## SCOPE OF WORK

### Summary

Do not expect an immediate answer. Include your email address and/or fax number for any necessary communication.

8. **Subcontracting**
  - a. Provide the names and full contact information of any subcontractors to be used on this project. Subcontractors are subject to college approval.

### Problem Statement

There are a number of factors that impact students continuing their education at community colleges. The inability to manage finances and student loan debt is a significant factor that can cause students to delay or all together abandon their education. Community colleges often are unable to help their

students become more financially literate as they have limited resources. Understanding the financial needs of the students will help the community colleges provide students with tools to manage their finances and debt. The goal of using this system of financial modules is to increase student financial literacy, increase student retention rates, and better position students to be financially successful before and after graduation.

The overall vision is for all students to get access to a financial literacy tool that allows them to learn about a topic of their choice. This could be credit cards, budgeting, loans etc. Students should be able to repeat the module as needed. The program will include a base set of modules followed by modules that can be taken standalone once the core modules are completed. Faculty and staff can assign the course in Canvas, Waubonsee's learning management system.

## PROBLEM DELIVERABLES

### Timeline

1. The contract will be effective from the signature date, unless otherwise documented in the contract, and will remain in effect for three (3) years, with an option to renew for two (2) additional one-year periods. The contract will be renewed annually.

3. Waubonsee Community College estimates a start date in May 2021, and completion in August 2021. Firms should identify if this timeline is reasonable or if more time would be required.
