 285 3-D Animation and Multimedia**

This course explores the design and production of 3-D animation and multimedia applications and the relationship to two-dimensional graphic production, computer animation, and multimedia concepts and production procedures. The course also covers the different media of computer sound, text and imaging, and how these are combined into multimedia productions. Students use a variety of 3-D animation programs.

*Recommended Prereq:* GRD280.  
(1 lec/5 lab) 3 sem hrs

**GRD 290 Graphic Design Studio Art**

This is an advanced studio course for art majors and graphic design majors. It allows continuation and concentration in a subject field. Emphasis is on individual research and personal exploration. Students can further their knowledge in graphic software, graphic project design, digital photography, Web site design or animation.

*Prereq:* Consent of instructor.  
(1 lec/5 lab) 3 sem hrs

**GRD 292 Graphic Design Portfolio**

This course is a culmination of the skills learned in the graphic design curriculum. Students reassess progress made and projects produced in their graphic design classes. Each student produces a professional portfolio from new and existing projects. A digital designer's resume, an electronic portfolio, interviewing techniques and job opportunities/internships are explored.

*Recommended Prereq:* All major GRD, ART and MCS courses in the graphic design curriculum.  
(.5 lec/1 lab) 1 sem hrs

**GRD 299 Graphic Design Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the graphic design field, including positions related to desktop publishing, prepress or Web design. Two hundred forty hours are required for 3 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the graphic design internship course may apply to the graphic design degree.

*Prereq:* All 100-level GRD courses; consent of instructor.  
(0 lec/15 lab) 3 sem hrs

**Health Care Interpreting (HCI)****HCI 102 Survey of Mental Health and Substance Abuse Issues in Health Care Interpreting**

This course provides an overview of the mental health and substance abuse fields. Students gain a basic understanding of the history and structure of mental health services in the United States, specifically in Illinois. The laws and ethics that guide the mental health and substance abuse field are presented. Additionally, this course examines the multi-axial system of the DSM IV, along with major categories of mental illness. Other topics include crisis intervention, mental health issues, substance abuse treatment and recovery issues, along with a review of specific drugs of abuse. Finally, students are exposed to specific clinical services provided within the typical mental health treatment facility.

(3 lec/0 lab) 3 sem hrs

**HCI 105 Anatomy and Medical Procedures for Health Care Interpreting**

This course is designed to provide an introduction to roots, prefixes and suffixes of medical terminology while improving memorization skills. Medical procedures, names of medications and abbreviations are introduced.

(3 lec/0 lab) 3 sem hrs

**HCI 106 Introduction to Health Care Interpreting**

This course provides an introduction to the profession of health care interpreting and the skills that are needed. Included are the role of the interpreter, modes of interpreting, code of ethics, standards of practice, interpreting laws and multicultural interactions.

(3 lec/0 lab) 3 sem hrs

**HCI 110 Health Care Interpreting: English/Spanish**

This course is designed to closely assist the student in developing basic levels of proficiency in interpreting in health settings, with emphasis on interpreting professional/client dialogues. Through audio dialogues, placement scenarios, and medical texts, students learn and practice consecutive interpreting and sight translation.

*Recommended Coreq:* HCI106.  
*Prereq:* Program admission; native or near-native fluency in Spanish and English; English/Spanish assessment.

(2 lec/0 lab) 2 sem hrs

**HCI 130 Mental Health Care Interpreting: English/Spanish**

This course introduces bilingual individuals to the mental health interpreting setting. Specifically, the course assists students in understanding the role of the mental health interpreter, along with familiarizing students with mental health vocabulary. Emphasis also is placed on the ethics, the cross-cultural issues, and the strong emotional impacts/dynamics of mental health interpreting.  
*Recommended Prereq:* HCI110.  
*Recommended Coreq:* HCI102.  
*Prereq:* Program admission.  
(2 lec/0 lab) 2 sem hrs

**HCI 150 Anatomical Terminology: English/Spanish**

This course is designed to provide an introduction to human anatomy/physiology and terminology related to the medical field. Students develop proficiency in recognizing anatomical structures and using anatomy vocabulary in Spanish.  
*Recommended Coreq:* HCI105.  
*Prereq:* Program admission.  
(2 lec/0 lab) 2 sem hrs

**HCI 200 Simultaneous Health Care Interpreting: English/Spanish**

This coaching course is designed to assist in improving linguistic fluency and developing proficiency for simultaneous interpreting in the health care profession. Emphasis is placed on interpreting professional/client dialogues and conference settings. Through specific techniques, audio tapes, videos, and placement scenarios, students learn and produce simultaneous interpreting.  
*Recommended Prereq:* HCI110; HCI130; HCI150.  
*Prereq:* Program admission.  
(3 lec/0 lab) 3 sem hrs

**HCI 220 Approaches to Health Care in Hispanic Culture**

This course introduces students to the history, vocabulary and practice of folk medicine in the Hispanic culture as well as cultural issues and vocabulary discrepancies among Spanish speaking cultures. Students develop an understanding of Curanderismo and its impact in the medical setting as they create herb catalogues and apply interpreting and cultural-brokering skills to solving case scenarios.  
(3 lec/0 lab) 3 sem hrs

**HCI 290 Health Care Interpreting Seminar and Field Experience**

This course is designed to provide training and familiarity in a health care interpreting setting and combines a supervised field experience with an on-campus seminar. Students meet for three hours each week in a group seminar and spend 80 hours experiencing on-the-job training at a health care interpreting agency. The history, fields, work sources, free-lancing, organizations and challenges related to the field are discussed.  
*Prereq:* Program admission; successful completion of all other HCI courses.  
(3 lec/5 lab) 4 sem hrs

**Health Education (HED)**

**HED 100 Personal Wellness**

This course is designed to deal with common health issues. Emphasis is placed on prevention, maintenance and improvement through self-responsibility in areas of: achieving wellness, eating and exercising toward a healthy lifestyle, building healthy relationships, understanding and preventing disease, drug use and abuse, and making healthy choices.  
(3 lec/0 lab) 3 sem hrs

**Health Information Technology (HIT)**

**HIT 090 Health Information Technology Prep**

The field of health information technology is introduced and explored through contextualized writing and reading assignments focused on improving academic skills to prepare students for college-level English course work. Content focus is on medical terminology, anatomy and physiology concepts, and legal aspects of health information. Throughout the course, students receive support services, which address time and stress management techniques. Repeatable to a maximum of 12 semester hours; does not apply to a degree or certificate.  
*Prereq:* C or better in ENG050 or placement by assessment.  
(3 lec/0 lab) 3 sem hrs

**HIT 100 Introduction to Health Information Technology**

In this introduction to the field of health information technology, students become familiar with the content, use, and structure of healthcare data and medical records. Students also become familiar with the organization of healthcare providers and insurers. Legal and ethical issues associated with health information are examined.  
(3 lec/0 lab) 3 sem hrs

**HIT 105 Medical Terms for Health Occupations**

This course acquaints students with a method for studying the language of health care. Students learn stems, prefixes and suffixes commonly used in medical terminology.  
(1 lec/0 lab) 1 sem hrs

**HIT 110 Medical Terminology I**

This course includes a logical, step-by-step method for studying the language and terms used in the health care setting. Students learn stems, prefixes and suffixes commonly encountered in the health field in order to recognize, build and spell medical terms.  
(3 lec/0 lab) 3 sem hrs

**HIT 111 Medical Terminology II**

Utilizing the skills mastered in Medical Terminology I, the student continues to expand understanding of the medical language by exploring additional body systems and fields of health care and relating that knowledge to practical exercises and experiences. Oral participation is encouraged in the classroom, and proper pronunciation is emphasized. The student is introduced to the medical record and continues to define and spell related medical terms. Common abbreviations and plural endings are also reviewed.  
*Recommended Prereq:* HIT110 or consent of instructor.  
(3 lec/0 lab) 3 sem hrs

**HIT 115 Medical Transcription I**

This course covers transcription of medical dictation from physician-dictated reports, including history and physical consultations, chart notes, letters, discharge summaries and operative reports. Students use reference materials and resources as well as incorporate skills in English language, technology, medical knowledge, proofreading, editing and research, while meeting progressively demanding accuracy standards.  
*Recommended Prereq:* AOS115; HIT110.  
*Recommended Coreq:* BIO262.  
(2 lec/2 lab) 3 sem hrs

**HIT 116 Medical Transcription II**

Transcription of advanced original health care dictation is covered using advanced proofreading, editing, and research skills, while meeting progressively demanding accuracy and productivity standards.  
*Recommended Prereq:* HIT115.  
(2 lec/2 lab) 3 sem hrs

**HIT 120 Medical Office Procedures**

Students learn about effective organizational and medical office management, professional organizations, legalities and ethics. The role and responsibilities of the administrative medical assistant are emphasized.  
*Recommended Prereq:* HIT105 or HIT110.  
(3 lec/0 lab) 3 sem hrs

**HIT 130 Medical Insurance and Reimbursement**

Reimbursement and payment systems of health insurance payers are examined, highlighting private and governmental policies. Major classes of health insurance contracts are examined with emphasis on benefits and limitations.

*Recommended Prereq:* HIT105 or HIT110; HIT120 or MLA150.

(3 lec/0 lab) 3 sem hrs

**HIT 210 ICD Coding**

This course is an introduction to the International Classification of Diseases (ICD) coding principles for services rendered by physicians. Practice in the assignment of valid diagnostic codes is emphasized to orient the students to coding requirements, terminology and characteristics. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.

*Prereq:* C or better in HIT100, HIT110, and BIO270.

(3 lec/0 lab) 3 sem hrs

**HIT 215 CPT Coding**

This course provides an introduction to basic rules, regulations and principles using CPT and Center for Medicare/Medicaid Services' Common Procedure Coding System (HCPCS) coding classification systems. Practice in the assignment of valid procedure codes in a physician office setting is emphasized. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.

*Prereq:* C or better in HIT100, HIT110, and BIO270.

(3 lec/0 lab) 3 sem hrs

**HIT 220 Pathophysiology and Pharmacology for the Health Information Technology Professional**

The student develops the working knowledge of pharmacology necessary for a career in the health information profession. Emphasis is on the disease processes affecting the human body via an integrated approach to specific disease entities. The student learns mechanisms of drug actions, common drug interactions and side effects, and becomes familiar with the more commonly prescribed drugs.

*Prereq:* BIO270; BIO272.

(3 lec/0 lab) 3 sem hrs

**HIT 230 Data Applications and Health Care Quality**

This course introduces the basic concepts of quality management in the healthcare environment and explores the use of information technologies for data.

Requirements by regulatory agencies regarding quality, utilization and risk management are discussed. Topics include continuous quality improvement and case management processes, data analysis/reporting techniques and outcome measures and monitoring.

*Prereq:* HIT100.

(3 lec/0 lab) 3 sem hrs

**HIT 240 Health Information Processes**

This course introduces systems and processes for collecting, maintaining and disseminating primary and secondary health related information. It instructs in delivery and organizational structure to include content of health record, documentation requirements, registries, indices, licensing, regulatory agencies, forms and screens.

*Prereq:* HIT100.

(3 lec/0 lab) 3 sem hrs

**HIT 250 Health Information Fundamentals Practicum/Seminar**

This course provides an initial supervised professional practice experience at an approved external health information management site. Students acquire directed clinical experience. Practicum competencies reinforce previous coursework and include application of knowledge and skills with respect to health record content, structure, functions and use.

*Prereq:* HIT240.

(.5 lec/3 lab) 2 sem hrs

**HIT 299 Health Information Practicum Capstone**

This capstone course includes a 15-hour per week internship in a health-related organization and a related seminar. This course provides for a variety of applied experiences. Critical thinking, project planning and management, communication and analytic skills are integrated in the performance of the internship and development of the project. Repeatable to a maximum of 6 semester hours; 3 semester hours from the HIT internship course may apply to a degree or certificate.

*Prereq:* Consent of instructor.

(0 lec/15 lab) 3 sem hrs

**Heating, Ventilation and Air Conditioning (HVA)****HVA 100 Basic Electricity for HVAC**

This course is designed for students who need a basic understanding of electricity related to the HVAC industry. Electrical terms, theory and circuits are used so that the student develops basic electrical troubleshooting skills.

(2 lec/2 lab) 3 sem hrs

**HVA 110 Refrigeration Principles**

This course introduces the learner to the terminology, concepts and scientific principles used in the refrigeration industry and develops skills in pipefitting, use of hand tools and operation of test instruments used in the refrigeration trade.

(2 lec/2 lab) 3 sem hrs

**HVA 120 HVACR Electrical Systems**

Major emphasis in this course is on electricity electrical components, safety devices, schematic diagrams and symbols. Service methods based on standard manufacturers' manuals are studied. Laboratory exercises are conducted on live equipment.

*Recommended Prereq:* HVA100 and HVA110 or consent of instructor.

(2 lec/2 lab) 3 sem hrs

**HVA 130 Residential Comfort Systems**

This course integrates concepts, principles and knowledge of equipment available for residential comfort systems. It describes several residential systems and places with emphasis on diagnosing system malfunctions.

*Recommended Prereq:* HVA100 and HVA110; or consent of instructor.

(2 lec/2 lab) 3 sem hrs

**HVA 140 Basic Heating Systems**

This course describes methods and sources for producing heat for residential and light commercial systems and develops skills in testing, adjusting and replacing heating system components.

*Recommended Prereq:* HVA100 or consent of instructor.

(2 lec/2 lab) 3 sem hrs

**HVA 150 Basic Sheet Metal Fabrication and Print Reading**

This course is designed to provide students with experience in the safe use of sheet metal tools and the methods used to make layouts. Students complete a drawing and fabricate the parts they have drawn and become familiar with HVAC blueprints.

(2 lec/2 lab) 3 sem hrs

### HVA 160 Refrigerant Transition and Certification

This course is intended to prepare students for the certification test required by Section 608 of the Federal Clean Air Act. Repeatable to a maximum of 4 semester hours; 1 semester hour may apply to a degree or certificate.

*Recommended Prereq:* All 100-level HVA courses or consent of instructor.

(1 lec/0 lab)

1 sem hrs

### HVA 170 Universal R-410A Safety and Training Certification

This course provides students with the necessary training and practical knowledge to safely perform service on systems containing R-410A and R-407C and is intended to prepare students for the certification exam. Repeatable to a maximum of 4 semester hours; 1 semester hour may apply to a degree or certificate.

*Recommended Prereq:* All 100-level HVA courses or consent of instructor.

(1 lec/0 lab)

1 sem hrs

### HVA 200 Sheet Metal Estimating, Fabrication and Installation

Students learn basic procedures of designing, estimating, fabricating and installing ductwork, electrical wiring and piping for residential comfort systems. Emphasis is placed on pitfalls, problems and inaccuracies that can occur during each of these procedures.

*Recommended Prereq:* All 100-level HVA courses; HVA210; HVA220; HVA230; CMT250. *Prereq:* Consent of instructor.

(2 lec/2 lab)

3 sem hrs

### HVA 210 Advanced Heating and Cooling Systems

This is the third course in the program covering conventional methods of heating and cooling. Emphasis is on major components within each system, how the system functions, the interrelationship of major parts and planned maintenance procedures.

*Recommended Prereq:* HVA120 or consent of instructor.

(2 lec/2 lab)

3 sem hrs

### HVA 220 Advanced Heating and Cooling Systems Service and Maintenance

This course is designed to provide students with advanced service and maintenance procedures. Problems are analyzed in terms of their effect on electrical controls and mechanical systems.

*Recommended Prereq:* All 100-level HVA courses; consent of instructor.

(2 lec/2 lab)

3 sem hrs

### HVA 230 Advanced HVAC Controls

This course introduces commercial building heating and air conditioning systems. Proper calibration and troubleshooting procedures with pneumatic controls are emphasized.

*Recommended Prereq:* All 100-level HVA courses; consent of instructor.

(3 lec/0 lab)

3 sem hrs

### HVA 240 Introduction to Steam Systems

This course is designed to introduce the student to low pressure steam systems. The course covers the basics of boilers, combustion, water treatment, boiler operations, piping and valves, and boiler safety. It is designed to lay the framework for the student to become a licensed stationary engineer.

(3 lec/0 lab)

3 sem hrs

### HVA 297 Heating, Ventilation and Air Conditioning Internship

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the heating, ventilation and air conditioning field. Eighty hours are required for 1 credit. Repeatable to a maximum of 4 semester hours; 6 semester hours from the heating, ventilation and air conditioning internship courses (HVA297, HVA298, HVA299) may apply to the heating, ventilation and air conditioning degree or certificates.

*Prereq:* All 100-level HVA courses; consent of instructor.

(0 lec/5 lab)

1 sem hrs

### HVA 298 Heating, Ventilation and Air Conditioning Internship

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the heating, ventilation and air conditioning field. One hundred sixty hours are required for 2 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the heating, ventilation and air conditioning internship courses (HVA297, HVA298, HVA299) may apply to the heating, ventilation and air conditioning degree or certificates.

*Prereq:* All 100-level HVA courses; consent of instructor.

(0 lec/10 lab)

2 sem hrs

### HVA 299 Heating, Ventilation and Air Conditioning Internship

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the heating, ventilation and air conditioning field. Two hundred forty hours are required for 3 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the heating, ventilation and air conditioning internship courses (HVA297, HVA298, HVA299) may apply to the heating, ventilation and air conditioning degree or certificates.

*Prereq:* All 100-level HVA courses; consent of instructor.

(0 lec/15 lab)

3 sem hrs

## History (HIS)

### HIS 101 World History to 1500

This course surveys the economic, social, cultural and political history of global peoples and cultures from ancient times to 1500, paying particular attention to the ways in which discrete peoples conceived of and organized themselves and their societies, as well as their regional relationships and interactions with global communities.

*IAI: S2 912N.*

(3 lec/0 lab)

3 sem hrs

### HIS 102 World History Since 1500

This course surveys the economic, social, cultural and political history of global peoples and cultures from 1500 to the present, paying particular attention to relationships and interactions with global communities.

*IAI: S2 913N.*

(3 lec/0 lab)

3 sem hrs

### HIS 111 Western Civilization to 1648

This examination of Western civilization reviews the major historical developments from the experiences of the Near Eastern populations, the Greeks and the Romans, through the Middle Ages, and concludes with early modern history to 1648. The course employs social and cultural history, as well as the more traditional political and economic approaches.

*IAI: H2 901.*

(3 lec/0 lab)

3 sem hrs

### HIS 112 Western Civilization Since 1648

This examination of Western civilization reviews the major historical developments in modern history from 1648 to the present. The course employs social and cultural history, as well as the more traditional political and economic approaches.

*IAI: H2 902.*

(3 lec/0 lab)

3 sem hrs

**HIS 121 American History to 1865**

This examination of American history reviews the major historical developments from the experiences of the indigenous peoples, the colonial regimes and nation building, through the sectional crisis, and concludes with the Civil War. The course employs social and cultural history, as well as the more traditional political and economic approaches.

*IAI: S2 900.*

(3 lec/0 lab)

3 sem hrs

**HIS 122 American History Since 1865**

This examination of American history reviews the major historical developments from the experiences of Reconstruction and western conquest, the rise of industrial capitalism and American ascendancy as a global power, through the Cold War, and concludes with contemporary American society. The course employs social and cultural history, as well as the more traditional political and economic approaches.

*IAI: S2 901.*

(3 lec/0 lab)

3 sem hrs

**HIS 125 American Culture:  
Colonial Period to the Present**

This examination of American history reviews the formation of American culture from the Colonial period to the present and the interaction of American peoples with global communities with special emphasis on the topics of class, gender, race and ethnicity. The course also focuses on religion, environmental, philosophical, scientific and other social experiences that have shaped American peoples.

*IAI: H2 904.*

(3 lec/0 lab)

3 sem hrs

**HIS 205 History of the Middle East**

This course surveys the economic, social, cultural and political history of the Middle Eastern peoples and nations from ancient times to the present, paying particular attention to the ways in which Middle Eastern peoples conceived of and organized themselves and their societies, as well as their regional relationships and interactions with the global community.

*IAI: S2 918N.*

(3 lec/0 lab)

3 sem hrs

**HIS 215 History of China and Japan**

This course surveys the economic, social, cultural and political history of Chinese and Japanese peoples and nations from ancient times to the present, paying particular attention to the ways in which the Chinese and Japanese conceived of and organized themselves and their societies, as well as their regional relationships and interactions with the global community.

*IAI: S2 908N.*

(3 lec/0 lab)

3 sem hrs

**HIS 225 History of Africa**

This course surveys the economic, social, cultural and political history of the African peoples and nations from ancient times to the present, paying particular attention to the ways in which African peoples conceived of and organized themselves and their societies, as well as their regional relationships and interactions with the global community.

*IAI: S2 906N.*

(3 lec/0 lab)

3 sem hrs

**HIS 235 Latin American History:  
Pre-Columbian Period  
to the Present**

This introductory course surveys the historical development of Latin America (Caribbean, Mexico, Central and South America) from Pre-Columbian times to the present. The focus is on the different cultural and ethnic groups of these regions and how conquest, trade and revolution have shaped Latin American nations. Attention is also given to the history of United States-Latin American relations and the history of Latinos in the U.S.

*IAI: S2 910N.*

(3 lec/0 lab)

3 sem hrs

**HIS 245 The Rise of Nazi Germany**

This course surveys the German political scene from unification in 1871 through the era of Nazism. The role of Germany in World War I and the impact of the Treaty of Versailles on the emergence of the national Socialist German Workers' party (NSDAP - Nazis) are examined. In addition, the background and emergence of Nazi racial policies and the consequences of their strict enforcement are analyzed.

(3 lec/0 lab)

3 sem hrs

**HIS 290 Historiography  
and Methodology**

This course introduces students to historiography and the philosophy of history, as well as historical methodology including interdisciplinary approaches.

*Recommended Prereq:* Consent of instructor.

(1 lec/0 lab)

1 sem hrs

**HIS 296 Special Topics/History**

This course offers in-depth exploration of a special topic, issue or trend in the history field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(1 to 3 lec/0 lab)

1 to 3 sem hrs

**Human Services (HSV)****HSV 105 Survey of Human Services**

This course is designed to familiarize students with the field of human services. Topics covered include basic communication, interviewing and assessment techniques and diversity issues. Opportunities are provided to visit selected human services agencies/organizations.

(3 lec/0 lab)

3 sem hrs

**HSV 110 Group Dynamics**

Class discussion, lecture and individual observation are used to familiarize students with the group process. Topics include the various types of groups and the appropriate use of group communication techniques. Group projects and class exercises provide opportunities for students to translate theory into practice.

(3 lec/0 lab)

3 sem hrs

**HSV 115 Crisis Intervention**

This course is designed to familiarize students with a variety of crisis situations and appropriate intervention techniques. Opportunity is provided for students to demonstrate intervention skills in simulated crisis situations.

(3 lec/0 lab)

3 sem hrs

**HSV 120 Introduction  
to Substance Abuse**

This course provides an overview of the historical and cultural attitudes toward alcohol and drug use, abuse and addiction. It probes the disease concept of addiction and explores the physical, psychological and family impact of the disease. Clinical methods of treatment, early intervention and prevention are introduced. Although designed for addictions counseling students and human services professionals, the course is also suitable for individuals who desire to learn more about addiction.

(3 lec/0 lab)

3 sem hrs

**HSV 125 Counseling  
Theories and Strategies**

This course is designed to provide students with the most current assessment of the constructs, principles and techniques of major counseling theories. Special emphasis is placed on application to an addicted population.

(3 lec/0 lab)

3 sem hrs

**HSV 140 Assessment and Treatment of the Dual-Disordered Client**

This course explores the special needs of clients that are diagnosed with both a substance abuse disorder and a psychiatric disorder and provides students with an understanding of the complexities of working with this population. For students and practitioners that wish to apply for the Mental Illness/Substance Abuse (MISA) registration offered by the Illinois Alcohol and Other Drug Abuse Professional Counseling Association (IAODAPCA), this course has been designed to cover the training required for the MISA credential.  
(3 lec/0 lab) 3 sem hrs

**HSV 210 Psychopharmacology and the Addictive Process**

This course studies the behavioral and cognitive effects of psychoactive drugs - drugs that affect the brain and central nervous system. The psychology and physiology of addictive behavior; the use of drugs in treating psychiatric disorders; and the historical background, pharmacology, psychological and physiological effects, medical uses and toxicity of socially abused drugs are also explored. Differences in the attitudes and behavior patterns of special populations are emphasized.  
*Recommended Prereq:* HSV120 or consent of instructor.  
(3 lec/0 lab) 3 sem hrs

**HSV 220 Addictions Counseling I**

This course is one of two devoted to the specific methods and skills used in treating chemically dependent persons and their families. Content includes the characteristics of an addictions counselor, federal and state confidentiality laws, legal and ethical issues of counseling, working with denial, structured assessment techniques, family-focused treatment, working with DUI offenders, and counseling strategies.  
*Recommended Prereq:* HSV120 or consent of instructor.  
(3 lec/0 lab) 3 sem hrs

**HSV 225 Addictions Counseling II**

This course is one of two devoted to the specific methods and skills used in treating dependent persons and their families. Content includes selected state and federal regulations and standards; the significance of the family, spirituality and education in counseling abusers; substance abuse and psychiatric conditions; and professional considerations for the addictions counselor.  
*Recommended Prereq:* HSV120 or consent of instructor.  
(3 lec/0 lab) 3 sem hrs

**HSV 230 Human Services Seminar and Field Experience I**

This course, designed to provide training and familiarity in a human services setting, combines a supervised field experience with an on-campus seminar. Students meet for three hours each week in a group seminar and spend 250 hours experiencing on-the-job training at a human services agency.  
*Recommended Prereq:* Completion of most courses in the HSV degree and consent of instructor.  
(3 lec/20 lab) 5 sem hrs

**HSV 235 Human Services Seminar and Field Experience II**

This course provides a supervised field experience and seminar designed specifically for addictions counseling students. Students spend 250 hours in on-the-job training at an addictions counseling facility and meet in a weekly seminar for group supervision.  
*Recommended Prereq:* HSV220 or HSV225 within the last five years and consent of instructor.  
(3 lec/20 lab) 5 sem hrs

**HSV 240 Human Services Seminar and Field Experience III**

This course continues the addictions counseling seminar and field experience. Students spend an additional 250 hours developing skills in on-the-job training, and they attend a weekly seminar for group supervision.  
*Recommended Prereq:* HSV235 and consent of instructor.  
(3 lec/20 lab) 5 sem hrs

**HSV 296 Special Topics for Public/ Social Services**

This course offers in-depth exploration of a special topic, issue or trend in the public/social services field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.  
(1 to 3 lec/0 lab) 1 to 3 sem hrs

**Humanities (HUM)****HUM 101 Survey of the Humanities**

This is a broad course which introduces students to a view of their inherited culture through the examination of literature, art, music, architecture, philosophy, drama film and religion. The emphasis is twofold: on cultural history and on the present. Materials are organized in terms of issues and ideas.  
*IAI: HF 900.*  
(3 lec/0 lab) 3 sem hrs

**HUM 102 The Global Village**

This general humanities course introduces the student to the literature, art, music, religion and film of several continents of the world. The emphasis is on a worldwide understanding of the humanities.  
*IAI: HF 904N.*  
(3 lec/0 lab) 3 sem hrs

**HUM 201 Modern Culture and the Arts**

This course provides experiences in contemporary art forms in literature, music and graphics, and discusses the forces influencing these arts in the 20th and 21st centuries. An investigation of the values of a culture inundated by changing technology is also included.  
*IAI: HF 903.*  
(3 lec/0 lab) 3 sem hrs

**HUM 296 Special Topics/Humanities**

This course offers in-depth exploration of a special topic, issue or trend in the humanities field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.  
(1 to 3 lec/0 lab) 1 to 3 sem hrs

**Independent Study (IND)****IND 200 Independent Study**

The independent study course provides students with the opportunity to explore areas of special interest that expand on their classroom studies or develop their knowledge in a particular discipline. Repeatable to a maximum of 4 semester hours; 4 semester hours of the independent study courses (IND200, IND201) may apply to a degree or certificate.  
*Prereq:* Consent of instructor.  
(0 lec/3 lab) 1 sem hrs

**IND 201 Independent Study**

The independent study course provides students with the opportunity to explore areas of special interest that expand on their classroom studies or develop their knowledge in a particular discipline. Repeatable to a maximum of 8 semester hours; 4 semester hours of the independent study courses (IND200, IND201) may apply to a degree or certificate.  
*Prereq:* Consent of instructor.  
(0 lec/6 lab) 2 sem hrs

## Industrial Technology (IDT)

### IDT 110 Introduction to Industrial Maintenance

This course introduces students to today's industrial environment, with emphasis on manufacturing and production systems. Basic workplace concepts such as safety and law, measuring techniques, and common manufacturing methods are stressed. Students gain hands-on experience with the tools and equipment commonly used to perform many service or maintenance operations. They are also introduced to automated manufacturing and quality control.

(2 lec/2 lab)

3 sem hrs

### IDT 115 Motor Controls I

This course covers the typical commercial and industrial uses of motors and motor control circuits. Emphasis is placed on reading and understanding logic and wiring schematics. Students spend lab time wiring control systems, from simple logic circuits to more complicated relay and timer-based motor controls.

*Recommended Prereq:* ELT101 or concurrent enrollment or HVA100 or consent of instructor.

(2 lec/2 lab)

3 sem hrs

### IDT 120 Hydraulics

This course introduces students to the field of hydraulics. Students learn the basic laws that govern the generation and transmission of fluid power, the basic components of a hydraulic system, and how those components work to form simple hydraulic circuits. Lab time is spent building and troubleshooting common hydraulic circuits.

(2 lec/2 lab)

3 sem hrs

### IDT 125 Machine Repair

This course gives students detailed hands-on knowledge of belt/sheaves, bearings, gearing and shaft alignment. Aspects of maintenance and mechanical troubleshooting of mechanical power transfer systems are also covered.

(2 lec/2 lab)

3 sem hrs

### IDT 130 Manufacturing Processes

This course is a dynamic survey of manufacturing methods and materials employed in the Fox Valley industrial community. Students learn the various methods of product fabrication and the manufacturing processes for sound economic decision making in manufacturing and product design. Topics include the interrelationship among materials, their selection for use in product design and processes, and how to convert these materials into finished components.

*IAI: IND 913.*

(3 lec/0 lab)

3 sem hrs

### IDT 132 Machine Tool Basics

This course introduces machine tool safety. Topics also include production capabilities of various machine tools, tooling, work-holding devices, machine procedures, controls and use of standard measuring tools. Components of the fundamentals of quality control procedures and documentation are reviewed. Students machine parts to tolerances of +/- .005" or better as required.

(2 lec/2 lab)

3 sem hrs

### IDT 134 Metrology

This course is a study of the use of various measuring tools used in the metal working trades. Variable, attribute, mechanical, optical SPC data collection devices, surface plates, and electrical measuring instruments are studied.

(2 lec/0 lab)

2 sem hrs

### IDT 150 Building Mechanical Systems

This course familiarizes students with typical commercial building plumbing, piping and mechanical systems.

(2 lec/2 lab)

3 sem hrs

### IDT 160 Introduction to Computer Numerical Control

This course is an introduction to computer numerical control (CNC) machine tools. Topics include an introduction to CNC programming coding, set-up, tooling, operation, trouble shooting, and inspection of piece part as per industry print standards. Students learn the basic principles and applications of numerically controlled equipment and experience the set up and operation of CNC machines. After completing this course, the student should be able to take a CNC program set-up sheet, necessary tooling, and complete a set-up in two to three hours.

*Recommended Prereq:* CAD102 and IDT132; or consent of instructor.

(3 lec/0 lab)

3 sem hrs

### IDT 195 Blueprint Reading

This course is designed to provide students with experiences in reading and understanding mechanical drawings, illustrations and diagrams. Students also make sketches and drawings necessary for the communication of facts and ideas.

(2 lec/0 lab)

2 sem hrs

### IDT 215 Motor Controls II

This course is a continuation of the study into motor controls. Topics include various sensors, semi-conductors, soft-start-stop controllers, variable speed drives and PLCs. Lab time is spent wiring control circuits utilizing the above and programming variable frequency drives for specific purposes.

*Recommended Prereq:* IDT115 or consent of instructor.

(2 lec/2 lab)

3 sem hrs

### IDT 218 Strength of Materials

This course is a study of the stresses and deformations in machine parts as a result of dynamic loads and forces. This course requires extensive use of algebraic and trigonometric skills.

*Prereq:* MTH112 or MTH131.

(3 lec/0 lab)

3 sem hrs

### IDT 220 Pneumatics

This course provides students with an overview of pneumatic systems. Topics include cylinder sizing, load calculations, system design, maintenance and troubleshooting.

(2 lec/2 lab)

3 sem hrs

### IDT 230 Commercial Power Distribution and Lighting

This course examines commercial and light industrial electrical power distribution systems and end uses. Topics include lighting circuits, transformers, 3-phase distribution panels, and typical single phase loads along with associated wiring.

*Recommended Prereq:* IDT115.

(2 lec/2 lab)

3 sem hrs

### IDT 240 Programmable Controllers

This course deals with the fundamentals of programmable logic controllers, programming basics of PLCs, troubleshooting, maintenance and system interconnections. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply toward a degree or certificate.

*Recommended Prereq:* IDT215 or consent of instructor.

(2 lec/2 lab)

3 sem hrs

### IDT 250 Commercial and Residential Wiring

This course introduces students to basic electrical terminology and principles along with a working knowledge of tools and techniques used in the installation and maintenance of residential/commercial electrical service and distribution. Select portions of the National Electrical Code are studied.

*Recommended Prereq:* ELT101 or concurrent enrollment.

(2 lec/2 lab)

3 sem hrs

### IDT 260 Computer-Aided Machining (CAM)

This is a study of the computer-aided manufacturing methodologies used by industry to aid CNC programming of two axis machining for both lathe and mill applications. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.

*Recommended Prereq:* CAD102 and IDT160; or concurrent enrollment.

(2 lec/2 lab)

3 sem hrs

**IDT 262 Intermediate CAD/CAM**

This is a continuation of study in computer-aided manufacturing methodologies used by industries to aid CNC programming of two and one-half and three axis machining for both lathe and mill applications. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.  
*Recommended Prereq:* CAD200 and IDT260; or consent of instructor.  
 (2 lec/2 lab) 3 sem hrs

**IDT 264 Advanced CAD/CAM**

This is an advanced study in computer-aided manufacturing methodologies used by industry to aid CNC programming of fourth, fifth and freeform tool paths for the mill applications. Repeatable to a maximum of 8 semester hours; 2 semester hours may apply to a degree or certificate.  
*Recommended Prereq:* IDT262 or consent of instructor.  
 (1 lec/2 lab) 2 sem hrs

**IDT 270 Materials of Industry**

This course presents an introduction to the types and uses of industrial materials. Topics include the general classifications of materials: ferrous metals, nonferrous metals, powdered metals, polymers, ceramics and composites. Emphasis is placed on the manufacture, properties and applications of these materials in industry. Other topics include forming and joining, corrosion, and failure modes.  
*Recommended Prereq:* CHM100; PHY111; MTH111.  
*IAI: IND 912 (under IAI review).*  
 (3 lec/0 lab) 3 sem hrs

**IDT 280 Quality Management for Industry**

This course presents an introduction to quality. The concepts that are covered include total quality management, continuous quality improvement, process improvement, problem solving, strategic quality planning, customer satisfaction, benchmarking, and cost of quality. Other topics include statistical process control and quality information systems.  
*Recommended Prereq:* MTH107 or BUS207; MTH111.  
*IAI: IND 914 (under IAI review).*  
 (3 lec/0 lab) 3 sem hrs

**IDT 296 Special Topics for Industry**

This course offers in-depth exploration of a special topic, issue or trend in the industrial technology field. Topics might include vibration analysis; pump design, troubleshooting and maintenance; failure analysis; industrial lighting systems; and supervision and leadership in the maintenance field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.  
 (1 to 3 lec/0 lab) 1 to 3 sem hrs

**IDT 297 Industrial Technology Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the industrial technology field. Eighty hours are required for 1 credit. Repeatable to a maximum of 4 semester hours; 6 semester hours from the industrial technology internship courses (IDT297, IDT298, IDT299) may apply to a degree or certificate.  
*Prereq:* All 100-level IDT courses; consent of instructor.  
 (0 lec/5 lab) 1 sem hrs

**IDT 298 Industrial Technology Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the industrial technology field. One hundred sixty hours are required for 2 credits. Repeatable to a maximum of 8 semester hours; 6 semester hours from the industrial technology internship courses (IDT297, IDT298, IDT299) may apply to a degree or certificate.  
*Prereq:* All 100-level IDT courses; consent of instructor.  
 (0 lec/10 lab) 2 sem hrs

**IDT 299 Industrial Technology Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the industrial technology field. Two hundred forty hours are required for 3 credits. Repeatable to a maximum of 12 semester hours; 6 semester hours from the industrial technology internship courses (IDT297, IDT298, IDT299) may apply to a degree or certificate.  
*Prereq:* All 100-level IDT courses; consent of instructor.  
 (0 lec/15 lab) 3 sem hrs

**Information and Communication Technology (ICT)**

**ICT 103 Information and Communication Technologies**

This course is designed to help students develop the computing and research skills necessary for success in college courses. Students learn how to use digital technology, communications tools and networks to find, access, manage, integrate, evaluate and create information in order to function in contemporary society.  
 (3 lec/0 lab) 3 sem hrs

**Information Systems**

See Computer Information Systems (CIS), Information and Communication Technology (ICT) and World Wide Web/Internet (WEB).

**Intensive English-Basic (IEB)**

NOTE: Placement in intensive English courses is determined by scores on required assessment tests.

**IEB 055 Reading/Vocabulary**

This course is designed for the non-native pre-beginning level student to develop basic reading and vocabulary skills needed for academic coursework and everyday purposes. Students become independent readers through activities which promote comprehension, vocabulary usage and thoughtful discussion. Reading passages and audio/video programs engage students in different cultural viewpoints, issues for analysis and exposure to authentic language for appropriate expression of opinions in speech and writing. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.  
 Note: Intended for non-native adults.  
*Prereq:* Program admission; placement determined by assessment.  
*Coreq:* IEB056; IEB057; IEB058; IEB059.  
 (4 lec/0 lab) 4 sem hrs

**IEB 056 Listening/Speaking**

This course is designed for the non-native pre-beginning level student to develop basic listening and speaking skills needed for academic coursework and effective communication in everyday situations. Students participate in task-based listening activities which build comprehension note-taking skills and test-taking strategies. Speaking exercises provide students with authentic speaking opportunities to build fluency, engage in thoughtful discussions and express opinions competently. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.  
 Note: Intended for non-native adults.  
*Prereq:* Program admission; placement determined by assessment.  
*Coreq:* IEB055; IEB057; IEB058; IEB059.  
 (4 lec/0 lab) 4 sem hrs

**IEB 057 Grammar**

This course is designed for the non-native pre-beginning level student to develop a knowledge and use of English sentence structure and grammar usage for academic coursework and effective communication in everyday situations. Students compose sentences and progress to short paragraphs on related topics using appropriate form and expression. Pair and group work engage students in oral and written activities using the target structures as they express opinions and negotiate solutions. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; placement determined by assessment.

*Coreq:* IEB055; IEB056; IEB058; IEB059.

(4 lec/0 lab)

4 sem hrs

**IEB 058 Writing**

This course is designed for the non-native pre-beginning level student to develop basic writing skills needed for academic coursework and everyday purposes. The writing process is incorporated as they begin with simple sentences and transition to paragraph writing. Relevant grammar structures are introduced as writing tools while students explore topics, thoughtfully compose and self-edit. Video news broadcasts offer exposure to authentic language and follow-up activities reinforce writing skills. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; placement determined by assessment.

*Coreq:* IEB055; IEB056; IEB057; IEB059.

(4 lec/0 lab)

4 sem hrs

**IEB 059 Pronunciation**

This course is designed for the non-native pre-beginning level student to produce the sounds, stress and intonation patterns of North American English in preparation for academic coursework and everyday use. Students recognize and practice vowels and consonants in accordance with phonetic symbols through interactive speaking activities and self-editing of voice recordings. Listening exercises model correct pronunciation for students to practice with words in isolation and in connected speech to build fluency. Repeatable to a maximum of 8 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; placement determined by assessment.

*Coreq:* IEB055; IEB056; IEB057; IEB058.

(2 lec/0 lab)

2 sem hrs

**Intensive English Institute (IEI)**

NOTE: Placement in intensive English courses is determined by scores on required assessment tests.

**IEI 060 Reading/Vocabulary I**

This course is designed for the high beginning IEI student to develop basic reading skills and increase vocabulary usage needed for effective communication in a professional, academic, or everyday setting. Selected readings engage students in oral and written activities which promote comprehension and critical thinking skills. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; placement determined by assessment.

*Coreq:* IEI061; IEI062; IEI063; IEI064.

(4 lec/0 lab)

4 sem hrs

**IEI 061 Listening/Speaking I**

This course is designed for the non-native high beginning student to develop speaking and listening skills for use in an academic, professional or everyday setting. Students engage in speaking, listening and note-taking tasks using both formal and informal English. Class activities employ a variety of language functions and cultural content to promote language competency and fluency. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; placement determined by assessment.

*Coreq:* IEI060; IEI062; IEI063; IEI064.

(4 lec/0 lab)

4 sem hrs

**IEI 062 Grammar I**

This course is designed for the high beginning IEI student to develop the basic skills of grammar needed for effective communication in an academic, professional, or everyday setting. Students study the form, meaning, and usage of English structures and demonstrate competency in oral and written form. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; placement determined by assessment.

*Coreq:* IEI060; IEI061; IEI063; IEI064.

(4 lec/0 lab)

4 sem hrs

**IEI 063 Writing I**

This course is designed for the high beginning IEI student to develop the basic skills of writing needed for academic, professional, and everyday purposes. Students incorporate the writing process to compose simple descriptive and narrative paragraphs on familiar topics. Oral and written exercises help students construct organized and cohesive paragraphs for effective communication of opinions and ideas. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; placement determined by assessment.

*Coreq:* IEI060; IEI061; IEI062; IEI064.

(4 lec/0 lab)

4 sem hrs

**IEI 064 Pronunciation I**

This course is designed for the high beginning IEI student who needs to pronounce the English language using correct sounds, stress, and intonation patterns. Class activities move from a structured practice of isolated sounds at the word level to the practice of sound in connected speech. Students learn to hear and speak the target language clearly through communicative activities and connect these skills to other coursework. Repeatable to a maximum of 8 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; placement determined by assessment.

*Coreq:* IEI060; IEI061; IEI062; IEI063.

(2 lec/0 lab)

2 sem hrs

**IEI 065 Reading/Vocabulary II**

This course is designed for the intermediate level IEI student to develop reading and vocabulary usage skills needed for effective communication in an academic or professional setting. Selected classic and contemporary short stories engage students in oral and written activities while they explore the history of American culture. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; IEI060, IEI061, IEI062, IEI063, and IEI064, or placement determined by assessment.

*Coreq:* IEI066; IEI067; IEI068; IEI069.

(4 lec/0 lab)

4 sem hrs

### IEI 066 Listening/Speaking II

This course is designed for the non-native intermediate student to develop listening and speaking skills for use in an academic, professional or community setting. Students engage in listening, speaking and note-taking tasks using both formal and informal English. Cultural content about the United States is introduced through topical activities which enhance oral/aural competency. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; IEI060, IEI061, IEI062, IEI063, and IEI064, or placement determined by assessment.

*Coreq:* IEI065; IEI067; IEI068; IEI069.

(4 lec/0 lab)

4 sem hrs

### IEI 067 Grammar II

This course is designed for the intermediate IEI student to develop writing skills needed for effective communication in an academic or professional setting. Students build grammatical resources and use complex structures in speech and writing. Idiomatic and special expressions specific to American culture are utilized through individual, pair and group activities. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

*Prereq:* Program admission; IEI060, IEI061, IEI062, IEI063, and IEI064, or placement determined by assessment.

*Coreq:* IEI065; IEI066; IEI068; IEI069.

(4 lec/0 lab)

4 sem hrs

### IEI 068 Writing II

This course is designed for the intermediate IEI student to develop writing skills needed for effective communication in an academic or professional setting. Students transition from paragraph to composition development. Descriptive, narrative, and process analysis essays are developed based on topics from selected readings, discussions, and personal experience. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; IEI060, IEI061, IEI062, IEI063, and IEI064, or placement determined by assessment.

*Coreq:* IEI065; IEI066; IEI067; IEI069.

(4 lec/0 lab)

4 sem hrs

### IEI 069 Pronunciation II

This course provides the intermediate IEI student instruction and practice with the sound, stress, and intonation patterns of the English language. Vowel and consonant practice at the word level moves to sentence activities and more spontaneous speech. Students learn to hear and produce the target language correctly, reduce accents, and use these skills effectively in other coursework. Repeatable to a maximum of 8 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; IEI060, IEI061, IEI062, IEI063, and IEI064, or placement determined by assessment.

*Coreq:* IEI065; IEI066; IEI067; IEI068.

(2 lec/0 lab)

2 sem hrs

### IEI 070 Reading/Vocabulary III

This course is designed for the advanced level IEI student to expand the skills of reading and vocabulary usage needed for effective communication in a professional or academic setting. Students analyze classic and contemporary works, participate in oral and written activities, and broaden their knowledge of the American culture. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; IEI065, IEI066, IEI067, IEI068, and IEI069, or placement determined by assessment.

*Coreq:* IEI071; IEI072; IEI073; IEI074.

(4 lec/0 lab)

4 sem hrs

### IEI 071 Listening/Speaking III

This course is designed for the non-native advanced student to develop native competency in listening and speaking skills for academic, professional or everyday purposes. Students engage in focused listening and speaking activities while learning cultural content about the United States. Oral and listening tasks promote fluency in both formal and informal English. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; IEI065, IEI066, IEI067, IEI068, and IEI069, or placement determined by assessment.

*Coreq:* IEI070; IEI072; IEI073; IEI074.

(4 lec/0 lab)

4 sem hrs

### IEI 072 Grammar III

This course is designed for the advanced IEI student to expand and develop more complex grammar resources for effective communication in an academic or professional setting. Students learn and use advanced English language structures appropriately in oral and written form. Idiomatic and special language expressions specific to American culture are practiced through pair, group, and class discussions and activities. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; IEI065, IEI066, IEI067, IEI068, and IEI069, or placement determined by assessment.

*Coreq:* IEI070; IEI071; IEI073; IEI074.

(4 lec/0 lab)

4 sem hrs

### IEI 073 Writing III

This course is designed for the advanced level IEI student to develop the writing skills needed for effective communication in an academic or professional setting. Students transition from paragraph to essay development and write narrative, comparison, cause and effect, and persuasive compositions. All writings are based on readings, discussions, research, and personal experience. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; IEI065, IEI066, IEI067, IEI068, and IEI069, or placement determined by assessment.

*Coreq:* IEI070; IEI071; IEI072; IEI074.

(4 lec/0 lab)

4 sem hrs

### IEI 074 Pronunciation III

This course is designed for the advanced IEI student to address the important aspects of English pronunciation which commonly cause difficulties in speech/communication. Individual, pair, and group activities help students to discriminate between sounds, practice correct sounds, and correct target sounds based on Standard American English guidelines. Student compare their pronunciation of words and phrases to that of native speakers in the same contexts. Repeatable to a maximum of 8 semester hours; does not apply to a degree or certificate.

Note: Intended for non-native adults.

*Prereq:* Program admission; IEI065, IEI066, IEI067, IEI068, and IEI069, or placement determined by assessment.

*Coreq:* IEI070; IEI071; IEI072; IEI073.

(2 lec/0 lab)

2 sem hrs

## Interdisciplinary Studies (IDS)

### IDS 110 Introduction to Women's Studies

This interdisciplinary course places women's experiences at the center of interpretation and analysis to introduce basic concepts and perspectives of feminism and Women's Studies. Focusing on historical and contemporary women's issues, the course examines women's lives with an emphasis on the ways in which gender, sexuality, class, caste, race, ethnicity, age, disability, ability, nation, region and environment interact.

(3 lec/0 lab)

3 sem hrs

### IDS 120 Public History and Historic Preservation

This course is designed to acquaint students with professional opportunities in history related careers and covers the historic preservation movement, government policies, and the cultural and social impact of preserving buildings and artifacts. It includes the study of archives, records management, public history, historic architecture and renovation.

(3 lec/0 lab)

3 sem hrs

### IDS 210 Peace Studies and Conflict Resolution I

This interdisciplinary course provides an introduction to non-violent approaches to personal, national and global conflicts. Students explore historical, philosophical, political, economic and psychological factors that often lead to violence and the non-violent alternatives for a more equitable, just and peaceful world.

(3 lec/0 lab)

3 sem hrs

### IDS 296 Special Topics for Interdisciplinary Studies

This course offers in-depth exploration of a special topic, issue or trend in interdisciplinary studies and may integrate two or more disciplines. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(0 to 3 lec/0 to 6 lab)

1 to 3 sem hrs

## Interpreter Training (ITP)

See also Sign Language (SGN).

### ITP 200 Introduction to Interpreting

This course is designed to provide an introduction to the profession of interpreting. The course details the ethical and professional responsibilities of the interpreter, defines the interpreting process, and presents terminology common to the profession.

*Prereq:* Program admission; successful completion of all SGN courses.

*Coreq:* ITP210; ITP211; ITP221; ITP231.

(3 lec/0 lab)

3 sem hrs

### ITP 210 Etymology for Interpreters

This course is designed to increase sign development for interpreters. Emphasis is given to the analysis of word meanings in various contexts, correct fingerspelling, and the correct selection and production of sign equivalents. Students are also introduced to the theory and history of transliterating as well as specific strategies to employ when voice to sign transliterating.

*Prereq:* Program admission; successful completion of all SGN courses.

*Coreq:* ITP200; ITP211; ITP221; ITP231.

(3 lec/0 lab)

3 sem hrs

### ITP 211 Transliterating I

This course is designed to assist students in developing the requisite skills necessary for successful voice to sign transliterating. Course work focuses on sign productions, fluency, speed, conceptual sign choices, clarity, mouth movements, affect and the incorporation of ASL principles. The course includes a review of basic sign vocabulary and the introduction of additional specialized sign vocabulary.

*Prereq:* Program admission; successful completion of all SGN courses.

*Coreq:* ITP200; ITP210; ITP221; ITP231.

(3 lec/0 lab)

3 sem hrs

### ITP 212 Transliterating II

This course is designed to assist students in developing advanced voice to sign transliterating skills with a focus on expanding technical sign vocabulary and increasing speed and conceptual accuracy. Students are also introduced to the process of technical development and sign standardization.

*Prereq:* Program admission; ITP200; ITP210; ITP211; ITP221; ITP231.

*Coreq:* ITP222; ITP223; ITP230; ITP232.

(3 lec/0 lab)

3 sem hrs

### ITP 221 Interpreting I

This course is designed to familiarize students with techniques of consecutive and simultaneous interpreting. It includes a systematic review of basic differences in the grammatical structure and rules of American sign language and spoken English.

*Prereq:* Program admission; successful completion of all SGN courses.

*Coreq:* ITP200; ITP210; ITP211; ITP231.

(3 lec/0 lab)

3 sem hrs

### ITP 222 Topics in Interpreting

The goal of this course is to familiarize students with the role of the interpreter in a wide variety of specialized settings. The course explores the protocol for working with oral and deaf-blind consumers, specialized sign vocabulary for 12-step programs, and techniques for artistic interpreting. The course also promotes the development of both interpreting and transliterating skills through vocabulary expansion in ASL and English.

*Prereq:* Program admission; ITP200; ITP210; ITP211; ITP221; ITP231.

*Coreq:* ITP212; ITP223; ITP230; ITP232.

(3 lec/0 lab)

3 sem hrs

### ITP 223 Interpreting II

This course is designed to provide students with an opportunity to develop more advanced skills in simultaneous interpreting and discourse analysis.

*Prereq:* Program admission; ITP200; ITP210; ITP211; ITP221; ITP231.

*Coreq:* ITP212; ITP222; ITP230; ITP232.

(3 lec/0 lab)

3 sem hrs

### ITP 230 Specialized Areas of Interpreting

This course is an online introduction to the nature, techniques and implications of interpreting in the educational, medical, religious, mental health and legal settings. Students also prepare for the written and performance portions of the national certification evaluation and begin field experience.

*Prereq:* Program admission; ITP200; ITP210; ITP211; ITP221; ITP231.

*Coreq:* ITP212; ITP222; ITP223; ITP232.

(3 lec/0 lab)

3 sem hrs

### ITP 231 Sign to Voice I

Sign to Voice I is designed to assist students in developing the requisite skills for successful sign to voice interpreting. This course focuses on improving receptive skills, developing appropriate ethical/professional behavior and utilizing public speaking techniques. The course provides extensive practice with consecutive and simultaneous voice interpreting.

*Prereq:* Program admission; successful completion of all SGN courses.

*Coreq:* ITP200; ITP210; ITP211; ITP221.

(3 lec/0 lab)

3 sem hrs

### ITP 232 Sign to Voice II

Sign to Voice II is designed to assist students in developing advanced voicing skills. This course focuses on improving concentration and listening, giving feedback on performances, working as a member of a voicing team, and preparing for formal sign to voice interpreting presentations.

*Prereq:* Program admission; ITP200; ITP210; ITP211; ITP221; ITP231.

*Coreq:* ITP212; ITP222; ITP223; ITP230.

(3 lec/0 lab)

3 sem hrs

### ITP 290 The Interpreter as Practitioner

This course is designed to teach students how to apply their sign skills and knowledge of the interpreting role in a variety of real-life situations. As they are completing their field experiences, students are asked to share experiences from their respective sites and formulate responses that reflect appropriate professional conduct and are in accordance with the Registry of Interpreters for the Deaf, Code of Professional Conduct. In addition, students explore the role and responsibilities of the interpreter in three specialized areas: traffic court, a medical office visit and a mental health interview. The protocol for working with a deaf interpreter is also discussed.

*Prereq:* Program admission; successful completion of all other ITP courses; demonstrated proficiency per the ITP guidelines.

(3 lec/0 lab)

3 sem hrs

## Japanese (JPN)

### JPN 101 Elementary Japanese I

This course presents an introduction to modern Japanese including pronunciation, useful expressions, speech patterns, listening, reading, and writing.

(3 lec/0 lab)

3 sem hrs

### JPN 102 Elementary Japanese II

This course is a continuation of JPN101 with emphasis on increased accuracy in listening, speaking skills, reading and writing.

*Recommended Prereq:* JPN101.

(3 lec/0 lab)

3 sem hrs

## Legal Interpreting (LGI)

### LGI 100 Introduction to Legal Interpreting

Introduction to Legal Interpreting examines in detail the ethics and professional conduct required of legal interpreters. Students are also provided an overview of the United States judicial system and appropriate modes of interpreting in the legal setting.

(3 lec/0 lab)

3 sem hrs

### LGI 105 Legal System and Terminology

Legal System and Terminology examines the United States judicial system including the criminal, juvenile and civil courts; provides extensive practice with specialized legal terminology in both English and Spanish; and reviews the English language skills needed for interpreting including vocabulary, synonyms, antonyms and idioms.

*Prereq:* Program admission; native or near-native fluency in Spanish and English; English/Spanish assessment.

(3 lec/0 lab)

3 sem hrs

### LGI 110 Legal Interpreting: Simultaneous, Consecutive and Sight

Legal Interpreting: Simultaneous, Consecutive and Sight provides the student with structured practice in the three modes of legal interpreting. This class prepares students to successfully meet the performance outcomes of the Consortium for State Court Interpreter Certification.

*Prereq:* Program admission.

(3 lec/0 lab)

3 sem hrs

### LGI 290 Legal Interpreting Seminar and Field Experience

This course provides a capstone experience for legal interpreting students. It combines 80 hours of on-the-job experience in the legal interpreting setting with two on-campus seminar hours per week. Seminar topics include field experience discussion and problem solving, self-assessment of interpreting abilities, and cultural differences.

*Prereq:* Program admission; successful completion of all other program courses or concurrent enrollment.

(2 lec/5 lab)

3 sem hrs

## Library and Information Studies (LIB)

### LIB 100 Library as Place

Library as Place exposes students to the dynamic, diverse, and global role of libraries and library staff. The relationship between the library and its community, the major challenges faced by library staff, the impact of technology on libraries, and the importance of library values, ethics, and professionalism are explored.

(3 lec/0 lab)

3 sem hrs

### LIB 105 Introduction to Technical Services

Introduction to Technical Services presents the principles, practices, and technologies used for acquiring, organizing and maintaining library collections.

(3 lec/0 lab)

3 sem hrs

### LIB 110 Technology in Libraries

This hands-on course introduces students to the types of software, equipment, and multi-media materials used in libraries. The course reviews current technology, potential applications for the library, and the operation of equipment.

(3 lec/0 lab)

3 sem hrs

### LIB 115 Public Services

This course surveys library public services, with a focus on the service aspects of circulation, interlibrary loan, reserves, reference and research, and library Web sites. Emphasizing the centrality of public service to library work, students explore the philosophy, policies, and procedures of each service area and discover how individual departmental services intersect in the comprehensive model of library service.

(3 lec/0 lab)

3 sem hrs

### LIB 120 Reference and Research Strategies

Reference and Research Strategies provides hands-on training in the use of print and Web-based tools to provide quality reference services to the public. Students learn reference interview skills and advanced database-searching skills, as well as how to assess information for quality and match information to a user's need.

(3 lec/0 lab)

3 sem hrs

### LIB 125 Library Collections and the Community

Exploring the ways that community demographics, preferences, and needs influence the development of library collections, this course addresses such topics as assessing and responding to community expectations; establishing collection development criteria; selecting relevant materials in a variety of media; balancing digital and print formats; confronting censorship and supporting intellectual freedom; and matching library users' interests to appropriate materials.

*Recommended Prereq:* LTA 100.

(3 lec/0 lab)

3 sem hrs

### LIB 200 Reader's Advisory and Adult Programming

The Reader's Advisory and Adult Programming course focuses on strategies for promoting library adult book and media collections. Students learn how to identify book, music, and film genres; use specialized library resources to match materials to users' interests; and conduct advisory interviews to discover users' preferences. Planning and presenting library programs for adults are also covered.

(2 lec/0 lab)

2 sem hrs

### LIB 205 Pre-Teens and Teens in the Library

Pre-Teens and Teens in the Library focuses on the developmental stages of adolescence, the unique information needs of pre-teen and teenage library users, and the rewards of working with this age group. Identifying pre-teen and young adult resources and developing programs that encourage young people to feel comfortable in a library are also emphasized.

(2 lec/0 lab)

2 sem hrs

**LIB 210 The School  
Library Media Center**

This course focuses on the role of the Library Technical Assistant (LTA) in the management of school library/media center programs (preK-12). Students in this class study how an LTA assists in the daily management of the school library media center, with an emphasis on technology, programming, and collection maintenance.

(3 lec/0 lab) 3 sem hrs

**LIB 240 Seminar  
of Current Library Issues**

This seminar explores the ethical and legal issues related to information use and dissemination in libraries and society. Specifically, some of issues to be discussed are the library profession's stance on intellectual freedom and censorship along with considerations of the ethical and legal theories of information; professional ethics and law; copyright and intellectual property; and security and privacy issues.

(3 lec/0 lab) 3 sem hrs

**LIB 250 Library Technical  
Assistant Practicum**

In this capstone course, students apply the theory and knowledge of their coursework to the library workplace. The 75-hour supervised practicum provides students with the opportunity to observe library staff at all levels and to participate in the tasks commonly performed by Library Technical Assistants. Throughout the semester, students meet for eight, two-hour seminar sessions to share and evaluate their practicum experiences, integrate learned theory with observed workplace practice, and prepare for the employment search.

*Prereq:* Consent of Instructor.

(1 lec/5 lab) 2 sem hrs

**LIB 296 Special Topics in Library  
and Information Studies**

This course offers in-depth exploration of a special topic, issue or trend in the library and information studies field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(1 to 3 lec/0 lab) 1 to 3 sem hrs

**Management (MGT)**

See also Industrial/Organizational Psychology (PSY 245).

**MGT 200 Principles of Management**

This course introduces management practices and theories with an emphasis on planning, organizing, leading, controlling, and the ethical implications of management practices. A comprehensive perspective on the application of management techniques within all types of organizations is presented.

*Recommended Prereq:* BUS100.

(3 lec/0 lab) 3 sem hrs

**MGT 210 Supervisory Management**

This course reflects the duties, responsibilities and challenges of effective supervision. Emphasis is placed on human relations skills, communication, leadership, conflict resolution, and employee development and motivation.

(3 lec/0 lab) 3 sem hrs

**MGT 215 Human Resources  
Management I**

This organizational overview relates to personnel in business. Emphasis is placed on behavioral theory and practical analytical techniques as it relates to job design, performance evaluation techniques, management-labor relations, current employment law, wage and salary administration, training programs, and everyday issues in the workplace.

*Recommended Prereq:* BUS100.

(3 lec/0 lab) 3 sem hrs

**MGT 220 Human Resources  
Management II**

This advanced survey of human resources management and personnel administration topics emphasizes recruitment and selection strategies, compensation and reward management, training and development, and labor relations.

*Recommended Prereq:* BUS100; BUS210; MGT200.

*Prereq:* MGT215.

(3 lec/0 lab) 3 sem hrs

**Marketing (MKT)****MKT 200 Principles of Marketing**

Business free market activities related to the distribution of goods and services are studied with an emphasis on marketing strategy, the marketing mix, pricing, distribution channels, promotion, product development, consumer behavior and global marketing.

*Recommended Prereq:* BUS100.

(3 lec/0 lab) 3 sem hrs

**MKT 210 Principles of Selling**

The fundamentals and techniques of successful selling include developing the sales personality, the selling cycle, and customer and community relations. Emphasis is placed on creative selling, sales ethics, the organization and the customer.

(3 lec/0 lab) 3 sem hrs

**MKT 215 Principles of Advertising**

This introduction to the theory and mechanics of marketing-related communications places primary emphasis on the role of advertising in integrated marketing communications, environment, promotional strategies, research, planning, media selection, program management and evaluation. Various advertising media are discussed, as well as the creation of a total advertising message. Other topics include consumer behavior, creative strategies and types of media. The student prepares practical marketing applications for various industries.

*IAI:* MC 912.

(3 lec/0 lab) 3 sem hrs

**MKT 260 Consumer Behavior**

This course seeks to make a connection between customer behavior principles and the elements of marketing strategy. Customers, both in the household and the business market, are examined. Consumer behavior looks at culture demographics, psychographics and other factors that influence decision making.

(3 lec/0 lab) 3 sem hrs

**Mass  
Communication (MCM)****MCM 130 Introduction to  
Mass Communication**

Introduction to Mass Communication surveys the nature and impact of media on contemporary society. Areas of emphasis include: mass communication theory and research, ethics and social responsibilities, historical development, communication technologies, business practices, and media regulation and control.

*IAI:* MC 911.

(3 lec/0 lab) 3 sem hrs

**MCM 140 Television and  
Media Production I**

Television and Media Production I provides production experiences in multiple-camera studio production and location video recording. Production responsibilities, studio and control room equipment operation, script and graphics preparation, set design and lighting, and talent/performance techniques, as well as the U.S. system of regulation and control of broadcasting are emphasized.

*IAI:* MC 916.

(2 lec/2 lab) 3 sem hrs

**MCM 201 Broadcast Writing**

This course focuses upon the specialized writing involved in visual and audio presentations such as commercials, public service announcements, news and special events. Students learn to compose standard script formats for radio and television as well as distinguish between broadcast and print writing styles. Students also learn about ethics in the news, libel laws, how to conduct an effective interview and interview etiquette.  
 (3 lec/0 lab) 3 sem hrs

**MCM 205 Basic Broadcast Announcing**

This course provides students with a general knowledge of broadcast announcing principles and techniques. Students are required to create, read and deliver commercials, news, interviews, public service announcements and special events. Emphasis is placed upon developing an appropriate broadcasting style, operating broadcast studio equipment and developing impromptu on-air skills. Additionally, students analyze, edit and deliver broadcast copy.  
*Prereq:* MCM130.  
*IAI: MC 918.*  
 (2 lec/2 lab) 3 sem hrs

**MCM 211 Introduction to Radio Production**

This course provides learning experiences in audio production techniques and the operation of related equipment and systems. Topics such as basic radio production protocol, terminology, script writing, editing, producing commercial/PSA announcements and newscasting in a studio setting are emphasized.  
*Prereq:* MCM130.  
*IAI: MC 915.*  
 (2 lec/2 lab) 3 sem hrs

**MCM 215 Basic News Writing**

This course introduces students to the basic elements of clear, concise, accurate and balanced news writing. Students learn the techniques of news gathering, reporting, and interviewing as well as important differences between straight news stories, features, opinion pieces and various other types of news articles. Additionally, the course includes discussion of ethical issues facing the press and laws governing journalists.  
*IAI: MC 919.*  
 (3 lec/0 lab) 3 sem hrs

**MCM 221 Basic News Editing**

This course introduces students to the principles and techniques of electronic editing, information management and publication design. Editing of body copy, editing of display type for clarity and impact, and editing of news stories and headlines are emphasized.  
*Recommended Prereq:* MCM215.  
*IAI: MC 920.*  
 (3 lec/0 lab) 3 sem hrs

**MCM 240 Television and Media Production II**

This course provides more advanced multi-camera studio television and media production experience with an emphasis toward live-on-tape/live-broadcast situations. Students assume production roles both in the control room and studio setting. Pre- and post-production, scripting, graphics set design and lighting, system process engineering, and videotape editing skills are also emphasized.  
*Recommended Prereq:* MCM140 or consent of instructor.  
 (2 lec/2 lab) 3 sem hrs

**MCM 243 Film Production**

This course provides more advanced field television and film production experience with an emphasis toward single-camera electronic field production (EFP) and electronic news gathering (ENG). Students assume production roles as producers, directors, camera operators, and video editors. Pre- and post-production, scripting, graphics, lighting, legal requirements and non-linear video editing skills are emphasized.  
*Recommended Prereq:* MCM140 or consent of instructor.  
 (2 lec/2 lab) 3 sem hrs

**MCM 245 Mass Media Ethics and Laws**

This course examines the legal and judicial systems, governing legislation, and significant historical/contemporary issues that influence various industries and consumers of mass communication. Special emphasis is given to first amendment rights, libel and invasion of privacy, protection of news sources, free press, and copyright legislation and court rulings.  
*Recommended Prereq:* MCM130.  
 (3 lec/0 lab) 3 sem hrs

**MCM 280 Mass Communication Capstone: The Business, Media and Careers of TV/Internet/Radio/Film**

This course provides students with a deeper understanding of the broadcasting industries—the business and economic structures, current and developing media technologies of acquisition and transmission and the career opportunities within each. Students also focus on formats, ratings, programming, state/federal regulations, digital transmission and video streaming. Hands-on practical information and skills assist students in the creation of resumes and audition materials.  
*Recommended Prereq:* MCM130 and three of the following MCM production courses: MCM140, MCM221, MCM240, MCM243.  
*Prereq:* Consent of instructor.  
 (2 lec/2 lab) 3 sem hrs

**MCM 296 Special Topics/Mass Communication**

This course offers in-depth exploration of a special topic, issue or trend in the mass communication field. Topics might include current events, film genre, specialized film/television projects, and more in-depth analyses of industry trends.  
 Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.  
 (0 to 3 lec/0 to 6 lab) 1 to 3 sem hrs

**MCM 297 Radio/TV/Internet/Film Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the mass communication field, including various facets of television, film or radio production. The learning objectives are relative to the nature of the business of the site to which the student is assigned or selects. Acquired skills may include: live multi-camera video production, field camera work, graphic design preparation, tape duplications, non-linear audio and video editing, promotions and marketing. Eighty hours are required for 1 credit. Repeatable to a maximum of 4 semester hours; 6 semester hours from the mass communication internship courses (MCM297, MCM298, MCM299) may apply to the mass communication degree.  
*Prereq:* MCM140; consent of instructor.  
 (0 lec/5 lab) 1 sem hrs

**MCM 298 Radio/TV/Internet/Film Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the mass communication field, including various facets of television, film or radio production. The learning objectives are relative to the nature of the business of the site to which the student is assigned or selects. Acquired skills may include: live multi-camera video production, field camera work, graphic design preparation, tape duplications, non-linear audio and video editing, promotions and marketing. One hundred sixty hours are required for 2 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the mass communication internship courses (MCM297, MCM298, MCM299) may apply to the mass communication degree.  
*Prereq:* MCM140; consent of instructor.  
 (0 lec/10 lab) 2 sem hrs

**MCM 299 Radio/TV/Internet/  
Film Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the mass communication field, including various facets of television, film or radio production. The learning objectives are relative to the nature of the business of the site to which the student is assigned or selects. Acquired skills may include live multi-camera video production, field camera work, graphic design preparation, tape duplications, non-linear audio and video editing, promotions and marketing. Two hundred forty hours are required for 3 credits. Repeatable to a maximum of 6 semester hours; 6 semester hours from the mass communication internship courses (MCM297, MCM298, MCM299) may apply to the mass communication degree.

*Prereq:* MCM140; consent of instructor.

(0 lec/15 lab)

3 sem hrs

**Mathematics (MTH)**

NOTE: Placement in mathematics courses is determined by scores on required assessment tests or ACT scores. The geometry requirement may be met by verification of successful completion of high school geometry. To request a review of your high school transcript to verify your ACT scores and geometry completion, email [mathplacement@waubonsee.edu](mailto:mathplacement@waubonsee.edu).

**MTH 050 Basic Mathematical Skills**

This course is a review of the structure and applications of arithmetic. Topics covered include numbers, addition, subtraction, multiplication, division, rational numbers, ratios, proportions and percents. Repeatable to a maximum of 12 semester hours; does not apply to a degree or certificate.

(0 or 3 lec/0 or 6 lab)

3 sem hrs

**MTH 060 Elementary Algebra**

This course in beginning algebra covers algebraic expressions, equations, inequalities, problem solving, graphing, polynomials, factoring, rational expressions and rational equations. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

*Prereq:* C or better in MTH050 or placement by assessment.

(0 or 4 lec/0 or 8 lab)

4 sem hrs

**MTH 070 Intermediate Algebra**

This course in intermediate algebra covers functions, systems of linear equations, inequalities, exponents and radicals, quadratic equations, and exponential and logarithmic functions. Repeatable to a maximum of 16 semester hours; does not apply to a degree or certificate.

*Prereq:* C or better in MTH060 or placement by assessment.

(0 or 4 lec/0 or 8 lab)

4 sem hrs

**MTH 075 Elementary Geometry**

This elementary geometry course covers the language of geometry, similarity, congruence, properties of points, lines, triangles, rectangles, parallelograms, squares, trapezoids, other quadrilaterals, circles, volumes, surface areas, spheres, cylinders, cones and other solids.

Repeatable to a maximum of 12 semester hours; does not apply to a degree or certificate.

*Prereq:* C or better in MTH060 or placement by assessment.

(3 lec/0 lab)

3 sem hrs

**MTH 101 College Mathematics**

This course in mathematics is designed to satisfy the general education requirement at the university level. The emphasis of the course is on understanding logical arguments, doing abstract thinking and solving verbal problems.

Topics covered include logical statements and arguments, geometry in problem solving, estimation, approximation, judging reasonableness of answers, problem solving and statistics.

*Prereq:* C or better in MTH070 and MTH075; or placement determined by assessment.

*IAI:* M1 901.

(3 lec/0 lab)

3 sem hrs

**MTH 102 Applied Practical Math**

This course is designed to help students develop mathematical reasoning and real-world problem solving skills. Topics covered include applications of geometry, counting techniques and probability, statistics and graph theory.

*Prereq:* C or better in MTH070 and MTH075; or placement by assessment.

*IAI:* M1 904.

(3 lec/0 lab)

3 sem hrs

**MTH 103 Elementary  
Technical Mathematics**

This course, intended primarily for those students majoring in the technical-vocational areas, includes an elementary review and survey of arithmetical operations, common fractions, fundamentals of algebra, mensuration formulas and geometry.

*Prereq:* C or better in MTH050 or placement determined by assessment.

(3 lec/0 lab)

3 sem hrs

**MTH 104 Business Mathematics**

Students apply mathematics to business problems through the following topics: cash and trade discounts commission, markup, simple interest, discounting commercial paper, payroll records, taxes, depreciation, financial statements, insurance, bonds and annuities. Students may use their own electronic, hand-held calculators.

*Prereq:* C or better in MTH050 or placement determined by assessment.

(3 lec/0 lab)

3 sem hrs

**MTH 107 Basic Statistics**

This course is designed to assist the student in the understanding and use of numerical data. Topics covered include descriptive methods, probability, probability distributions, statistical inference, confidence intervals, tests of hypotheses, and correlation and regression.

*Prereq:* C or better in MTH070 and MTH075; or placement determined by assessment.

*IAI:* M1 902.

(3 lec/0 lab)

3 sem hrs

**MTH 111 College Algebra**

This course is designed to provide the student with basic algebraic concepts necessary to continue in other mathematics courses. Topics include: real numbers, complex numbers, solutions of inequalities and equations, coordinate systems, functions, polynomials, rational functions, exponential and logarithmic functions, graphing and transformations of functions, and systems of equations.

*Prereq:* C or better in MTH070 and MTH075; or placement determined by assessment.

(4 lec/0 lab)

4 sem hrs

**MTH 112 Plane Trigonometry**

This course in trigonometry of the plane concentrates on trigonometric functions and their applications. Topics covered include the trigonometric functions, solution of right triangles, radian measure, fundamental identities, angular measure, graphs, logarithms, functions of composite angles, oblique triangles, trigonometric equations, inverse trigonometric functions, and complex numbers, including powers and roots.

*Prereq:* C or better in MTH070 and MTH075; or placement determined by assessment.

(3 lec/0 lab)

3 sem hrs

**MTH 113 Technical Mathematics**

This course introduces algebra, trigonometry and problem-solving techniques as they apply to technical/occupational programs of study and careers. Topics include: algebraic concepts and operations, geometry, functions and graphs, the trigonometric functions, linear equations and determinants, factoring and fractions, quadratic equations, right triangle trigonometry, vectors, exponents and radicals. Significant emphasis is placed on the use of a graphing calculator to master course content and solve applied problems.

*Prereq:* MTH060 or MTH103 or placement determined by assessment.

(5 lec/0 lab)

5 sem hrs

**MTH 131 Calculus With Analytic Geometry I**

This first course in calculus and analytic geometry covers inequalities, limits and continuity; definition of derivative, rate of change, slope, derivatives of polynomials, rational and trigonometric functions; chain rule; implicit differentiation, approximation by differentials; higher order derivatives, Rolles Theorem, Mean Value Theorem, applications of derivatives, introduction to antiderivatives and definite integrals, the fundamental theorem of calculus, areas and numerical integration.

*Prereq:* C or better in MTH111 and MTH112; or placement determined by assessment.

*IAI:* M1 900-1, MTH 901.

(4 lec/0 lab)

4 sem hrs

**MTH 132 Calculus With Analytic Geometry II**

This second course in calculus and analytic geometry is a continuation of MTH131. Topics covered include exponential and logarithmic functions, calculus of trigonometric functions, volumes and other applications of integration, formal integration techniques, indeterminate forms, L'Hopitals rule, improper integrals, sequences and series, convergence tests, Taylor's formula, Taylor and Maclaurin series.

*Prereq:* C or better in MTH131.

*IAI:* M1 900-2, MTH 902.

(4 lec/0 lab)

4 sem hrs

**MTH 141 Scientific Programming I**

This course is designed to provide the student an introduction to the use of computer programming in problem analysis and problem solving by highlighting applications in mathematics and the Fortran language. The course emphasizes the use of Fortran grammar, syntax, control structure, and mathematics applications such as the use of arrays, slope and arc lengths, estimation of models and data types.

*Prereq:* MTH131 or MTH211.

(3 lec/0 lab)

3 sem hrs

**MTH 201 Mathematics for Elementary Teachers I**

This first course in mathematics for elementary education majors follows the curriculum standards of the National Council of Teachers of Mathematics. Topics include: problem-solving strategies, patterns and sequences, set theory, numeration systems, number theory, and operations with whole numbers, integers, rational numbers, and real numbers. Emphasis is on math content and manipulatives used to teach mathematics in grades K-8.

*Prereq:* C or better in MTH070 and MTH075, or placement determined by assessment.

(3 lec/0 lab)

3 sem hrs

**MTH 202 Mathematics for Elementary Teachers II**

This second course in mathematics for elementary education majors follows the curriculum standards of the National Council of Teachers of Mathematics. Topics include: probability, statistics, geometry, measurement, and linear equations. Emphasis is on math content and manipulatives used to teach mathematics in grades K-8.

*Prereq:* C or better in MTH201.

*IAI:* M1 903.

(3 lec/0 lab)

3 sem hrs

**MTH 210 Finite Mathematics**

This course is intended for students in business, economics, or social and life sciences with applications from these fields. Topics covered include vectors, determinants, matrices, systems of inequalities, linear programming, simplex method, logic and Boolean algebra, sets and counting, probability theory, stochastic processes, Markov processes and the mathematics of finance.

*Prereq:* C or better in MTH111 or placement determined by assessment.

*IAI:* M1 906.

(3 lec/0 lab)

3 sem hrs

**MTH 211 Calculus for Business and Social Science**

This course presents an elementary treatment of topics from differential and integral calculus. It is intended primarily for students in the fields of business and social science.

*Prereq:* C or better in MTH111 or placement determined by assessment.

*IAI:* M1 900-B.

(3 lec/0 lab)

3 sem hrs

**MTH 233 Calculus With Analytic Geometry III**

This third course in calculus and analytic geometry is a continuation of MTH132. Topics include conic sections, plane curves, parametric equations and polar coordinates, vectors, vector functions, multivariate functions, partial derivatives, differentials, directional derivatives, gradients, double and triple integrals, evaluation and applications.

*Prereq:* C or better in MTH132.

*IAI:* M1 900-3, MTH 903.

(4 lec/0 lab)

4 sem hrs

**MTH 236 Introduction to Linear Algebra**

This course covers basic concepts and techniques of matrix theory and linear algebra. It includes systems of linear equations, operations with matrices, inverses, determinants, vector spaces, inner product spaces, linear transformations, eigenvalues and eigenvectors. Numerical iterative methods are discussed and formal proof constructions are stressed.

*Prereq:* C or better in MTH233.

*IAI:* MTH 911.

(4 lec/0 lab)

4 sem hrs

**MTH 240 Differential Equations**

This course covers linear equations of the first order linear equations with constant coefficients; the general linear equations; variation of parameters; undetermined coefficients; linear independence; the Wronskian; exact equations; separation of variables; applications; solutions of Laplace transforms; solution by power series and partial differential equations.

*Prereq:* C or better in MTH233.

*IAI:* MTH 912.

(3 lec/0 lab)

3 sem hrs

**Medical Assistant (MLA)****MLA 150 Basic Administrative Procedures for the Medical Assistant**

A patient-centered approach is used in this course that introduces the student to administrative medical assisting competencies utilized in the health care setting. Students receive CPR and First Aid certification. Students are taught fundamental triage skills, techniques of patient instruction, and basic clerical duties such as maintaining patient records, scheduling appointments and procedures, processing telephone calls, and handling finances for a medical practice.

*Recommended Prereq:* AOS110 and HIT105; or concurrent enrollment.

(2.5 lec/1 lab)

3 sem hrs

**MLA 171 Medical Assistant Clinical I**

This course is designed to instruct the medical assistant student in the routine clinical procedures of the medical office. Students are taught OSHA regulations and the use of Standard Precautions in the medical office. Proficiency is obtained in taking vital signs, collecting patient information and documentation. The student is taught body positions for examinations, methods of examination and aseptic technique, and are introduced to venipuncture in order to assist the primary health care provider in the medical setting.

*Prereq:* Program admission; ability to read at the 10th grade level or higher and perform required math skills as determined by assessment testing; BIO260; HIT105 or HIT110.

(1.5 lec/2 lab)

2.5 sem hrs

**MLA 172 Medical Assistant Clinical II**

This course instructs the student in performing the more advanced and invasive procedures that are required of the medical assistant.

The student is taught techniques of specimen collection, basic 12-lead electrocardiography (ECG), principles of medication administration, and the proper use and application of assistive devices. This course emphasizes reinforcing basic patient care instruction to encompass all phases of the life cycle and special patient needs.

*Prereq:* Program admission; MLA210.

(1.5 lec/2 lab)

2.5 sem hrs

**MLA 210 Laboratory Procedures for the Medical Assistant**

This course introduces the student to basic techniques for performing routine laboratory tests done in the medical office. These include phlebotomy skills and the physical, chemical and microscopic examination of urine and blood, as well as understanding the implications of normal and abnormal results. The proper collection, handling and labeling of urine and blood specimens, agglutination and coagulation tests, and an introduction to microbiology are also covered. The student continues to observe all OSHA and bloodborne pathogen standards.

*Prereq:* Program admission; MLA171.

(2 lec/2 lab) 3 sem hrs

**MLA 220 Pharmacology for the Medical Assistant**

This course examines how drugs are processed and utilized in the body, and medication classification and administration. Therapeutic and adverse effects of drugs are considered. Patient education related to drug therapy is emphasized. A component of mathematics utilizing metric and apothecary systems to calculate the dosage of medications is included.

*Prereq:* Program admission; HIT105 or HIT110; BIO260 or concurrent enrollment.

(2 lec/0 lab) 2 sem hrs

**MLA 230 Medical Law and Ethics**

This course addresses medical ethics, moral principles, state health care provider practice acts, legal responsibilities, liability, HIPAA regulations and civic duties of the health care professional.

(1 lec/0 lab) 1 sem hrs

**MLA 298 Medical Assistant Externship**

Combining academic credit with professional experience, this externship allows students to learn about, observe and work in the medical assistant field. It provides students with 160 hours of on-site experience in the role of medical assistant. Students are assigned to an area physician's office, clinic or outpatient facility to participate in both the administrative and clinical areas of the practice, and observe various health care personnel perform tasks and duties. The student does not receive remuneration or payment for this learning experience. Repeatable to a maximum of 4 semester hours on a space available basis; 2 semester hours may apply to the medical assistant certificate.

*Prereq:* Program admission; C or better in MLA courses, HIT115 and HIT130; recommendation of instructor.

(.5 lec/9.5 lab) 2 sem hrs

**Military Science (MSC)**

See ROTC Transfer Option in the Career Connections section of this catalog.

**MSC 101 Leadership and Personal Development**

This course introduces students to the personal challenges and competencies that are critical for effective leadership. Students learn how the personal development of life skills-- such as goal setting, stress management, physical fitness and time management--relate to leadership, officership and the Army profession. In addition, the course emphasizes developing a basic knowledge and comprehension of Army Leadership Dimensions, while gaining a larger understanding of the ROTC program, its purpose in the Army, and its advantages for the college student.

(1 lec/2 lab) 2 sem hrs

**MSC 102 Foundations in Leadership**

This course provides an overview of leadership fundamentals including problem solving, goal setting, listening skills presentation skills, feedback techniques, and effective writing skills. Students use practical, hands-on, interactive exercises to explore the dimensions of leadership values attributes, skills, and actions.

(1 lec/2 lab) 2 sem hrs

**MSC 201 Innovative Tactical Leadership**

This course employs historical case studies and interactive exercises to explore the dimensions of creative and innovative tactical leadership strategies and styles. Students practice aspects of personal motivation and team building by planning executing, and assessing team exercises, while focusing on the continued development of leadership values and attributes through an understanding of rank, uniform, and customs and courtesies. Leadership case studies provide a context for learning the Soldier's Creed and the Warrior Ethos.

(1 lec/2 lab) 2 sem hrs

**MSC 202 Leadership in Changing Environments**

This course examines the challenges of leading in complex contemporary operational environments. The cross-cultural dimensions of leadership in a constantly changing world are highlighted and applied to practical Army leadership tasks and situations. As students practice communication and team building skills, case studies offer insight into the importance and practice of teamwork and tactics in real world scenarios.

(1 lec/2 lab) 2 sem hrs

**Music (MUS)****MUS 100 Music: The Art of Listening**

This course enhances the student's understanding and enjoyment of music. By listening to a variety of music such as orchestral, jazz and folk, the student gains insight into the works of composers through periods of musical development. Music of other world cultures is also examined.

*IAI: F1 900.*

(3 lec/0 lab) 3 sem hrs

**MUS 101 Musics of the World**

This course provides an introduction to music in various parts of the world, with an emphasis on how music functions within each society. The music and cultures of South America, India, Southeast Asia and China are presented.

*IAI: F1 903N.*

(3 lec/0 lab) 3 sem hrs

**MUS 102 Music in America**

This course is an overview of America's rich and diverse musical heritage from Colonial times to the present. Jazz, rock, folk and country, as well as music for the concert hall, stage and screen are explored.

*IAI: F1 904.*

(3 lec/0 lab) 3 sem hrs

**MUS 105 Opera Appreciation**

The study of selected operas from Chicago's Lyric Opera season provides the basis of this introductory course. Students preview and attend operas which are representative of major composers and their styles.

(2 lec/0 lab) 2 sem hrs

**MUS 110 Careers in Music**

This course presents a wide-ranging survey of the careers available in the field of music. Guest speakers who work in music publishing, recording, arts management, education, and performance provide students with insights into careers in the profession.

(2 lec/0 lab) 2 sem hrs

**MUS 120 Basic Elements of Music**

This introductory course is designed to develop knowledge and understanding of the basic elements of music (sound, rhythm, form, etc.) through the application of these elements in creative work. Students with no prior background are introduced to notation, music reading, scales, chords, and the piano keyboard. Computer-assisted instruction of these elements is also included.

(3 lec/0 lab) 3 sem hrs

**MUS 121 Theory of Music I**

This course presents a study of the technical aspects of music, such as scales, chords, melody, harmony, and notation, and the musical results of their interrelationships. The student gains an understanding of compositional techniques through the analysis of music and individual creative projects. Keyboard skills and ear training are also included.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS120.

(3 lec/2 lab)

4 sem hrs

**MUS 123 Theory of Music II**

This course is a continuation of MUS121, including the application of seventh chords, modulation and compositional form.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS120; MUS 121.

*Coreq:* MUS124.

(3 lec/0 lab)

3 sem hrs

**MUS 124 Aural Skills II:  
Developing the Musical Ear**

This course is a continuation of aural skills developed in MUS121. Aural identification of intervals, scales, and chord qualities are emphasized, and pitch and rhythm drills are featured to aid in the development of notation skills.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS121.

*Coreq:* MUS123.

(1 lec/0 lab)

1 sem hrs

**MUS 150 Vocal Techniques: An  
Introduction to Singing**

This course provides an introduction to the vocal techniques of singing: breathing, phrasing and interpretation. Music for the class is chosen from many styles, ranging from Broadway to art compositions.

(2 lec/0 lab)

2 sem hrs

**MUS 151 Class Instruction-Piano I**

Conducted in the electronic piano lab, this course provides beginning instruction in piano for students with no previous background in music. Students learn music notation, chords and harmonization. Music study includes popular, folk and classical music for beginners.

(2 lec/0 lab)

2 sem hrs

**MUS 154 Class Guitar I**

This course provides beginning guitar instruction focusing on reading chords, chord symbols, musical notation, and playing chord progressions using a variety of guitars and guitar-playing styles.

(2 lec/0 lab)

2 sem hrs

**MUS 160 Jazz Ensemble**

This course focuses on the performance of jazz music composed for the standard 15-17 piece ensemble. Music of the swing, bebop and contemporary periods is performed. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

(0 lec/2 lab)

1 sem hrs

**MUS 161 Jazz Improvisation Combo**

This course includes techniques for solo jazz improvisation in a small combo setting. Blues and modal scales, and standard chord progression are studied. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

(0 lec/2 lab)

1 sem hrs

**MUS 162 Rock Music Ensemble**

This course, which is a study of the various styles and techniques of rock music from the 1950s to the present through a performance group, is open to all musicians – guitar, percussion, keyboards, horns, singers and any other instruments used in rock music performance. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

*Recommended Prereq:* Music background.

(0 lec/2 lab)

1 sem hrs

**MUS 164 Instrumental Ensemble**

This course is an instrumental ensemble for chamber music, folk or other special combinations. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

*Recommended Prereq:* Music background.

(0 lec/2 lab)

1 sem hrs

**MUS 166 Vocal Ensemble:  
Waubonsee Chorale**

The Waubonsee Chorale is a vocal ensemble of approximately 30 male and female singers. The group explores the lively art of small ensemble singing through performances of selected music, such as madrigals, spirituals and other traditional choral music forms. It is open to all students and community residents. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

(0 lec/3 lab)

1 sem hrs

**MUS 167 Community Vocal Ensemble:  
Fox Valley Festival Chorus**

The Fox Valley Festival Chorus, an ensemble of approximately 60 singers, performs a variety of vocal music from all periods of music literature. Performances are often in conjunction with orchestras or other instrumental groups. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

(0 lec/2 lab)

1 sem hrs

**MUS 168 Community Instrumental  
Ensemble: Fox Valley  
Concert Band**

This performing ensemble is designed for community residents and students. Two hours per week are spent playing and rehearsing concert band literature from all periods of musical history. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

(0 lec/2 lab)

1 sem hrs

**MUS 169 Community Instrumental  
Ensemble: American  
Legion Band**

This performing ensemble is designed for community residents and students. Two hours per week are spent playing and rehearsing standard band literature. Rehearsals and performances are with the American Legion Band concert band. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

(0 lec/2 lab)

1 sem hrs

**MUS 170 Electronic Music Ensemble**

This performance ensemble utilizes Waubonsee's recording studio facilities and equipment to develop and perform original compositions. Tape recorders, microphones, signal processors and computers are the "instruments" in this ensemble, and experimentation is encouraged. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

*Recommended Prereq:* Music background.

(0 lec/2 lab)

1 sem hrs

**MUS 171 Percussion Ensemble**

In this performance ensemble of 20th century percussion music, individual percussion instruments and techniques are discussed. Traditional and contemporary percussion notation are taught to enable the student to perform assigned parts. Mallet instruments (marimba, vibes, etc.) as well as pitched and nonpitched percussion instruments are used. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

*Recommended Prereq:* Music background.

(0 lec/2 lab)

1 sem hrs

**MUS 175 All College Steel Band**

This entry-level performance ensemble on steel pans performs Caribbean-based musical styles. Repeatable to a maximum of 6 semester hours; 6 semester hours may apply to a degree or certificate.

(1 lec/1 lab)

1.5 sem hrs

**MUS 176 Waubensee Community College Performing Steel Band**

This advanced performance ensemble on steel pans performs Caribbean-based musical styles. Repeatable to a maximum of 6 semester hours; 6 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS175.

(1 lec/1 lab)

1.5 sem hrs

**MUS 180 Applied: Composition/Arranging**

This course provides private instruction in composition individually designed for each student's need. Students concentrate on compositional technique and creative projects commensurate with their current ability.

Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

(1 lec/0 lab)

1 sem hrs

**MUS 181 Applied: Piano**

This course provides private instruction in piano individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

*Recommended Prereq:* One year of piano study or MUS151 or MUS251.

(1 lec/0 lab)

1 sem hrs

**MUS 182 Applied: Voice**

This course provides private instruction in voice individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

*Recommended Prereq:* MUS150.

(1 lec/0 lab)

1 sem hrs

**MUS 183 Applied: Woodwinds**

This course provides private instruction in woodwinds individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

(1 lec/0 lab)

1 sem hrs

**MUS 184 Applied: Brass**

This course provides private instruction in brass individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

(1 lec/0 lab)

1 sem hrs

**MUS 185 Applied: String Instruments/Guitar**

This course provides private instruction in string instruments individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

*Recommended Prereq:* MUS154 or MUS254.

(1 lec/0 lab)

1 sem hrs

**MUS 186 Applied: Organ**

This course provides private instruction in organ that is individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

*Prereq:* Consent of instructor.

(1 lec/0 lab)

1 sem hrs

**MUS 187 Applied: Percussion**

This course provides private instruction in percussion individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 4 semester hours; 4 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* One semester of percussion study.

(1 lec/0 lab)

1 sem hrs

**MUS 200 Music Literature: A Historical Survey**

This course provides an overview of major composers in music history and their compositions that are included in standard concert repertory. Representative works are chosen to illustrate the principal styles, forms and techniques of vocal and instrumental music. Major works for symphony, opera and piano are surveyed, as well as the experimental trends of the 20th and 21st centuries.

*Recommended Prereq:* MUS100 or MUS120 or MUS121.

(3 lec/0 lab)

3 sem hrs

**MUS 210 Music for the Elementary Teacher**

This course prepares students who plan to teach at the elementary level with the knowledge, skills and aesthetic awareness to deal comfortably with the art of music in the classroom. It provides basic skills in piano, guitar and other simple classroom instruments used in accompanying children in musical activities. A portion of the work stresses music fundamentals. No previous music coursework or experience necessary.

(3 lec/0 lab)

3 sem hrs

**MUS 211 Introduction to the Recording/MIDI Studio**

This course is designed as an introduction to the tools and techniques used in digital sound production and recording. Topics include: digital recording and editing techniques, microphone techniques, basic principles of acoustics, audio signal processing, sound synthesis, and the Musical Instrument Digital Interface (MIDI) standard. Students have access to the recording studio (lab) for assigned projects.

Note: It is recommended that students have some keyboard knowledge (Music Theory).

*Recommended Prereq:* Familiarity with basic functions of Mac OSX and Windows XP.

(3 lec/0 lab)

3 sem hrs

**MUS 212 Conducting: An Introduction**

This is an introductory course in the basic techniques for conducting instrumental and vocal ensembles. Score reading, score analysis and conducting practice experience are also included.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS123.

(2 lec/0 lab)

2 sem hrs

**MUS 213 Advanced Recording and MIDI Applications**

This course provides creative applications of the concepts and tools acquired in MUS211, including applications in MIDI, digital recording, digital editing and mixdown.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS211.

(3 lec/0 lab)

3 sem hrs

**MUS 221 Theory of Music III**

A continuation of MUS123, this course features observations of counterpoint, chromatic harmonies (borrowed chords, augmented sixth chords, and mediants) form and analysis techniques, and the application of compositional techniques.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS123.

*Coreq:* MUS222.

(3 lec/0 lab)

3 sem hrs

**MUS 222 Aural Skills III:  
Developing the Musical Ear**

This course is a continuation of MUS124, presenting a study of syncopated rhythmic patterns, intervals, and triads, isolated and in context. Singing of folk songs and selected art songs in treble and bass clefs, as well as ear training correlated with sight singing, are also included.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS124.

*Coreq:* MUS221.

(1 lec/0 lab)

1 sem hrs

**MUS 223 Theory of Music IV**

This course is a continuation of MUS221, covering 20th and early 21st century techniques. The study of polychords, synthetic scales, new instrumental and notational systems, twelve-tone composition, and influences of non-Western music are included. Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS221.

*Coreq:* MUS224.

(3 lec/0 lab)

3 sem hrs

**MUS 224 Aural Skills IV:  
Developing the Musical Ear**

This course is a continuation of MUS222 with a focus on the study of advanced rhythmic patterns, continued use of triads, and chords of the seventh and altered chords, isolated and in context. Sight singing of more advanced materials and ear training correlated with sight singing are also covered.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS222.

*Coreq:* MUS223.

(1 lec/0 lab)

1 sem hrs

**MUS 251 Class Instruction-Piano II**

Continuing the skills taught in MUS151, this course emphasizes more advanced materials in music notation, chords and harmonization. A minimum of 4 hours of practice per week is required.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS151.

(2 lec/0 lab)

2 sem hrs

**MUS 252 Class Instruction-Piano III**

This course provides group piano instruction with an emphasis on developing advanced harmonization techniques, such as extended chords, transposition and accompanying techniques. A survey of appropriate piano literature is also included.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS251.

(2 lec/0 lab)

2 sem hrs

**MUS 254 Class Guitar II**

This course provides intermediate level instruction in guitar and includes chord formation with bar chords, finger picking, accompaniment patterns, and seventh chords.

*Recommended Prereq:* MUS154 or equivalent.

(2 lec/0 lab)

2 sem hrs

**MUS 280 Applied:  
Composition/Arranging**

This course provides private instruction in composition that is individually designed for each student's need. Students concentrate on compositional techniques and creative projects commensurate with their current ability.

Repeatable to a maximum of 8 semester hours; 8 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS121.

(2 lec/0 lab)

2 sem hrs

**MUS 281 Applied: Piano**

This course provides private instruction in piano individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 8 semester hours; 8 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* One year of piano study.

(2 lec/0 lab)

2 sem hrs

**MUS 282 Applied: Voice**

This course provides private instruction in voice individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 8 semester hours; 8 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS150.

(2 lec/0 lab)

2 sem hrs

**MUS 283 Applied: Woodwinds**

This course provides private instruction in woodwinds individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 8 semester hours; 8 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

(2 lec/0 lab)

2 sem hrs

**MUS 284 Applied: Brass**

This course provides private instruction in brass individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 8 semester hours; 8 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

(2 lec/0 lab)

2 sem hrs

**MUS 285 Applied:  
String Instruments/Guitar**

This course provides private instruction in string instruments individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 8 semester hours; 8 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* MUS154 or MUS254.

(2 lec/0 lab)

2 sem hrs

**MUS 286 Applied: Organ**

This course provides private instruction in organ individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 8 semester hours; 8 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

*Prereq:* Consent of instructor.

(2 lec/0 lab)

2 sem hrs

**MUS 287 Applied: Percussion**

This course provides private instruction in percussion individually designed for each student's need. Students concentrate on technique and repertory commensurate with their current ability. Repeatable to a maximum of 8 semester hours; 8 semester hours may apply to a degree or certificate.

Note: Student's skill level will be assessed for appropriate course placement.

*Recommended Prereq:* One semester of percussion study.

(2 lec/0 lab)

2 sem hrs

**MUS 296 Special Topics/Music**

This course offers in-depth exploration of a special topic, issue or trend in the music field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(0 to 3 lec/0 to 6 lab)

1 to 3 sem hrs

## Nurse Assistant (NAS)

### NAS 101 Nurse Assistant Skills

This course, approved by the Illinois Department of Public Health, is designed to prepare persons to function in the role of nurse assistant in a variety of health care settings. Content includes basic nursing procedures, food service, body mechanics, safety measures, special treatments, communication skills, and care of persons with Alzheimers disease and related dementias. Clinical experiences are provided in long-term care facilities.

Note: Due to state attendance requirements, students must register by the first day of class. Included in the fees are: \$50 for state competency exam, \$15 for state criminal background check, and \$4 for a WCC student name badge. Please note that Waubonsee processes and sponsors this application once at the completion of the course. Students must complete CNA testing in the Center for Learning Assessment for appropriate advising and/or placement into the course. All students enrolled in the course are required by the Illinois Department of Public Health to have a background check prior to clinical experiences. In addition, students must provide evidence of a 2-step test for tuberculosis (TB) prior to the first clinical day. A valid social security number is required at the time of enrollment.

*Prereq:* Reading assessment; 16 years of age or older.  
(4 lec/6 lab) 7 sem hrs

## Nursing (NUR)

### NUR 100 How to Succeed in Nursing

This course is designed to help students transition from prerequisite courses to nursing courses. Emphasis is placed on options in nursing, what to expect in nursing, study skills, how to take nursing tests, and survival. This course should help the success of students in the nursing program. Repeatable to a maximum of 4 semester hours; 1 semester hour may apply to a degree or certificate.

*Recommended Prereq:* Completion of most nursing program prerequisite courses.  
(1 lec/0 lab) 1 sem hrs

### NUR 105 Introduction to Health Care

This course is designed to provide the student with a base upon which all subsequent nursing courses are built. It focuses on cognitive, psychomotor and communication skills that are basic to client care and that can be utilized by the nurse or delegated to assistive personnel. Students achieve mastery of these skills through classroom instruction, laboratory demonstration, peer review and clinical practice in a geriatric setting. Special consideration is given to concepts of geriatric nursing. Laboratory proficiency testing is emphasized.

*Prereq:* Program admission; C or better in all of the following: PSY100, PSY205, BIO250, BIO270, BIO272, ENG101, ENG102, COM100; current American Heart Association Basic Life Support for Health Care Providers (CPR).  
*Coreq:* NUR106.  
(3 lec/6 lab) 5 sem hrs

### NUR 106 Introduction to Clinical Pharmacology

This course is designed for nursing students beginning the study of pharmacology and medication administration. The course goal is to focus on essential information for safe administration of drugs to include a comprehensive unit on medication calculations. This course helps students develop a logical thinking process in the administration of drugs. Instructional methods to facilitate the simulated application of content to nursing practice are utilized.

*Prereq:* Program admission.  
*Coreq:* NUR105; or NUR120 (for advanced placement students).  
(1 lec/0 lab) 1 sem hrs

### NUR 120 Basic Concepts of Nursing

This course continues with basic nursing skills. Use of the nursing process including nursing assessment, basic concepts of pharmacology, therapeutic communication, and fluid and electrolyte balance with a focus on diabetes mellitus are emphasized. Clinical experiences are provided in an acute care facility.

Note: Advanced placement in NUR120 may require concurrent enrollment in NUR106 based on recommendation of the program director.  
*Prereq:* Program admission; C or better in NUR105; nursing math proficiency test.  
*Coreq:* American Heart Association Health Care Provider course; documentation of current immunizations.  
(3 lec/6 lab) 5 sem hrs

### NUR 150 Medical-Surgical Nursing I

This course focuses on the use of the nursing process to meet the needs of patients experiencing stress, respiratory or gastrointestinal conditions, or surgery. Clinical experiences are provided in an acute care facility including the operating and recovery rooms.

*Prereq:* Program admission; C or better in NUR120.  
*Coreq:* Current American Heart Association Basic Life Support for Health Care Providers (CPR).  
(3 lec/6 lab) 5 sem hrs

### NUR 160 Pharmacology

This course examines how drugs are processed and utilized in the body. A client's reactions to a drug both therapeutically and adversely are considered. Potential drug interactions are explored. Client education related to drug therapy is emphasized.

*Recommended Prereq:* BIO270 and BIO272; or BIO260.  
(2 lec/0 lab) 2 sem hrs

### NUR 175 Psychiatric Nursing

This course focuses on adapting the nursing process to the practice of psychiatric-mental health nursing. The learning experience is eclectic and holistic, and explores biological, intellectual, emotional, spiritual and sociocultural dimensions of behavior. The student builds on previously learned skills, especially the therapeutic use of self, while working with other professionals in a multidisciplinary approach within a therapeutic environment. Historical perspectives, psychiatric disorders, psychiatric nursing concepts, nursing interventions, therapies, and community roles and services are stressed. Clinical experiences are provided in a psychiatric facility.

*Prereq:* Program admission; C or better in NUR150.  
*Coreq:* Current American Heart Association Basic Life Support for Health Care Providers (CPR).  
(3 lec/6 lab) 5 sem hrs

### NUR 205 Medical-Surgical Nursing II

This course is concerned with the individual who is seriously ill. It focuses on the nursing care of persons with genitourinary, hematological, immunological or oncological disorders. It has a special focus on care of persons receiving complex parenteral therapies. Emphasis is placed on assessment, establishing priorities of care, and the organization and utilization of the nursing care plan. Clinical experiences are provided on general medical-surgical units with an emphasis on oncology and renal care.

*Prereq:* Program admission; C or better in NUR175.  
*Coreq:* Current American Heart Association Basic Life Support for Health Care Providers (CPR).  
(3 lec/6 lab) 5 sem hrs

## NUR 220 Maternity and Gynecologic Nursing

This course focuses on nursing care of the family during the childbearing years and on the woman through the climacteric years. The normal maternity cycle and complications encountered in the care of the mother and her infant are studied. A class discussion on common gynecologic problems is included. Clinical experiences are designed to develop the student's assessment ability, teaching skills, and the nursing skills that promote optimum health and safety for the childbearing family. Maternity, pediatric and gynecological clinical experiences are provided in both acute care and community based settings.

*Prereq:* Program admission; C or better in NUR205.

*Coreq:* Current American Heart Association Basic Life Support for Health Care Providers (CPR).

(3 lec/6 lab)

5 sem hrs

## NUR 250 Medical-Surgical Nursing III

This course is concerned with the adult patient who is seriously ill, including those with endocrine disorders, cardiac disorders, peripheral vascular disorders, acute surgeries and patients requiring intensive care. Emphasis is on assessment, establishing priorities of care, and organization and utilization of the nursing care plan. Clinical experience is provided on the intermediate and/or intensive care units.

*Prereq:* Program admission; C or better in NUR205.

*Coreq:* Current American Heart Association Basic Life Support for Health Care Providers (CPR).

(3 lec/6 lab)

5 sem hrs

## NUR 275 Medical-Surgical Nursing IV

This course is designed to assist the student in the transition to the role of graduate nurse. The course focuses on the use of the nursing process in caring for groups of patients. Content includes orthopedic, neurological and emergency nursing; conditions of the eye and ear; as well as ethical, legal, political and social issues affecting health care. Clinical experience is provided in a variety of settings.

*Prereq:* Program admission; C or better in NUR250.

*Coreq:* Current American Heart Association Basic Life Support for Health Care Providers (CPR).

(2 lec/8 lab)

5 sem hrs

## NUR 296 Case Studies/ Problems for Allied Health

This course offers in-depth exploration of a special topic, issue or trend in the allied health field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semesters hours may apply to a degree or certificate.

(1 to 3 lec/0 lab)

1 to 3 sem hrs

## Patient Care Technician (PCT)

### PCT 200 Patient Care Technician

This course is designed to prepare students to function in the role of a patient care technician (PCT) in an acute care setting. Content includes: advanced nursing assistant skills, dietary procedures, respiratory therapy techniques, basic phlebotomy skills and basic cardiac monitoring set-up and techniques.

*Recommended Coreq:* COM125; HIT105.

*Prereq:* Consent of instructor; Health Care Provider CPR certification.

(2 lec/2 lab)

3 sem hrs

### PCT 297 Patient Care Technician Externship

Combining academic credit with professional experience, this externship allows students to learn about, observe and work in the patient care technician field. It provides the student with 80 hours of hands-on experience in an acute care setting where the student performs the skills required of a patient care technician (PCT).

*Prereq:* Consent of instructor; C or better in PCT200; HIT105 or concurrent enrollment; COM125 or concurrent enrollment; American Heart Association Basic Life Support for Health Care Providers; physical examination; proof of current immunizations; completion of two-step tuberculosis skin test; drug screen.

(.5 lec/5 lab)

1.5 sem hrs

## Personal Development (PDV)

NOTE: A maximum of 4 semester hours of Personal Development (PDV) course credit may be counted toward degree requirements for any associate degree.

### PDV 100 College Study Strategies

This course develops and enhances study strategies necessary for optimal achievement in college courses. Students learn to navigate the college environment and to build skills for academic success. Hands-on practice in the application of strategies to content area course work is emphasized.

(3 lec/0 lab)

3 sem hrs

### PDV 101 Strategies for Success

This course examines principles that empower students to be successful in college as well as in their personal and professional lives. Concepts studied and applied include accepting personal responsibility, discovering self-motivation, mastering self-management, employing interdependence, gaining self-awareness, adopting lifelong learning, developing emotional intelligence, and believing in oneself.

(1 lec/0 lab)

1 sem hrs

## PDV 102 Research Strategies

This course introduces students to research skills that enable them to effectively discover information in a variety of formats, and to categorize, differentiate, examine, question, analyze, organize and share information in their academic, professional and personal lives.

(1 lec/0 lab)

1 sem hrs

## PDV 110 Leadership Studies

This course is designed to provide emerging and existing leaders the opportunity to explore the concept of leadership and to develop and improve their leadership skills. The course integrates readings from the humanities, experiential exercises, films and contemporary readings on leadership.

(3 lec/0 lab)

3 sem hrs

## PDV 131 Strategies for Career Exploration

This career exploration course is designed to help people make career decisions based on in-depth personal assessment including career interests, personality type and values inventories.

(1 lec/0 lab)

1 sem hrs

## PDV 136 Employment Strategies

This career course is designed to help students with the job-search process. Students have the opportunity to review career literature and self-assessment techniques, write a resume and practice interviewing skills. Students also have the opportunity to learn and practice job-seeking skills.

(1 lec/0 lab)

1 sem hrs

## Philosophy (PHL)

### PHL 100 Introduction to Philosophy

This course is a study of the recurrent and persistent human principles and philosophical problems pertaining to the validity of knowledge, the nature of truth, the nature of identity, free will and determination, moral values and religious belief systems.

*IAI: H4 900.*

(3 lec/0 lab)

3 sem hrs

### PHL 101 Introduction to Logic

This course focuses on the nature of logical inference including both formal and informal reasoning and deductive versus inductive lines of thought. Topics include the use of (simple) symbolic languages to make evident the logical essentials of language and meaning; the essentials of both bad and good arguments; fallacious and nonfallacious reasoning; formal and informal inferences; and the essentials of proof and evidence. This is done through translating ordinary language sentences into their truth-functional form and evaluating the validity of arguments through truth tables and truth trees.

*IAI: H4 906.*

(3 lec/0 lab)

3 sem hrs

**PHL 105 Introduction to Ethics**

This course introduces topics central to both individual and social ethics by means of a problem-oriented case study approach to ethical reasoning and choice. Students also evaluate ethical theories, such as utilitarianism, virtue ethics, ethical egoism and determinism versus indeterminism.

*IAI: H4 904.*

(3 lec/0 lab)

3 sem hrs

**PHL 110 Introduction to Critical Thinking**

This course presents the practical uses of critical reasoning in personal and societal situations. Areas of emphasis include: analysis, construction, evaluation and refutation of deductive and inductive arguments; problem solving; dialogue; and debate strategies.

*IAI: H4 906.*

(3 lec/0 lab)

3 sem hrs

**PHL 120 Introduction to World Religions**

This course is an introduction to the comparative study of the major living religions of the world including Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity and Islam.

*IAI: H5 904N.*

(3 lec/0 lab)

3 sem hrs

**PHL 140 Introduction to Aesthetics**

This course provides an overview of critical and philosophical examinations of art, artistic creativity and aesthetic experience. It focuses on identifying the concepts that have traditionally been used to identify and evaluate works of art. It addresses such traditional and contemporary issues as: What is art? What is a work of art? How does art differ from craft? How does art differ from technology? How does art differ from propaganda?

(3 lec/0 lab)

3 sem hrs

**PHL 201 History of Philosophy I**

This course introduces both Western and Eastern means of philosophical thinking, starting with its origins in Ancient Greece and ending with the developments of Medieval Philosophy. Emphasis is placed on a textual analysis and understanding of each significant period of philosophical development, the connection between the philosophical theories and their historical developments and their subsequent influence on each other.

*IAI: H4 901.*

(3 lec/0 lab)

3 sem hrs

**PHL 202 History of Philosophy II**

This course introduces both Western and Eastern means of philosophical thinking, starting with developments in Renaissance and Early Modern period and ending with its 20th century developments. Emphasis is placed on a textual analysis and understanding of each significant period of philosophical development, the connection between the philosophical theories and their historical developments and their subsequent influence upon each other.

*IAI: H4 902.*

(3 lec/0 lab)

3 sem hrs

**Phlebotomy (PBT)****PBT 105 Theoretical and Clinical Aspects of Phlebotomy**

This course prepares the student for the role of phlebotomy technician. Instruction in human structure and function of the peripheral vascular and circulatory systems, specimen collection, specimen processing and handling, and laboratory operations is included. The student is also taught legal and ethical issues related to phlebotomy and specimen collection, infection control and OSHA requirements.

*Prereq:* Reading assessment.

*Recommended Coreq:* COM125; HIT105 or HIT110.

(3.5 lec/2 lab)

4.5 sem hrs

**PBT 297 Phlebotomy Externship**

Combining academic credit with professional experience, this externship allows students to learn about, observe and work in the phlebotomy field. It provides the student with 120 hours of hands-on experience provided at a site within the community. The student is afforded an opportunity to perform a minimum of 100 successful venipunctures and 25 successful skin punctures, per certification requirements. Repeatable to a maximum of 3 semester hours on a space-available basis; 1.5 semester hours may apply to the phlebotomy certificate.

*Prereq:* Reading assessment; C or better in PBT105; COM125 or concurrent enrollment; HIT105 or HIT110 or concurrent enrollment; American Heart Association Basic Life Support for Health Care Providers; physical examination; completion of two-step tuberculosis test; proof of current immunization status.

(.5 lec/7.5 lab)

1.5 sem hrs

**Physical Education (PED)****PED 101 Bowling**

This introductory course teaches the fundamentals of bowling, including bowling skills, rules, scoring and strategies. Students participate in a bowling league using handicaps for team selection. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/2 lab)

1 sem hrs

**PED 102 Individual Sports**

This course includes instruction in the skills and techniques of individual sports. Participation is emphasized and content includes rules, strategies, fundamentals, scoring and terminology. The sport may vary and in the past has included: rock climbing, sailing, archery, badminton, fencing, skating, table tennis and cross-country skiing. Repeatable to a maximum of 2 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/1 lab)

.5 sem hrs

**PED 104 Golf**

Designed for both beginning and experienced golfers, this course emphasizes the fundamentals of putting, chipping and swing as well as rules and etiquette. Each student plays one round of golf at the conclusion of the course. Repeatable to a maximum of 2 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

*Note:* Students must be at least 16 years of age.

(0 lec/1 lab)

.5 sem hrs

**PED 106 Tennis**

Designed for the beginning or inexperienced student, this course emphasizes racket and body position for the forehand and backhand strokes, as well as the basic serve, rules and tennis court etiquette. Students may participate in singles and doubles matches.

(0 lec/1 lab)

.5 sem hrs

**PED 107 Intermediate Tennis**

This course is intended for students with a basic knowledge of tennis who desire to improve their court strategies and shot making. The following strokes are practiced: lob, chop, back-spin, top-spin, slice and volley. Students participate in singles and doubles matches. Repeatable to a maximum of 1.5 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

*Recommended Prereq:* PED106.

(0 lec/1 lab)

.5 sem hrs

**PED 108 Horsemanship I**

Intended for the beginning or inexperienced rider, Horsemanship I covers English riding (Saddleseat), grooming, leading, saddling, and bridling.

Note: Students must have shoes (no slip-ons) with hard soles and low heels for riding, long pants, riding or bike helmet, tee shirts or sweatshirts (no tank tops). Maximum weight limit: 160 lbs, per stable requirements.  
(0 lec/1 lab) .5 sem hrs

**PED 109 Horsemanship II**

Horsemanship II provides a more in-depth continuation of skills learned in Horsemanship I. Riders work on diagonals, simple figure work, and horse psychology. Repeatable to a maximum of 1.5 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

Note: Maximum weight limit: 160 lbs., per stable requirements.  
Prereq: Consent of instructor.  
(0 lec/1 lab) .5 sem hrs

**PED 110 Soccer**

Structured for the experienced soccer player, this course covers the formation, fundamentals and strategies of competitive soccer, as well as the rules and procedures of play. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/2 lab) 1 sem hrs

**PED 111 Volleyball**

This course, designed for the experienced player, covers formations and fundamentals of power volleyball. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

Recommended Prereq: Volleyball experience.  
(0 lec/2 lab) 1 sem hrs

**PED 112 Coed Volleyball**

This course is designed for the beginner or recreational player. Proper techniques of the bump, set and spike are taught as are rules and procedures of play. Repeatable to a maximum of 2 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/1 lab) .5 sem hrs

**PED 113 Baseball**

This course is designed for the experienced baseball player. Hitting, fielding and pitching techniques are covered. Game strategies are taught with students participating in actual game situations. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/2 lab) 1 sem hrs

**PED 114 Basketball**

This course is designed for the experienced basketball player. Instruction includes the techniques of shooting, passing, dribbling and rebounding which are practiced in actual game situations. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

Recommended Prereq: Varsity playing experience.  
(0 lec/2 lab) 1 sem hrs

**PED 115 Softball**

This course is designed for the student with softball experience. Techniques of fielding, hitting, pitching and base running are used in actual game situations. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/2 lab) 1 sem hrs

**PED 116 Karate**

Self-defense, competition, ceremonial techniques and costume dress are covered in this course designed for the beginning student of karate. Students also practice punching and blocking. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/2 lab) 1 sem hrs

**PED 118 Personal Defense**

This course is designed to help students acquire confidence and the ability to cope with unexpected attacks and emergencies. Self-defense techniques, including methods of preventing attacks, breaking falls and basic throws, are taught. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/2 lab) 1 sem hrs

**PED 119 Wrestling**

Basic and advanced wrestling skills are presented. Emphasis is placed on actual participation. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/2 lab) 1 sem hrs

**PED 121 Beginning Swimming**

Designed for the adult beginner, this course emphasis personal safety and stroke development. Students must also work toward meeting their personal swimming goals.

(0 lec/2 lab) 1 sem hrs

**PED 122 Intermediate Swimming**

With a continued emphasis on basic strokes and safety skills, this course encourages experienced swimmers to work toward personal swimming goals. Snorkeling, canoeing, synchronized swimming and water fitness activities are also introduced. Repeatable to a maximum of 3 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

Recommended Prereq: PED121 or the ability to swim 50 feet in deep water.  
(0 lec/2 lab) 1 sem hrs

**PED 130 Social Dance**

Emphasizing techniques of leading and following, this class is for the beginner or individual wanting to brush up on technique. Students learn the basic steps and several variations of the fox trot, waltz, swing, cha cha and merengue. Wear smooth-soled shoes. Couples recommended; partners cannot be guaranteed. Repeatable to a maximum of 2 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/1 lab) .5 sem hrs

**PED 131 Ballroom/  
Country Dance Combo**

In this lively combination of country western and ballroom dance, students learn to relax and enjoy social dance occasions by practicing the basic moves of the fox trot, waltz and swing. Then get ready to step and stomp through the Texas two-step and country waltz. Techniques of leading and following are emphasized. Wear smooth-soled shoes. Couples are recommended; partners cannot be guaranteed. Repeatable to a maximum of 2 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/1 lab) .5 sem hrs

**PED 134 Zumba Fitness**

This course improves an individual's cardiovascular system through participation in aerobic exercise routines set to Latin-infused dance music. The routines feature interval training sessions where fast and slow rhythms and resistance training are combined. Intensity is elevated to a level appropriate to one's training heart rate. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/2 lab) 1 sem hrs

**PED 136 Physical Fitness I**

This course is designed for the student desiring to reach and maintain optimal levels of fitness. Cardiovascular endurance and muscular strength are emphasized through work on weight resistance and cardiovascular equipment.

(0 lec/2 lab) 1 sem hrs

**PED 138 Co-ed Aerobic Exercise**

This course is intended to improve an individual's cardiovascular system through aerobic exercise routines set to music. Intensity levels are elevated to a level appropriate to the student's target heart rate. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/2 lab)

1 sem hrs

**PED 140 Physical Fitness II**

Designed for the student desiring to reach and maintain optimal levels of fitness, this course emphasizes the development of cardiovascular endurance and muscular strength through work on weight resistance and cardiovascular equipment. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

Prereq: PED136.

(0 lec/2 lab)

1 sem hrs

**PED 141 Jogging and Calisthenics**

Designed for the student desiring to improve or maintain cardiovascular fitness, this course combines theory and practice to gain maximum short- and long-term cardiovascular benefits. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/2 lab)

1 sem hrs

**PED 142 Weight Training**

This course is designed for either the beginning or experienced weight trainer. The course covers muscle and strength development and includes lifts, body building and Olympic lifts. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/2 lab)

1 sem hrs

**PED 145 Fitness Training**

Students learn the factors involved in increasing and decreasing body weight. An exercise program is designed to control body weight and/or to shape contours of the body by using both free weights and machines. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

Prereq: PED136.

(0 lec/2 lab)

1 sem hrs

**PED 146 Yoga**

Designed as an introduction to Hatha Yoga, this course focuses on the union of mind, body and breath through asana practice complemented by relaxation and meditation. The techniques shown enhance muscular strength, flexibility, energy, concentration and relaxation. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

(0 lec/2 lab)

1 sem hrs

**PED 148 Conditioning**

This course is designed as a conditioning program for the student desiring to reach and maintain optimal fitness levels. It meets individual fitness needs while emphasizing the development of muscular strength and endurance, flexibility, and cardiovascular endurance. Students receive pre- and progress fitness tests. Repeatable to a maximum of 4 semester hours; a maximum of 4 semester hours of PED activity courses may apply to a degree or certificate.

Prereq: PED136.

(0 lec/2 lab)

1 sem hrs

**PED 150 Basic Prevention and Care of Athletic Injuries**

Introduction to the responsibilities and duties of an athletic trainer including basic fundamentals and techniques in prevention and care of injuries, injury recognition, emergency care, supportive taping and wrapping, ordering supplies, budgeting, and the general operation of a training room facility.

(2 lec/2 lab)

3 sem hrs

**PED 200 Introduction to Physical Education**

This introduction to the professional field of physical education emphasizes historical backgrounds and philosophies relating to the fields of physical education, recreation and health. Many different areas of physical education are introduced, including: kinesiology, pedagogy, biomechanics, exercise physiology, motor learning, health, fitness, coaching, psychology, sociology and athletic training. Emphasis is placed on physical education as a profession.

(2 lec/0 lab)

2 sem hrs

**PED 203 Current Issues in Sports**

This course examines the interaction between sport and culture, the relevance of sport in modern society, and the social processes which influence sport.

(3 lec/0 lab)

3 sem hrs

**PED 204 Psychology of Sports**

This introduction to the major aspects of sports psychology includes: developing a philosophy, different coaching and player personalities, motivation, discipline, communication, self-confidence, team cohesion, outside influences, leadership styles, and cultural and minority issues.

(3 lec/0 lab)

3 sem hrs

**PED 205 Scientific Basis of Human Activity**

This course introduces the student to the different aspects of physical activity - biological, mechanical, and physiological, in addition to the psychological and sociological aspects. Also included is the development of skills required to assess physiological measures.

(3 lec/0 lab)

3 sem hrs

**PED 211 First Aid and Emergency Care**

This course provides consistent guidelines that enable the citizen responder to give appropriate care regardless of the type of emergency, and stresses the basic steps to follow. Upon successful completion of the course, participants may receive the American Red Cross Responding to Emergencies CPR/AED and First Aid certificates.

(3 lec/0 lab)

3 sem hrs

**PED 231 Theory and Practice of Basketball**

This course covers the techniques for developing competitive basketball skills. Included are the study of basketball rules, strategy and instruction methods for coaching basketball.

(2 lec/0 lab)

2 sem hrs

**PED 232 Theory and Practice of Baseball**

This course includes a study of the techniques involved in developing competitive baseball skills. Topics include rules, strategy and instruction methods.

(2 lec/0 lab)

2 sem hrs

**PED 233 Theory and Practice of Volleyball**

Theory and Practice of Volleyball includes the techniques and strategies of competitive volleyball. Methods of instruction, rules, and offensive and defensive strategies are covered. Limited laboratory participation is included for instruction.

(2 lec/0 lab)

2 sem hrs

**PED 234 Cardiovascular Fitness**

This course is designed to prepare exercise specialists with the knowledge and skills needed to teach the principles of cardiovascular fitness to individuals in order for them to develop and maintain cardiovascular fitness.

Recommended Prereq: BIO260; or BIO270 and BIO272.

(2 lec/0 lab)

2 sem hrs

**PED 235 Survey of the Sports Organization**

This course surveys sports administration and sports business techniques as they pertain to the sport enterprise. Students attain theoretical knowledge and practical skills in preparation for various sport managerial and business careers. Also covered are decision making and planning from the sport manager's perspective and the impact of corporate sponsorship on the sport.  
(3 lec/0 lab) 3 sem hrs

**PED 236 Exercise for Special Populations**

This course is designed to prepare exercise specialists to adapt physical education and exercise so that individuals with predisposed conditions can successfully participate in activity and exercise programs. Predisposed conditions include obesity, diabetes, coronary artery disease, hypoglycemia, stroke, peripheral vascular disease, osteoporosis and hypertension.  
*Recommended Prereq:* BIO260; or BIO270 and BIO272.  
(3 lec/0 lab) 3 sem hrs

**PED 237 Principles of Resistance Training**

This course is designed to prepare exercise specialists to adapt the principles of resistance training to individuals in order to develop and maintain muscular strength, muscular endurance and muscle mass.  
*Recommended Prereq:* BIO260; or BIO270 and BIO272.  
(3 lec/0 lab) 3 sem hrs

**PED 238 Fitness Assessment and Exercise Programming**

This course is designed to prepare exercise specialists with the knowledge and skills needed to assess health status and health behaviors in order to create and update exercise prescriptions. Emphasis is placed on the exercise specialist obtaining as much information as possible about a participant to optimize the benefit-to-risk ratio.  
*Recommended Prereq:* BIO260; or BIO270 and BIO272.  
(3 lec/0 lab) 3 sem hrs

**PED 241 Basketball Officiating**

This course includes the analysis and interpretation of the rules of basketball, and basketball officiating principles and techniques. Successful completion prepares the student to take the Illinois High School Association officiating license examination.  
(1 lec/2 lab) 2 sem hrs

**PED 297 Exercise Science Internship I**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the exercise science field. It provides students with 80 hours of on-site exposure to a fitness center and includes observation of personnel and participation in various activities surrounding fitness assessment and exercise prescription. In addition, students spend eight hours in seminar discussing internship experiences. Repeatable to a maximum of 3 semester hours; 1.5 semester hours may apply to the exercise science certificate.  
*Prereq:* Consent of instructor.  
(.5 lec/5 lab) 1.5 sem hrs

**PED 298 Exercise Science Internship II**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the exercise science field. It provides students with 160 hours of on-site experience in the role of a health and wellness instructor at a fitness center and includes observation and performance of the tasks and duties of a fitness center instructor. In addition, students spend eight hours in seminar discussing internship experiences. Repeatable to a maximum of 4 semester hours; 2 semester hours may apply to a degree or certificate.  
*Prereq:* Consent of instructor.  
(.5 lec/9.5 lab) 2 sem hrs

**Physics (PHY)****PHY 103 Concepts of Physics**

This brief survey of the principles of physics concentrates on the analysis of physical phenomena encountered in everyday experiences. It also gives some limited attention to the more abstract realms of quantum physics and relativity. A compact, mostly qualitative and conceptual introduction to physics, this course is intended for students who will not take one of the two-semester physics courses. Note: Students enrolling in PHY103 are not required to enroll in PHY104 (lab). However, those students needing a four semester-hour lab science for transfer purposes may wish to concurrently enroll in PHY103 and PHY104.  
*IAI: P1 901.*  
(3 lec/0 lab) 3 sem hrs

**PHY 104 Concepts of Physics Laboratory**

This laboratory course is designed to provide further opportunity for students to observe first-hand many of the physical phenomena described in PHY 103, Concepts of Physics, and to demonstrate and reinforce the concepts and principles developed in that course.  
*Recommended Coreq:* PHY103.  
*IAI: P1 901L.*  
(0 lec/2 lab) 1 sem hrs

**PHY 111 Introduction to Physics I**

This introduction to the principles and phenomena of mechanics, thermal physics and wave motion is the first part of a two-semester course in general physics without calculus.  
*Prereq:* C or better in MTH070 or placement determined by assessment.  
*IAI: P1 900L.*  
(3 lec/3 lab) 4 sem hrs

**PHY 112 Introduction to Physics II**

This introduction to the principles and phenomena of optics, electricity and magnetism, relativity, and atomic and nuclear physics is the second part of a two-semester course in general physics without calculus.  
*Prereq:* PHY111.  
(3 lec/3 lab) 4 sem hrs

**PHY 221 General Physics I**

This introduction to the principles and phenomena of mechanics and thermal physics is the first part of a two-semester course in general physics that uses calculus and is ordinarily required for students pursuing degrees in engineering, physics, chemistry and mathematics.  
*Prereq:* MTH131 or concurrent enrollment.  
*IAI: P2 900L.*  
(4 lec/3 lab) 5 sem hrs

**PHY 222 General Physics II**

This introduction to the principles and phenomena of waves, optics, and electricity and magnetism is the second part of a two-semester course in general physics that uses calculus and is ordinarily required for students pursuing degrees in engineering, physics, chemistry and mathematics.  
*Prereq:* MTH132 or concurrent enrollment; PHY221.  
(4 lec/3 lab) 5 sem hrs

**Political Science (PSC)****PSC 100 Introduction to American Government**

This course provides an introduction to the structure and operation of American national political institutions and the American political process, including such topics as the principles of democracy U.S. and Illinois Constitutions; the election process; and executive, legislative and judicial processes.  
*IAI: S5 900.*  
(3 lec/0 lab) 3 sem hrs

**PSC 220 Comparative Government**

This course compares the political systems of selected Western and non-Western countries. Common governmental problems, the causes of political instability and revolution and techniques of political analysis are explained.  
*IAI: S5 905.*  
(3 lec/0 lab) 3 sem hrs

**PSC 240 State and Local Government**

Examining the powers, structures, functions and contemporary problems of state and local governments, this course emphasizes Illinois politics and governmental affairs, as well as local governments in the Chicago metropolitan area.

*IAI: S5 902.*

(3 lec/0 lab)

3 sem hrs

**PSC 260 Introduction to International Relations**

International Relations introduces students to the basic theories, concepts, knowledge and people of international relations. The course provides some consideration of the determinants of international relations as well as an analysis of contemporary problems in world politics, examining causes of conflict and potential solutions.

*IAI: S5 904.*

(3 lec/0 lab)

3 sem hrs

**PSC 280 Introduction to Political Philosophy**

This course offers a survey of the major political philosophers and concepts in the history of political thought, focusing on classical and modern theorists and emphasizing such concepts as justice, equality, power, liberty and rights.

*IAI: PLS 913.*

(3 lec/0 lab)

3 sem hrs

**Psychology (PSY)**

See also Educational Psychology (EDU 210).

**PSY 100 Introduction to Psychology**

This course provides a survey of the study of human and animal behavior, emphasizing the scientific methods of contemporary psychological investigation. Topics include an introduction to the biological basis of behavior, sensation and perception, learning, memory, cognition, motivation, emotion, life-span development of behavior, personality, abnormal behavior, social behavior and individual differences.

*IAI: S6 900.*

(3 lec/0 lab)

3 sem hrs

**PSY 200 Research and Methodology in Psychology**

This course provides comprehensive coverage of the basic principles of research methodology in psychology. The following topics are covered: basic statistical analysis, research design, ethical behavior in designing and collecting data, and interpreting and reporting psychological research. Students have the opportunity to collect, interpret and report their own psychological research.

*Recommended Prereq: PSY100.*

(3 lec/0 lab)

3 sem hrs

**PSY 205 Life-Span Psychology**

This course provides an introduction to current theory and research on the physiological, cognitive, personality and social development of individuals from conception through childhood, adolescence, young adulthood, middle adulthood and older adulthood. Normal development is emphasized; however, special human circumstances are also explored.

*Recommended Prereq: PSY100 or consent of instructor.*

*IAI: S6 902.*

(3 lec/0 lab)

3 sem hrs

**PSY 215 Adulthood and Aging**

This course provides an integration of the theory and research regarding the developmental processes across the adult lifespan. Topics focus on the changes that occur from early adulthood through the last stages of life including: career choice and development; mate selection and marriage; conventional and non-conventional families; theories of adult personality development; mid and late-life transitions; aging; and dying, death and bereavement.

*Recommended Prereq: PSY100 or consent of instructor.*

*IAI: S6 905.*

(3 lec/0 lab)

3 sem hrs

**PSY 220 Child Psychology**

This course introduces the student to the theories and current research on the physical, cognitive, socio-emotional and personality development of the child from the point of conception through childhood.

*Recommended Prereq: PSY100 or consent of instructor.*

*IAI: S6 903.*

(3 lec/0 lab)

3 sem hrs

**PSY 226 Adolescent Psychology**

This course provides an introduction to the development of adolescents, emphasizing the physical and physiological changes and the social and cognitive development that occur during adolescence. Topics include changing relationships with family and peers, identity and value development, sexuality, school experiences and career goals, and adolescent problems and delinquency.

*Recommended Prereq: PSY100 or consent of instructor.*

*IAI: S6 904.*

(3 lec/0 lab)

3 sem hrs

**PSY 235 Social Psychology**

This course provides an examination of the theory and research relating to the social factors that influence individual and group behavior. Attitudes, social perception, social cognition, the establishment of norms, conformity, leadership, group dynamics and research methods are examined, with an emphasis on their effects on the individual.

*Recommended Prereq: PSY100 or consent of instructor.*

*IAI: S8 900.*

(3 lec/0 lab)

3 sem hrs

**PSY 240 Abnormal Psychology**

This course presents the body of scientific knowledge in the field of abnormal psychology with emphasis on the theoretical explanations, experimental data, assessment procedures, treatment modalities and the prevention of abnormal behavior.

*Recommended Prereq: PSY100 or consent of instructor.*

*IAI: PSY 905.*

(3 lec/0 lab)

3 sem hrs

**PSY 245 Industrial/Organizational Psychology**

This course introduces students to the psychological methods and theories that apply to organizational problems. Emphasis is on promoting human welfare for individuals in organizational settings.

*Recommended Prereq: PSY100 or consent of instructor.*

*IAI: PSY 906.*

(3 lec/0 lab)

3 sem hrs

**PSY 250 Theories of Personality**

This course explores how human behavior can be understood through the scientific study of individual differences. Topics include: research methods, assessment techniques, theoretical approaches in personality, and current topics and research in personality.

*Recommended Prereq: PSY100 or consent of instructor.*

*IAI: PSY 907.*

(3 lec/0 lab)

3 sem hrs

**PSY 296 Special Topics in Psychology**

This course offers in-depth exploration of a special topic, issue or trend in the psychology field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(1 to 3 lec/0 lab)

1 to 3 sem hrs

**Reading (RDG)**

NOTE: Placement in reading courses is determined by scores on required assessment tests.

**RDG 071 Fundamental Phonics**

Fundamental Phonics teaches basic phonics skills. Oral, written and computer activities help students develop the phonics skills necessary to spell and decode words, which leads to more efficient reading and comprehension. Repeatable to a maximum of 2 semester hours; does not apply to a degree or certificate.

(.5 lec/0 lab)

.5 sem hrs

### RDG 072 Vocabulary Review

A review of the fundamentals of vocabulary building, this individualized course is designed to present vocabulary systematically in graduated levels of difficulty. Topics covered include idioms, vocabulary building skills, informed language dictionary skills, verb versatility and contextual clues. The course is designed to aid students who have deficiencies in vocabulary. Repeatable to a maximum of 12 semester hours; does not apply to a degree or certificate.

(3 lec/0 lab)

3 sem hrs

### RDG 074 Essentials of Reading

Essentials of Reading is an individualized course of study. It includes instruction custom designed to increase the learner's proficiency in the areas of vocabulary development, comprehension and efficiency. The course consists of three elements: assessment, activities which will help the learner develop the competency, and a continuing assessment plan to determine when the competency has been attained satisfactorily. Repeatable to a maximum of 12 semester hours; does not apply to a degree or certificate.

*Prereq:* Placement by assessment.

(3 lec/0 lab)

3 sem hrs

### RDG 075 Developmental Reading

This course is designed to strengthen vocabulary development, reading comprehension and reading efficiency. Repeatable to a maximum of 12 semester hours; does not apply to a degree or certificate.

*Prereq:* Placement by assessment.

(3 lec/0 lab)

3 sem hrs

### RDG 076 Reading Improvement

This course is designed to strengthen vocabulary development, reading comprehension and strategies for reading efficiency. Repeatable to a maximum of 12 semester hours; does not apply to a degree or certificate.

*Prereq:* C or better in RDG075 or placement by assessment.

(3 lec/0 lab)

3 sem hrs

### RDG 110 College Reading

This course provides instruction in developing and/or enhancing comprehension, vocabulary, reading rate strategies and concepts necessary for interacting with advanced reading materials.

*Prereq:* C or better in RDG076 or placement by assessment.

(3 lec/0 lab)

3 sem hrs

## Real Estate (REL)

### REL 100 Real Estate Broker Pre-License

Required to take for the Illinois Real Estate Broker Licensing Exam, this course introduces real estate principles including agency, career options, client and customer relationships, contracts, employment agreements, financing, local, state and federal laws, real property, marketing, market analysis, and property valuation.

Note: Per state requirements, students must attend a minimum of 75 class hours in Real Estate Broker Pre-License to be eligible to sit for the state broker licensure exam; 100 percent attendance is required.

(5 lec/0 lab)

5 sem hrs

### REL 105 Real Estate Broker Pre-License: Applied Principles

Required to take the Illinois Real Estate Broker Licensing Exam, this interactive course applies the real estate concepts introduced in REL100 to the practice of real estate agency through the use of case and situational studies, demonstration of common real estate activities, and role play.

*Prereq:* REL100.

(1 lec/ lab)

1 sem hrs

### REL 115 Real Estate Broker Post-License

Required during the initial license period to renew the Illinois Real Estate Broker License, this course augments and reinforces licensees' knowledge of agency, client and customer relationships, closings, contracts, conveyances, financing, license law, marketing, real property principles, and risk management.

Note: Real estate license required.

*Recommended Prereq:* Illinois Real Estate Broker License.

(1 lec/0 lab)

1 sem hrs

### REL 116 Real Estate Broker Post-License: Applied Principles

Required during the initial license period to renew the Illinois Real Estate Broker License, this interactive course applies the real estate concepts reinforced in REL115 to the practice of real estate agency through the use of case and situational studies, demonstration of common real estate activities, and role play.

Note: Real estate license required.

*Recommended Prereq:* REL115; Illinois Real Estate Broker License.

(1 lec/0 lab)

1 sem hrs

### REL 200 Real Estate Managing Broker Pre-License

Required to take Illinois' Real Estate Managing Broker Licensing Exam, this course focuses on broker management topics such as company policies and procedures, disclosure, dispute resolution, escrow, licensing, operations, recruiting, supervision, and other industry issues.

Note: Real estate license required.

*Recommended Prereq:* Illinois Real Estate Broker License.

(2 lec/0 lab)

2 sem hrs

### REL 205 Real Estate Managing Broker Pre-License: Applied Management and Supervision

Required to take Illinois' Real Estate Managing Broker Licensing Exam, this interactive course applies principles from REL200 to the management of real estate brokerage activities through the use of case and situational studies, and role play.

Note: Real estate license required.

*Recommended Prereq:* REL200; Illinois Real Estate Broker License

(1 lec/0 lab)

1 sem hrs

### REL 260 Residential Real Estate Investing

This course, designed to look at both long and short-term investment strategies, provides an introduction to real estate investment with an emphasis on residential property. Topics include real estate economics, investment principles, distressed properties, and taxation. This course does not fulfill any licensing requirements.

(3 lec/0 lab)

3 sem hrs

## Renewable Energy Technologies (RET)

### RET 110 Introduction to Photovoltaic Systems

An introduction to photovoltaic systems including safety and electrical basics, solar energy fundamentals, and system sizing, design, operation, and maintenance is provided in this course.

(2 lec/2 lab)

3 sem hrs

### RET 115 Photovoltaic System Selection and Design

Conducting a site assessment, selecting a photovoltaic system, and adapting mechanical and electrical designs for system installation are presented in this course. Course objectives align with the North American Board of Certified Energy Practitioners task analysis for solar photovoltaic system installers.

*Prereq:* RET110.

(2 lec/2 lab)

3 sem hrs

**RET 120 Installing and Maintaining Photovoltaic Systems**

Students install and troubleshoot photovoltaic systems and their components in this course. Course objectives align with the North American Board of Certified Energy Practitioners task analysis for solar photovoltaic system installers. Upon successful completion, students are eligible to take the Photovoltaic (PV) Entry Level Certificate of Knowledge exam from the North American Board of Certified Energy Practitioners.

*Prereq:* RET115.

(2 lec/2 lab)

3 sem hrs

**RET 130 Introduction to Solar Thermal**

This course introduces the basics of solar thermal systems including solar fundamentals, benefits of solar thermal energy, and types of solar water and pool heating systems and their component parts. Course objectives align with the North American Board of Certified Energy Practitioners task analysis for solar water and pool heating system installers.

(2 lec/2 lab)

3 sem hrs

**RET 135 Advanced Solar Thermal**

Students conduct a site assessment, design and size a solar thermal system for varying applications, and determine the permitting and zoning processes for solar thermal installations in this course. Safety, maintenance, and troubleshooting are also covered. Course objectives align with the North American Board of Certified Energy Practitioners task analysis for solar water and pool heating system installers.

*Prereq:* RET130.

(2 lec/2 lab)

3 sem hrs

**RET 140 Installing Solar Thermal Systems**

Students install solar thermal systems and components for water, pool, and space heating in this course. Course objectives align with the North American Board of Certified Energy Practitioners task analysis for solar water and pool heating system installers.

*Prereq:* RET135 or concurrent enrollment.

(2 lec/2 lab)

3 sem hrs

**RET 150 Introduction to Wind Energy Systems**

This course introduces students to small wind energy systems 100 kW or less, including the component parts and physics behind wind energy technologies. Students conduct a site assessment to determine suitability of a wind energy system. Course objectives align with the North American Board of Certified Energy Practitioners task analysis for a small wind energy system installer.

*Recommended Prereq:* ELT101 or concurrent enrollment.

(2 lec/2 lab)

3 sem hrs

**RET 155 Wind Energy Systems Selection and Design**

This course prepares students to select a small wind energy system 100 kW or less and determine the mechanical and electrical designs. Selection and design of both on-grid and off-grid systems are covered. Course objectives align with the North American Board of Certified Energy Practitioners task analysis for a small wind energy system installer.

*Prereq:* ELT101 or concurrent enrollment; RET150.

(2 lec/2 lab)

3 sem hrs

**RET 160 Installing and Maintaining Wind Energy Systems**

This course prepares students to install and maintain small wind energy systems. Students assemble, install, perform a system checkout, and troubleshoot a small wind energy system including the tower and other components. Course objectives align with the North American Board of Certified Energy Practitioners task analysis for a small wind energy system installer.

*Prereq:* RET155.

(2 lec/2 lab)

3 sem hrs

**RET 170 Geothermal Systems**

This course introduces the principles of geothermal energy systems for heating and cooling. Students conduct a geothermal site assessment, select a geothermal system, and practice installation techniques.

*Recommended Prereq:* All 100-level HVA courses and HVA200; or professional experience as a heating, ventilation and air conditioning technician or contractor.

(2 lec/2 lab)

3 sem hrs

**Sign Language (SGN)**

See also Interpreter Training (ITP).

**SGN 100 Orientation to Deafness**

This course is designed to introduce students to the Deaf Community. Topics include the structure and function of hearing, cochlear implants, language development, history of deaf education programs, legislation and communication barriers.

(3 lec/0 lab)

3 sem hrs

**SGN 101 American Sign Language I**

This course is an introduction to American Sign Language (ASL). The course explores ASL sign vocabulary and grammatical structures and also serves as a basic introduction to Deaf culture.

(3 lec/0 lab)

3 sem hrs

**SGN 102 American Sign Language II**

This course is designed to provide students with skills necessary to communicate in American Sign Language (ASL) at an advanced level. Grammatical structures and cultural principles are emphasized. Students build both receptive and expressive skills.

*Recommended Prereq:* SGN101.

(3 lec/0 lab)

3 sem hrs

**SGN 104 Signs in Everyday Use**

This course is designed to assist students in expanding their conversational skills in American Sign Language. The course introduces several unique numbering systems and non-manual modifiers as well as advanced fingerspelling and mime techniques.

*Prereq:* SGN101 and SGN105; or concurrent enrollment.

(3 lec/0 lab)

3 sem hrs

**SGN 105 Linguistics of ASL I**

This course is designed to introduce students to advanced vocabulary and linguistics of American Sign Language (ASL). The course addresses the development of conversational fluency in American Sign Language. Students are introduced to a series of vernacular signs, which can be used in a variety of contexts. Emphasis is placed on both expressive and receptive competence.

*Prereq:* SGN101 or concurrent enrollment.

(3 lec/0 lab)

3 sem hrs

**SGN 106 Linguistics of ASL II**

This course addresses the conversational fluency in American Sign Language (ASL). Focus is on the development of fluency with more advanced sign vocabulary and more complex ASL linguistics. Students are introduced to a series of thematically related signs that can be used in a variety of contexts. Emphasis is placed on both expressive and receptive competence.

*Prereq:* SGN101; SGN104; SGN105; SGN102 or concurrent enrollment.

*Recommended Coreq:* SGN108, if interested in the ITP program.

(3 lec/0 lab)

3 sem hrs

**SGN 108 Conceptually Accurate Signed English**

This course provides students with the opportunity to communicate using English syntax with ASL signs and grammatical features. Students receive expanded sign vocabulary, extensive practice with comparative translations, and an introduction to simultaneous voice to sign transliterating.

*Prereq:* SGN101; SGN104; SGN105; SGN102 and SGN106 or concurrent enrollment.

(3 lec/0 lab)

3 sem hrs

**SGN 110 Introduction to American Deaf Culture**

This course introduces students to American Deaf Culture. The course includes a description of the specific cultural values, norms and traditions as well as criteria for membership. It explores the experiences of deaf individuals throughout the life span.  
*Recommended Prereq:* SGN100.  
(3 lec/0 lab) 3 sem hrs

**Social Science (SSC)**

**SSC 110 Cultures and Peoples of Mexico**

Focusing on the prehistory and contemporary peoples of Mexico, this course employs interdisciplinary social science methods to examine the racial and ethnic background, past cultures, cultural structures, social structure, political structure and economics of Mexico. The impact of industrialization and urbanization is explored as well as current problems in Mexico.  
(2 lec/3 lab) 3 sem hrs

**SSC 296 Special Topics for Social Science**

This course offers in-depth exploration of a special topic, issue or trend in the social sciences field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.  
(.5 to 3 lec/0 lab) .5 to 3 sem hrs

**SSC 297 Social Studies Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the social sciences field, including positions related to anthropology, criminal justice, sociology, political science, psychology or history. Eighty hours are required for 1 credit. Repeatable to a maximum of 4 semester hours; 6 semester hours from the social science internship courses (SSC297, SSC298, SSC299) may apply to any social science or criminal justice degree or certificate.  
*Prereq:* Consent of instructor.  
(0 lec/5 lab) 1 sem hrs

**SSC 298 Social Studies Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the social sciences field, including positions related to anthropology, criminal justice, sociology, political science, psychology or history. One hundred and sixty hours are required for 2 credits.  
Repeatable to a maximum of 6 semester hours; 6 semester hours from the social science internship courses (SSC297, SSC298, SSC299) may apply to any social science or criminal justice degree or certificate.  
*Prereq:* Consent of instructor.  
(0 lec/10 lab) 2 sem hrs

**SSC 299 Social Studies Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the social sciences field, including positions related to anthropology, criminal justice, sociology, political science, psychology or history. Two hundred forty hours are required for 3 credits.  
Repeatable to a maximum of 6 semester hours; 6 semester hours from the social science internship courses (SSC297, SSC298, or SSC299) may apply to any social science or criminal justice degree or certificate.  
*Prereq:* Consent of instructor.  
(0 lec/15 lab) 3 sem hrs

**Sociology (SOC)**

See also Social Psychology (PSY 235).

**SOC 100 Introduction to Sociology**

This course presents a study of society, including values, norms, and cultural patterns that organize everyday life. Analysis of social structure and function of social institutions, the dynamics of individual and group interactions, social stratification, social inequalities are also addressed.  
*IAI: S7 900.*  
(3 lec/0 lab) 3 sem hrs

**SOC 120 Racial and Ethnic Relations**

Racial and Ethnic Relations analyzes racial, religious, ethnic and other groups, examining the persistence of group identity, inter-group relations, social movements, government policy and related social problems.  
*IAI: S7 903D.*  
(3 lec/0 lab) 3 sem hrs

**SOC 130 Sociology of Family**

This course studies the social context and the dynamics of family patterns. The impact of demographics and culture on the changing role of the family in society is emphasized, and the areas of economy, social class, aging, and crises are examined in the social context of family. Family dynamics are explored, including socialization, gender roles, bonding and marriage, divorce and remarriage, and parenting and childhood.  
*IAI: S7 902.*  
(3 lec/0 lab) 3 sem hrs

**SOC 210 Social Problems**

This course offers an introductory survey of the major social problems that are exhibited within contemporary American society. The focus is on the behavior, causes, prevention and/or treatment of such social problems as poverty, crime, drug abuse and addiction, marital conflicts and child rearing, mental illness, racism and sexism.  
*IAI: S7 901.*  
(3 lec/0 lab) 3 sem hrs

**SOC 215 Introduction to Social Work**

This course offers an introduction to generalist social work within the context of social welfare service and social welfare policies, including their historical origins, conceptual framework and contemporary issues. In addition to providing an overview of practice methods, research considerations, policy issues, and social work values and ethics, the course emphasizes the role of social work with diverse and at-risk populations that face a variety of societal challenges. These groups include women, racial and ethnic minorities, the poor, the elderly, the disabled, gays and lesbians, and individuals with addictive diseases.  
(3 lec/0 lab) 3 sem hrs

**SOC 230 Sociology of Sex and Gender**

This course examines gender using sociological perspectives with respect to the social processes of translating cultural and social stratification differences into acquisition of gender roles. Gender roles are explored to obtain an understanding of the individual and social consequences on changing social definitions in family, education, economy, health, communication and violence.  
*IAI: S7 904D.*  
(3 lec/0 lab) 3 sem hrs

**SOC 240 Sociology of Deviance**

This course examines the principles and concepts of the causes and control of deviant behavior, emphasizing the major sociological theories of individual and group behavior and social controls. Topics such as drug use, sexual deviance, crime, mental disorders and career deviance are analyzed, and the stigma of deviant identity among specific groups, including the homeless and the mentally ill, is considered.  
(3 lec/0 lab) 3 sem hrs

**Spanish (SPN)**

See also Health Care Interpreting (HCI).

**SPN 101 Elementary Spanish I**

This course emphasizes the four basic skills (listening, speaking, reading and writing) essential to a communicative approach to language learning. Students learn to interact effectively in a variety of situations. Students also become aware of the importance of effective communication in a culture of those who speak Spanish and their contributions to the world.

(3 lec/0 lab)

3 sem hrs

**SPN 102 Elementary Spanish II**

This continuation of SPN101 is designed to provide students with continued growth and specialization in the four essential skills (listening, speaking, reading and writing). It emphasizes a communicative approach to language learning.

*Recommended Prereq:* SPN101 or one year of high school Spanish or its equivalent.

(3 lec/0 lab)

3 sem hrs

**SPN 103 Spanish Grammar and Composition**

Designed to help bilingual students interested in the field of interpretation and translation to review their Spanish grammar, this course consists of detailed study and practice emphasizing technical aspects, with a focus on the terminology and rules of formal Spanish grammar. Students are expected to understand parts of speech and verb tenses, describe rules for grammar, and memorize regular and irregular verb forms as they learn and practice general guidelines of how to write a composition. The class is conducted in Spanish.

*Recommended Prereq:* Native or near-native fluency in Spanish.

(3 lec/0 lab)

3 sem hrs

**SPN 110 Survival Spanish I**

This is a beginning-level course designed for those who wish to communicate with Spanish-speaking people on a regular basis. Emphasis is on vocabulary and grammar rules that are of value when listening to, speaking, reading and writing basic Spanish.

(3 lec/0 lab)

3 sem hrs

**SPN 111 Survival Spanish II**

This continuation of SPN110 is designed for those who wish to converse with and relate to Spanish-speaking persons on a regular basis. Emphasis is on increasing the student's ability and confidence in listening to, speaking, reading and writing Spanish. Focus is on more specific vocabulary and grammar essential for workplace needs.

*Recommended Prereq:* SPN110 or its equivalent.

(3 lec/0 lab)

3 sem hrs

**SPN 201 Intermediate Spanish I**

This course reviews the language content of the first year of study. It introduces intermediate skills and provides the student with ample practice in interactive conversation, with a special emphasis on the development of oral proficiency and creative composition. Furthermore, it promotes a greater understanding of the Hispanic cultures through the study and discussion of contemporary Spanish and Hispanic American readings.

*Recommended Prereq:* SPN102 or two years of high school Spanish or its equivalent.

(3 lec/0 lab)

3 sem hrs

**SPN 202 Intermediate Spanish II**

Intermediate Spanish II is designed to provide students with extensive practice in conversation, composition and reading with emphasis on spontaneous language production. It promotes an even greater understanding of the Hispanic cultures through the study and enjoyment of some contemporary Spanish and Hispanic American literature and art. Students communicate both orally and in writing on a variety of selected topics, allowing them to expand and practice their vocabulary, grammatical usage and idiomatic language at a higher level.

*Recommended Prereq:* SPN201 or three years of high school Spanish or its equivalent.

*IAI: HI 900.*

(3 lec/0 lab)

3 sem hrs

**SPN 205 Spanish for Native Speakers**

This course introduces native/near native heritage learners to elements of history, authentic literature, culture and writing in order for them to become more proficient in their heritage, culture and language. Students explore the nuances of Spanish in formal and informal contexts that use standard or nonstandard grammar and vocabulary, with emphasis on reading, writing and vocabulary building.

*Recommended Prereq:* Native or near-native fluency in Spanish.

*IAI: HI 900.*

(3 lec/0 lab)

3 sem hrs

**SPN 211 Conversational Spanish**

This course provides intermediate-level students with intensive practice in structured and spontaneous conversation in Spanish. Emphasis is on helping the student to become more fluent in responding to spoken Spanish and in initiating conversations with Spanish speakers. Students also learn how to handle vocabulary deficits. Vocabulary targets student needs.

*Recommended Prereq:* SPN102 or SPN111 or two years of high school Spanish.

(3 lec/0 lab)

3 sem hrs

**SPN 215 Introduction to Hispanic Literature**

This course introduces students to selected masterpieces by Hispanic writers from a variety of periods. It is conducted entirely in Spanish to focus on discussions of authors and their literary works. This course also allows students to enhance their writing abilities in Spanish through the readings and class discussions.

*Recommended Prereq:* SPN202 or near native speaker.

(3 lec/0 lab)

3 sem hrs

**Surgical Technology (SUR)****SUR 100 Principles of Surgical Technology**

This course provides an overview of the surgical technology profession and develops concepts and principles required for successful participation as a member of the surgical team. Topics include: role/responsibilities of the surgical technologist, patient needs, legal/ethical issues, the surgical environment, sepsis, OSHA regulations, and basic patient care and safety. The course includes classroom and lab instruction, with observation experiences in the surgical, GI lab, and sterile processing settings.

*Prereq:* Program admission; BIO250, BIO260, and HIT105; or concurrent enrollment.

*Coreq:* SUR110.

(2.5 lec/3 lab)

4 sem hrs

**SUR 110 Surgical Pharmacology**

This course introduces principles of intraoperative pharmacology as prepared and delivered by the surgical technologist, with an emphasis on patient safety. Topics include weights and measurements, drug conversion, interpretation of prescriptive orders, drug classification and concepts of anesthesia administration. The legal aspects of medication administration as well as the roles of the surgical technologist, registered nurse and anesthesia team in intraoperative pharmacology are examined.

*Prereq:* Program admission; BIO250, BIO260, and HIT105; or concurrent enrollment.

*Coreq:* SUR100.

(2 lec/0 lab)

2 sem hrs

**SUR 120 Instrumentation and Practices Common to Surgical Procedures**

This course orients the student to the clinical environment and provides experience with basic skills necessary to the surgical technologist or perioperative nurse. Topics include: scrub techniques, sterile gowning, gloving and draping, surgical equipment, instruments, sutures, and dressings required for surgeries in various medical fields, processing of instruments and supplies, and environmental sanitation. Clinical experience in the central processing area is included.

*Prereq:* Program admission; SUR100.

(3 lec/4 lab)

5 sem hrs

**SUR 150 Health Problems and Surgical Procedures I**

An introduction to surgical procedures, incisions, wound closure, operative pathology and common complications as applied to general and specialty surgery is provided to the surgical technology or perioperative nursing student. The course includes a review of anatomy, physiology, pathology, and surgical interventions for procedures in the following areas: general, obstetrical and gynecologic, thoracic, peripheral vascular, otologic, head and neck, and plastic and reconstructive.

*Prereq:* Program admission; SUR100; SUR110; SUR120.

*Coreq:* SUR151.

(2 lec/0 lab)

2 sem hrs

**SUR 151 Surgical Tech Externship I**

This course provides students with 240 hours of hands-on clinical experience in the surgical setting for the following surgical procedures: general (lower GI), obstetrical and gynecologic, thoracic, peripheral vascular, otologic, head and neck, and plastic and reconstructive.

*Prereq:* Program admission; SUR100; SUR110; SUR120.

*Coreq:* SUR150.

(0 lec/15 lab)

3 sem hrs

**SUR 200 Health Problems and Surgical Procedures II**

An introduction to surgical procedures, incisions, wound closure, operative pathology and common complications as applied to general and specialty surgery is provided to the surgical technology student. The course includes a review of anatomy, physiology, pathology and surgical interventions for procedures in the following areas: general, urologic, orthopaedic, cardiac, neurologic and ophthalmic.

*Prereq:* Program admission; SUR120; SUR150; SUR151.

*Coreq:* SUR201; SUR220.

(2 lec/0 lab)

2 sem hrs

**SUR 201 Surgical Tech Externship II**

This course provides students with 240 hours of hands-on clinical experience in the surgical setting for the following surgical procedures: general (upper GI), urologic, orthopaedic, cardiac, neurologic, and ophthalmic.

*Prereq:* Program admission; SUR150; SUR151.

*Coreq:* SUR200; SUR220.

(0 lec/15 lab)

3 sem hrs

**SUR 220 Seminar in Surgical Technology**

This course serves as the capstone experience for the surgical technology student's entry into the workplace as a technical professional. Current issues in healthcare and clinical practice, career opportunities and career-seeking strategies are discussed. Topics also include professionalism, recognition as a member of the healthcare/surgical team, and certification.

*Prereq:* Program admission; SUR150; SUR151.

*Coreq:* SUR200; SUR201.

(.5 lec/0 lab)

.5 sem hrs

**Sustainability (SUS)****SUS 101 Creating Your Sustainable Future**

In this course, students think sustainably about the climate crisis, fuel, renewable energy, agriculture, conserving water, poverty and wealth. Students calculate carbon footprints and explore solutions for the future.

(3 lec/0 lab)

3 sem hrs

**SUS 205 Survey of Environmental Studies - Water**

This seminar course addresses the topic of water as a limited resource from a multidisciplinary perspective, including disciplines such as earth science, philosophy, chemistry, biology, economics, business and psychology.

(3 lec/0 lab)

3 sem hrs

**Theatre (THE)****THE 100 Theatre Appreciation**

This course envelops all elements of theatre as an art form: the play, playwright, acting, directing, and the production elements of lighting, set design, costumes, make up, props, sound and theatre management. Students also study the playwrights' lives and their societies.

*Recommended Prereq:* Literature course(s); Humanities course(s); History course(s).

*IAI:* F1 907.

(3 lec/0 lab)

3 sem hrs

**THE 110 The Art of Oral Interpretation**

This course examines and explores literature from an oral performance perspective. Literary selections include the short story, poetry, drama and nonfiction. Emphasis is placed on the development of the human voice and the use of bodily movement as instruments to be used by the interpreter of literature. Incorporating the study of social and cultural contexts of literature is a primary part of a pre-performance analysis and complements the oral interpretation.

*Recommended Prereq:* COM110; THE201; THE202; English Literature course(s).

*IAI:* TA 916.

(3 lec/0 lab)

3 sem hrs

**THE 130 Diversity in American Theatre**

This course examines American dramas and dramatists that reflect the racial, immigrant and minority experience in the U.S. The study includes an analysis of themes, conflicts and racial/ethnic/minority characterizations in a historical, social and cultural contexts. The course demonstrates how theatre as an art form reflects and comments on society.

*Recommended Prereq:* Literature course(s); History course(s); Sociology course(s).

*IAI:* F1 909D.

(3 lec/0 lab)

3 sem hrs

**THE 201 Fundamentals of Acting I**

This course is an introductory course for the beginning actor that includes acting theories, stage movement, character development, improvisation, memory, monologue, and scene work. Emphasis placed on the development of observation, sense and emotion memory, focus and concentration.

*Recommended Prereq:* COM110; THE110.

*IAI:* TA 914.

(3 lec/0 lab)

3 sem hrs

**THE 202 Fundamentals of Acting II**

This continuation of THE201 is designed for the serious acting student who wishes to pursue acting for performance or for theatre education. Analysis of play text includes intention, scoring and subtext, and tempo. Incorporated in the scene work are techniques for developing contemporary and classical characters for the stage.

*Recommended Prereq:* COM110; THE110.

*Prereq:* THE201.

(3 lec/0 lab)

3 sem hrs

**THE 205 Creative Learning Applications**

Focusing on the need for creativity in the learning process, this course emphasizes the need for developing the imagination in all types of learning contexts: education, business, community and government. The link between participatory learning and creativity as an effective delivery mode is demonstrated using a variety of theatre and creative dramatic exercises.

*Recommended Prereq:* Education course(s).

(3 lec/0 lab)

3 sem hrs

**THE 210 Theatre Practicum**

This experiential course offers the student the opportunity to explore all aspects of theatre production both in acting and theatre production. The course also includes participation in a touring children's theatre company. The Children's Theatre component incorporates the essential skills needed for both playwriting and acting for a children's audience. *Recommended Prereq:* COM110; ENG228; THE201 or THE202.

(1.5 lec/3 lab)

3 sem hrs

**THE 220 Musical Theatre Practicum**

This is a performance-oriented course designed for the performing arts student who exhibits interest and talent in both acting and voice. Acting/voice workshops, basic movement and choreography, rehearsal, and performance make up the course content. Audition techniques are introduced into the course and include monologue and vocal selection, movement, and audition interview skills. A brief history of the musical theatre genre is also incorporated. Note: Students are required to audition for cast placement.

*Recommended Prereq:* COM110; THE201 or THE202.

(1.5 lec/3 lab)

3 sem hrs

**THE 296 Special Topics/Theatre**

This course offers in-depth exploration of a special topic, issue or trend in the theatre field. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.

(0 to 3 lec/0 to 6 lab)

1 to 3 sem hrs

**Therapeutic  
Massage (TMS)****TMS 100 Introduction  
to Therapeutic Massage**

This course provides students with an introduction to massage therapy techniques and principles. Emphasis is placed on Swedish massage techniques primarily relating to the back, arms and legs. Topics covered include appropriate draping techniques, benefits, contraindications, basic strokes, and elementary anatomy and physiology. Successful completion with a grade of C or better is required prior to admission to the therapeutic massage program.

(5 lec/1 lab)

1 sem hrs

**TMS 110 Professional Foundations  
of Therapeutic Massage**

This course exposes the student to major concepts, terminology, and the legal and ethical issues involved in therapeutic massage. Topics include history, contemporary development, professional ethics, scope of practice, and contemporary issues in the profession.

*Prereq:* Program admission; BIO260; HIT105; TMS100.*Coreq:* BIO262; TMS120.

(2 lec/0 lab)

2 sem hrs

**TMS 120 Massage Techniques I**

Basic theory and techniques of massage therapy are reintroduced and expanded on in this beginning course. Course content includes benefits, indications, contraindications, hygiene, sanitation, draping, body mechanics, client interviews, equipment and supplies. Massage techniques combine to culminate in a full body massage.

*Prereq:* Program admission; BIO260; HIT105; TMS100.*Coreq:* BIO262; TMS110.

(2 lec/3 lab)

3 sem hrs

**TMS 125 Massage Techniques II**

This course introduces the massage therapy student to intermediate level therapeutic techniques. Joint movements, body mobilizations, muscle energy techniques, sports massage, stretching and exercise are incorporated in theory and hands-on classes. Contemporary massage and bodywork topics include myofascial techniques, trigger point therapy, reflexology and others.

*Prereq:* Program admission; BIO262\*; TMS110\*; TMS120 (\*concurrent enrollment allowed for accelerated certificate or degree program).*Coreq:* TMS140.

(2 lec/3 lab)

3 sem hrs

**TMS 130 Massage Techniques III**

This course covers the principles of holistic practice addressing body, mind and spirit. An introduction of aromatherapy, hydrotherapy, herbs, nutrition, stress reduction, meditation and the history of Asian bodywork approaches is presented. This course also includes massage for special populations; types of physical injuries; muscles involved in common injuries; and physical assessment of posture, tissues and range of motion. All of this information is used to plan massage sessions, plan client self-care and give appropriate referrals in a holistic manner. Chair massage is also included in this course, in order to work with special populations.

*Prereq:* Program admission; TMS125; TMS140.*Coreq:* TMS146; TMS164.

(2 lec/4 lab)

4 sem hrs

**TMS 140 Massage Clinical I**

This course is a supervised clinical experience designed to provide training and practical experience in therapeutic massage. Students must spend 30 hours at on- or off-campus locations experiencing real-life application of massage techniques. In addition, students spend sixteen hours in seminar discussing clinical situations, client plans and S.O.A.P. charting, as well as learning the indications and contraindications of massage with regard to common medications.

*Prereq:* Program admission; BIO262\*; TMS110\*; TMS120 (\*concurrent enrollment allowed for accelerated certificate or degree program).*Coreq:* TMS125.

(1 lec/2 lab)

2 sem hrs

**TMS 146 Massage Clinical II**

This course is a supervised clinical experience designed to provide training and practical experience in therapeutic massage. Students must spend 30 hours at on- or off-campus locations experiencing real-life application of massage techniques. In addition, students spend 16 hours in seminar discussing clinical situations.

*Prereq:* Program admission; TMS125; TMS140.*Coreq:* TMS130; TMS164.

(1 lec/2 lab)

2 sem hrs

**TMS 150 Business Practices  
for Massage Therapists**

This course provides an introduction to the major aspects of building and maintaining a successful massage therapy practice. Topics covered include starting a new practice, establishing a bookkeeping system, maintaining client records, and delivering a business plan.

*Prereq:* Program admission; TMS110.

(3 lec/0 lab)

3 sem hrs

**TMS 164 Pathology  
for the Massage Therapist**

This course studies how therapeutic massage can affect pathologic conditions of the human body. Beginning with the fundamental concepts of pathology and homeostasis, pathologic conditions of the integumentary system, musculoskeletal system, nervous system, cardiovascular system, lymph and immune system, respiratory system, digestive system, endocrine system, urinary system and reproductive system are covered.

*Prereq:* Program admission; BIO260, or BIO270 and BIO272.

(2 lec/2 lab)

3 sem hrs

**TMS 210 Ethical, Legal and  
Professional Issues in  
Therapeutic Massage**

This course provides students with an in-depth knowledge of legal, ethical, and professional issues involved in therapeutic massage. Topics include licensure and certification, professional ethics and standards, scope of practice, professional boundaries, ethical decision making, professional communication, treatment documentation and insurance billing.

*Prereq:* Program admission (degree); certificate in therapeutic massage; minimum of 500 documented contact hours of training in therapeutic massage.

(2 lec/0 lab)

2 sem hrs

**TMS 220 Outcome Based Massage I**

This course presents the application of therapeutic massage techniques in relation to pathology. Assessment of posture, movement patterns, referral pains, range of motion, and soft tissue of the upper body are covered as well as therapeutic massage for acute or chronic musculoskeletal pain or problems in the upper back, chest, head, neck, shoulders and upper extremities. In addition, the student explores knowledge of personal holistic well-being and learns to apply this knowledge when working with clients.

*Prereq:* Program admission (degree).

*Coreq:* TMS240.

(2 lec/3 lab)

3 sem hrs

**TMS 225 Outcome Based Massage II**

This course builds on the knowledge learned in Outcome Based Massage I. The application of therapeutic massage techniques in relation to pathology is expanded. Assessment of posture, movement patterns, referral pains, range of motion, and soft tissue of the lower body are covered as well as therapeutic massage for acute or chronic musculoskeletal pain or problems in the lower extremities, hips, lower back and abdomen. Massage for other specific chronic conditions such as cancer/hospice, fibromyalgia, lymphedema, GI problems, diabetes, and headaches are also instructed. In addition, the student expands knowledge of personal holistic well-being and learns to apply this knowledge when working with clients.

*Prereq:* Program admission; TMS220; TMS240.

*Coreq:* TMS245.

(2 lec/3 lab)

3 sem hrs

**TMS 240 Massage Clinical III**

This course is a supervised clinical experience designed to provide training and practical experience in therapeutic massage. Students work with clients with acute or chronic musculoskeletal pain or problems in the upper back, chest, head, neck, shoulder and upper extremities. Students must spend 45 hours at on- or off-campus locations experiencing real-life application of massage techniques. In addition, students spend eight hours in seminar discussing clinical situations.

*Prereq:* Program admission (degree).

*Coreq:* TMS220.

(.5 lec/3 lab)

1.5 sem hrs

**TMS 245 Massage Clinical IV**

This course is a supervised clinical experience designed to provide training and practical experience in therapeutic massage. Students work with clients who have acute or chronic musculoskeletal pain or problems with the low back, abdomen and lower extremities. Students also work with clients who have chronic problems such as cancer, fibromyalgia, lymphedema, GI problems, diabetes and headaches. Students must spend 45 hours at on- or off-campus locations experiencing real-life application of assessment and massage techniques. In addition, students spend eight hours in seminar discussing clinical situations.

*Prereq:* Program admission (degree); TMS220; TMS240.

*Coreq:* TMS225.

(.5 lec/3 lab)

1.5 sem hrs

**TMS 250 Prenatal Massage**

This course exposes the student to prenatal massage. Topics covered include the anatomical and physiological changes during pregnancy, labor and postpartum. Therapeutic massage techniques for each stage of pregnancy, and indications and contraindications for prenatal massage are covered.

*Prereq:* Program admission (degree); BIO260, TMS130, TMS146, TMS150, and TMS164; or a certificate in therapeutic massage and a minimum of 500 documented training hours in therapeutic massage.

(.5 lec/1 lab)

1 sem hrs

**TMS 253 Reiki I**

This course exposes the student to Level I Reiki, in which the students learn to transmit healing energy through the hands. Topics include the history of Reiki, chakra system and energetic bodies.

*Prereq:* Program admission; TMS110 and TMS120, or a minimum of 200 documented contact hours of training in therapeutic massage.

(.5 lec/1 lab)

1 sem hrs

**TMS 254 Reiki II**

This course builds on knowledge learned in Reiki I. Topics include distance healing, power of intention, and energy blockages.

*Prereq:* Program admission; TMS253.

(.5 lec/1 lab)

1 sem hrs

**TMS 297 Therapeutic  
Massage Internship**

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the therapeutic massage field. It provides students with 80 hours of on-site exposure to the therapeutic massage field in a medical facility. Students observe personnel and participate in various activities surrounding therapeutic massage care under the direct supervision of an experienced, licensed health care professional. In addition, students spend eight hours in seminar discussing internship experiences. Repeatable to a maximum of 3 semester hours; 1.5 semester hours may apply to the therapeutic massage degree.

*Prereq:* Program admission (degree); TMS220; TMS240.

(.5 lec/5 lab)

1.5 sem hrs

**Tourism, Travel and  
Event Planning (TOU)****TOU 100 Introduction  
to Travel and Tourism**

This course offers students a broad overview of the field of travel and tourism. Specific career options and organizations in the industry and current trends in travel and tourism are emphasized.

(3 lec/0 lab)

3 sem hrs

**TOU 205 Introduction to Meeting  
and Convention Planning**

This course provides insight into the meetings and convention industry. It will give the student a working knowledge of the planning process as it applies to meetings, conventions, and trade shows. In addition, the students will be exposed to attributes and professional standards for the meeting industry.

(3 lec/0 lab)

3 sem hrs

**Translation (TRA)****TRA 100 Introduction to Translation**

This course is designed to provide an introduction to translation. Students learn about the translation process, ethics, reference materials and software needs.

(2 lec/0 lab)

2 sem hrs

**TRA 110 Translation Laboratory:  
English/Spanish**

This laboratory course is designed to enhance through practice the student's ability to produce accurate translations by applying the translation process. Students work with non-technical documents and develop glossaries.

*Prereq:* Program admission; TRA 100 or concurrent enrollment; native or near-native fluency in English and Spanish; English/Spanish assessment.

(1 lec/2 lab) 2 sem hrs

**TRA 130 Medical Translation  
Laboratory: English/Spanish**

This laboratory course is designed to enhance the student's ability to produce accurate translations of general medical information and hospital and patient documentation.

*Prereq:* Program admission; TRA100; native or near-native fluency in English and Spanish; English/Spanish assessment.

(1 lec/2 lab) 2 sem hrs

**TRA 200 Advanced Translation  
Laboratory: English/Spanish**

This advanced translation laboratory presents a forum for students to enhance their translation skills in their chosen field of specialization.

*Prereq:* Program admission; TRA100; native or near-native fluency in English and Spanish; English/Spanish assessment.

(.5 lec/3.5 lab) 2 sem hrs

**Welding (WLD)****WLD 100 Survey of Welding**

This survey course covers the principles and practical application of the major manual and semi-automatic welding and cutting processes. The emphasis of this course is on the proper selection and use of each welding process.

(2 lec/2 lab) 3 sem hrs

**WLD 101 Blueprint  
Reading for Welders**

This course emphasizes the development of print reading for welders with a focus on the interpretation of drawings, welding symbols and dimensioning standards. Several practical problems and exercises are included.

(2 lec/0 lab) 2 sem hrs

**WLD 115 Oxy-Fuel  
Welding and Cutting**

The theory and practice of oxy-acetylene welding (OAW) and cutting equipment are featured in this course. Fusion welded and torch brazed joints are produced in various positions on low carbon steel.

(2 lec/2 lab) 3 sem hrs

**WLD 120 Shielded Metal  
Arc Welding I**

The theory and practice of SMAW (Shielded Metal Arc Welding- stick) are featured in this course. Process techniques using various types of mild steel electrodes in the four positions are practiced.

(2 lec/2 lab) 3 sem hrs

**WLD 122 Welding  
Inspection and Testing**

This course introduces the principles and applications of destructive and non-destructive testing and inspection of welds.

*Recommended Prereq:* WLD120 or consent of instructor.

(2 lec/2 lab) 3 sem hrs

**WLD 125 Gas Metal Arc and Flux  
Cored Arc Welding**

The theory and practice of GMAW (Gas Metal Arc Welding-MIG) and FCAW (Flux Cored Arc Welding) are featured in this course. Process techniques using mild steel and aluminum in the four positions are practiced. Welds are made using short circuit, spray and pulsed type transfers and aluminum is introduced.

(2 lec/2 lab) 3 sem hrs

**WLD 130 Gas Tungsten Arc Welding**

The theory and practice of GTAW (Gas Tungsten Arc Welding-TIG) are featured in this course. Process techniques using various types of mild steel, stainless steel and aluminum in the four positions are practiced.

(2 lec/2 lab) 3 sem hrs

**WLD 150 Metallurgy  
and Heat Treatment**

This study in the types and industrial uses of ferrous and nonferrous alloys is designed to study a material's tensile strength, hardenability, impact strength and Rockwell hardness. Non-destructive testing such as zygló, eddy current, spot check, magna flux and ultrasonic is introduced. Heat treatment ovens and process are also covered. Emphasis is placed on the manufacture, properties and applications of these materials in industry today. Powder metallurgy is also covered.

*IAI: IND 912.*

(3 lec/0 lab) 3 sem hrs

**WLD 155 Industrial Safety**

A practical approach to industrial safety from the level of the first line supervisor is discussed. OSHA guidelines, the Workmen's Compensation Act and the Toxic Disclosures Act are introduced.

(1 lec/0 lab) 1 sem hrs

**WLD 200 Fabrication and Weld Design**

This course emphasizes skill development in metal fabrication. Layout and welding of steel plate and other structures by prints and plans are practiced.

*Recommended Prereq:* WLD101.

(2 lec/2 lab) 3 sem hrs

**WLD 220 Shielded  
Metal Arc Welding II**

The theory and practice of SMAW (Shielded Metal Arc Welding - stick) on V-grooves are featured in this course. V-grooves with and without backing in all four positions are practiced.

*Recommended Prereq:* WLD120 or consent of instructor.

(2 lec/2 lab) 3 sem hrs

**WLD 221 Shielded  
Metal Arc Welding - Pipe I**

The theory and practice of SMAW (Shielded Metal Arc Welding - stick) on pipe are featured in this course. Process techniques using various types of mild steel electrodes in the 1G and 2G positions on pipe are practiced.

*Recommended Prereq:* WLD220 or consent of instructor.

(2 lec/2 lab) 3 sem hrs

**WLD 222 Shielded  
Metal Arc Welding - Pipe II**

The theory and practice of SMAW (Shielded Metal Arc Welding - stick) on pipe are featured in this course. Process techniques using various types of mild steel electrodes in the 5G and 6G positions on pipe are practiced.

*Recommended Prereq:* WLD221.

(2 lec/2 lab) 3 sem hrs

**WLD 231 Gas Tungsten  
Arc Welding - Pipe I**

The theory and practice of GTAW (Gas Tungsten Arc Welding - TIG) are featured in this course. Process techniques for mild steel pipe in 1G and 2G are practiced.

*Recommended Prereq:* WLD130 or consent of instructor.

(2 lec/2 lab) 3 sem hrs

**WLD 232 Gas Tungsten  
Arc Welding - Pipe II**

The theory and practice of GTAW (Gas Tungsten Arc Welding - TIG) are featured in this course. Process techniques for mild steel pipe in 5G and 6G are practiced.

*Recommended Prereq:* WLD231.

(2 lec/2 lab) 3 sem hrs

### WLD 296 Special Topics/Welding

This course offers in-depth exploration of a special topic, issue or trend in the welding field. Topics may include robotic and plastic welding or welding certification. Repeatable to a maximum of 12 semester hours for different special topics; 6 semester hours may apply to a degree or certificate.  
(0 to 3 lec/0 to 6 lab) 1 to 3 sem hrs

### WLD 297 Internship for Welding Technology

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the welding field. Acquired skills may include but are not limited to: welding with various processes, weld inspection/testing, print reading, fabrication, weld design, weld safety, weld metallurgy, manufacturing, layout/fitting, pipe welding and robotic arc welding. Eighty hours are required for 1 credit; a maximum of 3 semester hours can be taken per semester. Repeatable to a maximum of 4 semester hours; 6 semester hours from the welding internship courses (WLD297, WLD298, WLD299) may apply to the welding technology degree.  
*Prereq:* Consent of instructor.  
(0 lec/5 lab) 1 sem hrs

### WLD 298 Internship for Welding Technology

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the welding field. Acquired skills may include but are not limited to: welding with various processes, weld inspection/testing, print reading, fabrication, weld design, weld safety, weld metallurgy, manufacturing, layout/fitting, pipe welding and robotic arc welding. One hundred sixty hours are required for 2 credits; a maximum of 3 semester hours can be taken per semester. Repeatable to a maximum of 6 semester hours; 6 semester hours from the welding internship courses (WLD297, WLD298, WLD299) may apply to the welding technology degree.  
*Prereq:* Consent of instructor.  
(0 lec/10 lab) 2 sem hrs

### WLD 299 Internship for Welding Technology

Combining academic credit with professional experience, this internship allows students to learn about, observe and work in the welding field. Acquired skills may include but are not limited to: welding with various processes, weld inspection/testing, print reading, fabrication, weld design, weld safety, weld metallurgy, manufacturing, layout/fitting, pipe welding and robotic arc welding. Two hundred forty hours are required for 3 credits; a maximum of 3 semester hours can be taken per semester. Repeatable to a maximum of 6 semester hours; 6 semester hours from the welding internship courses (WLD297, WLD298, WLD299) may apply to the welding technology degree.  
*Prereq:* Consent of instructor.  
(0 lec/15 lab) 3 sem hrs

## World Wide Web/Internet (WEB)

See also Computer Information Systems (CIS) and Information and Communication Technology (ICT).

### WEB 105 Integrating Web Technologies in Business

This course is an introduction of concepts of eBusinesses and utilizing Web 2.0 technologies in the workplace. Topics include eBusiness components, computer-mediated communication, wikis, professional and social networks, and other technologies. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.  
(3 lec/0 lab) 3 sem hrs

### WEB 110 Web Development With HTML/XHTML

This course is an introduction to the World Wide Web and its authoring environment, Hypertext Markup Language (HTML) and Extensible Hypertext Markup Language (XHTML). Web design techniques are discussed, analyzed and implemented, along with methods to enhance Web pages using the following features: forms, frames, image maps, multimedia, cascading style sheets, sound and video. In addition, server considerations and bandwidth are discussed.  
(2 lec/2 lab) 3 sem hrs

### WEB 111 Web Site Design

Using Web 2.0 technologies, HTML/XHTML, CSS and various Web design programs, students engage in creating a live and fully functional Web site in a group format for non-profit organizations. Repeatable to a maximum of 9 semester hours; 3 semester hours may apply to a degree or certificate.  
*Recommended Prereq:* WEB110 and WEB230.  
(2 lec/2 lab) 3 sem hrs

### WEB 140 JavaScript Programming

This course is designed to introduce the student to JavaScript. Concepts and techniques include integrating HTML with JavaScript, creating pop-up windows, adding scrolling messages, enhancing image and form objects, working with cookies, among others. Students are also exposed to AJAX applications.  
*Recommended Prereq:* WEB110; CIS115.  
(2 lec/2 lab) 3 sem hrs

### WEB 150 Comprehensive XML

This course provides a detailed study of XML and its role in the area of the World Wide Web. It includes a discussion of DTDs, DMLs and schemas. Attention is also given to the emerging area of Web Services.  
*Recommended Prereq:* WEB110.  
(2 lec/2 lab) 3 sem hrs

### WEB 205 Emerging Internet and Web Technologies

This course is designed to expose students to new developments in the World Wide Web and the Internet. Topics include Web 2.0, RIA, Ajax, RSS, Ruby, Flex and other new technologies. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.  
*Recommended Prereq:* WEB110.  
(3 lec/0 lab) 3 sem hrs

### WEB 220 PHP Programming

This course is designed to introduce students to the PHP language and issues associated with writing applications on a Linux Web server. Topics to be covered include CGI programming and integrating database management software with applications on the Linux platform. Repeatable to a maximum of 9 semester hours; 3 semester hours may apply to a degree or certificate.  
*Recommended Prereq:* WEB110; CIS115.  
(2 lec/2 lab) 3 sem hrs

### WEB 230 Web Authoring With Dreamweaver

This course introduces how to develop exciting, integrated, and interactive Web sites using Dreamweaver. Also emphasized is the enhancement of Web pages using the following features: Flash text, Flash objects, optimized graphics, digital movies, integration of Fireworks graphics. Design techniques are discussed, analyzed and implemented. Browser and server considerations are covered. Repeatable to a maximum of 9 semester hours; 3 semester hours may apply to a degree or certificate.  
*Recommended Prereq:* WEB110 or consent of instructor; WEB111.  
(2 lec/2 lab) 3 sem hrs

### WEB 231 Web Authoring/Animation With Flash

This course introduces how to use, expand and control the graphic content of Web sites with Flash. Animated graphics, Flash movies and interactivity are utilized in Web sites. In addition, design techniques are discussed, analyzed and implemented. Browser and server considerations are also covered. Repeatable to a maximum of 9 semester hours; 3 semester hours may apply to a degree or certificate.  
*Recommended Prereq:* WEB110 or consent of instructor; WEB111.  
(2 lec/2 lab) 3 sem hrs

**WEB 235 Flash ActionScript**

Students are taught how to create input driven interactive Flash sites using ActionScript. Students learn to control timelines, MovieClips, Sprites, and manage XML data. Flex will also be discussed. Repeatable to a maximum of 12 semester hours; 3 semester hours may apply to a degree or certificate.

*Recommended Prereq:* WEB231 or consent of instructor.

*(2 lec/2 lab)*

*3 sem hrs*

*how to take the first step*

# Admissions and Registration

## Procedures for Admission

Waubonsee Community College has an open-door policy and welcomes all who can benefit from the courses and programs offered. Eligible students include high school graduates or the equivalent (GED), others 18 years of age and older, non-graduates aged 17 who have severed their connection with the high school system, and students younger than 18 years of age who meet established criteria.

To be placed in some programs or curricula, students may need to meet additional requirements as specified by that program and/or the Illinois Public Community College Act.

## Admission of Full-Time and/or Degree-Seeking Students

Students in the following categories need to submit a New Student Information Form, obtain proper course placement, and complete an Electronic Registration and Planning (E-RAP) session:

- full time (enrolled in 12 credit hours or more in one semester);
- applying for financial aid;
- seeking a degree or certificate.

See the New Student Information Form at the back of this catalog or online at [www.waubonsee.edu](http://www.waubonsee.edu).

While not usually required prior to registering, students may find it valuable to submit official transcripts from their previously attended high school, GED program, or college(s) to Registration and Records for course placement purposes. Waubonsee cannot request these; students must personally complete this request for each school from which they order transcripts.

Students may be placed into courses based on their ACT scores, placement test results or prior coursework. Visit [www.waubonsee.edu/placement](http://www.waubonsee.edu/placement) for more specific criteria and details.

Waubonsee's placement testing measures current skill levels in reading, writing and mathematics. Math review workshops are available through the Learning Enhancement Center, and an online tool available at [www.waubonsee.edu/placement](http://www.waubonsee.edu/placement). Self-study materials may be purchased in the college bookstore or by visiting the ACT website at [www.compass-test.com](http://www.compass-test.com).

Once course placement has been obtained, all new full-time and/or degree-seeking students must complete the Electronic Registration and Planning (E-RAP) tutorial.

All students pursuing a transfer degree program must meet the Illinois Board of Higher Education admission standards. Those standards are described in this catalog under "Transfer Degrees Program." Students who do not fully meet these requirements are required to make up any deficiencies during their first year as a full-time student.

## New Student Registration and Orientation

All first-time, full-time students are required to complete a specific registration and orientation process. The two major components of this process are E-RAP and New Student Orientation.

### E-RAP

New first-time, full-time students must complete an Electronic Registration and Planning (E-RAP) tutorial before registering for courses. The tutorial explains Waubonsee's degree and certificate programs and teaches students how to use the college catalog, credit schedule and test scores to select courses. Students then register and pay for their first semester of courses online.

Students can access E-RAP through the mywcc portal at [mywcc.waubonsee.edu](http://mywcc.waubonsee.edu). An X-Number is needed to login.

### NEW STUDENT ORIENTATION FOR FULL-TIME AND/OR DEGREE SEEKING STUDENTS

After completing E-RAP and registering for courses, new full-time students must also register for a New Student Orientation session (NSO 600). The registration process is the same as for any other course, but these sessions are free and do not earn college credit.

New Student Orientation sessions will offered May through August for fall term and November through January for spring term. To view available dates and times, visit [www.waubonsee.edu/schedules](http://www.waubonsee.edu/schedules). For more information, see "Getting Started at Waubonsee" on page 10 or call Admissions at (630) 466-7900, ext. 5756.

## Admission of Part-Time and/or Non-Degree-Seeking Students

Students enrolling in fewer than 12 credit hours per semester and/or not seeking a degree or certificate should complete the New Student Information Form before registering for their first semester of classes. The form can be found at the back of this catalog or online at [www.waubonsee.edu](http://www.waubonsee.edu).

Prior to enrolling in English or mathematics courses, students in this category are required to obtain proper course placement based on ACT scores, placement testing results or previous coursework. Visit [www.waubonsee.edu/placement](http://www.waubonsee.edu/placement). Math review workshops are available through the Learning Enhancement Center and an online tool is available at [www.waubonsee.edu/placement](http://www.waubonsee.edu/placement). Self-study materials may be purchased in the college bookstore or by visiting the ACT website at [www.compass-test.com](http://www.compass-test.com).

New part-time and/or non-degree-seeking students may register for courses in person or by mail or fax. See registration instructions in the current schedule of courses or online at [www.waubonsee.edu/register](http://www.waubonsee.edu/register).

## Admission of Transfer Students

Reverse transfer students are transferring from another college or university to Waubonsee. These students follow the procedures described earlier for new full-time and/or degree-seeking students. Reverse transfer students should also complete a Transcript Evaluation Request Form as soon as Waubonsee receives their official transcripts. A transcript evaluation should be done at the Counseling Center before course placement or E-RAP are completed. Transfer grades are not included in computing the grade point average at Waubonsee. Transcripts from non-regionally accredited institutions are individually evaluated. Results will be mailed to the student in approximately four weeks.

## Admission of Noncredit Students

Students interested in Community Education or Workforce Development should complete the Noncredit Registration Form, found in each semester's noncredit schedule or online at [www.waubonsee.edu/register](http://www.waubonsee.edu/register).

## Reclassification of Student Status

A non-degree-seeking student who decides to pursue a degree or certificate or a part-time student who wishes to enroll in 12 or more semester hours must follow the procedures described earlier for new full-time and/or degree-seeking students.

## Limited Enrollment Programs

Certain programs at Waubonsee have specific entry requirements and limited enrollment capacities. Depending on the number of applicants, enrollment priority for these program courses may be based on district residency, district employment or other contracted instructional agreements. Students who have been granted in-district fees due to district employment or other contractual agreements are not considered district residents.

## Honors Program

Waubonsee Community College has offered an academic Honors Program to its most academically successful students for more than 30 years. The Honors Program is designed to recognize academically talented and highly motivated students and to assist the development of independent and creative thinking skills through special honors courses and individual class projects.

### PARTICIPATION IN

#### THE HONORS PROGRAM:

- fosters collaborative relationships between students and faculty;
- provides a competitive advantage in college admissions and scholarship applications;
- features a special transcript notation indicating honors courses taken;
- results in Graduation with Honors (special notation to the student's diploma and transcript) if the student completes 15 semester hours of honors classes with an overall GPA of 3.5 in all courses;
- provides consideration for educational expenses.

Students are required to apply for admission to the Honors Program. Students may consider 100 and 200 level course work for the Honors Program. Courses that are scheduled for less than eight weeks and developmental courses are not eligible.

## Criteria for Admission to the Honors Program

Note: Documentation must be provided as proof that criteria have been met.

### STUDENTS ENTERING

#### COLLEGE FOR THE FIRST TIME:

- are required to have a high school diploma or its equivalent;
- be in the top 10% of their high school graduating class; OR
- have an ACT score of 27 or higher; OR
- have an SAT score of 1150 or higher;
- submit a letter of recommendation from an individual who can verify their ability to succeed in an honors program;
- must obtain Honors Committee approval before taking classes for honors credit.

### STUDENTS WITH

#### EXISTING COLLEGE CREDIT:

- must have a minimum of 12 college transfer-level hours from Waubonsee or another accredited institution with a minimum GPA of 3.50;
- must verify that this credit has been earned within the last 5 years;
- submit a letter of recommendation from an individual who can verify their ability to succeed in an honors program;
- must obtain Honors Committee approval before taking classes for honors credit.

The goal of the Honors Program is to provide opportunities to broaden and enrich the college experience of intellectually motivated students at Waubonsee Community College. Honors students who do not complete course requirements by the end of the semester are subject to the "I" grade and associated policies. For additional information, contact the Honors Program Director or the Dean for Communications and Library Services (see directory).

## Admission of High School Students

Current high school students age 16 and older will be permitted to enroll in credit courses for which they have met the prerequisites. Students must submit written authorization from their designated high school official noting course(s) to be taken and if course(s) will be used to meet high school requirements. See the High School Student Authorization form online at [www.waubonsee.edu](http://www.waubonsee.edu).

Enrollment is limited to 7 credit hours per semester. Students who are also participating in dual enrollment programs may petition for an enrollment overload. The form is available at Registration and Records. High school students are not eligible to audit courses.

High school students younger than 16 years of age may be admitted to a credit course with the prior approval of the Dean for Enrollment Management and Student Life. Students must submit written authorization from their designated high school official noting the course(s) to be taken and if the course(s) will be used to meet high school requirements. See the High School Student Authorization form online at [www.waubonsee.edu](http://www.waubonsee.edu). Transcripts and letters of recommendation are also required, and in some cases, students will be asked to complete placement testing.

Students who are pursuing high school level curriculum through home schooling or other means are eligible to enroll based on similar requirements as students enrolled in accredited high schools.

College-level courses are considered to be an enhancement to the high school curriculum. High school students are required to meet the same standards as any other college student and are awarded the same college credit for courses successfully completed. These credits will appear on the student's permanent college transcript regardless of the grade earned.

For questions regarding enrollment of high school students, contact Registration and Records (see directory).

## Admission of International Students (I-20)

A person who is a citizen of a country other than the United States and is requesting full-time admission to Waubonsee Community College is considered an international student. Persons requesting international status at Waubonsee for entry or continued stay in the United States must be doing so for educational purposes only. To apply for international student status, this person must:

1. Submit an Application for Status as International Student (I-20/F-1 status). Application packets are available from the Graduate/Credentials Analyst or Counseling. Applications and all supporting documents must be received by the following deadlines: July 1 for fall semester, Nov. 1 for spring semester and April 1 for summer semester.
2. If the student's native language is NOT English, he/she must take the Test of English as a Foreign Language (TOEFL) and attain a minimum score of 500 (paper-based) or 173 (computer-based) or 61 (Internet-based) on the examination. For information on the test, write TOEFL Services, Educational Testing Services, P.O. Box 6151, Princeton, NJ 08541-6151, USA or visit the TOEFL website at [www.toefl.org](http://www.toefl.org).
3. Complete the Educational Background forms and submit transcripts from high school and college or the equivalent. If the transcripts are NOT from a United States high school or college, they must be submitted for evaluation at the applicant's expense by an approved credential evaluator. Contact: Educational Credential Evaluators, P.O. Box 514070, Milwaukee, WI 53202-3470 or at the ECE website at: [www.ece.org](http://www.ece.org).

4. Present the Immigration and Naturalization Service Affidavit of Support form (I-134). This form must be completed by a resident of the United States. The statement is necessary in recognition of the fact that the college does not provide food, housing, health or transportation services.

The Graduate/Credentials Analyst will notify the applicant of admission approval or denial after the deadlines listed above. If accepted, the necessary U.S. Immigration and Customs Enforcement (ICE) form (I-20) will be forwarded to the student with instructions for submission and enrollment at the college.

If approved for international student status, a person must observe the following:

- enroll each semester in a minimum of 12 semester hours;
- pay international tuition rates (see Tuition and Fees);
- follow the standard academic and disciplinary policies of the college.

Refer all questions regarding the international status of a student to the Graduate/Credentials Analyst (see directory).

## Joint Admission:

### ***Waubonsee and Aurora University Waubonsee and Northern Illinois University***

Waubonsee Community College has entered into joint admissions agreements with Aurora University and Northern Illinois University. The joint admissions agreements provide a means for students to be simultaneously admitted to Waubonsee and either Aurora University or NIU. These agreements simplify the process of degree completion for students who wish to begin at Waubonsee and continue at Aurora University or NIU.

When jointly admitted, students work with counselors at both Waubonsee and the four-year school to plan courses for maximum transferability. Students can enter Aurora University or NIU after completing the Waubonsee degree without going through any further admissions processes.

To be eligible for joint admissions under these agreements, students must meet all applicable admissions requirements for both Waubonsee and Aurora University or NIU. Students agree in writing to the exchange of admissions and advising information between Waubonsee and the four-year school. The program is open to any eligible student at Waubonsee. For further information and application materials, contact Counseling at Waubonsee (see directory), Aurora University at (630) 844-6535, or Northern Illinois University at (815) 753-0446 and ask for the Transfer Center.

**See directory inside back cover.**

## Auditing a Course

Students who wish to audit a course without receiving credit can contact Registration and Records. Audit registration is not available for skill or performance courses. Students registering for a course for credit have first priority. Auditing students (including senior citizens) pay full tuition and fees, and they must meet the course pre-requisites. See “Tuition and Fees” for details. Students registered for credit may not change to audit status after the midterm of a course. Once the course has started, auditing students cannot change to credit status. High school students are not eligible to audit courses.

## Withdrawal From a Course

Students are responsible for officially withdrawing from courses they are no longer attending. A student who withdraws from a credit course after the end of refunds will receive a withdrawal grade (not used in calculating GPA). Financial aid rules may vary. See Waubonsee’s “Financial Aid Handbook” for details or contact the Financial Aid Office before withdrawing.

The last day to withdraw from a course depends on the course length. See “Important Dates,” listed in each semester schedule or online at [www.waubonsee.edu](http://www.waubonsee.edu).

## Administrative Withdrawal

Waubonsee Community College reserves the right to administratively withdraw those students who are not actively attending or pursuing course objectives as established by their instructors. Students also may be administratively withdrawn if they are enrolled in courses not consistent with placement testing and course prerequisites. Students who appear before the Student Conduct Board may also be subject to administrative withdrawal. Call Student Development for more information (see directory).

## Withdrawal Due to Active Military Service

In accordance with Illinois Statute (110 ILCS 675/20-135), students who withdraw from courses when called to active military service may have the option to receive a refund or future tuition credit, depending on the date of withdrawal. Withdrawn students will receive a final grade notation that reflects that the withdrawal is due to military service. Contact the Financial Aid Office for details.

WAUBONSEE

*an educational value*

# Tuition and Fees

## Tuition and Fees

This section spells out the tuition and fees Waubonsee charges for credit courses. By registering for a credit course, students agree to pay the required tuition and fees for that course. Tuition is charged per semester hour and varies depending upon residency. Tuition rates and fees are subject to change, and students should anticipate increases in tuition and fees as they continue their education at Waubonsee.

## Residency

For the purpose of determining fees and tuition, students enrolling at Waubonsee are classified as district students, out-of-district students or out-of-state students.

## District Students

To qualify as district students, individuals must reside within the district for at least 30 days immediately prior to the date established by Waubonsee for classes to begin.

Special cases regarding legal residency of students are considered individually. Students may be required to furnish legal evidence proving residency in the district. Contact Registration and Records for more information (see directory).

Students employed by a business in the district for at least 35 hours per week may be granted in-district tuition. These cases are considered individually, and students may be required to furnish legal evidence of employment. In these cases, students who are granted in-district fees are not considered district residents.

## Out-of-District Students

Students who reside in Illinois for at least 30 days prior to the date established by the district for classes to begin, but outside of Community College District 516, are considered out-of-district students. Students may be required to furnish legal evidence proving residence.

Out-of-district students who want to attain an occupational degree or certificate offered only at Waubonsee and not at their own district community college should refer to "Cooperative Agreements and Tuition Chargeback."

## Out-of-State Students

Students whose legal residence is outside of Illinois are considered out-of-state students.

## Tuition

Tuition for college credit courses is charged per semester hour and is determined by residency.

### *\*Estimated Tuition per Semester Hour*

In-district student.....	\$95.00
Illinois out-of-district student .....	\$264.43
Out-of-state student .....	\$289.92
International student.....	\$289.92

*Note: Chargeback to other districts is \$169.43, which may change depending on the per hour rate for in-district.*

*\*Tuition rates and fees are subject to change during the academic year.*

## Fees

Waubonsee charges the following fees:

### *Fee Schedule*

Student fee .....	\$5/credit hour
Set-up fee for payment plan option (per semester/nonrefundable) .....	\$25.00
Late payment fee.....	\$20.00
Re-enrollment fee (after first day of class).....	\$50.00
Insufficient funds charge .....	\$25.00
Delinquent account fee.....	\$25.00
Transcript Fee	
Written request.....	\$10.00/each
Online request.....	\$5.00/each

*Free unofficial transcripts are available through mywcc.*

## Student Fees

The student fee is assessed at a rate of \$5 per credit hour. Student fee monies are used to support a variety of educational, scholarship, social, recreational, club and entertainment programs.

## Laboratory Fees

Certain courses require extra costs for supplies, equipment or services. A lab fee is charged to partially cover this extra expense. Examples are laboratory breakage, welding supplies, ceramic materials, towel services, etc. These fees are subject to change.

---

**NOTE:** *All costs and fees are subject to change by the college. Students should anticipate increases in tuition and fees as they continue their education at Waubonsee.*

---

## Tuition for Senior Citizens

Students 65 years of age or older who are residents of the district are eligible for a tuition refund for credit courses in which they were enrolled through the midterm date. Refunds are processed and mailed to the student at the end of the term. Courses specifically designed for senior citizens, audits or repeated courses do not qualify for tuition refunds.

 **See directory inside back cover.**

## Cooperative Agreements and Tuition Chargeback

Students in Waubonsee's District 516 who wish to pursue occupational degree and certificate programs not available at Waubonsee Community College may do so in one of two ways: cooperative agreements or chargebacks.

**Cooperative Agreements:** Waubonsee has cooperative agreements for a number of programs with neighboring community colleges. Through a cooperative agreement, a resident of District 516 may attend another community college at the other school's in-district tuition rate. See the listing of cooperative agreements in the "Career Connections" section.

**Chargebacks:** A second method is the chargeback. Resident students who want to pursue a certificate or occupational degree program not available through Waubonsee may apply for chargeback tuition if they plan to attend another public community college in Illinois that offers the program. Applications for chargeback tuition MUST be submitted to the office of the Assistant Vice President of Student Development prior to the first day of classes of the semester or summer term at the attending school. If approved, the student pays the in-district tuition rate for the college he/she is attending, and Waubonsee pays the difference between the in-district and out-of-district rate to the other institution. Chargebacks are available only for occupational programs resulting in a degree or certificate and not for individual courses. Repeated courses are not funded by chargebacks. Prerequisite courses and developmental courses may be covered; see guidelines for details.

---

**Note that a cooperative agreement supersedes a tuition chargeback for a program with a community college within a 50 mile distance from Waubonsee's Sugar Grove Campus. See the listing of cooperative agreements under "Career Connections."**

---

For information, guidelines and applications for cooperative agreements or chargebacks, contact the Assistant Vice President of Student Development (see directory). Out-of-district students who want to enroll in a program at Waubonsee under a cooperative agreement or chargeback should contact their own community college first to make initial application.

## Paying for Classes

- Full or partial payment is due at the time of registration.
- More payment options — earlier registration means smaller payments!

### WHAT ARE THE PAYMENT OPTIONS?

- **Full Payment:** Tuition and fees totaling less than \$200 require full payment.
- **Partial Payment:** Students can pay the required first installment and the remaining balance in monthly payments. (A \$25 nonrefundable set-up fee is charged for selecting this option — it's automatic when students make the first payment.)
- **Employer Payments:** If a student's employer is paying his/her tuition and fees, and should be billed directly, a letter from the company, including the contact name and company address (on company letterhead), is required at the time of registration. The online payment system may also be used to set up an authorized user/employer who can then pay on a student's account at the time of registration. This assignment does not give the authorized user the ability to access the student's confidential academic history.

Questions? Contact the Bursar Office at (630) 466-7900, ext. 5705.

### HOW TO PAY

Pay by cash, electronic check\*, or credit card (VISA, MasterCard, Discover). Full or partial payments can be made:

- Through the online registration system at [www.waubonsee.edu](http://www.waubonsee.edu) or at [mywcc.waubonsee.edu](http://mywcc.waubonsee.edu) (credit card or electronic check)
- In person at the Sugar Grove, Aurora or Plano campuses
- By faxing payment information to (630) 466-6637
- By mailing payment to:  
Bursar Office  
Waubonsee Community College  
Route 47 at Waubonsee Drive  
Sugar Grove, IL 60554-9454

*\* Waubonsee is now processing checks electronically. When students provide a check as payment, they authorize the college to use information from their check to make a one-time electronic fund transfer from their account. Be aware there will be a \$25 fee for any insufficient funds/declined checks. For questions call (630) 466-5705.*

### FINANCIAL AID RECIPIENTS

Students should apply for financial aid at least three months prior to registration and coordinate with the Financial Aid Office before registration to ensure that scholarships or grants are applied at the time of registration. Students who have not accepted their financial aid award letter online through mywcc prior to registration must make a payment in order to hold their classes.

**See directory inside back cover.**

## What If I Don't Pay?

Waubonsee cancels registration if students do not select a payment option at the time of registration. Payment is required even during college holidays and breaks.

Students withdrawn for non-payment after the first day of class must appeal to re-enroll in that course. A \$50 re-enrollment fee plus a minimum of one-half of the tuition is due when re-registering. Submit a completed enrollment appeal form (available online) to Registration and Records in person or by fax at (630) 466-4964.

Students must officially withdraw from each course they do not plan to attend. Enrollment will not be cancelled if any payment has been received for the semester.

Unpaid fees will prevent registration for additional courses or receipt of grades, and are subject to the collection procedures of the college and a \$25 delinquent fee.

## Refunds

Tuition refunds are issued based upon the official date of withdrawal. Withdrawals made online are effective when the transaction is complete. Withdrawals submitted in writing are effective according to the postmark date of the letter or the fax date and time. Full refund of tuition and fees is granted if the college cancels a course.

The academic calendar for each semester lists the last day for refunds for 16-week courses. Also see "Important Dates," listed in each semester schedule, for additional refund dates. An appeal process is available for extenuating medical circumstances. Appeal forms are available at [www.waubonsee.edu](http://www.waubonsee.edu).

The college reserves the right to make the final decision on all refunds. Contact the Bursar Office about refund policies.

## Textbooks

Students are expected to buy their own textbooks and supplies as specified for each course. These may be purchased at one of the college bookstores or online at [www.waubonsee.edu/bookstore](http://www.waubonsee.edu/bookstore).

WAUBONSEE

*the help available*

# Financial Aid

## Financial Aid

Four basic types of financial aid are available to Waubonsee students: grants, scholarships, loans and employment. For complete information about financial assistance, contact the Financial Aid Office (see directory) and obtain a copy of the "Financial Aid Handbook," or go online at [www.waubonsee.edu/financialaid](http://www.waubonsee.edu/financialaid).

## Eligibility Requirements

General eligibility requirements for state and federal financial aid programs include the following criteria. Other requirements may apply for certain programs. Students must be sure they meet all requirements before applying:

- be a citizen or eligible noncitizen;
- have a valid social security number;
- have a high school diploma, a GED or pass an independently-administered test approved by the U.S. Department of Education;
- have a minimum score of 14 in the reading section of the ACT or a Compass test score at the 8th grade reading level. Compass testing is done by the Center for Learning Assessment;
- not be in default on any student loan;
- not owe a refund on any grant or loan, and not have borrowed in excess of the loan limits under Title IV programs at any institution;
- agree to use any student financial aid solely for educational purposes;
- agree to not engage in the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance during the period covered by the Pell Grant;
- if required, register with the Selective Service;
- complete a Waubonsee Community College New Student Information Form and select an eligible program. A certificate program must be at least 16 credit hours to qualify. A list of ineligible programs is available online at [www.waubonsee.edu/financialaid](http://www.waubonsee.edu/financialaid);
- enroll for eligible classes. A list of ineligible classes is available online at [www.waubonsee.edu/financialaid](http://www.waubonsee.edu/financialaid);
- make satisfactory academic progress toward a degree or certificate as defined in the Standards of Academic Progress;
- be aware that financial aid does not cover audited courses;
- accept the Terms and Conditions of all financial aid offered.

## Standards of Academic Progress

### *Effective through Summer 2011*

In accordance with the United States Department of Education and State of Illinois regulations, Waubonsee Community College has established minimum Standards of Academic Progress guidelines for the receipt of financial aid. These standards apply to all students receiving federal and state funding, including veterans\* and students receiving student loans or federal work-study.

### 1. COMPLETION RATE REQUIREMENT

A student must achieve a 67 percent completion rate for all course work attempted at Waubonsee. This applies whether or not the student previously received financial aid.

- a. "Credit hours completed" is defined as completion of a course by the end of a given semester in which a student is enrolled and receiving a grade of A, B, C, and/or D.
- b. "Credit hours attempted" includes all credit classes in which the student is enrolled after the refund period.
  - Withdrawals after the refund period count as hours attempted.
  - Students who enroll in telecourses must be aware that the class(es) must be completed by the end of the semester of enrollment and count as hours attempted for that semester.
- c. Audits, courses numbered below 050, proficiency tests and noncredit courses are not included in the total number of credit hours attempted.
- d. Repeated courses are always included in attempted hours. A repeated class for which the student earns credit is only counted once in completed hours unless the class is designated as one that can be repeated. This information is part of the course description in each semester's credit course schedule.

### 2. GRADE POINT AVERAGE REQUIREMENT

A student must maintain a 2.0 cumulative grade point average. Federal regulations require that the college take into account a student's academic performance throughout the course of study, regardless of whether or not the student previously received financial aid. Grades for repeated courses for which the student earns credit are averaged.

*\* Veterans receiving the Illinois Veterans Grant, the Illinois National Guard Grant or the Illinois MIA/POW Scholarship are only subject to meeting the GPA requirement.*

### 3. MAXIMUM TIMEFRAME REQUIREMENT

Student eligibility for financial aid at Waubonsee is limited to 150 percent of standard program length or 96 credit hours attempted, regardless of whether or not the student previously received financial aid. These 96 hours include transfer hours accepted from other institutions.

### 4. EVALUATION AND

#### ACADEMIC PROGRESS STATUS

A student is evaluated for academic progress following the completion of each academic term, and his/her status will be one of the following:

**PASS** - The student is in the first term of enrollment and has not received grades, has not enrolled for credit courses, or is meeting all academic progress standards.

**WARNING** - If a student fails to meet the required completion rate, G.P.A., and/or timeframe requirement as outlined in this policy, the student is placed on FINANCIAL AID WARNING for the subsequent academic term. A student is able to receive financial assistance while on warning.

**SUSPENSION** - If a student fails to meet the Standards of Academic Progress at the end of the warning term, the student will be placed on FINANCIAL AID SUSPENSION and will become ineligible for all federal and state programs. If in subsequent semesters, the student is able to meet the completion rate or GPA requirement, it is the student's responsibility to notify the Financial Aid Office and request that aid eligibility be reinstated.

## 5. APPEALS

A student may submit a written appeal within 30 calendar days following the end of the semester in which he/she was ruled ineligible. An appeal form will be sent to the student by the Financial Aid Office. Failure to meet this deadline will result in the denial of reinstatement. If a student believes there were mitigating circumstances that affected his/her academic progress, the student may appeal the suspension or cancellation of aid. It is the responsibility of the student to supply the required documentation with the appeal letter.

Appeals will be considered on an individual basis by the Financial Aid Appeals Committee, and will be responded to in writing within 14 calendar days of receipt of the appeal. Appeals will be reviewed and either approved with no provisions, approved with provisions, or denied.

In order to be considered for possible reinstatement to a warning status, a student must have documentable mitigating circumstances such as a family illness, death, or medical problems that may have caused the student difficulty in achieving academic progress requirements. These appeals should include documentation such as medical bills, insurance claims, etc.

---

*These requirements are subject to change and can be updated without prior notification. Request a copy of Waubonsee's Academic Policy for more detailed information.*

---

## General Application Procedure

Details on the application process can be found online at [www.waubonsee.edu/financialaid](http://www.waubonsee.edu/financialaid). Forms are also available for download.

Students must reapply annually. Start the application process as soon as possible after January 1 for the academic year starting in the fall. The priority deadline is March 1 to insure consideration for all available aid programs.

Refer to the "Financial Aid Handbook" each year for detailed timelines and important deadlines.

## Disbursement of Financial Aid Funds

Financial aid and scholarship funds will be reflected on the student's account only after the student has returned a signed Title IV Authorization to the Financial Aid Office and accepted his/her financial aid award online through the mywcc portal. A bookstore voucher will be processed if financial aid funds are sufficient to cover all charges on a student's account. Financial Aid is subject to reduction if a student changes enrollment or withdraws.

## Financial Aid Refund Policy

Tuition refunds are based on the official date of withdrawal. Refunds based on the difference between institutional charges for the term and loan amounts are mailed about the fourth week of the term. Refunds based on the difference between institutional charges for the term and Pell Grant disbursements are mailed after mid-term.

## Veterans' Programs

Students interested in VA benefits, Illinois veterans' benefits and any other related programs can find details on the application process online at [www.waubonsee.edu/financialaid](http://www.waubonsee.edu/financialaid). Additional questions may be directed to the Financial Aid Office. The standards of academic progress apply to all veterans as indicated on the previous page.

## Scholarships

A variety of scholarships is available to Waubonsee students from the Waubonsee Community College Foundation and private funding sources. The Foundation awards nearly 200 scholarships annually. Information about the opportunities can be obtained from the Office of Fund Development and the Financial Aid Office (see directory) or online at [www.waubonsee.edu/scholarships](http://www.waubonsee.edu/scholarships). Waubonsee Community College Foundation Scholarship applications are due February 3, 2011 for 2011-2012 academic year.

## Additional Resources

Waubonsee is a recognized outreach center of College Zone, powered by the Illinois Student Assistance Commission (ISAC). For general information about available financial aid and application procedures, visit [www.collegezone.com](http://www.collegezone.com). To access a computer or to get hands-on assistance with the College Zone site, visit the Sugar Grove or Aurora Campus Financial Aid Office.

WAUBONSEE

*what you need to know*

# Academic Information and Regulations

## Academic Probation

All students who achieve a cumulative grade point average below 2.0 are automatically placed on academic probation. They must meet with an advisor or counselor to develop a personalized success plan before they can register for the next semester. Students remain on probation until their cumulative grade point average is equal to 2.0 or higher. Additional services or classes may be required or recommended.

## Certificates of Achievement

Certificates are awarded at the end of the semester the course work is completed or the semester the application is submitted if the course work was previously completed.

**Degree Audit:** Students can track their progress toward a certificate by using the “Degree Audit” tool in MYWCC. The Degree Audit is an Unofficial Evaluation. The report should be reviewed with a Waubonsee counselor or academic advisor or accuracy and additional information.

Application for Certificate forms can be found at MYWCC; or you may contact the Graduate/Credentials Analyst.

Original certificates are free. Duplicate certificates cost \$5.00.

## Class Attendance

Class attendance has a direct effect on successful course completion. The college has no policy allowing a student to “cut” class.

In case of illness or other mitigating circumstances, students should contact instructors. Make-up work may be arranged at the instructor’s discretion. See also “Administrative Withdrawal” on page 253.

## Class Standings

Class standings are based upon the number of semester hours earned at Waubonsee, as well as semester hours accepted in transfer from other colleges or universities. A freshman is a student who has earned fewer than 30 semester hours. A sophomore is one who has earned 30 or more semester hours. A student who has earned 65 or more semester hours is considered an unclassified sophomore.

## Credit for Prior Experience

Students enrolled at Waubonsee Community College may be awarded credit based on prior experience in the following areas:

- college credits earned at other institutions;
- armed service experience;
- College Level Examinations Program (CLEP);
- Advanced Placement Program (APP);
- credits by proficiency examination;
- credits by evaluation.

Contact Registration and Records for further information.

---

**A recording fee may apply in each case as described below, but is subject to change without prior notice. In general, credit will be recorded after the refund period of the student’s first semester of enrollment.**

---

### 1. Acceptance of Collegiate Credits Earned at Other Institutions

A transfer student must submit to Admissions a New Student Information Form, high school transcripts, and transcripts from all colleges previously attended. A transfer student should also submit a Transcript Evaluation Request Form (TERF) to have the previously earned credit applied to their academic record. The TERF form can be found at mywcc, or you may contact the Counseling Center. Only course credit hours (not the grades) are transferable. Transfer grades are not included on Waubonsee transcripts or used in computing the GPA at Waubonsee Community College. Transcripts of credits received from non-regionally accredited institutions are individually evaluated. No recording fee applies.

### 2. Acceptance of Armed Forces Experience for College Credit

Credit toward graduation may be granted to a veteran of United States military service for certain armed service experience. This experience is approved for college credit based on recommendations by the Commission of Accreditation of Service Experience of the American Council of Education.

Application forms for evaluation of armed service experience are available in the Financial Aid Office, Registration and Records, or from a counselor. The application must include a copy of the AARTS or SMART transcript, or the form DD214 documenting military education.

Veterans may be granted a total of 4 semester hours credit toward graduation as a result of their basic military training. Those granted approval may obtain credit for physical education activity courses and/or personal wellness.

Each application form is individually evaluated by the Graduate/Credentials Analyst and the appropriate Dean.

Currently, no recording fee applies for armed service experience.

**See directory inside back cover.**

### 3. Acceptance of Credits Earned by College Level Examination Program (CLEP)

Waubonsee Community College is a national CLEP Test Center. The CLEP examinations assess knowledge generally taught in the first two years of college. Check with the Center for Learning Assessment to learn about registration and testing availability.

Waubonsee accepts credit for each of the following 27 CLEP examinations:

*College Composition Modular, College Composition, Introductory Business Law, Humanities, College Mathematics, Natural Sciences, Social Sciences and History, American Government, History of the United States I, History of the United States II, Calculus, College Algebra, French Language, German Language, Spanish Language, Biology, Chemistry, Human Growth and Development, Principles of Management, Financial Accounting, Principles of Macroeconomics, Principles of Microeconomics, Introductory Psychology, Introductory Business Law, Introductory Sociology, Principles of Marketing, Pre-Calculus, Western Civilization I: Ancient Near East to 1648, Western Civilization II: 1648 to the present.*

CLEP examinations are computer-based and administered throughout the year on an individual appointment basis. After students have completed the CLEP examinations, a score report is sent to the institution of their choice. It is the student's responsibility to contact Registration and Records to request that credit be recorded. Waubonsee grants a maximum of 30 credits for successful performance on CLEP examinations. A recording fee of \$10 per credit hour is assessed. Refer to the Center for Learning Assessment website for additional information.

### 4. Advanced Placement Program (APP)

Credit and/or advanced placement may be granted to students who have participated in the Advanced Placement Program in their high schools. Participants applying for Waubonsee Community College admission should arrange to have their Advanced Placement examination records sent to Registration and Records.

**Art.** Students scoring a 4 or 5 on the Art History Exam receive 6 semester hours of credit for ART 101-Art History-Prehistoric to Medieval; and ART 102-Art History-Late Medieval, Renaissance and Baroque.

**Biological Sciences.** Students scoring a 4 or 5 on the Biology Exam receive 4 semester hours of credit for BIO 120-Principles of Biology I. Students scoring a 3 receive 3 hours of credit for BIO 100-Introduction to Biology.

**Chemistry.** Students scoring a 4 or 5 on the Chemistry Exam receive 8 semester hours of credit for CHM 121-General Chemistry, and CHM 122-Chemistry and Qualitative Analysis. Students scoring a 3 receive 4 hours of credit for CHM 121.

**Computer Science.** Students scoring a 4 or above on the Computer Science AB Exam receive 3 semester hours of credit for CIS 115-Introduction to Programming.

**Economics.** Students scoring a 4 or 5 on the Macroeconomics Exam receive 3 semester hours of credit for ECN 121 Principles of Economics-Macroeconomics. Students scoring a 4 or 5 on the Microeconomics Exam receive 3 semester hours of credit for ECN 122 Principles of Economics-Microeconomics.

**English.** Students scoring a 4 or 5 on the English Exam receive 6 semester hours of credit for ENG 101-First-Year Composition I and ENG 102-First-Year Composition II.

**Foreign Languages and Literature.** Students scoring a 3 on the French, German or Spanish Foreign Language Exams receive credit for FRE 101 and/or FRE 102; GER 101 and/or GER 102; SPN 101 and/or SPN 102. Scores of 4 or 5 can receive credit for FRE 201 and/or FRE 202; GER 201 and/or 202; SPN 201 and/or SPN 202.

**History.** Students scoring a 3, 4 or 5 on the American History Exam receive 6 semester hours of credit for HIS 121-American History to 1865 and HIS 122-American History Since 1865. Students scoring a 3, 4 or 5 on the European History Exam receive 6 semester hours of credit for HIS 111-Western Civilization to 1648 and HIS 112-Western Civilization Since 1648.

**Mathematical Sciences.** Students scoring a 3 or higher on the Calculus AB Exam or a 2 or 3 on the Calculus BC Exam receive 4 semester hours of credit for MTH 131 - Calculus with Analytic Geometry I. Students scoring a 4 or 5 on the Calculus BC Exam receive 8 semester hours of credit for MTH 131 - Calculus with Analytic Geometry I and MTH 132 - Calculus with Analytic Geometry II. Students scoring a 3 or higher on the Statistics Exam receive 3 semester hours of credit for MTH 107 - Basic Statistics.

**Music.** Credit is determined after departmental review.

**Physics.** Students scoring a 3, 4 or 5 on the Physics B Exam receive 8 semester hours of credit for PHY 111 and PHY 112, Introduction to Physics I and II. Students scoring a 3, 4 or 5 on the Physics C Exam receive 10 semester hours of credit for PHY 221 and PHY 222, General Physics.

**Political Science.** Students scoring a 3 or above on the American Government and Politics Exam receive 3 semester hours of credit for PSC 100-Introduction to American Government. Students scoring a 3 or above on the Comparative Government and Politics Exam receive 3 semester hours of credit for PSC 220-Comparative Government.

A recording fee of \$10 per credit hour is assessed.

Advanced Placement Program participants whose AP scores do not qualify for credit may wish to avail themselves of Waubonsee's proficiency program for earning college credit.

### 5. Acceptance of Credit by Proficiency Examination

Proficiency examinations may be taken in certain courses or programs upon petition by the student. These examinations may be taken only with the approval of the appropriate Dean of each instructional division. They are open to students who meet the requirements through previous course work, experience, or a combination of both. Contact the appropriate Dean for further information (see directory).

Proficiency examinations are given in accordance with the following restrictions:

- Examinations may not be taken in a course which the student has previously audited or in which he/she has enrolled unless the course is approved to be repeated.
- Examinations may not be taken to raise a grade. If the student passes a proficiency examination, he/she is given credit which is shown on the transcript as “credit by proficiency.” No grade is recorded and the credit is not used in calculating the grade point average.

A recording fee of \$10 per credit hour is assessed.

### 6. Acceptance of Credit by Evaluation

Credit by evaluation certifies knowledge gained by

- High school technical and/or career training – A course or courses successfully completed at a high school participating in VALEES (see page 174) may be awarded credit or advanced placement at Waubonsee Community College. For a complete listing of articulated courses, visit the VALEES website at [www.valees.org](http://www.valees.org).
- Technical and/or vocational training - A course or courses successfully completed at technical and/or vocational institutions may be transferred to Waubonsee Community College by evaluation if they are found to be equivalent and documented by the appropriate Dean.
- Experiential credit - Waubonsee Community College will, upon request, evaluate formalized learning outside of the college which has been documented by an outside accrediting body (for example, apprentice councils of local labor unions, industrial training programs). Requests for such evaluation should be directed to the appropriate Dean.

A recording fee of \$10 per credit hour is assessed.

## Dean’s List

Students who achieve a 3.50 to 3.99 semester grade point average while enrolled in 12 or more regular semester credit hours are honored by placement on the Dean’s List (fall, spring and summer semesters). Also see President’s List.

## President’s List

Students who achieve a 4.0 semester grade point average while enrolled in 12 or more regular semester credit hours are honored by placement on the President’s List (fall, spring and summer semesters).

## Full-Time Student Load

A full-time student load during fall and spring is from 12 to 18 semester hours. During the summer, a full-time load is from 6 to 10 semester hours.

Students wishing to exceed these hours need to complete a “Request for Additional Credit Hours” form. Please allow time to meet enrollment deadlines as this process may take up to 10 days. Forms are available in the Counseling Center.

## Grading

Grade points are numerical values that indicate the scholarship level of letter grades.

Grade points at Waubonsee are assigned on the following scale:

<i>Grade</i>	<i>Significance</i>	<i>Grade-Point Level</i>
A	superior	4.0
B	good	3.0
C	average	2.0
D	poor	1.0
F	failure	0
W	withdrew	0
I	incomplete	0
E	credit by proficiency	0
Z	audit	0
Y	successful completion of a continuing education course	0
N	unsuccessful completion of a continuing education course	0
MG	missing grade	0
NC	noncredit course	0
(H)	honors course notation	see grade
(G)	grade forgiveness not included in GPA	0
(T)	transfer course	0

*Repeated courses are marked with a notation.*

Grade points earned for a given course are determined by multiplying the semester hours earned for the course by the grade point level achieved.

For example: If a B (3.0 grade point level) was earned in a 3-semester-hour history course, the number of grade points earned would be a 3.0 x 3 which results in nine grade points. On the other hand, if a D (1.0 grade-point level) was earned in a 4-semester-hour biology course, the number of grade points earned would be 1.0 x 4 or four grade points. Only grades A, B, C, and D are used in calculating grade points.

### NOTIFICATION OF GRADES

Final course grades are recorded at the end of each semester. Students can access their final grades through the mywcc web portal. Students who become aware of a grading error must contact Registration and Records within 30 days of the end of the semester to request a recalculation of academic honors.

## INCOMPLETE GRADES

A grade of I signifies incomplete course work and is assigned at the discretion of the instructor when illness or other unusual circumstances prevent a student from completing course requirements by the end of the term. A grade of I may not be assigned as a final grade unless a signed, completed Agreement for Incomplete Course Work is submitted to the appropriate Dean's office by the instructor no later than the Friday prior to the deadline to submit grades. The intent of the agreement is to:

- establish course components required to be completed by the student;
- establish a timeframe for completion of required course components—must be no later than the end of the next full 16-week semester;
- establish a grade for the student in the event that required course components are not completed.

In the event that a faculty member is unable to meet the terms of the Agreement, the grade agreed to in the Agreement will be assigned by the appropriate Dean. This definition does not allow for regular letter grades (A, B, C, D, F or W) to be changed to an I grade after final grades are assigned. Special exceptions may be presented to the Executive Vice President of Educational Affairs/Chief Learning Officer for consideration.

## GRADES IN REPEATED COURSES

If a regular semester credit course is repeated, only the higher grade is used to calculate the grade point average.

However, certain courses are designed to be repeatable. Examples include applied music, physical education and developmental courses. All grades in these repeatable courses are used to calculate the grade point average.

For these courses that are designed to be repeatable, it is necessary to complete a "Repeatable Course Grade Change Request" form if you wish to have only the higher grade(s) calculated in your GPA. Request forms are available online in the mywcc portal.

## GRADE CHANGE PROCESS

Requests for a change in a final grade must be submitted to the instructor within one calendar year of the date the final grade was officially due to Registration and Records. Please refer to the official academic calendar for the appropriate grade due dates.

No grade change may be processed after one calendar year. Regular letter grades (A, B, C, D, or F) cannot be changed to an I or a W grade after final grades are assigned. The definition of the W does not permit it to be changed to an A, B, C, D, F or I after final grades have been assigned. An I grade can only be changed to an A, B, C, D or F grade.

Special exceptions may be presented to the Executive Vice President of Educational Affairs/Chief Learning Officer for consideration. Refer to the "Student Handbook" for more details on grading and the change and appeal processes.

## GRADE APPEAL PROCESS

In situations where the student is not satisfied with the outcome of the grade process, and in accordance with students' rights for due process, the student may appeal a final grade in a course. The student must initiate the appeal process within one calendar year of the date the final grade was officially due to Registration and Records. Guidelines and procedures are outlined in the Student Handbook or available from the office of the Assistant Vice President of Student Development (see directory).

## GRADE FORGIVENESS PROCEDURE

This procedure provides the student with a second chance. A student may apply for forgiveness of grades of D or F earned in courses taken previously at Waubonsee. To be eligible to apply for grade forgiveness, a student must meet the following two conditions:

- The student cannot have attended Waubonsee Community College or any other post-secondary school for a consecutive period of at least 18 calendar months between the dates of enrollment at Waubonsee, and
- The student must have completed a minimum of 15 semester hours with a grade point average of 2.0 or better at Waubonsee Community College since the re-enrollment after the 18-month out-of-school period.

Courses approved for grade forgiveness are listed with a special notation (G) on the student transcript and are not included in the calculation of the student's GPA. The "Request for Grade Forgiveness" form is available in the mywcc portal.

## Graduation Academic Honors

All students graduating from Waubonsee who have achieved an accumulated 3.5 grade point average in all semester hours attempted at Waubonsee are designated for graduation honors. Those students who earn a 4.0 cumulative grade point average are recognized with presidential honors.

## Graduation Ceremony

Students who earn degrees from Waubonsee are recognized annually during a public commencement ceremony conducted at the end of the spring semester. All Students who completed graduation requirements during the previous fall semester (December) and will complete during the spring (May) or summer (August) semesters, are encouraged to participate.

Students who decide to participate in the commencement ceremony are notified of the cap and gown purchase fees during the spring semester (March). May and August graduation candidates must apply for graduation no later than February 15, to be included in the annual Graduation Ceremony.

All students who complete graduation requirements are issued a diploma free of charge. Duplicate diplomas are issued at a cost of \$25. Contact the Graduate/Credentials Analyst for duplicate ordering information.

## Graduation Requirements

The general procedures for graduation are outlined below. Course requirements and other regulations for each degree and major are explained in the program section of this catalog.

- 1. Counseling:** Students working toward their associate degree should meet early and often with a counselor to plan their program of study and to ensure they meet all requirements to graduate.
- 2. Curriculum:** Students need to know and observe the requirements of their curriculum and the rules governing academic work. While counselors can help students make wise decisions, the ultimate responsibility for meeting the requirements to graduate rests with each student.

Although academic requirements may change with each edition of the college catalog, students are responsible for the certificate or degree requirements that are specified in the official college catalog at the time the student completes his/her first credit course. A student may elect to follow the certificate or degree requirements set forth in any subsequent catalog if the student completes a credit course during that catalog's effective dates. Requirements may not be combined from different catalogs. No student may graduate using the requirements of a Waubonsee Community College catalog that is more than five years old prior to the date of graduation.

In the case of curriculum changes and the cancellation or withdrawal of courses, every effort will be made to substitute current course work to fulfill certificate or degree requirements. Course substitutions must be approved in writing by the appropriate Dean or the Assistant Vice President of Instruction. The student has the ultimate responsibility to fulfill the requirements for the certificate or degree, to check the eligibility to take courses and to observe the academic rules governing the program. A degree or certificate cannot be awarded if the program has been withdrawn.

The rules given apply only to requirements for certificates and degrees. All students are subject to the academic regulations stated in the most recent catalog.

- 3. Transfers:** If a student completes any courses (including final ones) from another college to be used toward degree or certificate requirements, he/she must submit official transcripts as soon as possible, submit a Transcript Evaluation Request Form and notify the Graduate/Credentials Analyst.
- 4. Degree Audit:** Students can track their progress toward a certificate or degree by using the "Degree Audit" tool in mywcc. The Degree Audit is an unofficial evaluation. The report should be reviewed with a Waubonsee counselor or academic advisor or accuracy and additional information.
- 5. Flex-Term and Telecourses:** To be considered for graduation, final grades for flex-term and telecourses are due by the end of the semester.

**6. Timing:** Graduation requirements may be completed during any semester; however, if students cannot complete their program as petitioned, they should notify the Graduate/Credentials Analyst immediately.

**7. Apply for Graduation:** Intent to Graduate forms should be submitted early in the semester *before* you expect to complete your degree to ensure you will meet all the requirements to graduate. Intent to Graduate forms can be found at mywcc; or you may contact Graduate/Credentials Analyst.

## Occupational Program Guarantee

Waubonsee Community College, as an expression of confidence in its faculty, staff and educational programs, guarantees the skills of all occupational Associate in Applied Science degree and certificate graduates.

Refer to the "Career Education" section of this catalog for details on the terms of this guarantee.

See also "Transfer Program Guarantee" later in this section.

## Rights and Responsibilities

Waubonsee Community College recognizes that students are both citizens and members of an academic community. As a citizen, each student has the freedoms of speech, assembly, association, and the press, and the rights of petition and due process which are guaranteed by the state and federal constitutions. As members of an academic community, students have the right and the responsibility to participate, through student government and college committees, in the development and review of college regulations and policies affecting them.

Upon enrolling in the college, each student assumes an obligation to conduct himself or herself in a manner that is compatible with the college's function as an educational institution. If this obligation is neglected or ignored by the student, the college must, in the interest of fulfilling its function and meeting its total obligations, institute appropriate disciplinary action as described in the student conduct section of the "Student Handbook."

### FINANCIAL OBLIGATION OF THE STUDENT

Final grades are not released for the student whose financial account with Waubonsee has not been settled in full. Likewise, no diploma, professional certificate, academic transcript or other information concerning academic record is released until the student's account has been cleared.

### MILITARY RECRUITING

Waubonsee Community College is in compliance with the Solomon Amendment (32 CFR, Part 216 by the Department of Defense) of the National Defense Authorization Act. This amendment gives branches of the military access to student directory information for student recruiting purposes. Contact Registration and Records for additional information (see directory).

## PRIVACY OF RECORDS/TRANSCRIPTS

All information provided to Waubonsee Community College is kept confidential in accordance with the Family Educational Rights and Privacy Act of 1974 (Public Law 93-380). Refer to Waubonsee's "Student Handbook" for more details.

All students have the right to inspect and review their personal records at a time and place under conditions designated by Registration and Records. Any release of Waubonsee academic information from student records must have the written consent of the student. Contact Registration and Records.

All students desiring their academic transcript to be sent to another institution or to a prospective employer should submit a request to Registration and Records. Transcripts requested in person, by mail or by fax will be \$10 each while transcripts requested online will be \$5 each. Unofficial transcripts are available for free through mywcc. The transcript request form is available at [www.waubonsee.edu](http://www.waubonsee.edu).

Current and former students of Waubonsee have access to their official records maintained here. Contact Registration and Records (see directory).

## Transfer Program Guarantee

The Transfer Program Guarantee formally assures students that certain courses transfer to Illinois four-year state universities. The college backs up the guarantee with a tuition refund if those specified courses do not transfer.

Refer to the "Transfer Degrees Program" section in this catalog for more details.

***See directory inside back cover.***

WAUBONSEE

*the tools for success*

# Resources and Services

## Resources and Services

Many resources and services are available to students at Waubonsee. They include everything from academic advising to intercollegiate athletics, from child care to a state-of-the-art computing center. This alphabetically organized section describes these many resources and services. Students should also have a copy of the current "Student Handbook" (published annually) that serves as a handy reference for each academic year.

## Academic Counseling and Advising

Waubonsee's academic advising program provides opportunities for students, instructors and counselors to review academic progress. Assessment testing, E-RAP (Electronic Registration and Planning), and a variety of academic support services are available. See also the section on Counseling.

Phases of the academic advising process include the following:

### EARLY ALERT

Waubonsee's Early Alert has been developed with the goal of increasing student success. Under this program, instructors are asked to identify students who exhibit academic difficulties that may prevent them from completing a course successfully. Areas of difficulty can include attendance, English proficiency, academic preparation/prerequisites, class participation, test/quiz scores, completion of class assignments, clinical/lab assignments and appropriate classroom behavior.

Students identified with academic difficulties are encouraged to make an appointment with a counselor to address the areas of concern and develop a strategy for success.

### PROBATION

At the end of each semester, students with a cumulative grade point average (GPA) below 2.0 are placed on academic probation. These students receive a letter notifying them that they must make an appointment to meet with a counselor before they can register for the next semester. Additional services or classes may be required or recommended.

### PROGRAM REVIEW

Upon successful completion of 24-38 cumulative semester hours, students receive a letter of notification and are required to review their progress with a counselor. The program review helps students remain focused on their chosen academic goals. Program reviews are mandatory and required before students are permitted to register for the next semester.

## Access Center for Students with Disabilities

The Access Center for Students with Disabilities makes educational opportunities more accessible by coordinating accommodations to students who have disabilities. The Access Center assists students toward further independence and greater self-determination.

Accommodations and services available include:

- counseling;
- assistance with admissions and registration;
- interpreting (sign language);
- readers;
- writer services;
- advocacy.

Waubonsee Community College has provided accommodations to students with disabilities since 1972.

Admission to the program is open to all students who qualify based on school records, diagnostic testing information and an optional personal interview. For more information, contact the Access Center for Students with Disabilities (see directory).

## Adult Education Special Programs

This comprehensive program offers opportunities for low-income adult education students to obtain self-sufficiency through education and training. These programs are designed to offer personalized assistance to the potential college student who plans to pursue a certificate or associate degree in a vocational area. Among the Special Programs are the Youth Services Program (YSP) and the Vocational Skills Program.

The YSP offers career exploration and job search/placement in the area of health care to students between the ages of 16 and 21. Among the many benefits available to eligible students are free tuition and fees, books, individual case management and other support services. Students lacking a high school diploma are strongly encouraged to attend GED classes to work toward GED attainment prior to enrolling in a certificate program. One-year follow-up is given to students once they have completed their course of study or obtained employment.

The Vocational Skills Program offers free computer classes to currently enrolled ESL and GED students. Classes offered include Basic Computer Literacy, Introduction to Keyboarding, Introduction to Microsoft Word and Introduction to Microsoft Excel.

For more information or to register, contact the Adult Education Special Programs office (see directory).

*See directory inside back cover.*

## Bookstore

Waubonsee's bookstores are open year-round and are located in Dickson Center on the Sugar Grove Campus and on the first floor of the Aurora Campus.

Students may order books for direct shipment or in-store pick up via our online bookstore at [www.waubonsee.edu/bookstore](http://www.waubonsee.edu/bookstore). Prepayment by credit card is required for online orders, and shipping and handling charges may apply.

The bookstores stock required and optional, new and used textbooks, as well as reference materials, study guides, school and office supplies, electronics, gift items, and Waubonsee insignia clothing and gifts. Educationally priced computer software is available to students, faculty, and staff.

Book buybacks are conducted at the two permanent bookstore locations during the final week of each semester. Students are paid cash for their used books that are current editions and in good condition. Books that are needed on campus for the next term will be purchased by the bookstore at up to 50% of the new book price. Books not needed on campus may be purchased at reduced prices at various times during the semester. Check with the bookstores for these buyback days and times.

Regular bookstore hours, along with extended hours at the beginning of each term, are posted at each location and on the bookstore website. The bookstore accepts cash, checks, MasterCard, VISA and Discover credit and debit cards, as well as grants, scholarships and other financial aid as approved by the Financial Aid Office.

## Career Choices

### CAREER EXPLORATION

Both currently enrolled students and members of the community are welcome to use the resources of the Counseling Center for career exploration.

Career inventories such as the Strong Interest Inventory, Campbell Interest and Skill Survey, and the Myers Briggs Type Indicator are used to examine a person's interests and personality in relation to occupations. A nominal fee is charged to cover the cost of some materials.

Counselors are available to meet with students and community members to discuss their career options and goals.

Personal development courses are available each semester to assist students in career exploration and job-seeking skills. Information on these credit courses is available from the Counseling Center. Check the semester schedule of classes for times and locations of the courses with a "PDV" prefix.

### CAREER SERVICES CENTER

Students and college district members seeking full or part-time employment, as well as employers looking for quality employees, can take advantage of a wide range of free services offered by the Career Services Center.

Resources available in the Career Services Center to assist in the job search process include information on employment projections and labor market needs, effective résumé writing and interview techniques, internship opportunities, and additional employment strategies.

The website [www.collegecentral.com/waubonsee](http://www.collegecentral.com/waubonsee) is an Internet-based job listing service for community college students and district residents. Employers throughout the greater Chicagoland region can contact Waubonsee to list their job opportunities. Job seekers can post their résumés and view postings. The website provides universal access 24 hours a day, seven days a week, to the thousands of jobs listed annually through the Career Services Center.

Employers may choose to participate in career fairs, recruit and conduct interviews on campus, or provide work site experiences that coordinate with a student's academic program.

**See directory inside back cover.**

## Center for Learning Assessment

The Center for Learning Assessment (CLA) is committed to facilitating student learning at Waubonsee Community College by offering a wide range of testing services to students and, members of the community.

The Center for Learning Assessment assists Waubonsee students throughout every phase of their college career. Assistance begins with placement testing for new full-time students, continues with telecourse and online testing, and includes program admission testing. The CLA also assists faculty by providing a place for students to take make-up exams.

Community members can take advantage of the testing administered through several programs, including English as a Second Language (ESL), General Educational Development (GED), College Level Examination Proficiency (CLEP) and certification tests given throughout the year.

For additional information, contact the CLA office (see directory).

## Child Care

Quality, affordable child care is available at both the Sugar Grove and Aurora campuses.

The Child Care Centers provide a safe and nurturing environment and are designed to foster social, emotional, and intellectual development. Developmentally appropriate practices inspired by the recommendations of the National Association for Education of Young Children (NAEYC) guide the curriculum. Emphasis is placed on creativity, choice, independence, cooperation and learning through play.

A flexible program allows drop-in care and is structured to help students match their day care needs with their class schedule. The centers only serve the children of currently enrolled Waubonsee students, faculty and staff members. Bilingual staff are employed at both centers.

The centers accept toilet-trained children who are 3-6 years of age. Parents/guardians must be on campus while their children are in the center.

## Class Offerings

Every semester, class schedules are published for college credit courses, community education classes, workforce development and programs for youth. Credit and noncredit schedules are mailed to every district resident. For additional copies of any of these publications, call the Marketing and Communications office (see directory).

In addition, the credit and noncredit course schedules are available in searchable form online at [www.waubonsee.edu](http://www.waubonsee.edu).

## Conduct, Grievances, and Grade Concerns

Waubonsee Community College has procedures to assist students in resolving college-related grievances. Specifically, the procedures address student grade concerns, general student grievances and student conduct.

This is a good faith approach to resolving grievances with the goal of resolving grievances in the most expeditious manner.

Waubonsee Community College is committed to prohibiting any forms of discrimination. See the section "Federal Compliances."

Nothing in these procedures limits a student's right to submit a complaint against the college to the Department of Education Office for Civil Rights. These procedures are not intended to supersede other existing college policies and procedures.

Procedures for student grievances, grade concerns and student conduct are detailed in the "Student Handbook."

For more information about these procedures, please contact the Assistant Vice President of Student Development (see directory).

## Counseling Centers

Waubonsee Community College provides a wide range of academic, personal, and career counseling. Counselors assist students with issues such as career and educational goals, choosing programs of study, lifestyle transitions related to education, and other personal issues that may interfere with academic progress.

See also the section on "Academic Counseling and Advising."

Counselors are available at all Waubonsee campuses. Walk-in and appointment times are available. Call for office hours or appointments (see directory) or visit [www.waubonsee.edu/counseling](http://www.waubonsee.edu/counseling).

## ELECTRONIC REGISTRATION AND PLANNING (E-RAP) FOR FULL-TIME AND/ OR DEGREE SEEKING STUDENTS

New first-time, full-time students must complete an Electronic Registration and Planning (E-RAP) tutorial before registering for courses. The tutorial explains Waubonsee's degree and certificate programs and teaches students how to use the college catalog, credit schedule and test scores to select courses. Students then register and pay for their first semester of courses online.

Students can access E-RAP through the mywcc portal at [mywcc.waubonsee.edu](http://mywcc.waubonsee.edu). An X-Number is needed to login.

## CONTINUED COUNSELING

Currently enrolled students are encouraged to meet periodically with a counselor to discuss career plans and academic progress. Students should confer with a counselor or advisor when changing a schedule or withdrawing from classes or the college.

## DEGREE AUDIT

Students can track their own progress towards certificates and/or degrees by running a degree audit from the student information menu of mywcc. The degree audit also features a “What If?” analysis for students considering changing their majors.

## Foundation

The Waubonsee Community College Foundation supports the philosophy and purpose of Waubonsee with the following goals:

- to continue funding existing scholarship programs and initiate new ones;
- to advance the educational and charitable purposes of the college;

The Foundation awards nearly 200 scholarships each academic year. Applications are due February 3, 2011 for scholarships usable during the 2011-2012 academic year. More information may be found at [www.waubonsee.edu/scholarships](http://www.waubonsee.edu/scholarships).

Chartered in 1978 as a tax exempt, non-profit organization, the foundation is governed by a 25-member board of community leaders. Contact the Office of Fund Development (see directory).

## Henning Academic Computing Center

The Henning Academic Computing Center provides Waubonsee students and area residents with opportunities to use personal computers and numerous types of software in an academic laboratory featuring the latest instructional technology. The 15,000 square-foot facility has eight classrooms and an open lab equipped with 120 personal computer work stations. All personal computers in the center are networked to provide access to a wide range of software packages as well as laser printers. One of the classrooms is equipped as a computer-aided drafting and design laboratory. Several classrooms are equipped with LanSchool software, enabling an instructor to demonstrate on each student’s computer and simultaneously monitor the individual screens.

All currently enrolled Waubonsee Community College students have access to the open lab. Community residents who wish to use the open lab personal computers may do so by registering for a monthly user fee. The fee entitles residents to unlimited use of the open lab work stations in the facility.

The Henning Academic Computing Center is open extended hours when classes are in session. Verify posted hours in a current semester course schedule.

For more information about classes, consult the respective schedules for college credit courses and noncredit offerings. Network User Rules are in effect at Waubonsee to ensure fair, equitable and appropriate electronic communication. All users (whether on campus or accessing Waubonsee’s network from off site) are bound by these rules. The rules are available online and are included in the “Student Handbook.”

## Internships

An internship allows students to acquire professional experience through working at a business or organization closely related to their academic field of interest. Currently, both credit and non credit opportunities are available and ideal for career exploration. For more information, please contact the Career Services Center at [careerservices@waubonsee.edu](mailto:careerservices@waubonsee.edu) or the dean for the appropriate instructional division.

## Intercollegiate Athletics

Waubonsee competes in intercollegiate sports and is a member of the Illinois Skyway Collegiate Athletic Conference and the National Junior College Athletic Association. Authorized sports include baseball, golf, softball, volleyball, wrestling, soccer, tennis, basketball and cross-country.

To be eligible for any intercollegiate sport, a student must be a regular student enrolled in a minimum of 12 semester hours and must meet the eligibility requirements of the National Junior College Athletic Association (NJCAA). For more information, visit [www.njcaa.org](http://www.njcaa.org).

## Learning Enhancement

Learning Enhancement offers assistance with college studies. Through small group tutoring, workshops or credit courses, assistance is provided in study skills, reading, writing, mathematics and personal development. Improving skills in these areas can contribute to a successful, less stressful college career. Instruction is tailored to the individual so that the student can feel comfortable, yet challenged. Learning Enhancement services are available at the Aurora, Plano and Sugar Grove campuses.

Personalized writing assistance is available to any Waubonsee student working on a writing project. Professional staff is available on a walk-in basis to assist in the writing of essays, research papers, reports, resumes, and personal and business letters. Other academic assistance is also available. Contact Tutoring for schedules (see directory).

## Music Performance

Students may participate in music performances by enrolling in credit courses (see Applied Music in course descriptions) or by participating in an instrumental or vocal ensemble with other community members. Contact the music department for more information.

### INSTRUMENTAL MUSIC

The Waubonsee Steel Drum Band, Rock Music Ensemble, Jazz Band, Jazz Combo and Woodwind Quintet give students the opportunity to perform for concerts and community events. The groups are open to all interested students.

Students also can gain concert band experience through cooperative agreements with the American Legion Band, the Fox Valley Concert Band and other community ensembles.

## VOCAL MUSIC

Waubonsee offers two opportunities to participate in vocal groups: The Waubonsee Chorale, a 30-member group that performs traditional choral music, and the Fox Valley Festival Chorus, a 60-member ensemble performing larger choral works, often with an instrumental group.

## Returning Adult College Students

Waubonsee provides an admissions representative who can assist adult (non-traditional) students in all aspects of the registration process and address issues that concern the adult student population of Waubonsee.

## S.T.A.R. Program (Student-Athletes Taking Academic Responsibility)

The Waubonsee Community College S.T.A.R. (Student-Athletes Taking Academic Responsibility) Program was created in 1991 to further the academic progress of student-athletes while they participate in athletics. The program includes weekly study sessions; personal, career and academic counseling; academic monitoring; and nominations for various scholarships and academic recognition.

## Student Activities

Student activities are a vital part of an education program. Involvement in extracurricular activities allows students to meet people with similar interests, learn more about their areas of interest and have a good time. For more information contact the Student Activities office (see directory) and refer to the current edition of the "Student Handbook," published annually.

## Student Organizations

Each organization must have a faculty/staff advisor and a minimum of 10 student members to apply to the Student Senate for a charter. A charter may be issued to any group that fulfills the club charter guidelines and has a purpose that conforms with the philosophy of the college. Charters have been issued to many social, cultural, career and honors groups. Contact the Student Activities office for more information (see directory).

## STUDENT GOVERNMENT

Student Government provides a channel of communication through which the administration, faculty and students may plan and discuss academic topics together. All student government activities and elections are governed by an approved constitution.

## STUDENT SENATE

The senate is composed of 12 students elected from the student body. The senate president and part of the senate are elected in the spring, and the remaining student senators are elected in the fall. The Student Senate charters student organizations, represents the student body on college committees and implements projects to meet students needs. The senate holds monthly meetings. All meetings are open and students are invited to attend. Student input is always encouraged.

Any registered student may vote in a student government election. Election requirements, petitions and details are available from the Student Activities Manager (see directory).

## STUDENT TRUSTEE

A student member is elected during the spring to serve on the Waubonsee Community College Board of Trustees. This student attends all board meetings to represent the interests of Waubonsee students. The current student trustee can be contacted through the Student Activities office (see directory).

## INTRAMURALS

Waubonsee Community College maintains a program of intramural athletics for those not wishing to compete in an intercollegiate sport. The offering of intramural activities is based upon student interest and participation. Contact the Athletics office for the most current information (see directory).

## STUDENT NEWSPAPER

The student newspaper, "Insight," has grown rapidly since its first issue in 1967. Students may use their talents for expression in one of the many facets of the preparation of the paper. The paper is published online by the college and is distributed free to the student body, staff and faculty. Contact the office of the Dean for Communications and Library Services for more information (see directory).

## Todd Library

Library services are provided at the Todd Library at the Sugar Grove Campus, and at extension sites at the Aurora, Copley and Plano campuses. The Todd Library houses a 50,000 book collection, more than 500 periodical titles, and many electronic reference databases chosen to support the college curriculum and provide research materials for students and residents of the Waubonsee Community College district. Other services available at the Sugar Grove library facility include:

- conference room;
- copiers;
- distance learning classroom tapes;
- interlibrary loan;
- Internet access for students;
- instructional multimedia;
- reference assistance;
- reserve materials;
- telecourses;
- video viewing area.

All registered students may check out materials from the library, and residents of the college district who are high school age or older are eligible for most circulation privileges.

## Transfer Advising

Transfer advising is available as part of the Counseling Center. Assistance is available to students who plan to transfer to a four-year school upon completing Waubonsee's associate degree. Counseling maintains transfer/articulation fact sheets for the state universities that explain the exact courses that transfer to each institution. Also see [www.waubonsee.edu/transferring](http://www.waubonsee.edu/transferring) for more information.

## TRiO/Student Support Services

Student Support Services provides educational support services for eligible Waubonsee Community College students. The program helps students successfully complete their college degree or certificate programs. First-generation college students, students who need financial assistance, or students who have a disability and demonstrate a need for academic support may qualify. Services include individual tutoring; academic, career, transfer and personal counseling; financial aid guidance; cultural enrichment activities; and workshops on a variety of topics. For more information on eligibility and availability of services, contact the Student Support Services office (see directory). Student Support Services is a federally funded TRIO program sponsored by the U.S. Department of Education. The current SSS budget is \$299,872. Eighty-eight percent of this funding is from the Department of Education (\$263,827), and 12 percent (\$36,000) is funded by Waubonsee (college match).

## TRiO/Upward Bound

TRiO/Upward Bound is a federally funded program that helps high school students succeed and prepare for college through a variety of programs and services. Waubonsee's Upward Bound program is open only to students at East Aurora High School. These students must be between ages of 13 and 19, have a need for academic support and come from a family where neither parent holds a bachelor's degree.

## Tutoring Program

Free tutoring is available to students currently enrolled in classes. Subject and tutor availability schedules are posted every semester. No appointments are necessary when seeking tutoring at the walk-in assistance labs located in Collins Hall on the Sugar Grove Campus or at the Aurora Campus, Room 215. For more information, contact the Tutor Coordinator (see directory).

## Veteran Student Services

Waubonsee is proud to serve those students who have served our country. Visit [www.waubonsee.edu/veterans](http://www.waubonsee.edu/veterans) for information about getting started, academic advising and financial aid.

*See directory inside back cover.*

## History and New Directions

electorate of 12 school districts in most of Kane and portions of Kendall, DeKalb, LaSalle and Will counties voted to establish Community College District 516. Today, the district encompasses nearly 600 square miles and has an assessed valuation of approximately \$10.5 billion.

From the beginning, the college's philosophy has been that education is the cornerstone of a literate, democratic society; learning is a lifelong process; and the pursuit of knowledge must be supported by institutional policies demonstrating accessibility, service, quality, innovation and value.

With the objective of meeting the lifelong learning needs of the community, the college truly began taking shape in early 1967, as the college's first president assumed his duties and subsequently began assembling a staff, developing a multilevel curriculum and locating classroom space. However, the college still needed a name, and for that, the school called upon its community.

A district-wide naming contest was held in March of 1967. From among the 600 entries, the name suggested by both Susan Miller, of Aurora, and Patricia Ann Dillon, of Batavia, stood out, and the Fox Valley's community college officially became Waubonsee Community College. Waubonsee, meaning "early dawn" or "early day," was a Pottawatomie Native American chief who lived in the Fox River Valley during the 1800s.

Waubonsee Community College had a permanent name but had yet to locate to a permanent campus and so, when the college opened its doors for classes on Sept. 11, 1967, the doors were those of a variety of community facilities. The school's initial enrollment of 1,603 students — 403 full time and 1,200 part time — has grown steadily since that time, with the college currently serving more than 11,000 students each semester.

Just a few months later, in December 1967, a successful bond referendum allowed the college to begin planning its first permanent campus. The campus, situated on a 243-acre tract of land north of Sugar Grove on Route 47, still serves as the college's main campus. In addition to classroom space, facilities there also include conference rooms, specialized laboratories, Student Center, café and coffee shop, library, bookstore, child care center, observatory, kiln shelter, 375-seat auditorium, multipurpose event space, gymnasium, 120-workstation computer center, fitness center and two-mile nature trail.

A second Waubonsee campus opened in 1986 in downtown Aurora at the corner of Galena Boulevard and Stolp Avenue, but this structure ceased operations in May 2011. In June 2011, Waubonsee moved its downtown campus to a new 132,000-square-foot facility at 18 S. River St. The Aurora Campus remains the headquarters for Workforce Development, Adult Education, GED, English as a Second Language and the Adult Literacy Project, as well as the Illinois Small Business Development Center.

Waubonsee established another major extension center in January 1997 on the Rush-Copley Medical Center campus, adjacent to Route 34 in far east Aurora. College credit courses, community education programs, and training seminars for business and industry are held in the two-story building's eight classrooms.

Spring 2011 marked the beginning of courses at the college's fourth permanent campus, located in Plano. Situated on a nine-acre site adjacent to the Lakewood Springs development, north of Highway 34 and west of Eldamain Road near Lake Plano, the Plano Campus offers complete associate degree to area residents, along with noncredit learning opportunities.

The new Aurora Plano Campuses are among the many projects undertaken as part of the 2020 College Master Plan. During the 2002-2003 academic year, the board of trustees adopted this plan, which outlines educational facilities necessary to meet the needs of students now and into the future. Four building projects have been completed at the Sugar Grove Campus; the Campus Operations facility opened in August 2005, the new Science Building opened during the fall 2006 semester, the Academic and Professional Center held classes for the first time in fall 2007, and the Student Center opened in spring 2009. Plans for a new fieldhouse facility are still in development.

While Waubonsee is continually working to improve its campuses, the college also recognizes the need for other convenient course locations, and so, classes are held at nearly 40 other extension sites throughout the district as well. For those students who prefer to learn from home, Waubonsee offers a variety of distance learning options. Waubonsee has always been a leader in distance learning, from being a founding member of the Illinois Virtual Campus (IVC) to providing courses to students statewide through Illinois Community Colleges Online (ILCCO). Currently, the college offers nearly 200 online courses and is one of a handful of higher education institutions in Illinois to offer fully-accredited associate degrees to students in a distance learning format.

As the educational needs of its district change, so too will Waubonsee Community College. What will always remain the same, however, is Waubonsee's commitment to student success through quality teaching and learning experiences.

## **Federal Compliances**

Waubonsee Community College does not discriminate on the basis of race, color, religion, sex, sexual orientation, age, national origin, veteran's status, marital status, disability or any other characteristic protected by law in its programs and activities. For more information on the college's nondiscrimination policies, contact the Director of Human Resources at (630) 466-7900, ext.2367; Waubonsee Community College, Route 47 at Waubonsee Drive, Sugar Grove, IL 60554-9454.

## **Title VI of the Civil Rights Act of 1964**

Waubonsee Community College is in compliance with Title VI of the Civil Rights Act of 1964, as amended, which prohibits discrimination on the bases of race, color and national origin.

## **The Age Discrimination in Employment Act of 1975**

Waubonsee Community College is in compliance with The Age Discrimination in Employment Act of 1975, as amended, which prohibits discrimination on the basis of age.

## **Title IX**

Waubonsee Community College adheres to the provisions outlined in Title IX of the 1972 Federal Education Amendment Act prohibiting sex discrimination and sexual harassment in all activities of the college. The Title IX coordinator is Michele Needham, Director of Human Resources (see directory).

## **Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973**

Waubonsee Community College follows the provisions of ADA and Section 504 of the Rehabilitation Act of 1973 that prohibit discrimination on the basis of an individual's disability and offers to disabled persons the opportunity to participate fully in all educational programs and activities. The ADA and Section 504 coordinator is Michele Needham, Director of Human Resources (see directory).

## **Student Right to Know and Campus Security Act of 1990**

Waubonsee Community College is in compliance with the Student Right to Know and Campus Security Act (P.L. 101-542). Information is collected to provide institutional graduation rates, as well as safety policies and crime statistics to students. Further information is available through Waubonsee's Campus Police Department (see directory) or online at [www.waubonsee.edu](http://www.waubonsee.edu).

WAUBONSEE

*your learning environment*

# **Facilities and Extension Locations**

## Sugar Grove Campus

The Sugar Grove Campus includes the Student Center, which houses admissions, counseling, financial aid, the cafe and coffee bar, and other student services; Erickson Hall, which houses the gymnasium and the Fitness Center; the Auditorium; Collins Hall, which houses the library; Akerlow, Bodie, Von Ohlen and Weigel Halls, which house classrooms and faculty offices; the Science Building; the Henning Academic Computing Center, which houses the computer laboratory and computer instruction classrooms; the Academic and Professional Center, which houses the Event Room; Dickson Center, which houses the bookstore and administrative offices; Campus Operations; Building A, which houses administrative offices and child care; Ceramics Building; Auto Body; and various athletic fields. See the map on following pages. Also see the directory at the back of this catalog. Parking lots are provided at no cost to the student. Parking regulations are posted throughout the campus.

Most administrative offices are open from 8 a.m. to 4:30 p.m., Monday through Friday, and many provide evening hours. Consult the current schedule of classes or website for the hours of operation for all campus services.

## Aurora Campus

Waubonsee's new Aurora Campus is conveniently located at 18 S. River Street. The 132,000 square-foot-building includes 52 classrooms, eight computer laboratories, two science labs, other specialized instructional spaces, bookstore, library, child care center with playground, learning enhancement center (tutoring), multipurpose meeting rooms, conference room with catering kitchen and grab-and-go café and coffee bar. Parking is available in the city parking lots. See the map on following pages.

Comprehensive student services, including admissions, registration, counseling, financial aid and assessment are available at the campus. The Aurora Campus is also headquarters for Workforce Development, the Illinois Small Business Development Center, Adult Basic Education, Adult Education Special Programs, the Adult Education Computer Center, GED, English as a Second Language and the Adult Literacy Project.

## Copley Campus

As evidence of its strong commitment to the growing demands of District 516, Waubonsee opened its third major extension center in January 1997. Located on the Rush-Copley Medical Center campus on Route 34 in far east Aurora, the Copley Campus houses classrooms, a library, computers, and facilities for registration, counseling and advising. Residents of this southeastern portion of the college district have convenient access to college credit courses, community education programs, and training for business and industry. See the map on following pages.

## Plano Campus

Waubonsee's new Plano Campus is located off of Route 34, west of Eldamain Road in Plano. The 33,000 square-foot-building includes nine classrooms, two science labs (biology and earth science), two computer laboratories, interactive television classroom, Certified Nurse Assistant (CNA) lab and wireless Internet access. Free on-site parking is available.

Community members can earn a complete associate degree at the campus.

## Extension Locations

Student convenience is very important to us at Waubonsee Community College, and so is flexibility.

Because students like to receive their education near where they live and work, the college has committed its resources to expanding the number of educational opportunities available at locations beyond Waubonsee's major campus centers. The college offers a number of college credit courses, community education classes and business seminars at locations close to home.

Each semester, students are able to enroll in a wide range of Waubonsee offerings at nearly 40 different locations across the college district. These Waubonsee extension sites save students travel time, and in some cases, provide the opportunity for students to take basic core education courses necessary for an associate degree without leaving their hometown.

All Waubonsee campuses are connected through a telecommunications system, allowing students to be taught simultaneously at several sites by one instructor.

For a complete listing of courses, classes and seminars offered at locations throughout the college district, consult the current semester class schedules.

## Waubonsee on the World Wide Web

Waubonsee's website at [www.waubonsee.edu](http://www.waubonsee.edu) provides a wide range of important and timely information about the college. There members of the college community can find updated class schedules, details about transfer and career programs, a faculty and staff directory, and campus maps. Information about financial aid, registration, athletics programs, student activities and services, and general news about the college is also available online.

In addition, the website provides access to mywcc, a personalized campus portal that centralizes student services, records, classes and clubs online. Users with an X-Number can sign-in to check e-mail, get important announcements, view grades, pay account balances and more. In addition, mywcc makes class schedules, course materials available anytime, anywhere. Students are encouraged to sign-in regularly to discover frequent enhancements and new resources.

More information about Waubonsee's Web resources is available from the Marketing and Communications office (see directory).

In addition to its many alternative delivery systems for education, Waubonsee also offers online courses, certificates and degrees. See the website for more information, including a current schedule of online courses.

COLLEGE DISTRICT #516**

**District population** 421,000  
**Projected population for the year 2020** 540,000

*District 516 serves*

- 12 public high school districts
- 8 private high schools
- 22 municipalities

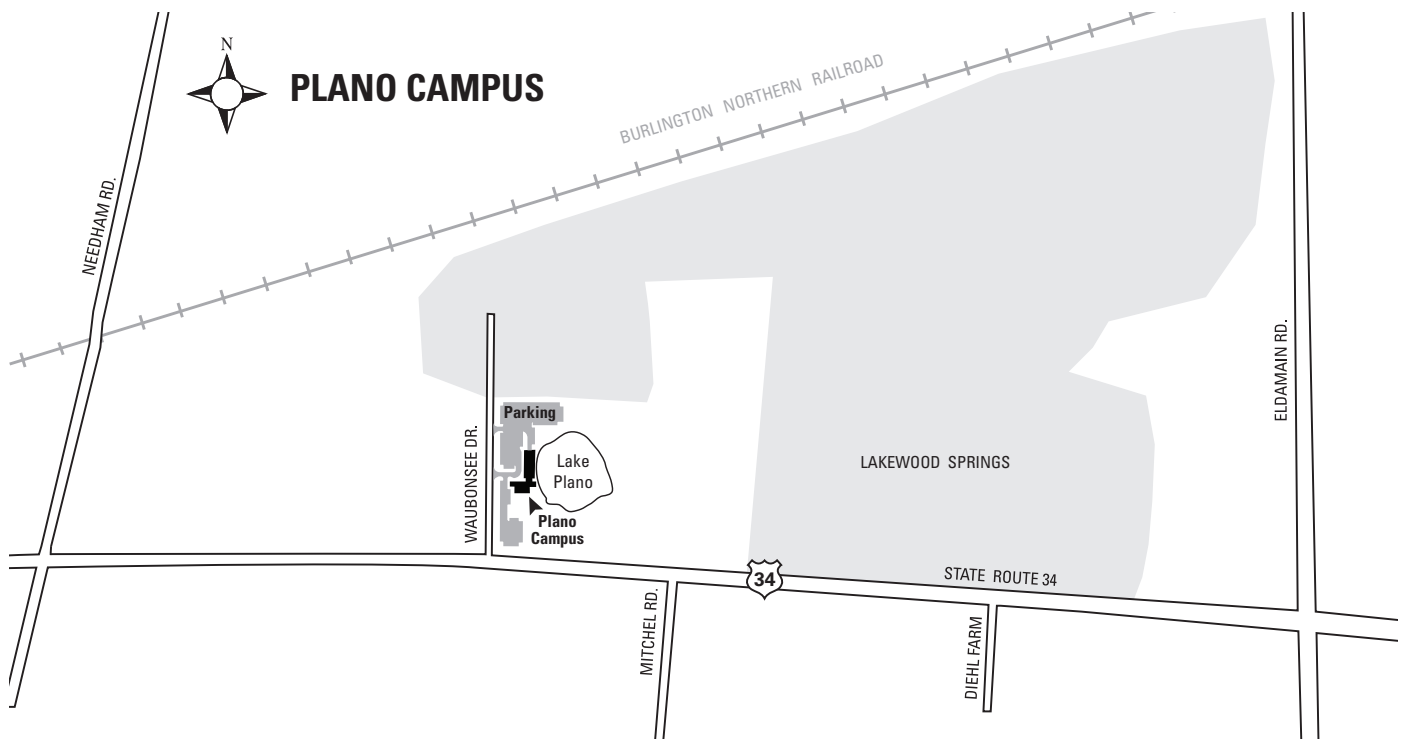

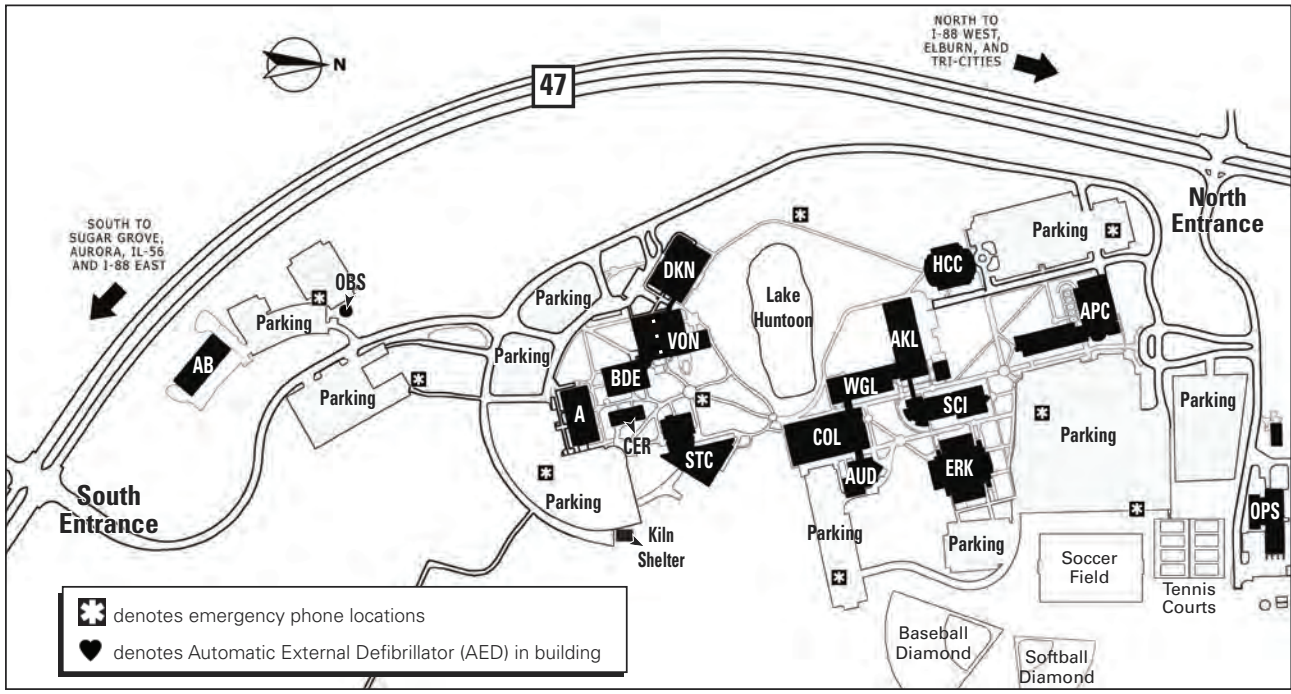

Illinois Community College District 516 encompasses almost 600 square miles and includes southern Kane County and portions of Kendall, DeKalb, LaSalle and Will counties. Waubonsee’s central campus is in Sugar Grove, about 45 miles west of Chicago. A second campus is in downtown Aurora, a third permanent facility is located on the campus of the Rush-Copley Medical Center, Route 34, Aurora and a fourth campus in Plano off of Route 34.

## Glossary

**Academic calendar** - important dates for the semester; e.g., registration, add/drop, holidays.

**Area of concentration** - courses a student takes to build a foundation for intended major or electives to meet credit-hour requirements for a degree.

**Assessment** - tests in language usage, writing, reading, numerical and algebra skills to determine proper course placement.

**Associate degree** - awarded to students completing 60-64 semester hours in a particular field of study. Waubonsee awards seven associate degrees: arts (AA), science (AS), fine arts (AFA), engineering science (AES), teaching (AAT), applied science (AAS) and general studies (AGS).

**Auditing** - taking a class to benefit from the experience without receiving a grade or college credit.

**Baccalaureate** - bachelor's degree; refers to four-year full-time academic program of study.

**Certificate of Achievement** - awarded to students completing specific requirements in occupational-oriented programs.

**Counselor** - a professionally trained person who assists students directly with academic, career and personal concerns.

**Credit by examination** - course credit awarded to students demonstrating knowledge through proficiency or CLEP tests.

**Curriculum** - group of courses comprising an area of specialization.

**Dean** - person responsible for an instructional or administrative division.

**Degree** - academic title given to student signifying completion of a program of study. See "associate degree."

**Discipline** - area of study such as criminal justice, English or welding.

**Division** - educational or administrative unit of the college. See "instructional divisions."

**Drop a course** - specific action taken by a student to withdraw from a class he/she registered for.

**E-RAP (Electronic Registration and Planning)** - an online program for all new regular students to assist in orientation and course selection.

**Extracurricular or cocurricular activities** - offered outside the credit curriculum; e.g., intramurals, sports, clubs and social events.

**Fee** - set amount charged for registration; also an additional set amount for certain activities or courses.

**Financial aid** - grants, loans, scholarships and student employment to help students pay their way based on financial need and eligibility.

**Full time** - student registered for 12 hours or more per semester.

**General studies** - designed for students taking a broad range of courses and not pursuing either a career education or transfer degree program. Waubonsee offers an Associate in General Studies degree and a general studies certificate.

**Grade point** - numerical value assigned to the letter grade received in a class. Grade point average is number of grade points earned divided by number of semester hours attempted.

**Graduation** - completion of course work required for a degree. Students must petition for graduation.

**IAI** - Illinois Articulation Initiative; an agreement to facilitate the transfer process among Illinois schools.

**Instructional division** - grouping of disciplines, Waubonsee has seven: Business and Information Systems; Communications and Library Services; Health and Life Sciences; Humanities, Fine Arts and Languages; Learning Enhancement; Social Science and Education; and Technology, Mathematics and Physical Sciences.

**Lec/Lab** - number of hours students spend per week in lecture and/or laboratory time in a course.

**Part time** - student taking fewer than 12 hours per semester.

**Prerequisite** - course that must be completed before taking another. Corequisite refers to a course that must be taken in conjunction with another.

**Probation** - warning that student is not attaining satisfactory academic progress.

**Registration** - process of completing forms and steps necessary to enroll in classes.

**Reverse transfer** - student transferring from another college to Waubonsee.

**Schedule** - periodic publication providing complete schedule of courses and registration process information.

**Semester** - 16-week class term. Fall semester begins in August and spring semester in January. Summer session also offered.

**Semester hour (sem hr)** - unit of measurement defining credit awarded for successful completion of a class.

**Senior college** - four-year institution of higher education offering baccalaureate and higher degrees.

**Student Handbook** - annual publication explaining college policies, regulations and activities in an easy reference format.

**Transcript** - official copy of student's academic record obtained from the registrar.

**Tuition** - cost of attending courses based on the number of semester hours for which student enrolls and on residency.
